Note 1 - Basis of Presentation

The Business

Glowpoint, Inc. ("Glowpoint" or "we" or "us" or the "Company"), a Delaware corporation, is a carrier-grade provider of managed services for telepresence and video conferencing. Glowpoint supports thousands of video endpoints in more than 35 countries and our managed video services are driving video collaboration for Fortune® 500 companies, governmental and educational institutions, and media and entertainment broadcasters. Glowpoint also provides resale and wholesale programs, including private-labeled (branded) resale options for manufacturers, carriers, unified communications providers, and integrators seeking to offer this service as a value-add to their collaboration and communications offerings.

Glowpoint's suite of cloud-based and managed video services are intended to enable organizations to dramatically increase the return on investment of their installed video communications infrastructure by reducing the total cost of ownership, drive increased adoption and utilization, enhance productivity and interaction across the enterprise and substantially reduce direct travel-related costs and associated downtime. A critical differentiator of Glowpoint is that our solutions are hardware agnostic and network neutral; supporting all recognized video standards across any IP network. As such, the benefits of Glowpoint's solutions can be realized regardless of the video conferencing or telepresence equipment purchased or the network connecting it.

For enterprises implementing video communications, Glowpoint provides an alternative to capital intensive, premise-based infrastructure, where customers typically have had to purchase the video environment, and offers specialized tools, services and expertise necessary to drive the wide adoption of video as a collaboration tool throughout their business. Glowpoint has become the recognized leader in the rapidly growing market for global managed video and business to business services and solutions.

Liquidity

For the six months ended June 30, 2010, we incurred a net loss attributable to common stockholders of \$2,153,000, of which \$778,000 was related to non-cash loss on redemption of preferred stock incurred in connection with the 2010 Private Placement (as discussed in Note 4), and had a negative cash flow from operations of \$1,630,000. At June 30, 2010, we had \$1,877,000 of cash, a working capital deficit of \$27,000 and an accumulated deficit of \$163,780,000. We have historically been able to raise capital in private placements, most recently \$3,000,000 in March 2010 in connection with the 2010 Private Placement, as needed to fund operations and provide growth capital. In June 2010, the Company entered into a Revolving Loan Facility (as discussed in Note 12) pursuant to which the Company may borrow for working capital purposes up to \$5,000,000 maturing in June 2012. In addition to our financing activity, we also recently amended the terms of our preferred stock to eliminate any dividends until January 2013 and have reached settlements regarding a majority of the liability for which we had accrued sales and use taxes and regulatory fees. Based primarily on the 2010 Private Placement, our new Revolving Loan Facility, along with our cash flow projection, the Company believes that it has, and will have, sufficient cash flow to fund its operations through at least September 30, 2011. There can be no assurances, however, that we will be able to raise additional capital as may be needed or upon acceptable terms, nor that current economic conditions will not negatively impact us. If the current economic conditions negatively impact us and we are unable to raise additional capital that

may be needed on terms acceptable to us, it could have a material adverse effect on the Company.

Quarterly Financial Information and Results of Operations

The condensed consolidated financial statements as of June 30, 2010 and for the six and three months ended June 30, 2010 and 2009 are unaudited and, in the opinion of management, include all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the financial position as of June 30, 2010, and the results of operations for the six and three months ended June 30, 2010 and 2009, statement of stockholders' equity for the six months ended June 30, 2010 and cash flows for the six months ended June 30, 2010 and 2009. The results for the six and three months ended June 30, 2010 are not necessarily indicative of the results to be expected for the entire year. While management of the Company believes that the disclosures presented are adequate to make the information not misleading, these condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the footnotes thereto for the fiscal year ended December 31, 2009 as filed with the Securities and Exchange Commission as an exhibit to our Form 10-K on March 31, 2010 (the "Audited 2009 Financial Statements").

See "Note 2 - Basis of Presentation, Liquidity and Summary of Significant Accounting Policies" in the Audited 2009 Financial Statements for a discussion of the estimates and judgments inherent in the Company's accounting for allowance for doubtful accounts, concentration of credit risk, lives of property and equipment, income taxes, stock-based compensation and accrued sales taxes and regulatory fees. There have been no changes to our critical accounting policies in the six months ended June 30, 2010. Critical accounting policies and the significant estimates made in accordance with them are regularly discussed with our Audit Committee.

Note 2 – Summary of Significant Accounting Policies

Principles of Consolidation

The condensed consolidated financial statements include the accounts of Glowpoint and our wholly-owned subsidiary, GP Communications, LLC. All material inter-company balances and transactions have been eliminated in consolidation.

Reclassifications

Beginning with the filing of our financial statements for the year ended December 31, 2009, we began to report our operations using a new financial statement format, which we believe provides readers with a better understanding and more concise view of our operating cost components. Glowpoint anticipates that its core revenue over time will become less dependent on providing network connections as we continue to see a demand shift toward services that include Telepresence interExchange, VNOC, event-based and other professional services. As a result, we expect that network and related costs will continue to decrease as a percentage of revenues in future periods. We believe that this new financial statement format provides greater visibility into our operations. Prior year and quarter amounts have also been reclassified to conform to the current year presentation to help readers understand our business expenses. This new financial statement format had no impact on revenues, income (loss) from operations or net income (loss) for any period presented.

Use of Estimates

Preparation of the condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from the estimates made. We continually evaluate estimates used in the preparation of the

condensed consolidated financial statements for reasonableness. Appropriate adjustments, if any, to the estimates used are made prospectively based upon such periodic evaluation. The significant areas of estimation include determining the allowance for doubtful accounts, deferred tax valuation allowance, accrued sales taxes, the estimated life of customer relationships and the estimated lives and recoverability of property and equipment.

Table of Contents

Financial Instruments

The Company considers its cash and cash equivalents, accounts receivable and accounts payable to meet the definition of financial instruments. The carrying amount of cash and cash equivalents, accounts receivable and accounts payable approximated their fair value due to the short maturities of these instruments. The carrying value of our Revolving Loan Facility approximates fair value due to its short term maturities and variable interest rates.

Accounting Standards Updates

In October 2009, the Financial Standards Accounting Board (“FASB”) issued ASU 2009-13 which supersedes certain guidance in ASC 605-25, “Revenue Recognition — Multiple Element Arrangements.” This topic requires an entity to allocate arrangement consideration at the inception of an arrangement to all of its deliverables based on their relative selling prices. This topic is effective for annual reporting periods beginning after June 15, 2010. The Company is currently evaluating the impact that this topic will have on its consolidated financial statements.

Derivative Financial Instruments

The Company’s objectives in using debt-related derivative financial instruments are to obtain the lowest cash cost source of funds within a targeted range of variable-to fixed-rate debt obligations. Derivatives are recognized in the consolidated balance sheets at fair value as required by ASC Topic 815 “Derivatives and Hedging” (“ASC Topic 815”). The estimated fair value of the derivative liabilities is calculated using the Black-Scholes method where applicable and such estimates are revalued at each balance sheet date, with changes in value recorded as other income or expense in the consolidated statement of operations. As a result of the Company’s adoption of ASC Topic 815, effective January 1, 2009, all of the then-outstanding warrants were accounted for as derivatives.

In August 2009, all of the then-outstanding warrants to acquire shares of common stock with an exercise price of \$0.40 were amended to require the consent of a majority of the warrant holders in order to consummate a financing at a price per share of common stock below \$0.40, thereby eliminating the provisions that protect holders from a decline in the stock price and the need to account for a derivative liability for these warrants. As of June 30, 2010, the Company does not have any derivative liabilities.

Revenue Recognition

We recognize subscription revenue when the related services have been performed. Revenue billed in advance is deferred until the revenue has been earned. Other service revenue, including amounts related to surcharges charged by our carriers, related to the Glowpoint managed network service and the multi-point video and audio bridging services are recognized as service is provided. As the non-refundable, upfront activation fees charged to the subscribers do not meet the criteria as a separate unit of accounting, they are deferred and recognized over the 12 to 24 month period estimated life of the customer relationship. Revenue related to integration services is recognized at the time the services are performed, and presented as required by ASC Topic 605 “Revenue Recognition”. Revenues derived from other sources are recognized when services are provided or events occur.

Table of Contents

Related Party Transactions

The Company provides managed video services (the “Video Services”) to a company in which one of our directors is an officer. The Company receives consulting and tax services from an accounting firm in which one of our prior directors, who resigned in May 2009, is a partner. The Company receives software development from a firm in which one of our prior directors, who resigned in March 2009, is the president. Management believes that such transactions are at arm’s-length and for terms that would have been obtained from unaffiliated third parties. The fees incurred for consulting and tax services and software development (the “Consulting Services”) are only included for the period that the partner of the accounting firm and company’s president were directors of the Company. The Company continues to utilize these firms for Consulting Services.

Related-party Consulting Services and Video Services are as follows for the six and three months ended June 30, 2010 and 2009 (in thousands):

	Six Months Ended June 30,		Three Months Ended June 30,	
	2010	2009	2010	2009
Consulting Services	\$—	\$26	\$—	\$17
Video Services	\$159	\$158	\$77	\$83

Taxes Billed to Customers and Remitted to Taxing Authorities

We recognize taxes billed to customers in revenues and taxes remitted to taxing authorities in our operating costs, network and infrastructure. These taxes are as follows for the six and three months ended June 30, 2010 and 2009 (in thousands):

	Six Months Ended June 30,		Three Months Ended June 30,	
	2010	2009	2010	2009
Taxes included in revenues	\$1,055	\$929	\$550	\$478
Taxes included in network and infrastructure	\$961	\$899	\$482	\$461

Long-Lived Assets

We evaluate impairment losses on long-lived assets used in operations, primarily fixed assets, when events and circumstances indicate that the carrying value of the assets might not be recoverable as required by ASC topic 360 “Property, Plant and Equipment.” For purposes of evaluating the recoverability of long-lived assets, the undiscounted cash flows estimated to be generated by those assets are compared to the carrying amounts of those assets. If and when the carrying values of the assets exceed their fair values, the related assets will be written down to fair value. In the six and three months ended June 30, 2010 and 2009, no impairment losses were recorded.

Table of Contents

Capitalized Software Costs

The Company capitalizes certain costs incurred in connection with developing or obtaining internal-use software. All software development costs have been appropriately accounted for as required by ASC Topic 350.40 “Intangible – Goodwill and Other – Internal-Use Software.” Capitalized software costs are included in “Property and Equipment” on our consolidated balance sheets and are amortized over three to four years. Software costs that do not meet capitalization criteria are expensed immediately.

These software costs are as follows for the six and three months ended June 30, 2010 and 2009 (in thousands):

	Six Months Ended June 30,		Three Months Ended June 30,	
	2010	2009	2010	2009
Capitalized internal use software costs	\$111	\$167	\$19	\$92
Amortization expense	\$113	\$63	\$63	\$31

Note 3 – 2009 Private Placement Transactions

In March 2009, the Company entered into a series of transactions to further recapitalize its balance sheet, raise funds and prepay or exchange all remaining Senior Secured Notes for shares of preferred stock (the “2009 Private Placement”). In the 2009 Private Placement as a result of prepaying or exchanging all of our Senior Secured Notes, we recognized a \$254,000 loss on extinguishment of debt which was recorded in other income and expense in our condensed consolidated statement of operations. In addition, as required by ASC topic 260 “Earnings Per Share”, we recognized a \$1,999,000 “Loss on Redemption of Preferred Stock” in our condensed consolidated statements of operations, which is added to our net loss to arrive at the net loss attributable to common stockholders.

Note 4 – 2010 Private Placement Transactions

In March 2010, the Company entered into a series of transactions that resulted in the Company raising growth capital and exchanging 2,879 shares of its outstanding Series A-2 Convertible Preferred Stock for shares of a newly-created non-convertible Series B Preferred Stock and for shares of common stock (the “2010 Private Placement”).

The following are the components 2010 Private Placement and the cash, number of the shares of Series A-2 Preferred Stock, Series B Preferred Stock, common stock and warrants issued or exchanged in each component (in thousands except for shares of Series A-2 and Series B Preferred Stock):

Sale of Series B Preferred Stock

In the 2010 Private Placement, the Company received \$3,000,000 of gross proceeds for the issuance of 30 shares of its newly-created Series B Preferred Stock (the “2010 Preferred Stock Sale”). The Series B Preferred Stock was recorded in the balance sheet at \$3,000,000, which is the gross cash received in the sale and is also its liquidation value.

Each share of Series B Preferred Stock has a stated value of \$100,000 per share (the “Series B Stated Value”) and a liquidation preference equal to the Series B Stated Value together with all accrued and unpaid dividends. The Series B Preferred Stock is not convertible into common stock. The Series B Preferred Stock is senior to all other classes of equity and, commencing on January 1, 2013, is entitled to cumulative dividends at a rate of 4% per annum, payable quarterly, based on the Series B Stated Value. Commencing January 1, 2014, the cumulative dividend rate increases to 12% per annum, payable quarterly, based on the Series B Stated Value. The Company may, at its option at any time, redeem all or a portion of the outstanding shares of Series B Preferred Stock by paying the Series B Stated Value together with all accrued and unpaid dividends.

Preferred Stock Exchanges

In the 2010 Private Placement, 50 shares of Series B Preferred Stock with a liquidation preference of \$5,000,000 were issued in exchange for 1,334 shares of Series A-2 Preferred Stock with a liquidation preference of \$10,000,000 (the “2010 Preferred-B Stock Exchange”).

Table of Contents

We accounted for the 2010 Preferred-B Stock Exchange as a redemption that requires that the excess of the fair value of the Series B Preferred Stock (the “Series B Fair Value”) over the carrying amount of the Series A-2 Preferred Stock (the “Series A-2 Carrying Amount”) be added to net loss to arrive at net loss attributable to common stockholders. The Series A-2 Carrying Amount of \$4,222,000 is based on the recorded fair value. The Series B Fair Value of \$5,000,000 is based on applying the \$100,000 sale price of each share of Series B Preferred Stock sold in the 2010 Private Placement to each share of Series B Preferred Stock issued in the 2010 Preferred-B Stock Exchange. The \$778,000 excess of Series B Fair Value over the Series A-2 Carrying Amount is recognized in our consolidated statements of operations as a “Loss on Redemption of Preferred Stock” and added to our net loss to arrive at the net loss attributable to common stockholders.

In the 2010 Private Placement, 1,545 shares of Series A-2 Preferred Stock were exchanged for 15,452,000 shares of common stock (the “2010 Preferred-Common Stock Exchange”). Each of the Series A-2 Preferred Stock shares were exchanged for 10,000 shares of common stock, which is consistent with the Series A-2 Preferred Stock Certificate of Designation.

We accounted for the 2010 Preferred-Common Stock Exchange by taking the Series A-2 Carrying Amount of \$4,892,000 and allocating \$1,000 to the par value of common stock and the balance of \$4,891,000 the additional paid in capital.

As a result of the above-referenced transactions, there were 80 shares of Series B Preferred Stock, 1,630 shares of Series A-2 Preferred Stock and 81,733,401 shares of common stock outstanding as of June 30, 2010.

Placement Agent Fee

In connection with the 2010 Preferred Stock Sale, we paid our financial advisor a placement agent fee of \$210,000. In connection with the 2010 Preferred Stock Sale, the 2010 Preferred Stock-B Exchange and 2010 Preferred-Common Stock Exchange, we issued warrants to our financial advisor and/or its designees and assignees to purchase approximately 1,181,000 shares of common stock (such amount being equal to one and two-tenths (1.2%) percent of the diluted common shares outstanding immediately following the closing of the above-described transactions), at an exercise price of \$0.632 per share (such amount equal to 110% of the volume weighted average trading price for the ten days prior to such closing), and exercisable for a period of five years (the “Financial Advisory Warrants”). The method for calculating the \$443,000 fair value of the Financial Advisory Warrants is the Black-Scholes option pricing model with the following weighted average assumptions:

Risk free interest rate	2.6	%
Expected warrant lives in years	5.0	
Expected volatility	113.6	%
Estimated forfeiture rate	None	
Expected dividend yields	None	
Fair value per share	\$0.38	
Common stock price	\$0.48	

Due to the low average daily trading volume of our common stock, we have discounted the common stock price in the Black-Scholes valuation model by 25%.

Non-cash financing costs:	
Financial advisory warrants	443

Note 5 – Stock Options

We periodically grant stock options to employees and directors in accordance with the provisions of our stock option plans, with the exercise price of the stock options being set at the closing market price of the common stock on the date of grant. The intrinsic value of options outstanding and exercisable at June 30, 2010 and 2009 was \$165,000 and \$3,000, respectively. Options exercised during the six and three months ended June 30, 2010 were 20,000 and 0, respectively. There were no options exercised during the six and three months ended June 30, 2009.

The weighted average fair value of each option granted is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions during the six and three months ended June 30, 2010 and 2009 (options granted in thousands):

	Six Months Ended June 30,		Three Months Ended June 30,	
	2010	2009	2010	2009
Options granted	1,068	586	924	28
Risk free interest rate	2.6	% 1.7	% 2.6	% 2.3
Expected option lives	5 Years	5 Years	5 Years	5 Years
Expected volatility	113.9	% 112.0	% 114.0	% 113.6
Estimated forfeiture rate	10	% 10	% 10	% 10
Expected dividend yields	None	None	None	None
Weighted average grant date fair value of options	\$0.51	\$0.27	\$0.50	\$0.32

The Company calculates expected volatility for a stock-based grant based on historic daily stock price observations of our common stock during the period immediately preceding the grant that is equal in length to the expected term of the grant. The expected term of the options and forfeiture rates are estimated based on the Company's exercise and employment termination experience. The risk free interest rate is based on U.S. Treasury yields for securities in effect at the time of grants with terms approximating the expected life of the grants. The assumptions used in the Black-Scholes option valuation model are highly subjective, and can materially affect the resulting valuations.

Note 8 – Income or Loss Per Share

Basic loss per share is calculated by dividing net loss attributable to common stockholders by the weighted average number of shares of common shares outstanding during the period. Diluted loss per share for the six months ended June 30, 2010 and 2009 and the three months ended June 30, 2010 is the same as basic loss per share. For the three months ending June 30, 2009 diluted income per share includes 45,087,000 shares of common stock issuable upon the conversion of the Series A-1 Preferred Stock, 1,272,000 unvested restricted shares of common stock and vested options for 92,000 shares of common stock calculated using the treasury stock method. For the six months ending June 30, 2010 and 2009, the following potential shares of common stock that could have been issuable have been excluded from the calculation of diluted loss per share because the effects, as a result of our net loss, would be anti-dilutive or in the calculation of our net income the exercise price or conversion price is greater than the Company's common stock price (in thousands):

	June 30,

Note 9 – Preferred Stock

Our Certificate of Incorporation authorizes the issuance of up to 5,000,000 shares of preferred stock. The following is a summary of preferred stock authorized, issued and outstanding as of June 30, 2010:

Preferred Stock Class	Shares Authorized	Shares Issued and Outstanding
Series B	100	80
Series A-2	7,500	1,630
Series D	4,000	—

Over the last three years, with the most recent transaction occurring in March 2010, the Company has entered into several private placement transactions raising (i) gross proceeds of \$3,000,000 by selling shares of the Company's newly-created non-convertible Series B preferred stock ("Series B Preferred Stock"), (ii) gross proceeds of \$9,718,000 for the Company by issuing Senior Secured Notes to certain investors (including several officers and directors of the Company ("Insider Purchasers")), which by March 2009 were ultimately exchanged for shares of the Company's convertible preferred stock, and (iii) gross proceeds of \$3,625,000 by selling additional shares of convertible preferred stock, which ultimately became shares of the Company's Series A-2 convertible preferred stock ("Series A-2 Preferred Stock"). In connection with those transactions, the Company also exchanged shares of its previously issued preferred stock for, ultimately, shares of Series A-2 Preferred Stock and shares of Series B Preferred Stock.

Each share of Series B Preferred Stock has a stated value of \$100,000 per share (the "Series B Stated Value"), and a liquidation preference equal to the Series B Stated Value. The Series B Preferred Stock is not convertible into common stock. The Series B Preferred Stock is senior to all other classes of equity and, commencing on January 1, 2013, is entitled to cumulative dividends at a rate of 4% per annum, payable quarterly, based on the Series B Stated Value. Commencing January 1, 2014, the cumulative dividend rate increases to 12% per annum, payable quarterly, based on the Series B Stated Value. The Company may, at its option at any time, redeem all or a portion of the outstanding shares of Series B Preferred Stock by paying the Series B Stated Value together with all accrued and unpaid dividends.

Table of Contents

Each share of Series A-2 Preferred Stock has a stated value of \$7,500 per share (the “A-2 Stated Value”), a liquidation preference equal to the Series A-2 Stated Value, and is convertible at the holder’s election into common stock at a conversion price per share of \$0.75. Therefore, each share of Series A-2 Preferred Stock is convertible into 10,000 shares of common stock. The Series A-2 Preferred Stock is subordinate to the Series B Preferred Stock but is senior to all other classes of equity, has weighted average anti-dilution protection and, commencing on January 1, 2013, is entitled to dividends at a rate of 5% per annum, payable quarterly, based on the Series A-2 Stated Value. Once dividend payments commence, all dividends are payable at the option of the holder in cash or through the issuance of a number of additional shares of Series A-2 Preferred Stock with an aggregate liquidation preference equal to the dividend amount payable on the applicable dividend payment date.

The following is a summary of the activity for the Company’s preferred stock during the six months ended June 30, 2010 and as of December 31, 2009 and June 30, 2010 (in thousands except shares of Series A-2 and Series B Preferred Stock):

Table of Contents

In accordance with ASC Topic 815, we evaluated whether our convertible preferred stock contains provisions that protect holders from declines in our stock price or otherwise could result in modification of the exercise price and/or shares to be issued under the respective preferred stock agreements based on a variable that is not an input to the fair value of a “fixed-for-fixed” option. The Company determined that ASC Topic 815 does not affect the accounting treatment of the convertible preferred stock. A contingent beneficial conversion amount is required to be calculated and recognized when and if the adjusted conversion price of the convertible preferred stock, currently \$0.75, is adjusted to reflect a down round stock issuance that reduces the conversion price below the \$0.29 fair value of the common stock on the issuance date of the convertible preferred stock.

Note 10 - Commitments and Contingencies

We have entered into a number of agreements with telecommunications companies to purchase communications services. Some of the agreements require a minimum amount of services purchased over the life of the agreement, or during a specified period of time.

In certain instances where Glowpoint did not meet its minimum commitments, no such penalties for minimum commitments have been assessed and the Company has entered into new agreements. It has been our experience that the prices and terms of successor agreements are similar to those offered by other carriers.

Glowpoint does not believe that any loss contingency related to a potential shortfall should be recorded in the condensed consolidated financial statements because it is not probable, from the information available and from prior experience, that Glowpoint has incurred a liability.

Note 11 – Major Customers

Major customers are those customers who account for more than 10% of revenues. For the six and three months ended June 30, 2010, 17.8% and 17.8%, respectively, of revenues were derived from a major customer. For the six and three months ended June 30, 2009, 14.4% and 15.1%, respectively, of revenues were derived from a major customer. Accounts receivable from this major customer represented 17.8% and 21.2% of total accounts receivable as of June 30, 2010 and 2009, respectively. The loss of this customer would have an adverse affect on the Company’s operations.

Note 12 – Revolving Loan Facility

On June 16, 2010, the Company entered into a Loan and Security Agreement (the “Revolving Loan Facility”) with Silicon Valley Bank (“SVB”) pursuant to which the Company may borrow for working capital purposes up to \$5,000,000 maturing on June 15, 2012. The amounts that can be borrowed at any given time are equal to the lesser of \$5,000,000 or 80% of the eligible accounts receivable. Outstanding principal amounts under the Revolving Loan Facility bear interest at a floating rate per annum equal to Prime Rate as announced by SVB plus two percent (2%), payable monthly in arrears, subject to a minimum interest rate of 6%. The Revolving Loan Facility is secured by a first priority security interest in all the Company’s assets, including, without limitation, intellectual property. The Revolving Loan Facility contains a number of financial covenants, including without limitation, covenants relating to minimum unrestricted cash balances and minimum EBITDA. At June 30, 2010, we were in compliance with the covenants, as defined, of the Revolving Loan Facility and there was \$750,000 outstanding.

Table of Contents

Financing Costs

The Revolving Loan Facility financing costs, net of accumulated amortization, which were included in the other assets in the accompanying balance sheets, were \$81,000 and \$0 as of June 30, 2010 and December 31, 2009, respectively. The financing costs for the Revolving Loan Facility are being amortized over the 24 month period through the maturity date of June 15, 2012. During the six and three months ended June 30, 2010 the amortization of financing costs was \$2,000.

Note 13 – Subsequent Event

On July 12, 2010, the Board of Directors (the “Board”) of the Company effected a termination without cause of David W. Robinson, its Co-Chief Executive Officer, General Counsel and Executive Vice President of Business Development. Pursuant to the terms of the Employment Agreement between Glowpoint and Mr. Robinson dated May 1, 2006 (as amended, the “Employment Agreement”), Mr. Robinson is entitled to receive certain severance benefits. The terms of the Employment Agreement have been previously disclosed and are available in the Company’s publicly filed documents.

Effective August 6, 2010, Mr. Robinson voluntarily resigned as a member of the Board. Mr. Robinson did not resign because of any disagreement with the Company, nor was he removed for cause from the Board. Pursuant to the terms of the Separation Agreement between the Company and Mr. Robinson effective as of August 6, 2010 (the “Separation Agreement”), Mr. Robinson is entitled to receive severance of approximately \$265,000 and other benefits and costs (e.g., grants of new restricted stock, medical insurance, extension of period to exercise vested options, employer taxes, etc.) valued at approximately \$150,000. The terms of the Separation Agreement have been previously disclosed and are available in the Company’s publicly filed documents.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Certain statements in this Quarterly Report on Form 10-Q (the “Report”) are “forward-looking statements.” These forward-looking statements include, but are not limited to, statements about the plans, objectives, expectations and intentions of Glowpoint, Inc. (“Glowpoint” or “we” or “us” or the “Company”), a Delaware corporation, and other statements contained in this Report that are not historical facts. Forward-looking statements in this Report or hereafter included in other publicly available documents filed with the Securities and Exchange Commission (the “Commission”) reports to our stockholders and other publicly available statements issued or released by us involve known and unknown risks, uncertainties and other factors that could cause our actual results, performance (financial or operating) or achievements to differ from the future results, performance (financial or operating) or achievements expressed or implied by such forward-looking statements. Such future results are based upon management's best estimates based upon current conditions and the most recent results of operations. When used in this Report, the words “expect,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate” and similar expressions are generally intended to identify forward-looking statements, because these forward-looking statements involve risks and uncertainties. There are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements, including our plans, objectives, expectations and intentions and other factors that are discussed under the section entitled “Risk Factors,” in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, as filed with the Commission on March 31, 2010.

The following discussion and analysis should be read in conjunction with the condensed consolidated financial statements and related notes included elsewhere in this Report.

Overview

Glowpoint, Inc. ("Glowpoint" or "we" or "us" or the "Company"), a Delaware corporation, is a leading provider of advanced video communications solutions. Our suite of advanced and robust telepresence and video communications solutions enable organizations to communicate with each other over disparate networks and technology platforms – empowering business, governmental agencies and educational institutions to sharply boost the impact and productivity of their internal and external communications while at the same time reducing their on-going operating costs. We support thousands of video communications systems in over 35 countries with our global 24/7 managed video services, powering Fortune® 500 companies, major broadcasters, as well as global carriers and video equipment manufacturers and their customers around the world. The Company operates in one segment and therefore segment information is not presented.

We provide our customers with a vast array of managed services that are critical components of their video communications solutions. We provide these services to a wide variety of companies, from large enterprises and governmental entities to small and medium-sized businesses. Glowpoint is primarily focused on high quality, two-way video communications. With the advent of HD (High Definition) and telepresence solutions, we combined various components of our features and services, and developed new ones, to create a comprehensive service offering for enterprises and their end users that can support any of the telepresence products on the market today. Glowpoint also provides these services wholesale and with private-label branding for manufacturers, carriers, and integrators seeking to offer this service as an additional value to their customer offerings.

Glowpoint's video communications solutions are hardware and network agnostic, supporting all recognized video standards across any high-quality network. As a result, we have become the global video interconnection point, linking together third-party private networks (e.g., AT&T, Verizon, Tata Communications, Qwest and others), protocols (e.g., H320, H323, IP, SIP and VoIP), and devices (e.g., telepresence, desktop, laptop and mobile phone). Glowpoint's services provide users with a consistent experience, regardless of how or from where they connect.

Glowpoint has focused its sales and marketing efforts on its robust suite of managed video service offerings, which are network agnostic and may be leveraged by customers on any QoS (Quality of Service) network that supports two-way video transport. Glowpoint's services for telepresence are increasingly in demand because they address the need for a single point of contact to provide monitoring, scheduling, support and management of telepresence rooms and the associated equipment. Additionally, companies look to Glowpoint as a resource to provide secure business-to-business (B2B) support when using the video systems to communicate beyond their internal enterprise use. Our Telepresence interExchange Network ("TEN") is a suite of services and applications designed to overcome the challenges of using video outside of a company's private network, such as interconnectivity and interoperability, and is proving to be a critical component for enhanced B2B video communications. Our managed video application services are sold as a monthly subscription service and may also include Glowpoint managed network services as an option.

Critical Accounting Policies

There have been no changes to our critical accounting policies in the six and three months ended June 30, 2010. Critical accounting policies and the significant estimates made in accordance with them are regularly discussed with our Audit Committee. Those policies are discussed under "Critical Accounting Policies" in our "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of our consolidated financial statements and the footnotes thereto for the fiscal year ended December 31, 2009, as filed with the Commission as an exhibit to our Annual Report on Form 10-K filed on March 31, 2010.

Results of Operations

Beginning with the filing of our financial statements for the year ended December 31, 2009, we began to report our operations using a new financial statement format, which we believe provides readers with a better understanding and more concise view of our operating cost components. Glowpoint anticipates that its Core Revenue (as defined below) over time will become less dependent on providing of network connections as we continue to see a demand shift towards services that include TEN , Video Network Operations Center (“VNOC”), event-based and other professional services. As a result, we expect that network and related costs will continue to decrease as a percentage of revenues in future periods. We believe that this new financial statement format will provide greater visibility into our operations. Prior year and quarter amounts have also been reclassified to conform to the current year presentation to help readers understand our business expenses. This new financial statement format had no impact on revenues, income (loss) from operations or net loss for any period presented.

The following table sets forth for the six months ended June 30, 2010, 2009 and 2008; information derived from our condensed consolidated financial statements as expressed as a percentage of revenue. The historical results presented below are not necessarily indicative of future results.

Six Months Ended June 30, 2010 (the “2010 period”) compared to Six Months Ended June 30, 2009 (the “2009 period”)

Revenue – Core Revenue increased \$993,000, or 7.9%, in the 2010 period to \$13,596,000 from \$12,603,000 in the 2009 period. Non-core Revenue decreased \$395,000, or 50.4%, in the 2010 period to \$389,000 from \$784,000 in the 2009 period. Combined Core Revenue and Non-core Revenue make up the total revenues, which increased \$598,000, or 4.5%, in the 2010 period to \$13,985,000 from \$13,387,000 in the 2009 period. “Core Revenue” is revenue derived from our full suite of managed video services, which include TEN and VNOC (which are generally tied to contracts of 12 months or more), multi-point bridging services (which is billed based on usage), and event-based and other professional services, which products and services meet our overall strategic goals from a growth, margin and core competency perspective. We believe these products and services captured in Core Revenue offer the greatest prospects for high margin sales and growth and, therefore, our sales and marketing efforts are primarily focused on promoting them. “Non-core Revenue” is derived from Integrated Services Digital Network (“ISDN”) resale and equipment integration services, which are products and services that we believe do not fit into our overall strategic plan. These Non-core Revenues are typically low margin and, we do not spend sales or marketing efforts on these revenues and expect them to be eliminated over time through attrition or by converting it into Core Revenue opportunities.

Network and Infrastructure – Network and infrastructure expenses increased by \$151,000, or 2.5%, to \$6,114,000 in the 2010 period from \$5,963,000 in the 2009 period. Network and infrastructure expenses include all external costs, exclusive of depreciation and amortization, related to the Glowpoint network and hosting facilities for our cloud based infrastructure. The network is a high-quality two-way video transport built and managed by Glowpoint exclusively dedicated to IP-based video communications, and the hosting facilities are telecom carrier neutral meeting points which house our technologies and services for accessibility to our customer base globally. This operating expense category also includes the cost for taxes which have been billed to customers. We continue to re-engineer our network and infrastructure for optimization and decreased costs, although the expenses for network and infrastructure increased this period as a result of one time costs incurred in consolidating our network. We expect these efforts to result in decreases over time in both costs and as a percentage of total revenues. The primary reason for this is our focus on cloud-based and managed video revenues anticipated growth, of which, these customers do not require Glowpoint provided network connectivity for access to our service platform(s).

Table of Contents

Sales taxes and regulatory fees –Based on these results and our historical experience in collecting and remitting sales taxes and regulatory fees, we have adjusted the accrued sales taxes and regulatory fees liability to amounts that reflect settlements with taxing authorities and amounts that we believe are probable and can be reasonably estimated. This resulted in income of \$0 in the 2010 period and \$178,000 in the 2009 period.

Loss from operations – Loss from operations increased by \$398,000 to \$1,319,000 in the 2010 period from \$921,000 in the 2009 period. This increase is primarily attributable to an increase in costs for managed services associated with 24/7 global support, an increase in sales and marketing costs from hiring new professionals, and one-time charges associated with severance costs and network and infrastructure consolidation costs.

Interest and other expense (income) – Interest and other expense (income) in the 2010 period of \$54,000 principally reflects charges from vendors.

Other expense in the 2009 period of \$1,158,000 primarily consists of \$691,000 for an increase in the fair value of derivative financial instruments, which did not exist in the 2010 period, \$254,000 for the loss on the extinguishment of the remaining Senior Secured Notes and interest expense of \$213,000 which is comprised of \$57,000 of accrued interest expense related to the Senior Secured Notes, \$23,000 for the accretion of the discount related to the Senior Secured Notes, \$60,000 of interest related to sales and use taxes and regulatory fees and \$73,000 of other interest.

Income taxes - As a result of our losses, we recorded no provision for incomes taxes in the six months ended June 30, 2010 and 2009. Any deferred tax asset that would be related to our losses has been fully reserved under a valuation allowance, reflecting the uncertainties as to realization evidenced by our historical results and restrictions on the usage of the net operating loss carry forwards.

Net loss - Net loss decreased by \$704,000, or 33.9%, to \$1,375,000 in the 2010 period from \$2,079,000 in the 2009 period.

Loss on redemption of preferred stock – Our loss on the redemption of Preferred Stock was \$778,000 in the 2010 period and \$1,999,000 in the 2009 period. For loss per share calculations this loss, though charged to Paid in Capital, increases the net loss attributable to common stockholders.

Net loss attributable to common stockholders - Net loss attributable to common stockholders was \$2,153,000 or \$0.03 per basic and diluted share in the 2010 period. For the 2009 period, the net loss attributable to common stockholders was \$4,078,000, or \$0.09 per basic and diluted share.

The following table sets forth information derived from our condensed consolidated financial statements as expressed as a percentage of revenue for the three months ended June 30, 2010, 2009 and 2008. The historical results presented below are not necessarily indicative of future results.

Depreciation and amortization – Depreciation and amortization expenses increased \$10,000, or 3.8%, in the 2010 quarter to \$276,000 from \$266,000 in the 2009 quarter. Depreciation and amortization expense, as a percentage of revenue, was 3.8% for the 2010 and 2009 quarters.

Sales taxes and regulatory fees –Based on these results and the Company’s historical experience in collecting and remitting sales taxes and regulatory fees, the Company has adjusted the accrued sales taxes and regulatory fees liability to amounts that reflect settlements with taxing authorities and amounts that the Company believes are probable and can be reasonably estimated. This resulted in income of \$0 in the 2010 quarter and \$88,000 in the 2009 quarter.

Loss from operations – Loss from operations increased by \$782,000 to \$744,000 in the 2010 quarter from income from operations of \$38,000 in the 2009 quarter. This increase is primarily attributable to an increase in costs for managed services associated with 24/7 global support, an increase in sales and marketing costs from hiring new professionals, and one-time charges associated with severance costs and network and infrastructure consolidation costs.

Interest and other expense (income) – Interest and other expense (income) in the 2010 quarter of \$18,000 principally reflects charges from vendors.

Other income in the 2009 quarter of \$368,000 principally reflects income of \$434,000 for a decrease in the fair value of derivative financial instruments, which did not exist in the 2010 quarter. This income was partially reduced by \$29,000 of interest expense related to sales and use taxes and regulatory fees and \$37,000 of other interest.

Income taxes - As a result of our losses, we recorded no provision for incomes taxes in the three months ended June 30, 2010 and 2009. Any deferred tax asset that would be related to our losses has been fully reserved under a valuation allowance, reflecting the uncertainties as to realization evidenced by our historical results and restrictions on the usage of the net operating loss carryforwards.

Net loss - Net loss was \$764,000 in the 2010 quarter compared to income of \$406,000 in the 2009 quarter.

Net loss attributable to common stockholders - Net loss attributable to common stockholders was \$764,000 or \$0.01 per basic and diluted share in the 2010 quarter. For the 2009 quarter, the net income attributable to common stockholders was \$406,000, or \$0.01 per basic and diluted share.

Liquidity and Capital Resources

For the six months ended June 30, 2010, we incurred a net loss attributable to common stockholders of \$2,153,000, of which \$778,000 was related to non-cash loss on redemption of preferred stock incurred in connection with the 2010 Private Placement (as discussed in Note 4 to the unaudited financial statements contained herein), and had a negative cash flow from operations of \$1,630,000. At June 30, 2010, we had \$1,877,000 of cash, a working capital deficit of \$27,000 and an accumulated deficit of \$163,780,000. We have historically been able to raise capital in private placements, most recently \$3,000,000 in March 2010 in connection with the 2010 Private Placement, as needed to fund operations and provide growth capital. In June 2010, the Company entered into Revolving Loan Facility (as discussed in Note 12 to the unaudited financial statements contained herein) pursuant to which the Company may borrow for working capital purposes up to \$5,000,000 maturing in June 2012. In addition to our financing activity, we also recently amended the terms of our preferred stock to eliminate any dividends until January 2013 and have reached settlements regarding a majority of the liability for which we had accrued sales and use taxes and regulatory fees. Based primarily on the 2010 Private Placement, our new Revolving Loan Facility, along with our cash flow projection, the Company believes that it has, and will have, sufficient cash flow to fund its operations through at least September 30, 2011. There can be no assurances, however, that we will be able to raise additional capital as may be needed or upon acceptable terms, nor that current economic conditions will not negatively impact us. If the current economic conditions negatively impact us and we are unable to raise any additional capital that may be needed on terms acceptable to us, it could have a material adverse effect on the Company.

The Company also has access to an additional \$5,000,000 for working capital purposes pursuant to the Loan and Security Agreement (the "Revolving Loan Facility") with Silicon Valley Bank ("SVB") dated June 16, 2010. The amounts that can be borrowed at any given time are equal to the lesser of \$5,000,000 or 80% of the eligible accounts receivable. Outstanding principal amounts under the Revolving Loan Facility bear interest at a floating rate per annum equal to Prime Rate as announced by SVB plus two percent (2%), payable monthly in arrears, subject to a minimum interest rate of 6%. The Revolving Loan Facility, which matures on June 15, 2012, is secured by a first priority security interest in all the Company's assets, including, without limitation, intellectual property. The Revolving Loan Facility contains a number of financial covenants, including without limitation, covenants relating to minimum unrestricted cash balances and minimum EBITDA.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by Glowpoint in the reports it files or submits under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized, and reported within the time periods specified by the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by Glowpoint in the reports it files or submits under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Table of Contents

Under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, Glowpoint has evaluated the effectiveness of its disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2010, and, based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these controls and procedures are effective in providing reasonable assurance of compliance.

Changes in Internal Control over Financial Reporting

Under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, Glowpoint has evaluated changes in internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the fiscal quarter ended June 30, 2010 and have concluded that no change has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.
