Notes to the Financial Statements

June 30, 2013

(Unaudited)

1. Basis of Presentation

The accompanying unaudited interim consolidated financial statements of Asia Properties, Inc. (the “Company” or “Asia Properties”), have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in Asia Properties’ Annual Report filed with the SEC on Form 10-KSB. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for fiscal 2011 as reported in the form 10-KSB have been omitted.

Principles of Consolidation

The consolidated financial statements include the accounts of Asia Properties Inc. and its 100% owned subsidiary, Asia Properties (HK) Limited that was registered in Hong Kong on November 7, 2007, after elimination of all significant inter-company accounts and transactions.

2. Going Concern

Planned principal activities have begun but Asia Properties has not generated significant revenues to date. The Company had a net loss of \$59,490 and had a negative working capital (\$1,313,943) and stockholders’ deficit of \$688,942 at June 30, 2013. These matters raise substantial doubt about Asia Properties’ ability to continue as a going concern. Continuation of Asia Properties’ existence depends upon its ability to obtain additional capital. Management’s plans in regards to this matter include receiving continued financial support from directors and raising additional equity financing in 2013. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

3. Mining Claims

The Company acquired the Banroy Gold Claim on July 18, 2011 for \$35,000, consisting of 16 claims covering an area of 677.52 hectares, being valid for 2 years until June 22, 2013 in La Pause Township, Quebec, Canada.

On August 29, 2011, The Company entered into a definitive agreement to acquire the 1325 acre King's Point for \$590,000, North Block Mining Concession, located in Newfoundland, Canada consisting of 53 claims.

4. Related Party Transactions

For the six months ended June 30, 2013, Asia Properties accrued \$30,000 salary to its CEO. As of June 30, 2013, Asia Properties owed its CEO \$1,113,152 in expense reimbursements, management fees and a note payable in the amount of \$16,000 (2012 - \$1,037,172) bearing an interest at 2% per month. The interest expense of \$320 per month and \$960 per quarter is included in the general administrative expense.

5. Short-term Loan

The Company borrowed \$50,000 from Capital One in February 2008. Required monthly payments are \$1,739. As at June 30, 2013, the loan balance owed to Capital One was \$32,491 (2012 - \$22,929).

6. Line of Credit

The Company has a revolving business line of credit payable to Wells Fargo Bank. As at June 30, 2013, \$49,919 (2012 - \$49,945) was due to Wells Fargo Bank.

7. Commitments

The Company is committed to pay \$100,000 towards mining exploration during the tenure of the King's Point mining claim option as consideration for the acquisition of mining claims in Canada. The option for this claim was terminated September 26, 2013.

The Company rents an office in Bellingham Washington and an office in Hong Kong each costs \$100 per month for rental.

Included in Due to Related Party is a promissory note for a total of \$16,000 bearing an interest rate of 2% per month.

8. Subsequent Events

The Company dropped its option for the King's Point Claim in October 2013.

The Company allowed its Banroy Gold claim to expire subsequent to the period end.

On August 25, 2014, the Company issued 408,000 common shares to settle a debt of \$20,400 which included promissory notes of \$14,000 plus accrued interest of \$6,400.

On August 27, 2014, the Company issued 500,000 common shares in lieu of services rendered.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Asia Properties, Inc was established to seek opportunities to invest in real estate and develop resorts in South East Asia. The Company has in July, 2011 restructured itself into a junior mining exploration company.

At the moment, it intends to deploy Asian based capital to develop and acquire mining assets in North America and other favorable mining jurisdictions.

The Company is not highly leveraged and expects to be able to capitalize on suitable possibilities when identified.

Limited Operating History; Need for Additional Capital

There is no historical financial information about us upon which to base an evaluation of our performance. We have no revenue generating assets. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns due to price and cost increases in services.

We will require additional financing to cover our costs that we expect to incur over the next twelve months. We believe that debt financing will not be an alternative for funding our operations as we do not have tangible assets to secure any debt financing. We anticipate that additional funding will be in the form of equity financing from the sale of our common stock. However, we cannot provide any assurance that we will be able to raise sufficient funding from the sale of our common stock to fund our plan of operations. In the absence of such financing, we will not be able to continue and our business plan will fail.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) that are designed to ensure that information required to be disclosed by us in reports we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the our Chief Executive Officer (as our chief executive officer and chief financial officer), to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. As of the end of the period covered by this report, and under the supervision and with the participation of management, including our Chief Executive Officer, who is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act, such persons conducted an evaluation of the effectiveness of the design and operation of these disclosure controls and procedures. Based on this evaluation and subject to the foregoing, our Chief Executive Officer concluded that these controls are not effective because there are material weaknesses in our internal controls over financial reporting. A material weakness is a deficiency, or a combination of control deficiencies, in internal control over reporting such that there is a reasonable possibility that that a material misstatement our annual or interim financial statements will not be prevented or detected on a timely basis.
