VOTING AT THE ANNUAL MEETING

Revocability of Proxies

You can revoke your proxy at any time before it is exercised by timely delivery of a properly executed, later-dated proxy (including a telephone or Internet vote), by delivering a written revocation of your proxy to our Corporate Secretary, or by voting at the Annual Meeting. The method by which you vote by proxy will in no way limit your right to vote at the Annual Meeting if you decide to attend in person. If your shares are held in the name of a bank or brokerage firm, you must obtain a proxy, executed in your favor, from the bank or broker, to be able to vote at the Annual Meeting.

Voting Rights

Only holders of record of our common stock at the close of business on May 13, 2011, the Record Date, are entitled to notice of and to vote at the Annual Meeting. Each share of common stock is entitled to one vote on all matters to be voted upon at the Annual Meeting. The presence, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the Record Date will constitute a quorum for the transaction of business. Abstentions and broker non-votes will be counted as shares that are present for purposes of determining a quorum. Broker non-votes occur when a nominee holding shares for a beneficial owner does not have discretionary voting power on a matter and has not received instructions from the beneficial owner.

For Proposal 1, the election of a Director requires a plurality of the votes present, either in person or by proxy, at the Annual Meeting. For election of Directors, votes may be cast in favor of or withheld from a nominee; votes that are withheld will be excluded entirely from the vote and will have no effect. Brokers may not vote on this proposal without instructions from the beneficial owner of the shares being voted.

For Proposal 2, the approval of the amendment and restatement of the 2009 Stock Incentive Plan to change the number of shares authorized for issuance requires a majority of the votes present, either in person or by proxy at the Annual Meeting. Brokers may not vote on this proposal without instructions from the beneficial owner of the shares being voted.

For Proposal 3, the ratification of EisnerAmper LLP as our independent registered public accounting firm for the year ended December 31, 2011 requires a majority of the votes present, either in person or by proxy at the Annual Meeting. Brokers may vote on this proposal even if they do not receive instructions from the beneficial owner. Abstentions and broker non-votes will have the effect of a vote "against" this proposal.

Only stockholders of record at the close of business on May 13, 2011, the Record Date, are entitled to notice of and to vote at the Annual Meeting, and at any postponements or adjournments thereof. As of May 13, 2011, 165,896,660 shares of our common stock, par value \$.001 per share, were issued and outstanding, 7,700 shares of our convertible Series A Preferred Stock, par value \$.001 per share, were outstanding, and approximately \$1.8 million of June 2008 Senior Convertible Promissory Notes ("June 2008 Notes"), approximately \$0.2 million of April 2009 Senior Convertible Promissory Notes ("April 2009 Notes"), approximately \$30 thousand of July 2009 Unsecured Subordinated Convertible Promissory Notes ("July 2009 Notes"), approximately \$1.9 million of September 2009 Unsecured Subordinated Convertible Promissory Notes ("September 2009 Notes"), approximately \$6.3 million of March 2010 Unsecured Senior Convertible B Notes ("B Notes"), approximately \$7.5 million of March 2010 Unsecured Senior Convertible C Notes ("C Notes"), approximately \$5.5 million of March 2010 Unsecured Convertible D Notes ("D Notes"), approximately \$6.9 million of March 2010 Unsecured Senior Convertible E Notes ("E Notes") and approximately \$12 thousand of March 2010 Senior Secured Convertible F Notes ("F Notes") were outstanding. The June 2008 Notes, April 2009 Notes, July 2009 Notes and September 2009 Notes are collectively referred to as the "Prior Notes". The B Notes, C Notes, D Notes, E Notes and F Notes are collectively referred to as the "2010 Notes". Holders of our common stock are entitled to one vote per share for each proposal presented at the Annual Meeting. Holders of our Series A Preferred Stock, the Prior Notes and the 2010 Notes are not entitled to vote at the Annual Meeting.

How to Vote; How Proxies Work

Our Board of Directors is asking for your proxy. Whether or not you plan to attend the Annual Meeting, we urge you to vote by proxy as you can always change your vote at the Annual Meeting. Please complete the proxy card by voting on the Internet, calling the toll-free telephone number on the proxy card, or complete, date and sign the enclosed proxy card and return it at your earliest convenience. We will bear the costs incidental to the solicitation and obtaining of proxies, including the costs of reimbursing banks, brokers and other nominees for forwarding proxy materials to beneficial owners of our capital stock. Proxies may be solicited by our officers and employees, without extra compensation, by mail, telephone, telefax, personal interviews and other methods of communication. In addition, we have retained Bank of New York Mellon Shareowner Services to act as our proxy solicitor in connection with the Annual Meeting. We have agreed to pay that firm \$6,500 plus reasonable out of pocket expenses, for proxy solicitation services.

At the Annual Meeting, and at any postponements and adjournments thereof, all shares entitled to vote and represented by properly executed proxies received prior to the Annual Meeting and not revoked will be voted as instructed on those proxies. If no instructions are indicated on a properly executed proxy, the shares will be voted FOR Proposal 1, Proposal 2 and Proposal 3. However, brokers may only vote on Proposal 1 and Proposal 2 if instructions are indicated on a properly executed proxy.

Abstentions and broker non-votes are counted for purposes of determining whether a quorum is present at the Annual Meeting.

Q. What vote is required to approve each item?

Brokers may vote on this proposal even if they do not receive instructions from the beneficial owner. Abstentions and

broker non-votes will have the effect of a vote "against" this proposal.

Q. What happens if I do not instruct my broker how to vote on the proxy?

Von Hoff, M.D. for election as Directors to serve until the 2012 annual meeting of stockholders. All nominees are currently members of the Board.

Each nominee has expressed his or her willingness to serve as a Director if elected, and we know of no reason why any nominee would be unable to serve. If a nominee becomes unavailable before the election, the proxies may be voted for one or more substitute nominees designated by the Board, or the Board may decide to reduce the number of Directors.

Set forth below is certain information with respect to each nominee for Director.

Marvin E. Jaffe, M.D., 74, has been a member of our Board since January 20, 2011. He has spent his career in the pharmaceutical industry and has been responsible for the pre-clinical and clinical development of new drugs and biologics in nearly every therapeutic area. Mr. Parios continues to consult with the Dominion Group on a part-time basis. Previously, Mr. Parios was President and Chief Operating Officer of the Ferguson Communication Group, as well as Vice Chairman of the parent company, CommonHealth USA, a leading full-service communications resource for the healthcare industry. Mr. Parios was a partner in Pracon, Inc., a health-care marketing consulting firm from 1982 to 1991, and helped engineer the sale of that firm to Reed-Elsevier in 1989. Over a 20-year period, Mr. Parios held progressively senior positions at Hoffmann-LaRoche, Inc., most recently as Director of New Product Planning and Regulatory Affairs Management. The Board believes that Mr. Parios's 37 years of pharmaceutical industry experience, including experience with product development, marketing and promotion, strategy and tactic development, and managing pharmaco-economic and reimbursement issues, position him to make valuable contributions to Genta as a member of its Board.

Ana I. Stancic, 53, has been a member of our Board since January 20, 2011. She is currently senior vice president and chief financial officer at M2Gen, a wholly owned, for-profit subsidiary of the Moffitt Cancer Center, where she provides direction, leadership, and management for all financial operations, controls, internal audits, and facility administration. The Board believes that Ms. Stancic's financial and accounting background, combined with her extensive pharmaceutical industry experience, position her to make valuable contributions to Genta as a member of its Board.

Daniel D. Von Hoff, M.D., F.A.C.P., 63, has been a member of our Board since January 2000. Dr. Von Hoff's major interest is in the development of new anticancer agents, both in the clinic and in the laboratory. Recommendation of the Board of Directors

The Board unanimously recommends that you vote "FOR" the election of each nominee as Director.

PROPOSAL TWO

Approval Of The Amendment And Restatement Of Our 2009 Stock Incentive Plan To Change The Number Of Shares Authorized Under The Plan

We are asking our stockholders to approve an amendment and restatement of our 2009 Stock Incentive Plan, referred to herein as the Plan, that will change the number of shares of our common stock that will be available for issuance thereunder.

The Plan was initially adopted by the Board on July 9, 2009 and approved by the stockholders at the 2009 Annual Meeting of Stockholders. At the 2010 Annual Meeting of Stockholders, held on June 15, 2010, our stockholders approved an amendment and restatement of the Plan, pursuant to which the share reserve authorized for issuance under the Plan was initially decreased by 5,748 shares to 10,947 shares (which represented 15% of the outstanding shares of common stock on April 1, 2010) and subsequently adjusted on each of September 7, 2010, January 18, 2011 and May 3, 2011 to be equal to 15% of the number of shares of common stock issued and outstanding as of each of those dates respectively. Pursuant to these adjustment provisions, the share reserve was increased to 182,823 shares on September 7, 2010, 9,516,672 shares on January 18, 2011 and 21,529,331 shares on May 3, 2011. All share numbers in this proposal reflect the 1-for-100 reverse stock split that became effective on August 2, 2010 and the 1-for-50 reverse stock split that became effective on February 18, 2011. On December 14, 2010, the Board amended the director grant program under the Plan to eliminate initial grants to newly elected or appointed non-employee Directors, to reduce the value of the annual grants to our non-employee Directors from \$100,000 to \$25,000 and to authorize the Compensation Committee to pay the award in cash at its discretion.

On April 20, 2011, the Board approved, subject to stockholder approval at the 2011 Annual Meeting of Stockholders, an amendment of the Plan, pursuant to which the share reserve authorized for issuance under the Plan will be adjusted on each of September 30, 2011, January 11, 2012 and May 16, 2012 to be equal to 15% of the number of shares of common stock issued and outstanding as of each of those dates respectively. This may result in an increase or decrease in the share reserve.

The Board believes that the availability of a sufficient number of shares under the Plan is in the best interests of our Company and our stockholders because the availability of an adequate equity compensation program is an important factor in attracting and retaining qualified officers, employees and directors essential to our success and in aligning their long term interests with those of our stockholders. In addition, the Plan as amended will continue to provide us with flexibility in designing equity incentive programs in a manner that will attract and retain the services of key individuals. We continue to rely on equity incentives because we believe that such incentives are necessary for us to remain competitive in the marketplace for executive talent and other key employees. When the Plan was initially approved by the Board and our stockholders in 2009, the number of shares of Common Stock reserved for issuance under the Plan was targeted at 15% of fully diluted outstanding shares. The objective of the amendment of the share reserve provisions in 2010 and under this amendment and restatement is to maintain that target percentage, but to base that percentage on outstanding shares. Under this objective, the total reserve will be subject to three adjustments during the period prior to the next annual meeting, which will maintain that target percentage of reserve shares. These changes will permit us to continue to operate the plan for the benefit of new participants (including new hires or employees of acquired companies), as well as to allow additional awards to current participants.

The principal terms and provisions of the Plan as amended are summarized below. The summary, however, is not intended to be a complete description of all the terms of the Plan and is qualified in its entirety by reference to the complete text of the amendment filed with this Proxy Statement as Exhibit A. Any stockholder who wishes to obtain a copy of the actual plan documents may do so upon written request to our Corporate Secretary at our principal offices at 200 Connell Drive, Berkeley Heights, New Jersey 07922.

Types of Awards. The following types of awards may be granted under the Plan: options, stock appreciation rights, stock awards, restricted stock units, dividend equivalent rights and other stock-based awards. The principal features of each type of award are described below.

Administration. The compensation committee of our Board of Directors will have the authority to administer the Plan. However, our Board of Directors may at any time make awards under the Plan to individuals other than executive officers and non-employee Directors. The term “plan administrator,” as used in this summary, will mean our compensation committee or the Board, to the extent each such entity is acting within the scope of its administrative authority under the Plan.

Eligibility. Officers and employees, non-employee Directors, as well as independent consultants, advisors and contractors, in our employ or service or in the employ or service of our subsidiary companies (whether now existing or subsequently established) will be eligible to participate in the Plan. As of May 16, 2011, approximately 20 employees (including 3 executive officers) and 4 non-employee Board members were eligible to participate in the Plan.

Securities Subject to Plan. 21,529,331 shares of common stock are currently reserved for issuance under the Plan. Subject to stockholder approval of this proposal, the share reserve will be subsequently adjusted to be fifteen percent (15%) of the outstanding shares of our common stock on each of September 30, 2011, January 11, 2012 and May 16, 2012. If any award is forfeited or any award otherwise terminates or is cancelled without the delivery of shares of common stock, then the shares covered by such award or to which such award relates shall again become available for transfer pursuant to awards granted or to be granted under the Plan.

As of May 16, 2011, 23,614 shares of common stock were subject to outstanding restricted stock units under the Plan and 21,181,288 shares of common stock remain available for issuance under the Plan.

There is a limitation in the Plan, such that no participant may receive awards for more than 28,000,000 shares of our common stock in any calendar year, subject to adjustment for subsequent stock splits, stock dividends and similar transactions. Stockholder approval of this proposal will also constitute re-approval of that 28,000,000-share limitation for purposes of Section 162(m) of the Internal Revenue Code (“Section 162(m)"). Accordingly, such limitation will assure that any deductions to which we would otherwise be entitled upon the exercise of stock options or stock appreciation rights granted under the Plan will not be subject to the \$1 million limitation on the income tax deductibility of compensation paid per executive officer imposed under Section 162(m).

The maximum number of shares of common stock for which options intended to be incentive stock options under the federal tax laws may be granted may not exceed 54,738,066 shares, subject to adjustment from time to time for stock splits, stock dividends and similar transactions.

The shares of common stock issuable under the Plan may be drawn from shares of our authorized but unissued common stock or from shares of our common stock that we acquire, including shares purchased on the open market or in private transactions.

Awards. The plan administrator will have complete discretion to determine which eligible individuals are to receive awards, the time or times when those awards are to be granted, the number of shares subject to each such award, the vesting and exercise schedule (if any) to be in effect for the award, the cash consideration (if any) payable per share subject to the award, the settlement of the awards, the maximum term for which the award is to remain outstanding and the status of any granted option as either an incentive stock option or a non-statutory option under the federal tax laws.

Stock Options. Each granted option will have an exercise price per share determined by the plan administrator, but the exercise price will not be less than one hundred percent of the fair market value of the option shares on the grant date. No granted option will have a term in excess of ten years. The shares subject to each option will generally vest in one or more installments over a specified period of service measured from the grant date or upon the achievement of pre-established corporate performance objectives. The plan administrator may also grant reload options pursuant to which an optionee who delivers shares of our common stock in payment of the exercise price of an option will be granted an option for a number of shares equal to the number of shares so delivered.

Upon cessation of service, the optionee will have a limited period of time in which to exercise his or her outstanding options to the extent exercisable for vested shares. The plan administrator will have complete discretion to extend the period following the optionee's cessation of service during which his or her outstanding options may be exercised, provide for continued vesting during the applicable post-service exercise period and/or to accelerate the exercisability or vesting of options in whole or in part. Such discretion may be exercised at any time while the options remain outstanding.

Stock Appreciation Rights. Upon exercise of a stock appreciation right as to a specific number of shares of our common stock, the holder of that right will receive in exchange an appreciation distribution from us in an amount equal to the excess of (i) the fair market value of the shares of common stock as to which those rights are exercised over (ii) the aggregate exercise price in effect for those shares. The exercise price per share may not be less than the fair market value per share of our common stock on the date the right is granted. Stock appreciation rights may also be granted in conjunction with options which provide the holders with the right to surrender the related option grant for an appreciation distribution from us in an amount equal to the excess of (i) the fair market value of the vested shares of our common stock subject to the surrendered option over (ii) the aggregate exercise price payable for those shares.

The appreciation distribution on any exercised stock appreciation right will be paid in (i) cash, (ii) shares of our common stock or (iii) a combination of cash and shares of our common stock. Upon cessation of service with us, the holder of a stock appreciation right will have a limited period of time in which to exercise that right to the extent exercisable at that time. The plan administrator will have complete discretion to extend the period following the holder's cessation of service during which his or her outstanding stock appreciation rights may be exercised, provide for continued vesting during the applicable post-service exercise period and/or to accelerate the exercisability or vesting of stock appreciation rights in whole or in part. Such discretion may be exercised at any time while the stock appreciation right remains outstanding.

Repricing Prohibition. The plan administrator may not implement any of the following repricing programs without obtaining stockholder approval: (i) the cancellation of outstanding options or stock appreciation rights in return for new options or stock appreciation rights with a lower exercise price per share, (ii) the cancellation of outstanding options or stock appreciation rights with exercise prices per share in excess of the then current fair market value per share of our common stock or (iii) the direct reduction of the exercise price in effect for outstanding options or stock appreciation rights.

Stock-Based Awards. Shares may be issued under the Plan subject to performance or service-vesting requirements established by the plan administrator. Shares may also be issued as a fully-vested bonus for past services without any cash outlay required of the recipient. The plan administrator may also grant other stock-based awards that entitle the holder to receive shares of common stock or payment in cash or otherwise of amounts based on the value of the shares of common stock.

Restricted Stock Units. Shares of our common stock may also be issued under the Plan pursuant to restricted stock units which entitle the recipients to receive those shares upon the attainment of designated performance goals or the completion of a prescribed service period or upon the expiration of a designated time period following the vesting of those units, including (without limitation), a deferred distribution date following the termination of the recipient's service with us.

Dividend Equivalent Rights. Dividend equivalent rights may be issued in tandem with other awards made under the Plan. Each dividend equivalent right award will represent the right to receive the economic equivalent of each dividend or distribution which is made per issued and outstanding share of common stock during the term the dividend equivalent right remains outstanding. Payment of the amounts attributable to such dividend equivalent rights may be made either concurrently with the actual dividend or distribution made per issued and outstanding share of our common stock or may be deferred to a later date. The plan administrator will determine whether such payment will be made in cash, in shares of our common stock or in another form and whether they will be conditional.

Director Grant Program. Under the Plan, our non-employee Board members will automatically receive the annual awards as follows:

Annual Awards. On the date of each annual stockholders meeting beginning with the 2011 Annual Meeting, each individual who is at that time serving as, and is to continue to serve as, a non-employee Board member will automatically be granted an award (the "Annual Award") in the form of shares of common stock and/or options with a value equal to the Applicable Annual Amount. For such purposes, the value of the Annual Award shall be calculated as follows: (A) the value of an option share shall be equal to the fair value of an option share as estimated on the date of grant under a valuation model approved by the Financial Accounting Standards Board ("FASB") for purposes of the Company's financial statements under FASB ASC 718 (or any successor provision); and (B) the value of a share subject to the award shall be equal to the fair market value of per share of common stock on the award date. The Applicable Annual Amount will be determined by the Compensation Committee on or before the date of the grant, but in no event will such amount exceed \$25,000.00. The Compensation Committee may, at its discretion, pay the Applicable Annual Amount in cash instead of in the form of stock or options. Our Compensation Committee will have the sole discretion to determine the amount and type of award for each year within the foregoing limitations.

Vesting of Awards and Issuance of Shares. The shares of common stock subject to each Annual Award will be fully vested on the date of grant.

Stock Awards. The following table sets forth, as to our Chief Executive Officer, our Chief Financial Officer, our other named executive officers (as identified in the Summary Compensation Table which appears elsewhere in this proxy statement) and the other individuals and groups indicated, the number of shares of our common stock subject to stock awards (with respect to grants to non-employee Directors) and restricted stock unit awards (with respect to grants to all other individuals) granted from January 1, 2010 through May 16, 2011.

General Provisions

Vesting Acceleration. In the event we should experience a change in control, then unless otherwise provided in the award agreement, each outstanding award will automatically accelerate in full and the plan administrator may terminate any outstanding awards. A change in control will be deemed to occur for purposes of the Plan in the event (a) of stockholder approval of a merger or consolidation, (b) of stockholder approval of a sale of all or substantially all our assets, (c) there occurs any transaction or series of related transactions pursuant to which any person or group of related persons becomes directly or indirectly the beneficial owner of securities possessing more than fifty percent (50%) of the total combined voting power of our outstanding securities without the consent of the Board, (d) there is a change in the majority of our Board of Directors as a result of one or more contested elections for Board membership or (e) the stockholders approve a plan of complete liquidation.

The acceleration of vesting in the event of a change in control may be seen as an anti-takeover provision and may have the affect of discouraging a merger proposal, a takeover attempt or other efforts to gain control of us.

Changes in Capitalization. In the event of any increase or decrease in the number of shares of our common stock resulting from any stock split, reverse stock split, stock dividend, combination or reclassification of shares, or other

increase or decrease effected without our receipt of consideration proportionate adjustments will be made to: (i) the maximum number of securities issuable under the Plan; (ii) the maximum number of securities for which any one person may be granted awards under the Plan; (iii) the maximum number of securities subject to an initial award under the director grant program; and (iv) the maximum number of securities for which incentive stock options may be granted; and (v) the number of shares and price per share in effect for outstanding awards. Such adjustments will be made in such manner as the plan administrator deems appropriate.

Valuation. The fair market value per share of our common stock on any relevant date under the Plan will be deemed to be equal to the closing selling price per share on that date on the Over the Counter Bulletin Board. On May 13, 2011, the fair market value per share of our common stock determined on such basis was \$0.046.

Stockholder Rights and Transferability. No optionee will have any stockholder rights with respect to the option shares until such optionee has exercised the option and paid the exercise price for the purchased shares. The holder of a stock appreciation right will not have any stockholder rights with respect to the shares subject to that right unless and until such person exercises the right and becomes the holder of record of any shares of our common stock distributed upon such exercise. Options are not assignable or transferable other than by will or the laws of inheritance following optionee's death, and during the optionee's lifetime, the option may only be exercised by the optionee.

A participant will have full stockholder rights with respect to any shares of common stock issued to him or her under the Plan, whether or not his or her interest in those shares is vested. A participant will not have any stockholder rights with respect to the shares of common stock subject to a restricted stock unit until that award vests and the shares of common stock are actually issued thereunder. However, dividend-equivalent units may be paid or credited, either in cash or in actual or phantom shares of common stock, on outstanding restricted stock units, subject to such terms and conditions as the plan administrator may deem appropriate.

Special Tax Election. The plan administrator may provide one or more holders of awards under the Plan with the right to have us withhold a portion of the shares otherwise issuable to such individuals in satisfaction of the withholding taxes to which they become subject in connection with the issuance, exercise or settlement of those awards.

Amendment and Termination. Our Board may amend or modify the Plan at any time subject to stockholder approval to the extent required under applicable law or regulation or pursuant to the listing standards of the stock exchange on which our common stock is at the time primarily traded. The Plan will terminate on July 8, 2019 subject to any earlier termination by the Board.

Summary of Federal Income Tax Consequences

The following is a summary of the Federal income taxation treatment applicable to us and the participants who receive awards under the Plan.

Option Grants. Options granted under the Plan may be either incentive stock options which satisfy the requirements of Section 422 of the Internal Revenue Code or non-statutory options which are not intended to meet such requirements. The Federal income tax treatment for the two types of options differs as follows:

Incentive Options. No taxable income is recognized by the optionee at the time of the option grant, and no taxable income is recognized for regular tax purposes at the time the option is exercised, although taxable income may arise at that time for alternative minimum tax purposes. The optionee will recognize taxable income in the year in which the purchased shares are sold or otherwise made the subject of certain other dispositions. For Federal tax purposes, dispositions are divided into two categories: (i) qualifying, and (ii) disqualifying. A qualifying disposition occurs if the sale or other disposition is made more than two (2) years after the date the option for the shares involved in such sale or disposition is granted and more than one (1) year after the date the option is exercised for those shares. If the sale or disposition occurs before these two periods are satisfied, then a disqualifying disposition will result.

Upon a qualifying disposition, the optionee will recognize long-term capital gain in an amount equal to the excess of (i) the amount realized upon the sale or other disposition of the purchased shares over (ii) the exercise price paid for the shares. If there is a disqualifying disposition of the shares, then the excess of (i) the fair market value of those shares on the exercise date or (if less) the amount realized upon such sale or disposition over (ii) the exercise price paid for the shares will be taxable as ordinary income to the optionee. Any additional gain recognized upon the disposition will be a capital gain.

If the optionee makes a disqualifying disposition of the purchased shares, then we will be entitled to an income tax deduction, for the taxable year in which such disposition occurs, equal to the amount of ordinary income recognized by the optionee as a result of the disposition. We will not be entitled to any income tax deduction if the optionee makes a qualifying disposition of the shares.

Non-Statutory Options. No taxable income is recognized by an optionee upon the grant of a non-statutory option. The optionee will in general recognize ordinary income, in the year in which the option is exercised, equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares, and the optionee will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the optionee with respect to the exercised non-statutory option. The deduction will in general be allowed for our taxable year in which such ordinary income is recognized by the optionee.

Stock Appreciation Rights. No taxable income is recognized upon receipt of a stock appreciation right. The holder will recognize ordinary income in the year in which the stock appreciation right is exercised, in an amount equal to the excess of the fair market value of the underlying shares of common stock on the exercise date over the base price in effect for the exercised right, and the holder will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the holder in connection with the exercise of the stock appreciation right. The deduction will be allowed for the taxable year in which such ordinary income is recognized.

Stock Awards. The recipient of vested shares of common stock will recognize ordinary income at the time those shares are issued. The recipient of unvested shares of common stock issued under the Plan will not recognize any taxable income at the time those shares are issued but will have to report as ordinary income, as and when those shares subsequently vest, an amount equal to the excess of (i) the fair market value of the shares on the vesting date over (ii) the cash consideration (if any) paid for the shares. The recipient may, however, elect under Section 83(b) of the Internal Revenue Code to include as ordinary income in the year the unvested shares are issued an amount equal to the excess of (i) the fair market value of those shares on the issue date over (ii) the cash consideration (if any) paid for such shares. If the Section 83(b) election is made, the recipient will not recognize any additional income as and when the shares subsequently vest. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the recipient with respect to the shares. The deduction will in general be allowed for our taxable year in which such ordinary income is recognized by the recipient.

Restricted Stock Units. No taxable income is recognized upon receipt of restricted stock units. The holder will recognize ordinary income in the year in which the shares subject to the units are actually issued to the holder. The amount of that income will be equal to the fair market value of the shares on the date of issuance, and the holder will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the holder at the time the shares are issued. The deduction will be allowed for the taxable year in which such ordinary income is recognized.

Dividend Equivalent Rights. No taxable income is recognized upon receipt of a dividend equivalent right award. The holder will recognize ordinary income in the year in which a dividend or distribution, whether in cash, securities or

other property, is paid to the holder. The amount of that income will be equal to the fair market value of the cash, securities or other property received, and the holder will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of the ordinary income recognized by the holder of the dividend equivalent right award at the time the dividend or distribution is paid to such holder. That deduction will be allowed for the taxable year in which such ordinary income is recognized.

Deductibility of Executive Compensation. We anticipate that any compensation deemed paid by us in connection with the exercise of non-statutory options or stock appreciation rights will qualify as performance-based compensation for purposes of Section 162(m) and will not have to be taken into account for purposes of the \$1 million limitation per covered individual on the deductibility of the compensation paid to certain of our executive officers. Accordingly, the compensation deemed paid with respect to options and stock appreciation rights granted under the Plan will remain deductible by us without limitation under Section 162(m). However, any compensation deemed paid by us in connection with shares issued under stock awards or restricted stock units will be subject to the \$1 million limitation.

Accounting Treatment. Pursuant to the accounting standards established by the Financial Accounting Standards Board (FASB), we will be required to expense all share-based payments, including grants of stock options, stock appreciation rights, restricted stock, restricted stock units and all other stock-based awards under the Plan. Accordingly, stock options and stock appreciation rights which are granted to our employees and non-employee Board members and payable in shares of our common stock will have to be valued at fair value as of the grant date under an appropriate valuation formula, and that value will then have to be charged as a direct compensation expense against our reported earnings over the designated vesting period of the award. For shares issuable upon the vesting of restricted stock units awarded under the Plan, we will be required to amortize over the vesting period a compensation cost equal to the fair market value of the underlying shares on the date of the award. If any other shares are unvested at the time of their direct issuance, then the fair market value of those shares at that time will be charged to our reported earnings ratably over the vesting period. Such accounting treatment for restricted stock units and direct stock issuances will be applicable whether vesting is tied to service periods or performance goals. The issuance of a fully-vested stock bonus will result in an immediate charge to our earnings equal to the fair market value of the bonus shares on the issuance date.

Required Vote

The affirmative vote of a majority of our outstanding voting shares present or represented and entitled to vote at the 2011 Annual Meeting of Stockholders is required for approval of the amendment and restatement of the Plan. Should such approval not be obtained, then the share reserve under the Plan will not be adjusted. However, awards may be made under the Plan until the earlier of the date of all the shares of common stock currently reserved for issuance under the Plan have been issued or any earlier expiration of the Plan.

Recommendation of the Board of Directors

The Board believes that this proposal is in the company's best interests and in the best interests of our stockholders and recommends a vote "FOR" the approval of the amendment and restatement of our 2009 Stock Incentive Plan.

PROPOSAL THREE

Ratification Of The Appointment Of Our Independent Registered Public Accounting Firm

The Board has selected the firm of EisnerAmper LLP as our independent registered public accounting firm for the year ending December 31, 2011, subject to ratification by our stockholders at the Annual Meeting. EisnerAmper LLP was our independent registered public accounting firm the year ended December 31, 2010.

Representatives of EisnerAmper LLP are expected to be present at the Annual Meeting where they will be available to respond to questions and, if they desire, to make a statement.

Recommendation of the Board of Directors

The Board unanimously recommends that you vote “FOR” the ratification of the appointment of EisnerAmper LLP as our independent registered public accounting firm for the year ending December 31, 2011.

OTHER MATTERS

The Board does not know of any other matter that may be brought before the Annual Meeting. However, if any such other matters are properly brought before the Annual Meeting, as permitted, the proxies may use their own judgment to determine how to vote your shares.

MATTERS RELATING TO OUR GOVERNANCE

The Board and its Committees

The Board currently consists of five Directors. They are Raymond P. Warrell, Jr., M.D., Marvin Jaffe, M.D., Christopher P. Parios, Ana I. Stancic and Daniel D. Von Hoff, M.D., F.A.C.P. The Board has determined that, except for Dr. Warrell, all of the members of the Board are “independent Directors” as defined under NASDAQ rules. In addition, each member of the Board who served during the prior term was independent, with the exception of Dr. Warrell. Dr. Warrell is not considered independent, as he is an executive officer of the Company.

The Board has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The Board held eight meetings during the year ended December 31, 2010. The Audit Committee held six meetings and the Compensation Committee held three meetings. No formal meetings were held by the Nominating and Corporate Governance Committee, as the independent Directors of the Board acted as a whole on nominating and corporate governance matters. Independent Directors of the Board held four executive sessions at which only independent Directors were present. Each member of the Board attended no fewer than 94% of the total number of meetings of the Board and the committees of which he or she was a member. Although we do not have a formal policy regarding attendance by members of the Board at our annual meeting of stockholders, we encourage directors to attend and historically more than a majority have done so.

Board of Directors Leadership Structure and Role in Risk Oversight

Our Board evaluates its leadership structure and role in risk oversight on an ongoing basis. Our leadership structure combines the Chairman of the Board and Chief Executive Officer roles into one position. Currently, Dr. Warrell serves as Chairman of the Board and Chief Executive Officer of our company. Our Board determines what leadership structure it deems appropriate based on factors such as the experience of the applicable individuals, the current business environment of the Company, the current stage of development and commercialization of our products and product candidates and other relevant factors. After considering these factors, our Board has determined that the combined role of Chairman of the Board and Chief Executive Officer is an appropriate board leadership structure for our company at this time. We currently do not have a lead independent director. Our former lead independent director, Douglas G. Watson, resigned from the Board of Directors on January 20, 2011. While we are without a lead independent director, non-management directors meet in regularly scheduled executive sessions at the end of every regularly scheduled board meeting. The non-management directors may schedule additional executive sessions as appropriate. Members of management do not attend these executive sessions.

The Board is also responsible for oversight of our risk management practices, while management is responsible for the day-to-day risk management processes. This division of responsibilities is the most effective approach for addressing the risks facing the Company, and the Company’s board leadership structure supports this approach. Through our Chairman of the Board and Chief Executive Officer, and other members of management, the Board receives periodic reports regarding the risks facing the Company. In addition, the Audit Committee assists the Board in its oversight role by receiving periodic reports regarding our risk and control environment. Furthermore, the Compensation Committee and Audit Committee work together to review any potential short-term or long-term risks as a result of the current decisions of the Company’s management.

Audit Committee

The Audit Committee was established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee currently consists of Christopher P. Parios, Daniel D. Von Hoff, M.D., F.A.C.P. and Ana I. Stancic. Ms. Stancic serves as Chair of this Committee. Each member of the Audit Committee is independent. The Board has also determined that Ms. Stancic fulfills the SEC criteria as an audit committee financial expert. Pursuant to the Audit Committee's charter adopted by the Board, the purposes of the Audit Committee include reviewing the procedures and results of our external auditing functions, providing a direct communication link to the Board from our external auditing staff and our Chief Financial Officer or his equivalent and helping assure the quality of our financial reporting and control systems. The Audit Committee has the sole authority to retain and terminate the independent registered public accounting firm that examines our financial statements. A copy of this committee's charter is available on our website at www.genta.com.

Compensation Committee

The Compensation Committee currently consists of Marvin Jaffe, M.D., Christopher P. Parios and Daniel D. Von Hoff, M.D., F.A.C.P. Mr. Parios serves as Chair of this Committee. Each member of the Compensation Committee is independent. The primary purpose of the Compensation Committee is to review, on an annual basis or more frequently as it deems appropriate, the performance of our executive officers, determine the amount and form of compensation payable to our executive officers and report to the Board on an annual basis regarding compensation of our executive officers. In addition, the Compensation Committee administers our equity compensation plans. The Compensation Committee, along with the Audit Committee of the Board, reviews any potential short-term or long-term risks as a result of its compensation practices. The Committees believe that these risks are not reasonably likely to have a material adverse effect on the Company. Nonetheless, the Compensation Committee, working with the Audit Committee, seeks to mitigate these risks to the extent possible. A copy of this committee's charter is available on our website at www.genta.com.

Nominating and Corporate Governance Committee

No formal meetings were held by the Nominating and Corporate Governance Committee, as the independent Directors of the Board acted as a whole on nominating and corporate governance matters during meetings of the Board. The purpose of the Nominating and Corporate Governance Committee are to identify and recommend individuals qualified for nomination to serve on our Board and its committees, ensure that the performance of the Board is reviewed, develop and recommend corporate governance principles to the Board and ensure that an appropriate governing structure with respect to the Board and its committees is in place so that the Board can perform a proper review function. A copy of the Nominating and Corporate Governance Committee's charter is available on our website at www.genta.com.

In assessing candidates as Director nominees, whether recommended by this committee or stockholders, the committee considers the following criteria:

- Members of the Board should be individuals of high integrity and independence with substantial accomplishments and prior or current association with institutions noted for their excellence.
- Members of the Board should have demonstrated leadership ability, with broad experience, diverse perspectives, and the ability to exercise sound business judgment.
-

The background and experience of members of the Board should be in areas important to the operation of Genta such as business, education, finance, government, law, medicine or science.

- The composition of the Board should reflect sensitivity to the need for diversity as to gender, ethnic background and experience.
-

Stockholders may recommend individuals to be considered as potential directors on the Board by submitting their recommendations in writing to the Nominating and Corporate Governance Committee for their consideration at our address listed on the top of page one of this Proxy Statement.

Compensation of Directors

During 2010, each of our non-employee Directors earned \$15,000 per year for their services. Each non-employee Director earned an additional \$1,500 for each Board meeting and \$1,000 for each committee meeting attended in person and \$750 for each Board or committee meeting attended telephonically. The Lead Director and each non-employee Chairperson of each committee of the Board earned additional annual cash compensation of \$5,000. Each non-employee Director receives \$2,500 per day for Board or committee activities outside of normal activities. For 2011, each of our non-employee Directors will earn \$25,000 per year for their services, however, non-employee Directors in their first year of joining the Board will earn \$50,000 during their first year of service, reduced to \$25,000 per year for each year thereafter.

Currently, under our 2009 Stock Incentive Plan, as amended, on the date of each annual stockholders meeting, beginning with the 2010 Annual Meeting of Stockholders, each individual who is at that time serving as, and is to continue to serve as, a non-employee Board member will automatically be granted an award in the form of fully vested shares of common stock and/or options with a value not to exceed \$100,000.00. Our Compensation Committee will have the sole discretion to determine the amount and type of award for each year. The applicable annual amount will be determined by the Compensation Committee on or before the date of the grant, but in no event will such amount exceed \$100,000.00. For such purposes, the value of a share subject to a stock award shall be equal to the fair market value per share of our common stock on the award date. On September 7, 2010, each of Mr. Parios, Dr. Von Hoff and Mr. Watson received a grant of fully vested shares with a fair market value of \$100,000.

Our Board has determined that the 2009 Stock Incentive Plan should be amended and approved by stockholders so that on the date of each annual stockholders meeting, beginning with the 2011 Annual Meeting of Stockholders, each individual who is at that time serving as, and is to continue to serve as, a non-employee Board member will automatically be granted an award in the form of fully vested shares of common stock and/or stock options with a value not to exceed \$25,000.00, or at the option of our Board, cash of \$25,000.00. Our Compensation Committee will have the sole discretion to determine the amount and type of award for each year. The applicable annual amount will be determined by the Compensation Committee on or before the date of the grant, but in no event will such amount exceed \$25,000.00.

The following table sets forth certain information regarding compensation earned by or paid to the following non-employee Directors of the Company during the year ended December 31, 2010:

Name	Fees earned or paid in cash (\$) (1)	Stock awards (\$) (2)	Option awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)

(1) Due to the Company's inability to raise capital and in order to conserve cash, none of the amounts earned by each Director was paid during 2009. Thus, payments shown in the above table during the year ended December 31, 2010 are comprised of amounts earned during the following time periods:

- (3) Mr. Driscoll resigned from the Board effective August 26, 2009.
- (4) Mr. Watson resigned from the Board effective January 20, 2011.

Stockholder Communications to the Board

The Board has provided a process for stockholders to communicate with our Directors. Stockholders and other interested parties who wish to communicate with our Directors may address their correspondence to the Board, to the non-employee Directors or any other group of Directors or committee of the Board or to a particular Director, in care of our Corporate Secretary at our address listed on the top of page one of this Proxy Statement.

CERTAIN RELATIONSHIPS, RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The Board has determined that, except for Dr. Warrell, all of the members of the Board are "independent directors". Dr. Warrell is not considered independent, as he is an executive officer of the Company.

On June 9, 2008, Dr. Raymond Warrell, Jr., Chief Executive Officer and Chairman, participated in the initial closing of our sale of 2008 Notes by purchasing \$2.0 million of such notes. Dr. Loretta Itri, President, Pharmaceutical

Development and Chief Medical Officer, purchased \$0.3 million of such notes. The remaining members of the Board independently discussed Dr. Warrell and Dr. Itri's participation in the transaction and resolved that such participation would not interfere with Dr. Warrell or Dr. Itri's exercise of independent judgment in carrying out their responsibilities in their respective positions. In connection with the 2008 Note financing and in accordance with the Audit Committee Charter, the Audit Committee reviewed and approved the 2008 Note financing with Dr. Warrell and Dr. Itri. As of May 16, 2011, Dr. Warrell owns \$1.7 million of such notes and Dr. Itri owns \$15 thousand of such notes.

As part of the March 2010 financing, the Company issued March 2010 Warrants to holders of its outstanding 2008 Notes to extend the maturity of those notes from June 9, 2010 to June 9, 2011. The March 2010 Warrants allow the holder to purchase the same number of shares of common stock issuable upon conversion of the 2008 Notes. In December 2010, the Company extended the maturity date of its outstanding 2008 Notes from June 9, 2011 to September 4, 2011 in exchange for December 2010 Warrants. The December 2010 Warrants allow the holder to purchase 10% of the number of shares of common stock issuable upon conversion of the 2008 Notes and have the same expiration date as the March 2010 Warrants. Both the March 2010 Warrants and the December 2010 Warrants have anti-dilution protection. The remaining members of the Board independently discussed the issuance of the March 2010 Warrants and the December 2010 Warrants and determined that it was in the best interest of Genta and our stockholders to proceed with these transactions. In connection with the issuance of the March 2010 Warrants and the December 2010 Warrants and in accordance with the Audit Committee Charter, the Audit Committee reviewed and approved the issuance of the March 2010 Warrants and the December 2010 Warrants, including the issuance of both sets of warrants to Dr. Warrell and Dr. Itri. Dr. Warrell and Dr. Itri, as holders of outstanding 2008 Notes, received March 2010 Warrants and December 2010 Warrants.

Review, Approval or Ratification of Transactions with Related Persons

We have set forth certain policies and procedures with respect to the review and approval of related-party transactions. Specifically, pursuant to our Audit Committee Charter, the Audit Committee is required to review and approve any related-party transactions. In connection with such review and approval, the Audit Committee may retain special legal, accounting or other advisors and may request any of our officers or employees or our outside counsel or independent auditors to meet with any members of, or advisors to, the Audit Committee as well as perform any other activities consistent with the Audit Committee Charter, our by-laws, and governing law, as the Audit Committee or the Board deems necessary or appropriate.

Code of Ethics

The Board has adopted a Code of Ethics that applies to all our Directors and employees, including our principal executive officer and principal financial officer. A copy of the Code is currently available on our website at www.genta.com.

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee of the Board, or the Committee, has responsibility for overseeing our compensation and benefit policies, evaluating senior executive performance, determining compensation for our senior executives, including our executive officers and Directors, and reviews and discusses the report on executive compensation included in our annual proxy statement. The Committee ensures that the total compensation paid to executive officers is fair, reasonable and competitive.

The individuals who serve as our Chairman of the Board and Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), as well as the other individuals included in the Summary Compensation Table below, are referred to as the "named executive officers".

Compensation Philosophy and Objectives

Our compensation philosophy is based on our belief that our compensation programs should: be aligned with stockholders' interests and business objectives; reward performance; and be externally competitive and internally equitable. We seek to achieve three objectives, which serve as guidelines in making compensation decisions:

• Providing a total compensation package which is competitive and therefore, enables us to attract and retain, high-caliber executive personnel;

• Integrating compensation programs with our short-term and long-term strategic plan and business objectives to provide incentives to ensure superior executive performance and successful financial results; and

• Encouraging achievement of business objectives and enhancement of stockholder value by providing executive management long-term incentives through equity ownership, which align the interests of executives with those of our stockholders.

Role of Executive Officers in the Compensation Decisions

The Committee makes all compensation decisions regarding the compensation of our executive officers. The CEO reviews the performance of our executive officers and except for the President, Pharmaceutical Development and Chief Medical Officer (who is the spouse of the CEO), the CEO makes recommendations to the Committee based on these reviews, including salary adjustments, variable cash awards and equity awards. The Committee exercises its discretion in modifying any recommended adjustments or awards to executives. With respect to the CEO and President, Pharmaceutical Development and Chief Medical Officer, the Committee in its sole discretion determines the amount of any adjustments or awards.

Establishing Executive Compensation

Compensation levels for our executive officers are recommended by the CEO and determined by the Committee. One of the tools that the CEO and the Committee use is comparisons with other companies in the biotechnology and pharmaceutical industries, including companies with which we compete for personnel. To determine external competitiveness practices relevant to the executive officers, we review data from two industry surveys of executive compensation: Radford Biotechnology Compensation Survey and Organization Resources Counselors, collectively referred to as External Market Data. Due to macroeconomic factors in the global economy and our financial challenges during 2009 and 2010, the Committee did not feel that changes in executive compensation required repurchase of these data to establish an updated database for decision-making.

In 2008, the Committee retained Aon Radford Consulting (a nationally recognized compensation consulting firm with specific expertise in dealing with the equity issues of biopharmaceutical companies) to conduct a review of market trends related to equity compensation in consideration of the fact that our 1998 Stock Incentive Plan would be expiring in May 2008. The peer group companies used for that analysis were: Access Pharmaceuticals, Inc., AMDL, Inc., Celsion Corp., Idera Pharmaceuticals, Inc., Infinity Pharmaceuticals, Inc., Opexa Therapeutics, Inc., Oscient Pharmaceuticals Corp., Poniard Pharmaceuticals, Inc., SEQUENOM, Inc. and Targeted Genetics Corp. These companies were selected because, like Genta, they were oncology-focused, public pharmaceutical companies with products in mid to late-stage development. Due to limited resources, the Committee did not retain a compensation consultant to advise the Committee on its compensation decisions during 2009 or 2010, and rather, relied on External Market Data and analyses provided by Aon Radford Consulting for past years in determining to keep executive compensation levels unchanged for 2009 and 2010.

In establishing compensation levels, it is the Committee's objective to target total annual compensation of each executive officer at a level between the 50th and 75th percentiles for comparable positions. However, in determining the compensation for each executive officer, the Committee also considers a number of other factors including: an evaluation of the responsibilities required for each respective position, individual experience levels and individual performance and contributions toward achievement of our business objectives. There is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. Instead, the Committee determines the mix of compensation for each executive officer based on its review of the competitive data and its analysis of that individual's performance and contribution to our performance. In addition, in light of our stage of development, considerable emphasis is placed on equity-based compensation in an effort to preserve cash to finance our research and development efforts.

Other Factors Influencing 2010 Compensation for Executive Officers

Our potential products are in various stages of research and development and limited revenues have as yet been generated from product sales. As a result, the Committee does not believe the use of traditional performance standards, such as corporate profitability, is appropriate in the evaluation of our performance or the performance of our individual executives. The compensation of our executive officers is based, in substantial part, on industry compensation practices, trends noted (in the External Market Data, peer group analysis and by consulting services provided in prior fiscal years), as well as the extent to which the business and individual executive officers' objectives are achieved. Such objectives are established by the Committee and modified as necessary to reflect changes in market conditions and other factors. Individual performance is measured against quantifiable objectives.

Among the significant business objectives achieved during 2010 were the following: continued development of tesetaxel, including the initiation of clinical trials in advanced melanoma, advanced gastric cancer and bladder cancer; continued follow-up of patients on the AGENDA trial, our Phase 3 trial of Genasense® in patients with advanced melanoma; and the sale of convertible notes and debt warrants resulting in aggregate gross proceeds of \$25.8 million. Two significant factors warranted very substantial weight in evaluating our business performance and in making executive compensation decisions. These factors were our inability to close a licensing or partnership deal for Genasense®, tesetaxel, Ganite® or an oral gallium compound before the close of the fiscal year and the significant dilution that our stock suffered throughout 2010. These factors were considered carefully in evaluating executive performance and making determinations regarding executive compensation.

In May 2010, W. Lloyd Sanders, our Chief Operating Officer resigned from Genta to pursue other interests. To ensure the retention of Gary Siegel, our Vice President, Finance, the Committee appointed Mr. Siegel to be our Principal Financial Officer, Principal Accounting Officer and Secretary to the Board. He had been appointed to these positions on an interim basis in February 2008. In recognition of this change, the Committee approved an increase in Mr. Siegel's annual salary from \$210,000 to \$250,000. The Committee also agreed to guarantee the payment of Mr. Siegel's annual bonus target for 2010, previously established at 25.0% of his annual salary, or \$62,500.00 and payable in January 2011, as long as Mr. Siegel was still employed by Genta on December 31, 2010. The retention award of \$62,500 was paid in January 2011. In addition, Mr. Siegel's annual bonus target percentage for 2011 was established at 30.0% of his annual salary.

In December 2010, the Committee reviewed peer analysis data, the compensation history of each executive officer, including their annual salary, cash incentive bonus and awards of restricted stock units, or RSUs. Due to our failure to close a licensing deal and our limited financial resources, Dr. Warrell recommended that, except for the retention award to Mr. Siegel, for the third consecutive year there should not be any annual salary increases, nor should any incentive bonuses be paid to any employee, including the other executive officers. The Committee approved this recommendation.

Elements of Executive Compensation

Our compensation package for executive officers generally consists of annual cash compensation, which includes both fixed (annual salary) and variable (cash incentive bonus program) elements, long-term compensation in the form of restricted stock units and certain perquisites. The main components are annual salary, cash incentive bonus and the award of restricted stock units, all of which are common elements of executive compensation pay in general and throughout the biotechnology and pharmaceutical industry.

Annual Salary

We pay an annual salary to our employees and the executive officers as consideration for fulfillment of certain roles and responsibilities. Changes in annual salaries for executive officers, if any, are generally effective at the beginning of each year. Increases to annual salary reflect a reward and recognition for successfully fulfilling the position's role and responsibilities, the incremental value of the experience, knowledge, expertise and skills the individual acquires and develops during employment with us and adjustments as appropriate based on external competitiveness and internal equity. In consideration of our cost-reduction and cash conservation measures, there were no annual salary increases for 2008, 2009 or 2010, other than an increase in the annual salary of Mr. Siegel due to increased responsibilities during 2010. In order to further conserve our cash resources, we deferred payment of the salaries of Drs. Warrell and Itri for the periods from April 19, 2008 through August 17, 2008, and January 5, 2009 through July 3, 2009. The deferred amounts, totaling approximately \$815,000 were paid during the latter half of 2010.

Cash Incentive Bonus Program

As part of their compensation package, our executive officers have the opportunity to earn annual cash incentive awards. Cash incentive awards are designed to reward superior executive performance while reinforcing our short-term strategic operating goals. If warranted in special circumstances, individual one-time discretionary bonuses may also be awarded to our executive officers during the course of the year. Typically, we award cash incentive bonuses to employees, including the executive officers, as a reward and recognition for contributing to our achievement of specific annual business objectives established by the Committee at the beginning of the year. All employees are eligible for a form of cash incentive bonus, although payment of a cash incentive bonus is made at an individual level each year contingent upon our overall performance. However, as described above, our business performance was insufficient in 2010, 2009 and 2008 to warrant the payment of cash incentive bonuses to our employees, including executive officers.

Each year, we establish target bonuses for each executive officer payable based on achievement of specified Company and individual performance goals. The target bonus program amounts for the CEO (40 percent of annual salary) and the President, Pharmaceutical Development and Chief Medical Officer (30 percent of annual salary) are based on the terms of their employment agreements. The target amount for the position of Vice President, Finance was increased to 30 percent of annual salary beginning in 2011. The maximum bonus program award amounts for the CEO is set at 60 percent of his annual salary, while the maximum bonus program award amounts for the President Pharmaceutical Development and Chief Medical Officer and Vice President, Finance are set at 50 percent of annual salary. In considering annual bonuses, the Committee evaluates the annual performance of the individual executives, focusing on the executive's performance in his or her area or areas of functional responsibility relative to the achievement of our annual corporate goals and other significant corporate accomplishments. Our strategic plan and individual performance targets include successful partnering transactions, and other strategic plan metrics, operational and financial metrics, regulatory compliance metrics, and timely delivery of specific programs, plans, and budgetary objectives identified by the Committee.

The table below details 2010 annual bonus targets and actual payouts for each of the named executive officers.

Name	Title	2010 Target Bonus (\$)	2010 Target Bonus (% Salary)	2010 Actual Bonus (\$)	2010 Actual Bonus (% Salary)
Raymond P. Warrell, Jr., M.D.	Chief Executive Officer and Chairman of the Board	\$163,200	40 %	\$0	0 %
Gary Siegel	Vice President, Finance	\$62,500	25 %	\$62,500 (1)	25 %
Loretta M. Itri, M.D.	President, Pharmaceutical Development and Chief Medical Officer	\$140,250	30 %	\$0	0 %
W. Lloyd Sanders (2)	Senior Vice President and Chief Operating Officer	\$85,500	30 %	\$0	0 %

(1) As described above, Mr. Siegel was guaranteed his 2010 target award for retention purposes. This award was paid in January 2011.

(2) Mr. Sanders resigned from Genta on May 7, 2010.

Equity-Based Compensation

We grant equity-based compensation to employees, including executive officers, to attract, motivate, engage and retain highly qualified and highly sought-after employees. We grant equity awards on a broad basis to encourage all employees to work with a long-term view. We award restricted stock units, or RSUs, because we believe RSUs are an appropriate vehicle to align the employee's interests with those of our stockholders.

Equity Awards in 2010

On October 6, 2010, our Committee approved the awarding of RSUs to Dr. Warrell, Mr. Siegel and Dr. Itri. The RSUs vest based on continued service as well as achievement of Company goals. Each vested RSU entitles the executive to receive one share of common stock on December 6, 2012; in addition, each executive officer will also receive an additional number of fully vested shares to reflect the effect of dilution of the awards from the grant date to the date of issuance of the shares as more fully described below. In light of the significant ongoing dilution of our stock, the Committee believes that without such anti-dilution protection, the awards would not have any retention value or provide motivation to achieve our performance goals.

Dr. Warrell was awarded RSUs for 11,608 shares, adjusted for the 1-for-50 reverse stock split implemented in February 2011. These RSUs vest as follows: sixty percent (60%) of the initial grant amount, or 6,965 shares shall vest in three equal installments on December 6, 2010, December 6, 2011 and December 6, 2012; fifteen percent (15%) of the initial grant amount, or 1,741 shares will vest when our market capitalization first exceeds ten (10) times our market capitalization value as of the initial grant date; ten percent (10%) of the initial grant amount, or 1,161 shares, will vest upon the conclusion of a business development transaction that yields net cash to us of more than \$35 million during the period concluding December 6, 2012; ten percent (10%) of the initial grant amount, or 1,161 shares, will vest upon the Committee's determination that our financing has been adequate through December 6, 2012; and five percent (5%) of the initial grant amount, or 580 shares, will vest upon us starting a new Phase 3 registration trial of one of our products.

Mr. Siegel was awarded RSUs for 1,934 shares adjusted for the 1-for-50 reverse stock split implemented in February 2011. These RSUs vest as follows: sixty percent (60%) of the initial grant amount, or 1,160 shares, shall vest in three equal installments on December 6, 2010, December 6, 2011 and December 6, 2012; ten percent (10%) of the initial grant amount, or 193 shares will vest if there are no material review adjustments proposed by our external auditors for the year ended December 31, 2010; ten percent (10%) of the initial grant amount, or 193 shares will vest if there are no material review adjustments proposed by our external auditors for the year ended December 31, 2011; ten percent (10%) of the initial grant amount, or 193 shares, will vest upon the successful upgrade of our financial reporting system, to be completed no later than December 6, 2012; five percent (5%) of the initial grant amount, or 98 shares, will vest upon the receipt of \$1 million or more from the sale of our New Jersey tax losses or New Jersey research credits for the year ended December 31, 2010; and five percent (5%) of the initial grant amount, or 97 shares, will vest upon the receipt of \$1 million or more from the sale of our New Jersey tax losses or New Jersey research credits for the year ended December 31, 2011.

Dr. Itri was awarded RSUs for 3,978 shares adjusted for the 1-for-50 reverse stock split implemented in February 2011. These RSUs vest as follows: sixty percent (60%) of the initial grant amount, or 2,386 shares, shall vest in three equal installments on December 6, 2010, December 6, 2011 and December 6, 2012; five percent (5%) of the initial grant amount, or 199 shares, will vest upon the completion and presentation of data from more than four Phase 2 trials of tesetaxel in breast cancer, bladder cancer, gastric cancer and melanoma; five percent (5%) of the initial grant amount, or 199 shares, will vest upon the initiation of a front-line gastric cancer Phase 1-2 study of tesetaxel in Asia; five percent (5%) of the initial grant amount, or 199 shares, will vest upon the initiation and completion of accrual into two Phase 1-2 tesetaxel studies in Japan; five percent (5%) of the initial grant amount, or 199 shares, will vest upon the completion of the food-effect study of tesetaxel; five percent (5%) of the initial grant amount, or 199 shares, will vest upon the securing of a Special Protocol Agreement from the FDA for a Phase 3 study of tesetaxel; ten percent (10%) of the initial grant amount, or 398 shares, will vest upon the initiation and completion of greater than fifty percent (50%) accrual in a multinational Phase 3 study of tesetaxel; and five percent (5%) of the initial grant amount, or 199 shares, will vest upon the completion of the final survival analysis of the AGENDA clinical trial.

All of the shares that vest under the RSUs that were granted in October 2010 will be issued on December 6, 2012. In addition, on the date of issuance, each executive officer will receive additional fully-vested shares determined by multiplying the vested shares to be issued to such officer under the RSUs by a fraction, the denominator being the number of shares outstanding on October 6, 2010 and the numerator being the number of shares of our common stock outstanding on such date of issuance.

Determining The Timing And Exercise Price Of Equity-Based Compensation

There is no established practice of timing equity grants in advance of the release of favorable or unfavorable financial or business results. Grants of stock options or RSUs to executive officers are made only at duly convened meetings of the Committee. Equity awards for newly hired executives are typically made at the next scheduled Committee meeting following the executive's hire date. It is our intent that all stock option grants have an exercise price per share equal to the closing selling price per share on the grant date.

Retirement Benefits

All employees are eligible to participate in the Genta Incorporated Savings & Retirement Plan (Savings Plan), a tax-qualified retirement savings plan, which allows employee contributions to the Savings Plan on a before-tax basis in an amount up to the lesser of 50% of the employee's annual salary or a limit prescribed by the Internal Revenue Service. All contributions to the Savings Plan are fully vested upon contribution. We match 100% of the first 4% of pay that is contributed to the Savings Plan and 50% of the next 2 % of pay contributed. We provide retirement benefits to our employees because we believe retirement benefits are an integral part of employee benefit programs within the biotechnology and pharmaceutical industry.

Perquisites

None of our executive officers other than our CEO and President, Pharmaceutical Development and Chief Medical Officer have perquisites in excess of \$10,000 in annual value. Our CEO and President, Pharmaceutical Development and Chief Medical Officer have employment agreements that provide for the perquisites discussed under the heading "Employment Agreements".

Severance Benefits

Dr. Warrell and Dr. Itri are eligible for severance benefits under the terms of their employment agreements as described under the heading "Employment Agreements". Mr. Siegel is eligible for severance benefits under the terms of a letter agreement. For executives, severance benefits are intended to align executive and stockholder interests by enabling executives to consider corporate transactions that are in the best interests of the stockholders and other of our constituents without undue concern over whether the transactions may jeopardize the executive's own employment.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code disallows a tax deduction to publicly held companies for compensation paid to certain of their executive officers, to the extent that compensation exceeds \$1.0 million per covered officer in any year. The limitation applies only to compensation that is not considered to be performance-based. The RSUs awarded as a component of equity compensation do not qualify as performance-based compensation. However, we believe that in establishing the cash and equity incentive compensation programs for our executive officers, the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole governing factor. For that reason, we may deem it appropriate to provide one or more executive officers with the opportunity to earn incentive compensation, whether through cash bonus programs tied to our financial performance or through RSUs tied to the executive officer's continued service, which may, together with base salary, exceed in the aggregate the amount deductible by reason of Section 162(m) or other provisions of the Internal Revenue Code. We believe it is important to maintain cash and equity incentive compensation at the levels needed to attract and retain the executive officers essential to our success, even if all or part of that compensation may not be deductible by reason of the Section 162(m) limitation.

2011 Objectives and Executive Compensation and Bonus Guidelines

As discussed above, the Committee determined that there would be no salary adjustments for 2011. The Committee has established cash incentive bonus targets and will evaluate each officer's performance against those targets at the end of 2011. At its discretion, the Committee may make equity awards during 2011. The Committee may make adjustments if necessary based on their assessment of a variety of factors including: our financial resources; industry trends; competitive market data; business objectives and corporate performance.

On December 14, 2010, the Committee approved the bonus award targets for each of our executive officers based on attainment of specified performance goals based on our strategic plan. In 2011, our strategic plan will focus on:

- Closing one or more licensing agreements for tesetaxel;
- Execution of all clinical, regulatory and compliance activities related to follow-up and completion of our Phase 3 trial of Genasense® (known as AGENDA) in patients with advanced melanoma;
- Continued development of tesetaxel;
- Conserving our existing cash position;
- Successful execution of financing plans to strengthen our capital position; and
- Advancing our clinical and non-clinical pipeline of product candidates.

In 2011, Dr. Warrell's individual performance goals will focus on his areas of responsibility in his capacity as Chairman of the Board and CEO of the Company, as well as the senior manager for oversight of the departments of Legal Affairs, Corporate Communications, Research and Development, Business Development, Manufacturing and Quality Assurance (co-managing the latter with Dr. Itri). These activities will principally center upon his ability to secure adequate financing for us, the closing of one or more licensing transactions that will provide us with capital, advancing our pipeline of therapeutic product candidates, and maintaining stockholder confidence in management and Genta. Dr. Warrell's specific performance goals and the relative weight of each goal include:

- Closing one or more licensing agreements for tesetaxel (weighted at 20% of the potential bonus award);
- Conserving our existing cash position (weighted at 40% of the potential bonus award);
- Executing financing plans to strengthen our capital position (weighted at 10% of the potential bonus award);
- Implementing and managing our short- and long-term strategic plans (weighted at 10% of the potential bonus award);
- Managing our legal affairs to streamline processes and conserve resources (weighted at 5% of the potential bonus award);
- Maintaining the effectiveness of patent and proprietary protections over our pipeline of product candidates (weighted at 5% of the potential bonus award); and
- Maintaining stockholder confidence in us by managing investor and public relations (weighted at 10% of the potential bonus award).

In 2011, Mr. Siegel's individual performance goals will focus on his role as Vice President, Finance. Mr. Siegel is also expected to play a key role in strategic planning, development and validation of financial forecasts for business development, and compliance with financial laws and regulations. Mr. Siegel's specific performance goals and the relative weight of each goal include:

- Timely reporting of all financial, tax, and regulatory compliance documents (weighted at 50% of the potential bonus award);
- Effectively interacting with our auditors (weighted at 10% of the potential bonus award);
- Timely and effective interaction and responsiveness to the Audit Committee of the Board (weighted at 5% of the potential bonus award);
- Managing our accounts payable, tax reporting and payroll (weighted at 15% of the potential bonus award); and
- Effectively managing and interacting with our legal advisors on matters related to the SEC and other regulatory and legal authorities (weighted at 20% of the potential bonus award).

In 2011, Dr. Itri's individual performance goals will focus on her role as President, Pharmaceutical Development, and Chief Medical Officer. These activities broadly address the development, initiation, and execution of clinical development plans for our therapeutic product candidates. Dr. Itri is also the senior manager for the departments of Regulatory Affairs, Project Management, Clinical Operations, Biostatistics, and Quality Assurance (co-managing the latter with Dr. Warrell). Dr. Itri's specific performance goals and the relative weight of each goal include:

- Designing, implementing and managing our clinical research and development activities (weighted at 20% of the potential bonus award);
 - Executing all clinical research, regulatory and compliance activities related to follow-up and completion of our AGENDA trial in patients with advanced melanoma (weighted at 30% of the potential bonus award);
- Organizing the biostatistical analysis of the AGENDA trial on schedules that comply with our strategic plans, consistent with a high level of quality and regulatory compliance (weighted at 5% of the potential bonus award);
- Completing the clinical trial of tasetaxel administered on a weekly schedule (weighted at 5% of the potential bonus award);
 - Making satisfactory progress towards completing a clinical trial of tasetaxel for patients with advanced melanoma (weighted at 10% of the potential bonus award);
- Making satisfactory progress towards completing a confirmatory clinical trial of tasetaxel in patients with advanced gastric cancer (weighted at 15% of the potential bonus award);
- Initiating new clinical trials of tasetaxel in patients with advanced prostate cancer and advanced breast cancer (weighted at 10% of the potential bonus award); and
- Interacting effectively with regulatory authorities on matters related to our product candidates (weighted at 5% of the potential bonus award).

The foregoing objectives for each of the executive officers do not disclose additional detail, such as timing, because such disclosure would provide our competitors with an undue competitive advantage. As a biopharmaceutical company, we face intense competition from large and mid-sized biotechnology and pharmaceutical companies engaged in the development of oncology products, many of which have substantially greater financial, marketing, sales, distribution, manufacturing and technological resources than us. To effectively compete, we must take every precaution in creating and maintaining our competitive advantages, including protecting our short- and long-term research and development plans and strategies. In addition, as many of our pre-clinical research and development activities are subject to confidentiality obligations, disclosure of more specific goals and objectives would violate existing agreements among us and our research and development partners and significantly impair our ability to enter into such agreements in the future.

The dollar amounts of the 2011 annual bonus targets for the named executive officer are as shown below:

As of 2010, Dr. Itri's annual salary is \$467,500. We may, from time to time, grant Dr. Itri RSUs or stock options consistent with the guidelines applicable to our other senior executives. Potential Payments Upon Termination or Change-in-Control

The following tables set forth the estimated payments and benefits which would have been provided to each named executive officer, assuming certain hypothetical events had occurred with respect to the named executive officer on December 31, 2010. For amounts connected with a change-in-control event, it is assumed that the change in control occurred on December 31, 2010 and that the price per share of our common stock paid to our stockholders in the change-in-control transaction was \$1.475, the closing selling price per share of our common stock on December 31, 2010, adjusted for the 1-for-50 reverse stock split implemented in February 2011.

None of our executive officers have served as a Director or member of the Board or the Compensation Committee (or other committee serving an equivalent function) of any other entity while an executive officer of that other entity served as a Director of or member of our Board or our Committee.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board is currently composed of three Directors, each of whom is independent, and operates under a written charter adopted by the Board. The Audit Committee currently consists of Christopher P. Parios, Daniel D. Von Hoff, M.D., F.A.C.P. and Ana I. Stancic. Ms. Stancic serves as Chair of this committee. Among our other responsibilities, we recommend to the Board the selection of the Company's independent registered public accounting firm.

The Audit Committee reviewed and discussed the consolidated financial statements with management and EisnerAmper LLP, the Company's independent registered public accounting firm. Management is responsible for the preparation, presentation and integrity of the Company's financial statements; accounting and financial reporting principles; establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)); establishing and maintaining internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)); evaluating the effectiveness of disclosure controls and procedures; evaluating the effectiveness of internal control over financial reporting; and evaluating any change in internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting. EisnerAmper LLP is responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America.

During the course of 2010, management continued the process of documenting, testing and evaluating the Company's system of internal control over financial reporting in accordance with the requirements of the Sarbanes-Oxley Act of 2002. The Audit Committee was kept apprised of the progress of the evaluation throughout the year. At the conclusion of the process, management provided the Committee with and the Committee reviewed a report on the effectiveness of the Company's internal control over financial reporting. The Committee also reviewed the report of management contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2010, filed with the SEC, as well as EisnerAmper LLP's Report of Independent Registered Public Accounting Firm included in the Company's Annual Report on Form 10-K, related to its audit of the consolidated financial statements. The Committee recommended that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. The Committee continues to oversee the Company's efforts related to its internal control over financial reporting and management's preparations for the evaluation in 2011.

The Audit Committee discussed with EisnerAmper LLP the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees", as adopted by the Public Company Accounting Oversight Board (PCAOB) in Rule 3200T and PCAOB Auditing Standard No. 5, "An Audit of Internal Control Over Financial Reporting That Is Integrated with an Audit of Financial Statements." In addition, EisnerAmper LLP provided the Audit Committee with the written disclosures and the letter required by the Independence Standards Board Standard No. 1, as amended, "Independence Discussions with Audit Committees," and the Audit Committee discussed with EisnerAmper LLP their firm's independence.

A representative of EisnerAmper LLP is expected to attend the Annual Meeting, has not asked for an opportunity to address Stockholders and is expected to be available to respond to appropriate questions.

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this report by reference, and shall not otherwise be deemed filed under such Acts.

Fees for independent registered public accounting firm for 2010 and 2009

Set forth below are the aggregate fees billed for the years ended December 31, 2010 and December 31, 2009 for services rendered by EisnerAmper LLP and Amper, Politziner & Mattia, LLP, or Amper:

	2010	2009
Audit fees	\$ 183,000	\$ 183,000
Audit-related fees	2,000	117,500
Total Audit & Audit-related fees	\$ 185,000	\$ 300,500
Tax fees	-	-
All other fees	-	-
Total fees	\$ 185,000	\$ 300,500

On August 19, 2010 the Audit Committee of our Board of Directors engaged EisnerAmper LLP to serve as our new independent registered public accounting firm, after it was notified on August 16, 2010 that Amper, an independent registered public accounting firm, would not be able to stand for re-appointment because it combined its practice on that date with that of Eisner LLP to form EisnerAmper LLP, an independent registered public accounting firm. We previously filed Form 8-K on August 19, 2010 acknowledging this change.

Audit fees consist of fees billed for services rendered for the audit of our financial statements and review of our financial statements included in our quarterly reports on Form 10-Q and services provided in connection with other statutory or regulatory filings. During 2010, we incurred audit fees with Amper of \$86,000 and during 2009 we incurred audit fees with Amper of \$183,000. During 2010, we incurred audit fees with EisnerAmper LLP of \$97,000.

Audit-related fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and not reported under Audit fees. During 2009, Amper audited our 401(k) plan as of December 31, 2008. Additionally, Amper provided assistance in our filings on Forms S-1 and S-3 during 2010 and 2009. No such fees were billed by EisnerAmper LLP in 2010 and 2009.

Tax fees consist of fees billed for professional services related to the preparation of our U.S. federal and state income tax returns and tax advice. No such fees were billed in 2010 or 2009.

The Audit Committee pre-approved all Audit-related fees. After considering the provision of services encompassed within the above disclosures about fees, the Audit Committee has determined that the provision of such services is compatible with maintaining EisnerAmper's independence.

Pre-approval policy of services performed by independent registered public accounting firm

The Audit Committee's policy is to pre-approve all audit and non-audit related services, tax services and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The Audit Committee has delegated the pre-approval authority to its chairperson when expedition of services is necessary. The independent registered public accounting firm and management are required to periodically report to the full Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval and the fees for the services performed to date.

ARTICLE I

GENERAL

1.1 Purpose

The purpose of the Genta Incorporated 2009 Stock Incentive Plan (the “Plan”) is to provide for officers, other employees and directors of, and consultants to, Genta Incorporated (the “Company”) and its subsidiaries an incentive (a) to enter into and remain in the service of the Company, (b) to enhance the long-term performance of the Company, and (c) to acquire a proprietary interest in the success of the Company.

1.2 Administration

1.2.1 Subject to Section 1.2.6, the Plan shall be administered by the Compensation Committee (the “Committee”) of the board of directors of the Company (the “Board”), which shall consist of not less than two directors. The members of the Committee shall be appointed by, and serve at the pleasure of, the Board. To the extent required for transactions under the Plan to qualify for the exemptions available under Rule 16b-3 (“Rule 16b-3”) promulgated under the Securities Exchange Act of 1934 (the “1934 Act”), all actions relating to awards to persons subject to Section 16 of the 1934 Act shall be taken by the Board unless each person who serves on the Committee is a “non-employee director” within the meaning of Rule 16b-3 or such actions are taken by a sub-committee of the Committee (or the Board) comprised solely of “non-employee directors”. To the extent required for compensation realized from awards under the Plan to be deductible by the Company pursuant to section 162(m) of the Internal Revenue Code of 1986, as amended, and the regulations and rulings promulgated thereunder (collectively, the “Code”), the members of the Committee shall be “outside directors” within the meaning of such section 162(m).

1.2.2 The Committee shall have the authority (a) to exercise all of the powers granted to it under the Plan; (b) to construe, interpret and implement the Plan and any plan agreements executed pursuant to Section 2.1; (c) to prescribe, or amend and rescind rules and regulations relating to the Plan, including rules governing its own operations; (d) to make all determinations necessary or advisable in administering the Plan; (e) to correct any defect, supply any omission and reconcile any inconsistency in the Plan; (f) to amend the Plan to reflect changes in applicable law; (g) to determine whether, to what extent and under what circumstances awards may be settled or exercised in cash, Shares of Common Stock, other securities, other awards or other property, or canceled, forfeited or suspended and the method or methods by which awards may be settled, canceled, forfeited or suspended; (h) to determine whether, to what extent and under what circumstances cash, shares of Common Stock, other securities, other awards or other property and other amounts payable with respect to an award shall be deferred either automatically or at the election of the holder thereof or of the Committee; (i) to determine whether, to what extent and under what circumstances the management of the day-to-day operations of the Plan and the functions of the Company with respect thereto, including, without limitation, processing of the exercise of options and holding and sales of option shares by grantees, shall be delegated to a registered broker-dealer or other qualified third party; and (j) to direct that a) a stop order may be placed in effect with respect to shares issued pursuant to the Plan and b) any stock certificate evidencing shares issued pursuant to the Plan shall bear a legend setting forth such restrictions on transferability as may apply to such shares pursuant to the Plan.

1.2.3 Actions of the Committee shall be taken by the vote of a majority of its members. Any action may be taken by a written instrument signed by a majority of the Committee members, and action so taken shall be fully as effective as if it had been taken by a vote at a meeting.

1.2.4 The determination of the Committee on all matters relating to the Plan or any plan agreement shall be final, binding and conclusive.

1.2.5 No member of the Committee shall be liable for any action or determination made in good faith with respect to the Plan or any award thereunder.

1.2.6 Notwithstanding anything to the contrary contained herein: (a) until the Board shall appoint the members of the Committee, the Plan shall be administered by the Board; and (b) the Board may, in its sole discretion, at any time and from time to time, grant awards or resolve to administer the Plan. In either of the foregoing events, the Board shall have all of the authority and responsibility granted to the Committee herein.

1.3 Persons Eligible for Awards

Awards under the Plan may be made to such directors (including directors who are not employees), officers and other employees of the Company and its subsidiaries (including prospective employees conditioned on their becoming employees), and to such consultants, advisers and other independent contractors of the Company and its subsidiaries (collectively, "key persons"), as the Committee shall select in its discretion.

1.4 Types of Awards Under Plan

Awards may be made under the Plan in the form of (a) incentive stock options (within the meaning of section 422 of the Code); (b) non-qualified stock options; (c) stock appreciation rights; (d) dividend equivalent rights; (e) restricted stock; (f) restricted stock units; and (g) other stock-based awards, all as more fully set forth in Article II. The term "award" means any of the foregoing. No incentive stock option (other than an incentive stock option that may be assumed or issued by the Company in connection with a transaction to which section 424(a) of the Code applies) may be granted to a person who is not an employee of the Company on the date of grant.

1.5 Shares Available for Awards

1.5.1 Total shares available. The shares issuable under the Plan may be authorized but unissued shares of common stock of the Company, par value \$0.001 per share ("Common Stock"), or authorized and issued Common Stock held in the Company's treasury or acquired by the Company for the purposes of the Plan. Subject to adjustment from time to time as provided in Section 1.5.3, the total number of shares of Common Stock reserved for issuance pursuant to awards granted under the Plan shall be _____. Such reserve represents fifteen percent (15%) of the outstanding shares of Common Stock on May 3, 2011. The share reserve under the Plan shall automatically be adjusted on each of September 30, 2011, January 11, 2012 and May 16, 2012 to be equal to fifteen percent (15%) of the outstanding shares of Common Stock as of each such date, respectively. If, after the Plan Effective Date, any award is forfeited or any award otherwise terminates or is cancelled without the delivery of shares of Common Stock, then the shares covered by such award or to which such award relates shall again become available for transfer pursuant to awards granted or to be granted under this Plan. Any shares of Common Stock delivered by the Company, any shares of Common Stock with respect to which awards are made by the Company and any shares of Common Stock with respect to which the Company becomes obligated to make awards, through the assumption of, or in substitution for, outstanding awards previously granted by an acquired entity, shall not be counted against the shares available for awards under this Plan. The maximum number of shares of Common Stock for which incentive stock options may be granted over the term of the Plan shall be 54,738,066 (subject to adjustment from time to time as

provided in Section 1.5.3).

1.5.2 Individual Limit. The total number of shares of Common Stock with respect to which stock options and stock appreciation rights may be granted to any one employee of the Company or a subsidiary during any one calendar year shall not exceed 28 million shares.

1.5.3 Adjustments. Subject to any required action by the shareholders of the Company, the number of shares of Common Stock covered by each outstanding award, the number of shares available for awards, the number of shares that may be subject to awards to any one employee, the maximum number of shares for which incentive stock options may be granted, the maximum number of shares subject to initial grants to non-employee Board members pursuant to Section 3.2.2, and the price per share of Common Stock covered by each such outstanding award shall be proportionately adjusted for any increase or decrease in the number of issued shares of Common Stock resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of the Common Stock, or any other increase or decrease in the number of issued shares of Common Stock effected without receipt of consideration by the Company; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been “effected without receipt of consideration.” Such adjustment shall be made by the Committee, whose determination in that respect shall be final, binding and conclusive. Except as expressly provided herein or in the applicable plan agreement, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares of Common Stock subject to an award. After any adjustment made pursuant to this Section 1.5.3, the number of shares subject to each outstanding award shall be rounded to the nearest whole number.

1.5.4 Except as provided in this Section 1.5 and in Section 2.3.8, there shall be no limit on the number or the value of the shares of Common Stock that may be subject to awards to any individual under the Plan.

1.6 Definitions of Certain Terms

1.6.1 The “Fair Market Value” of a share of Common Stock on any day shall be determined as follows.

(a) If the principal market for the Common Stock (the “Market”) is a national securities exchange or the National Association of Securities Dealers Automated Quotation System (“NASDAQ”) National Market or Small Cap Market, the last sale price or, if no reported sales take place on the applicable date, the average of the high bid and low asked price of Common Stock as reported for such Market on such date or, if no such quotation is made on such date, on the next preceding day on which there were quotations, provided that such quotations shall have been made within the ten (10) business days preceding the applicable date;

(b) If the Common Stock is actively traded but paragraph (a) does not apply, the average of the high bid and low asked price for Common Stock on the applicable date, or, if no such quotations shall have been made on such date, on the next preceding day on which there were quotations, provided that such quotations shall have been made within the ten (10) business days preceding the applicable date; or,

(c) In the event that neither paragraph (a) nor (b) shall apply, the Fair Market Value of a share of Common Stock on any day shall be determined in good faith by the Committee. Fair Market Value shall be determined in a manner that complies with requirements of Section 409A of the Code.

1.6.2 The term “incentive stock option” means an option that is intended to qualify for special federal income tax treatment pursuant to sections 421 and 422 of the Code, as now constituted or subsequently amended, or pursuant to a successor provision of the Code, and which is so designated in the applicable plan agreement. Any option that is not specifically designated as an incentive stock option shall under no circumstances be considered an incentive stock option. Any option that is not an incentive stock option is referred to herein as a “nonqualified stock option.”

1.6.3 The term “employment” means, in the case of a grantee of an award under the Plan who is not an employee of the Company, the grantee’s association with the Company or a subsidiary as a director, consultant, adviser, other independent contractor or otherwise.

1.6.4 A grantee shall be deemed to have a “termination of employment” upon ceasing to be employed by the Company and all of its subsidiaries or by a corporation assuming awards in a transaction to which section 424(a) of the Code applies. The Committee may in its discretion determine (a) whether any leave of absence constitutes a termination of employment for purposes of the Plan; (b) the impact, if any, of any such leave of absence on awards theretofore made under the Plan; and (c) when a change in a non-employee’s association with the Company constitutes a termination of employment for purposes of the Plan. The Committee shall have the right to determine whether a grantee’s termination of employment is a dismissal for cause and the date of termination in such case, which date the Committee may retroactively deem to be the date of the action that is cause for dismissal. Such determinations of the Committee shall be final, binding and conclusive.

1.6.5 The term “cause,” when used in connection with termination of a grantee’s employment, shall have the meaning set forth in any then-effective employment agreement between the grantee and the Company or a subsidiary thereof. In the absence of such an employment agreement provision, “cause” means: (a) conviction of any crime (whether or not involving the Company or its subsidiaries) constituting a felony in the jurisdiction involved; (b) engaging in any act which, in each case, subjects, or if generally known would subject, the Company or its subsidiaries to public ridicule or embarrassment; (c) material violation of the Company’s or a subsidiary’s policies, including, without limitation, those relating to sexual harassment or the disclosure or misuse of confidential information; or (d) serious neglect or misconduct in the performance of the grantee’s duties for the Company or a subsidiary or willful or repeated failure or refusal to perform such duties; in each case as determined by the Committee, which determination shall be final, binding and conclusive.

1.6.6 The term “date of grant” of an award in this Plan means the date on which the award is approved by the Committee, or such later date as may be specified by the Committee in authorizing such award.

ARTICLE II

AWARDS UNDER THE PLAN

2.1 Agreements Evidencing Awards

Each award granted under the Plan (except an award of unrestricted stock) shall be evidenced by a written agreement (“plan agreement”) which shall contain such provisions as the Committee in its discretion deems necessary or desirable. Such provisions may include, without limitation, a requirement that the grantee acknowledge that such shares are acquired for investment purposes only. The Committee may grant awards in tandem with or in substitution for any other award or awards granted under this Plan or any award granted under any other plan of the Company or any subsidiary. Payments or transfers to be made by the Company or any subsidiary upon the grant, exercise or payment of an award may be made in such form as the Committee shall determine, including cash, shares of Common Stock, other securities, other awards or other property and may be made in a single payment or transfer, in installments or on a deferred basis, in each case in accordance with rules established by the Committee. By accepting an award pursuant to the Plan, a grantee thereby agrees that the award shall be subject to all of the terms and provisions of the Plan, the applicable plan agreement, and the determinations of the Committee.

2.2 No Rights as a Shareholder

No grantee of an option or stock appreciation right (or other person having the right to exercise such award) shall have any of the rights of a shareholder of the Company with respect to shares subject to such award until a) the issuance of a stock certificate to such person for such shares or b) the book-entry ownership is reflected for the nominee of such person who holds such shares in “street name.” Except as otherwise provided in Section 1.5.3, no adjustment shall be made for dividends, distributions or other rights (whether ordinary or extraordinary, and whether in cash, securities or other property) for which the record date is prior to the date such shares are issued.

2.3 Grant of Stock Options, Stock Appreciation Rights and Reload Options

2.3.1 The Committee may grant incentive stock options and nonqualified stock options (collectively, “options”) to purchase shares of Common Stock from the Company, to such key persons, in such amounts and subject to such terms and conditions, as the Committee shall determine in its discretion, subject to the provisions of the Plan.

2.3.2 The Committee may grant stock appreciation rights to such key persons, in such amounts and subject to such terms and conditions, as the Committee shall determine in its discretion, subject to the provisions of the Plan. Stock appreciation rights may be granted in connection with all or any part of, or independently of, any option granted under the Plan. A stock appreciation right granted in connection with a nonqualified stock option may be granted at or after the date of grant of such option. A stock appreciation right granted in connection with an incentive stock option may be granted only at the date of grant of such option.

2.3.3 The grantee of a stock appreciation right shall have the right, subject to the terms of the Plan and the applicable plan agreement, to receive from the Company an amount equal to (a) the excess of the Fair Market Value of a share of Common Stock on the date of exercise of the stock appreciation right over (b) the exercise price of such right as set forth in the plan agreement (or over the option exercise price if the stock appreciation right is granted in connection with an option), multiplied by (c) the number of shares with respect to which the stock appreciation right is exercised. Payment upon exercise of a stock appreciation right shall be in cash or in shares of Common Stock (valued at their Fair Market Value on the date of exercise of the stock appreciation right) or both, all as the Committee shall determine in its discretion. Upon the exercise of a stock appreciation right granted in connection with an option, the number of shares subject to the option shall be correspondingly reduced by the number of shares with respect to which the stock appreciation right is exercised. Upon the exercise of an option in connection with which a stock appreciation right has been granted, the number of shares subject to the stock appreciation right shall be correspondingly reduced by the number of shares with respect to which the option is exercised.

2.3.4 Each plan agreement with respect to an option shall set forth the amount (the “option exercise price”) payable by the grantee to the Company upon exercise of the option evidenced thereby. The option exercise price per share shall be determined by the Committee in its discretion; provided, however, that the option exercise price of any stock option shall be at least 100% of the Fair Market Value of a share of Common Stock on the date the option is granted (except as permitted in connection with the assumption or issuance of options in a transaction to which section 424(a) of the Code applies).

2.3.5 Each plan agreement with respect to an option or stock appreciation right shall set forth the periods during which the award evidenced thereby shall be exercisable, whether in whole or in part. Such periods shall be determined by the Committee in its discretion; provided, however, that no stock option (or a stock appreciation right granted in connection with an incentive stock option) shall be exercisable more than 10 years after the date of grant.

2.3.6 The Committee may in its discretion include in any plan agreement with respect to an option (the “original option”) a provision that an additional option (the “additional option”) shall be granted to any grantee who, pursuant to Section 2.4.3(b), delivers shares of Common Stock in partial or full payment of the exercise price of the original option. The additional option shall be for a number of shares of Common Stock equal to the number thus delivered, shall have an exercise price equal to the Fair Market Value of a share of Common Stock on the date of exercise of the original option, and shall have an expiration date no later than the expiration date of the original option. In the event that a plan agreement provides for the grant of an additional option, such agreement shall also provide that the exercise price of the original option be no less than the Fair Market Value of a share of Common Stock on its date of grant, and that any shares that are delivered pursuant to Section 2.4.3(b) in payment of such exercise price shall have been held for at least six months.

2.3.7 To the extent that the aggregate Fair Market Value (determined as of the date of grant of the option) of the stock with respect to which incentive stock options granted under this Plan and all other plans of the Company and any subsidiary are first exercisable by any employee during any calendar year shall exceed the maximum limit (currently, \$100,000), if any, imposed from time to time under section 422 of the Code, such options shall be treated as nonqualified stock options.

2.3.8 Notwithstanding the provisions of Sections 2.3.4 and 2.3.5, to the extent required under section 422 of the Code, an incentive stock option may not be granted under the Plan to an individual who, at the date of grant of the option, owns stock possessing more than 10% of the total combined voting power of all classes of stock of his employer corporation or of its parent or subsidiary corporations (as such ownership may be determined for purposes of section 422(b)(6) of the Code) unless (a) at the date of grant of such incentive stock option, the option exercise price is at least 110% of the Fair Market Value of the shares subject thereto and (b) the incentive stock option by its terms is not exercisable after the expiration of five (5) years from the date of grant.

2.4 Exercise of Options and Stock Appreciation Rights

Subject to the provisions of this Article II, each option or stock appreciation right granted under the Plan shall be exercisable as follows:

2.4.1 Unless the applicable plan agreement otherwise provides, an option or stock appreciation right shall become exercisable in four substantially equal installments, on each of the first, second, third and fourth anniversaries of the date of grant, and each installment, once it becomes exercisable, shall remain exercisable until expiration, cancellation or termination of the award.

2.4.2 Unless the applicable plan agreement otherwise provides, an option or stock appreciation right may be exercised from time to time as to all or part of the shares as to which such award is then exercisable (but, in any event, only for whole shares). A stock appreciation right granted in connection with an option may be exercised at any time when, and to the same extent that, the related option may be exercised. An option or stock appreciation right shall be exercised by the filing of a written notice with the Company, on such form and in such manner as the Committee shall prescribe.

2.4.3 Any written notice of exercise of an option shall be accompanied by payment for the shares being purchased or such other document that the Committee may prescribe. Such payment shall be made: (a) by certified or official bank check (or the equivalent thereof acceptable to the Company) for the full option exercise price; or (b) unless the applicable plan agreement provides otherwise, by delivery of shares of Common Stock held for the requisite period necessary to avoid a charge to the Company's earnings for financial accounting purposes and having a Fair Market Value (determined as of the exercise date) equal to all or part of the option exercise price and a certified or official bank check (or the equivalent thereof acceptable to the Company) for any remaining portion of the full option exercise price; or (c) at the discretion of the Committee and to the extent permitted by law, by such other method as the Committee may from time to time prescribe.

2.4.4 Promptly after receiving payment of the full option exercise price, or after receiving notice of the exercise of a stock appreciation right for which payment will be made partly or entirely in shares, the Company shall, subject to the provisions of Section 3.3 (relating to certain restrictions), provide for the issuance of the shares of Common Stock for which the award has been exercised. If the method of payment employed upon option exercise so requires, and if applicable law permits, an optionee may direct the Company to deliver the certificate(s) to the optionee's stockbroker.

2.5 Termination of Employment; Death

2.5.1 Except to the extent otherwise provided in Section 2.5.2 or 2.5.3 or in the applicable plan agreement, all options and stock appreciation rights not theretofore exercised shall terminate upon termination of the grantee's employment for any reason (including death).

2.5.2 Except to the extent otherwise provided in the applicable plan agreement, if a grantee's employment terminates for any reason other than death or dismissal for cause, the grantee may exercise any outstanding option or stock appreciation right on the following terms and conditions: (a) exercise may be made only to the extent that the grantee was entitled to exercise the award on the date of employment termination; and (b) exercise must occur within three (3) months after employment terminates, except that this three month period shall be increased to one year if the termination is by reason of disability, but in no event after the expiration date of the award as set forth in the plan agreement. The term "disability" for purposes of the preceding sentence shall have the meaning given to it by section 422(c)(6) of the Code.

2.5.3 Except to the extent otherwise provided in the applicable plan agreement, if a grantee dies while employed by the Company or any subsidiary, or after employment termination but during the period in which the grantee's awards are exercisable pursuant to Section 2.5.2, any outstanding option or stock appreciation right shall be exercisable on the following terms and conditions: (a) exercise may be made only to the extent that the grantee was entitled to exercise the award on the date of death; and (b) exercise must occur by the earlier of the first anniversary of the grantee's death or the expiration date of the award. Any such exercise of an award following a grantee's death shall be made only by the grantee's executor or administrator, unless the grantee's will specifically disposes of such award, in which case such exercise shall be made only by the recipient of such specific disposition. If a grantee's personal representative or the recipient of a specific disposition under the grantee's will shall be entitled to exercise any award pursuant to the preceding sentence, such representative or recipient shall be bound by all the terms and conditions of the Plan and the applicable plan agreement which would have applied to the grantee.

2.6 Grant of Restricted Stock

2.6.1 The Committee may grant restricted shares of Common Stock to such key persons, in such amounts, and subject to such terms and conditions as the Committee shall determine in its discretion, subject to the provisions of the Plan. Restricted stock awards may be made independently of or in connection with any other award under the Plan. A grantee of a restricted stock award shall have no rights with respect to such award unless such grantee accepts the award within such period as the Committee shall specify by executing a plan agreement in such form as the Committee shall determine and, if the Committee shall so require, makes payment to the Company by certified or official bank check (or the equivalent thereof acceptable to the Company) in such amount as the Committee may determine.

2.6.2 Promptly after a grantee accepts a restricted stock award, the Company shall issue in the grantee's name a certificate or certificates for the shares of Common Stock covered by the award. Upon the issuance of such certificate(s), the grantee shall have the rights of a shareholder with respect to the restricted stock, subject to the non-transferability restrictions and Company repurchase rights described in Sections 2.6.4 and 2.6.5 and to such other restrictions and conditions as the Committee in its discretion may include in the applicable plan agreement.

2.6.3 Unless the Committee shall otherwise determine, any certificate issued evidencing shares of restricted stock shall remain in the possession of the Company until such shares are free of any restrictions specified in the applicable plan agreement.

2.6.4 Shares of restricted stock may not be sold, assigned, transferred, pledged or otherwise encumbered or disposed of except as specifically provided in this Plan or the applicable plan agreement. The Committee at the time of grant shall specify the date or dates (which may depend upon or be related to the attainment of performance goals and other conditions) on which the non-transferability of the restricted stock shall lapse. Unless the applicable plan agreement provides otherwise, additional shares of Common Stock or other property distributed to the grantee in respect of shares of restricted stock, as dividends or otherwise, shall be subject to the same restrictions applicable to such restricted stock.

2.6.5 Upon the termination of the grantee's employment for any reason while holding one or more shares to which restrictions on transferability apply, then those shares shall be immediately surrendered to the Company for cancellation and the grantee shall have no further rights with respect to those shares. To the extent the surrendered shares were issued for consideration paid in cash or cash equivalent, the Company shall repay to the grantee (or the grantee's estate) the lesser of (a) the Fair Market Value of the shares on the date of such termination of employment, or (b) any amount paid by the grantee for such shares.

2.7 Grant of Restricted Stock Units

2.7.1 The Committee may grant awards of restricted stock units to such key persons, in such amounts, and subject to such terms and conditions as the Committee shall determine in its discretion, subject to the provisions of the Plan. Restricted stock units may be awarded independently of or in connection with any other award under the Plan.

2.7.2 At the time of grant, the Committee shall specify the date or dates on which the restricted stock units shall become fully vested and nonforfeitable, and may specify such conditions to vesting as it deems appropriate. In the event of the termination of the grantee's employment by the Company and its subsidiaries for any reason, restricted stock units that have not become nonforfeitable shall be forfeited and cancelled.

2.7.3 At the time of grant, the Committee shall specify the date of issuance of the shares subject to each grant of restricted stock units. Such date may be the vesting date or dates of the award or any date following such vesting date(s) consistent with the applicable requirements of Section 409A of the Code. On the specified issuance date, the Company shall transfer to the grantee one unrestricted, fully transferable share of Common Stock for each vested restricted stock unit. The Committee shall specify the purchase price, if any, to be paid by the grantee to the Company for such shares of Common Stock.

2.8 Other Stock-Based Awards

The Committee may grant other types of stock-based awards (including the grant of unrestricted shares) to such key persons, in such amounts and subject to such terms and conditions, as the Committee shall in its discretion determine, subject to the provisions of the Plan. Such awards may entail the transfer of actual shares of Common Stock to Plan participants, or payment in cash or otherwise of amounts based on the value of shares of Common Stock.

2.9 Grant of Dividend Equivalent Rights

The Committee may in its discretion include in the plan agreement with respect to any award a dividend equivalent right entitling the grantee to receive amounts equal to the ordinary dividends that would be paid, during the time such award is outstanding and unexercised, on the shares of Common Stock covered by such award if such shares were then outstanding. In the event such a provision is included in a plan agreement, the Committee shall determine whether such payments shall be made in cash, in shares of Common Stock or in another form, whether they shall be conditioned upon the exercise of the award to which they relate, the time or times at which they shall be made, and such other terms and conditions as the Committee shall deem appropriate consistent with the applicable requirements of Section 409A of the Code.

2.10 Right of Recapture

2.10.1 If at any time within one year after the date on which a participant exercises an option or stock appreciation right, or on which restricted stock vests, or which is the maturity date of restricted stock units, or on which income is realized by a participant in connection with any other stock-based award (each of which events is a "realization event"), the participant (a) is terminated for cause or (b) engages in any activity determined in the discretion of the Committee to be in competition with any activity of the Company, or otherwise inimical, contrary or harmful to the interests of the Company (including, but not limited to, accepting employment with or serving as a consultant, adviser or in any other capacity to an entity that is in competition with or acting against the interests of the Company), then any gain realized by the participant from the realization event shall be paid by the participant to the Company upon notice from the Company. Such gain shall be determined as of the date of the realization event, without regard to any subsequent change in the Fair Market Value of a share of Common Stock. The Company shall have the right to offset such gain against any amounts otherwise owed to the participant by the Company (whether as wages, vacation

pay, or pursuant to any benefit plan or other compensatory arrangement).

ARTICLE III

AUTOMATIC GRANT PROGRAM FOR NON-EMPLOYEE DIRECTORS

3.1 Automatic Grants

Awards shall be made automatically to non-employee Board members in accordance with the provisions of this Article III.

3.2 Annual Grants

On the date of each annual stockholders meeting, beginning with the 2011 Annual Meeting, each individual who is at that time serving as, and is to continue to serve as, a non-employee Board member shall automatically be granted an award (the "Annual Award") in the form of shares of Common Stock and/or options with a value equal to the Applicable Annual Amount. The Committee shall also have the discretion to pay the Applicable Annual Amount in cash in lieu of shares or options. The Committee shall have the sole discretion to determine the amount and type of award for each year within the foregoing limitations. For such purposes, the value of the Annual Award shall be calculated as follows: (A) the value of an option share shall be equal to the fair value of an option share as estimated on the date of grant under a valuation model approved by the Financial Accounting Standards Board ("FASB") for purposes of the Company's financial statements under FAS 123 (or any successor provision); and (B) the value of a share subject to the stock award shall be equal to the Fair Market Value per share of Common Stock on the award date. The Applicable Annual Amount shall be determined by the Committee on or before the date of the grant, but in no event shall exceed Twenty-Five Thousand Dollars (\$25,000).

3.3 Vesting of Awards

Each award granted under Section 3.2 shall be fully vested on the date of grant.

ARTICLE IV

MISCELLANEOUS

4.1 Amendment of the Plan; Modification of Awards

4.1.1 The Board may from time to time suspend, discontinue, revise or amend the Plan in any respect whatsoever, except that no such amendment shall materially impair any rights or materially increase any obligations under any award theretofore made under the Plan without the consent of the grantee (or, after the grantee's death, the person having the right to exercise the award). For purposes of this Section 4.1, any action of the Board or the Committee that alters or affects the tax treatment of any award shall not be considered to materially impair any rights of any grantee.

4.1.2 Shareholder approval of any amendment shall be obtained to the extent necessary to comply with section 422 of the Code (relating to incentive stock options) or other applicable law or regulation.

4.1.3 Except as otherwise provided in Section 4.1.4 hereof, the Committee may amend any outstanding plan agreement, including, without limitation, by amendment which would accelerate the time or times at which the award becomes unrestricted or may be exercised, or waive or amend any goals, restrictions or conditions set forth in the agreement. However, any such amendment (other than an amendment pursuant to Section 4.7.2, relating to change in control) that materially impairs the rights or materially increases the obligations of a grantee under an outstanding award shall be made only with the consent of the grantee (or, upon the grantee's death, the person having the right to exercise the award).

4.1.4 The Committee shall not (i) implement any cancellation/regrant program pursuant to which outstanding options or stock appreciation rights under the Plan are cancelled and new options or stock appreciation rights are granted in replacement with a lower exercise price per share, (ii) cancel outstanding options or stock appreciation rights under the Plan with exercise prices per share in excess of the then current Fair Market Value per share of Common Stock of the Corporation or (iii) otherwise directly reduce the exercise price in effect for outstanding options or stock appreciation rights under the Plan, without in each such instance obtaining shareholder approval.

4.2 Tax Withholding

4.2.1 As a condition to the receipt of any shares of Common Stock pursuant to any award or the lifting of restrictions on any award, or in connection with any other event that gives rise to a federal or other governmental tax withholding obligation on the part of the Company relating to an award (including, without limitation, FICA tax), the Company shall be entitled to require that the grantee remit to the Company an amount sufficient in the opinion of the Company to satisfy such withholding obligation.

4.2.2 The Committee may, in its discretion, provide the grantee with the right to satisfy the withholding obligation imposed under Section 4.2.1 by electing to have the Company withhold shares with a Fair Market Value of an amount that does not exceed the amount of the Company's withholding obligations using the grantee's minimum applicable withholding tax rate for federal (including, without limitation, FICA tax) or other governmental tax liabilities.

4.3 Restrictions

4.3.1 If the Committee shall at any time determine that any consent (as hereinafter defined) is necessary or desirable as a condition of, or in connection with, the granting of any award under the Plan, the issuance or purchase of shares or other rights thereunder, or the taking of any other action thereunder (each such action a "plan action"), then such plan action shall not be taken, in whole or in part, unless and until such consent shall have been effected or obtained to the full satisfaction of the Committee.

4.3.2 The term "consent" as used herein with respect to any plan action means (a) any and all listings, registrations or qualifications in respect thereof upon any securities exchange or under any federal, state or local law, rule or regulation, (b) any and all written agreements and representations by the grantee with respect to the disposition of shares, or with respect to any other matter, which the Committee shall deem necessary or desirable to comply with the terms of any such listing, registration or qualification or to obtain an exemption from the requirement that any such listing, qualification or registration be made and (c) any and all consents, clearances and approvals in respect of a plan action by any governmental or other regulatory bodies.

4.4 Nonassignability

Except to the extent otherwise provided in the applicable plan agreement, no award or right granted to any person under the Plan shall be assignable or transferable other than by will or by the laws of descent and distribution, and all such awards and rights shall be exercisable during the life of the grantee only by the grantee or the grantee's legal representative.

4.5 Requirement of Notification of Election Under Section 83(b) of the Code

If any grantee shall, in connection with the acquisition of shares of Common Stock under the Plan, make the election permitted under section 83(b) of the Code (that is, an election to include in gross income in the year of transfer the amounts specified in such section 83(b)), such grantee shall notify the Company of such election as required pursuant to regulations issued under Code section 83(b), in addition to any filing and notification required pursuant to such regulations.

4.6 Requirement of Notification Upon Disqualifying Disposition Under Section 421(b) of the Code

If any grantee shall make any disposition of shares of Common Stock issued pursuant to the exercise of an incentive stock option under the circumstances described in section 421(b) of the Code (relating to certain disqualifying dispositions), such grantee shall notify the Company of such disposition within 10 days thereof.

4.7 Change in Control, Dissolution, Liquidation, Merger

4.7.1 For purposes of this Section 4.7, a “change in control” shall have occurred if:

(a) any “person”, as such term is used in Sections 13(d) and 14(d) of the 1934 Act other than (i) the Company or any subsidiary of the Company, (ii) any trustee or other fiduciary holding securities under an employee benefit plan of the Company or any subsidiary of the Company, or (iii) any company owned, directly or indirectly, by the shareholders of the Company in substantially the same proportions as their ownership of stock of the Company), is or becomes the “beneficial owner” (as defined in Rule 13d-3 under the 1934 Act), directly or indirectly, of securities of the Company representing more than 50% of the combined voting power of the Company’s then outstanding securities without the prior written consent of the Committee or the Board; or

(b) during any period of twenty-four (24) consecutive months, individuals who at the effective date of the Plan constitute the Board and any new director whose election by the Board or nomination for election by the Company shareholders was approved by a vote of at least a majority of the directors then still in office who either were directors at the beginning of the period or whose election or nomination for election was previously so approved, cease for any reason to constitute at least a majority thereof;

(c) the shareholders of the Company approve a merger or consolidation of the Company with any other company (other than a wholly-owned subsidiary of the Company), other than (i) a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) 50% or more of the combined voting power of voting securities of the Company or such surviving entity outstanding immediately after such merger or consolidation or (ii) a merger or consolidation effected to implement a recapitalization of the Company (or similar transaction) in which no “person” (as defined in Section 4.7.1(a) above with the exceptions noted in section 4.7.1(a)) acquires more than 50% of the combined voting power of the Company’s then outstanding securities; or

(d) the shareholders of the Company approve a plan of complete liquidation of the Company or an agreement for the sale or disposition by the Company of all or substantially all of the Company’s assets (or any transaction having a similar effect).

4.7.2 Upon the happening of a change in control:

(a) subject to the provisions of Section 2.5 above, in the event of a change in control, any option or stock appreciation right or other award then outstanding shall become fully vested and immediately exercisable upon such change in control unless the applicable plan agreement expressly provides otherwise; and

(b) to the fullest extent permitted by law, the Committee may, in its sole discretion, amend any plan agreement in such manner as it deems appropriate, including, without limitation, by amendments that advance the dates upon which any or all outstanding awards of any type shall terminate.

4.7.3 In the event of the proposed dissolution or liquidation of the Company, all outstanding awards will terminate immediately prior to the consummation of such proposed action, unless otherwise provided by the Committee. The Committee may, in the exercise of its sole discretion in such instances, accelerate the date on which any award becomes exercisable or fully vested and/or declare that any award shall terminate as of a specified date.

4.8 Right of Discharge Reserved

Nothing in the Plan or in any plan agreement shall confer upon any grantee the right to continue in the employ of the Company or any subsidiary or affect any right which the Company or any subsidiary may have to terminate such employment.

4.9 Nature of Payments

4.9.1 Any and all grants of awards and issuances of shares of Common Stock under the Plan shall be in consideration of services performed for the Company by the grantee.

4.9.2 All such grants and issuances shall constitute a special incentive payment to the grantee and shall not be taken into account in computing the amount of salary or compensation of the grantee for the purpose of determining any benefits under any pension, retirement, profit-sharing, bonus, life insurance or other benefit plan of the Company or of any subsidiary or under any agreement with the grantee, unless such plan or agreement specifically provides otherwise.

4.10 Non-Uniform Determinations

The Committee's determinations under the Plan need not be uniform and may be made by it selectively among persons who receive, or are eligible to receive, awards under the Plan (whether or not such persons are similarly situated). Without limiting the generality of the foregoing, the Committee shall be entitled, among other things, to make non-uniform and selective determinations, and to enter into non-uniform and selective Plan agreements, as to (a) the persons to receive awards under the Plan, (b) the terms and provisions of awards under the Plan and (c) the treatment of leaves of absence pursuant to Section 1.6.4.

4.11 Other Payments or Awards

Nothing contained in the Plan shall be deemed in any way to limit or restrict the Company from making any award or payment to any person under any other plan, arrangement or understanding, whether now existing or hereafter in effect.

4.12 Section Headings

The section headings contained herein are for the purpose of convenience only and are not intended to define or limit the contents of the sections.

4.13 Effective Date and Term of Plan

4.13.1 The Plan was adopted by the Board on July 9, 2009 (the "Plan Effective Date"), and approved by the Company's shareholders at the regular 2009 Annual Stockholders Meeting.

4.13.2 Unless sooner terminated by the Board, the Plan shall terminate on the day before the tenth anniversary of the Plan Effective Date, and no awards shall thereafter be made under the Plan. All awards made under the Plan prior to its termination shall remain in effect until such awards have been satisfied or terminated in accordance with the terms and provisions of the Plan and the applicable plan agreements.

4.14 Governing Law

All rights and obligations under the Plan shall be construed and interpreted in accordance with the laws of the State of Delaware, without giving effect to principles of conflict of laws.
