NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1. Basis of Presentation

The consolidated financial statements of FNCB are comprised of the accounts of FNCB Bancorp, Inc., and its wholly owned subsidiary, FNCB Bank (the “Bank”), as well as the Bank’s wholly owned subsidiaries (collectively, “FNCB”). The accounting and reporting policies of FNCB conform to accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10-01 of Regulation S-X. Accordingly, they do *not* include all the information and accompanying notes required by GAAP for complete financial statements. In the opinion of management, all adjustments necessary for a fair presentation of the financial position and the results of operations for the periods presented have been included in the consolidated financial statements. All intercompany balances and transactions have been eliminated in consolidation. Prior period amounts have been reclassified when necessary to conform to the current period’s presentation. Such reclassifications did *not* have an impact on the operating results or financial position of FNCB. The operating results and financial position of FNCB for the *three* months ended *March 31, 2019*, may *not* be indicative of future results of operations and financial position.

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates. Material estimates that are particularly susceptible to change in the near term are the allowance for loan and lease losses (“ALLL”), securities’ valuation and impairment evaluation, the valuation of other real estate owned (“OREO”), and income taxes.

These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in FNCB’s audited financial statements, included in the Annual Report filed on Form 10-K as of and for the year ended *December 31, 2018*.

Note 2. New Authoritative Accounting Guidance

Accounting Standards Update ("ASU") 2016-02, Leases (Topic 842): "Leases" requires organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. Consistent with current GAAP, the recognition, measurement and presentation of expenses and cash flows arising from a lease by the lessee will primarily depend on its classification as a finance or operating lease. However, unlike current GAAP, which requires only capital leases to be recognized on the balance sheet, the new ASU requires both finance and operating leases to be recognized on the balance sheet. ASU 2016-02 also requires disclosures to help investors and other financial statement users better understand the amount, timing and uncertainty of cash flows arising from leases. The new disclosures include both qualitative and quantitative requirements that provide additional information about the amounts recorded in the financial statements. ASU 2016-02 is effective with fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018 for public business entities. An entity may adopt the new guidance either by restating prior periods and recording a cumulative effect adjustment at the beginning of the earliest comparative period presented or by recording a cumulative effect adjustment at the beginning of the period of adoption. FNCB adopted this guidance on January 1, 2019 and applied the standard by recording a cumulative effect adjustment at that date. Management performed a comprehensive evaluation of the effect this guidance may have on its operating results or financial position, including working with various business units within the organization and reviewing contractual arrangements for embedded leases in an effort to identify FNCB's full lease population. Based on management's evaluation, the adoption of ASU 2016-02 resulted in FNCB recording an aggregate lease liability and right of use ("ROU") asset of \$3.6 million for its operating lease commitments.

ASU 2017-08, Receivables – Nonrefundable Fees and Other Costs (Topic 310): "Premium Amortization on Purchased Callable Debt Securities" requires that the amortization period for certain callable debt securities be shortened to the earliest call date. The amortization of callable securities held at a discount is not affected. ASU 2017-08 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018 for public business entities. The adoption of this guidance on January 1, 2019 did not have a material effect on the operating results or financial position of FNCB.

Accounting Guidance to be Adopted in Future Periods

ASU 2016-13, Financial Instruments – Credit Losses (Topic 326): "Measurement of Credit Losses on Financial Instruments," replaces the current loss impairment methodology under GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to form credit loss estimates in an effort to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit. Specifically, the amendments in this ASU will require a financial asset (or a group of financial assets) measured at amortized cost basis to be presented at the net amount expected to be collected. The amendments in this update affect entities holding financial assets and net investment in leases that are not accounted for at fair value through net income, including such financial assets as loans, debt securities, trade receivables, net investments in leases, off-balance-sheet credit exposures, reinsurance receivables, and any other financial assets not excluded from the scope that have the contractual right to receive cash. On June 17, 2016, the four, federal financial institution regulatory agencies (the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the National Credit Union Administration and the Office of the Comptroller of the Currency), issued a joint statement to provide information about ASU 2016-13 and the initial supervisory views regarding the implementation of the new standard. The joint statement applies to all banks, savings associations, credit unions and financial institution holding companies, regardless of asset size. The statement details the key elements of, and the steps necessary for, the successful transition to the new

accounting standard. In addition, the statement notifies financial institutions that because the appropriate allowance levels are institution-specific amounts, the agencies will not establish benchmark targets or ranges for the change in institutions' allowance levels upon adoption of the ASU, or for allowance levels going forward. Due to the importance of ASU 2016-13, the agencies encourage financial institutions to begin planning and preparing for the transition and state that senior management, under the oversight of the board of directors, should work closely with staff in their accounting, lending, credit risk management, internal audit, and information technology functions during the transition period leading up to, and well after, adoption. ASU 2016-13 is effective for public business entities that are U.S. Securities and Exchange Commission ("SEC") filers for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. All entities may adopt the amendments in this ASU earlier as of the fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Accordingly, FNCB will adopt this guidance on January 1, 2020. FNCB has created a Current Expected Credit Loss ("CECL") task group comprised of members of its finance, credit administration, lending, internal audit, loan operations and information systems units. The CECL task group has become familiar with the provisions of ASU 2016-13 and is in the process of implementing the new guidance, which includes, but is not limited to: (1) identifying segments and sub-segments within the loan portfolio that have similar risk characteristics; (2) determining the appropriate methodology for each segment; (3) implementing changes that are necessary to its core operating system and interfaces to be able to capture appropriate data requirements; and (4) evaluating qualitative factors and economic to develop appropriate forecasts for integration into the model. FNCB plans to begin running parallel computations using the current GAAP incurred loss model in the second quarter of 2019. FNCB is currently evaluating the effect this guidance may have on its operating results and/or financial position, including assessing any potential impact on its capital.

Refer to Note 2 to FNCB's consolidated financial statements included in the 2018 Annual Report on Form 10-K for a discussion of additional accounting guidance applicable to FNCB that will be adopted in future periods.

Management evaluates individual securities in an unrealized loss position quarterly for other than temporary impairment (“OTTI”). As part of its evaluation, management considers, among other things, the length of time a security’s fair value is less than its amortized cost, the severity of decline, any credit deterioration of the issuer, whether or *not* management intends to sell the security, and whether it is more likely than *not* that FNCB will be required to sell the security prior to recovery of its amortized cost.

There were *111* securities in an unrealized loss position at *March 31, 2019*, including 56 obligations of state and political subdivisions, *40* securities issued by a U.S. government or government-sponsored agency, *10* negotiable certificates of deposit, *two* asset-backed securities, two corporate debt securities and one private collateralized mortgage obligation. Management performed a review of all securities in an unrealized loss position as of *March 31, 2019* and determined that changes in the fair values of the securities were consistent with movements in market interest rates. In addition, as part of its review, management noted that there was *no* material change in the credit quality of any of the issuers or any other event or circumstance that *may* cause a significant adverse effect on the fair value of these securities. Moreover, to date, FNCB has received all scheduled principal and interest payments and expects to fully collect all future contractual principal and interest payments on all securities in an unrealized loss position at *March 31, 2019*. FNCB does *not* intend to sell the securities, nor is it more likely than *not* that it will be required to sell the securities, prior to recovery of their amortized cost. Based on the results of its review and considering the attributes of these debt securities, management concluded that the individual unrealized losses were temporary and OTTI did *not* exist at *March 31, 2019*.

Equity Securities

FNCB’s investment in equity securities consists entirely of a mutual fund investment comprised of *one- to four-family* residential mortgage-backed securities collateralized by properties within FNCB’s geographical market. At *March 31, 2019*, this mutual fund had an amortized cost of *\$1.0* million and an unrealized loss of *\$96* thousand, resulting in a fair value of *\$903* thousand. In accordance with ASU *2016-01*, Financial Instruments – Overall (Subtopic *825-10*): “Recognition and Measurement of Financial Assets and Financial Liabilities” which became effective *January 1, 2018*, FNCB recognizes any changes in the fair value of this equity security in the consolidated statements of income on a prospective basis. Upon the adoption of this new accounting guidance on *January 1, 2018*, FNCB recorded a *one-time* reclassification between retained earnings and accumulated other comprehensive loss for the unrealized loss on this mutual fund, net of taxes, of *\$65* thousand. The following table presents unrealized and realized gains and losses recognized in net income on equity securities for the *three* months ended *March 31, 2019 and 2018*.
