FORWARD-LOOKING STATEMENTS

References in this Annual Report on Form 10 K to “we,” “us,” “our,” “Ulta Beauty,” the “Company” and similar references mean Ulta Beauty, Inc. and its consolidated subsidiaries, unless otherwise expressly stated or the context otherwise requires.

This Annual Report on Form 10 K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, which reflect our current views with respect to, among other things, future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as “outlook,” “believes,” “expects,” “plans,” “estimates,” “targets,” “strategies” or other comparable words. Any forward-looking statements contained in this Form 10 K are based upon our historical performance and on current plans, estimates, and expectations. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates, targets, strategies, or expectations contemplated by us will be achieved. Such forward-looking statements are subject to various risks and uncertainties, which include, without limitation:

- changes in the overall level of consumer spending and volatility in the economy;
  - the possibility that we may be unable to compete effectively in our highly competitive markets;
- the possibility that the capacity of our distribution and order fulfillment infrastructure and the performance of our newly opened and to be opened distribution centers may not be adequate to support our recent growth and expected future growth plans;
- our ability to sustain our growth plans and successfully implement our long-range strategic and financial plan;
- the ability to execute our Efficiencies for Growth cost optimization program;
- the possibility that cybersecurity breaches and other disruptions could compromise our information or result in the unauthorized disclosure of confidential information;
- the possibility of material disruptions to our information systems;
- our ability to gauge beauty trends and react to changing consumer preferences in a timely manner;
- changes in the wholesale cost of our products;
- the possibility that new store openings and existing locations may be impacted by developer or co-tenant issues;
- our ability to attract and retain key executive personnel;
- natural disasters that could negatively impact sales;
- our ability to successfully execute our common stock repurchase program or implement future common stock repurchase programs; and
- other risk factors detailed in our public filings with the Securities and Exchange Commission (the SEC), including risk factors contained in Item 1A, “Risk Factors” of this Annual Report on Form 10 K for the year ended February 2, 2019, as such may be amended or supplemented in our subsequently filed Quarterly Reports on Form 10 Q.

Except to the extent required by the federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Part I

Item 1. Business

Overview

Ulta Beauty is the largest beauty retailer in the United States and the premier beauty destination for cosmetics, fragrance, skin care products, hair care products, and salon services. We provide unmatched product breadth, value,

and convenience in a distinctive specialty retail environment. Key aspects of our business include:

Shopping Experience. Our guests can satisfy all of their beauty needs at Ulta Beauty. Our stores, website, and mobile applications offer more than 25,000 products from approximately 500 well-established and emerging

1

---

## Table of Contents

beauty brands across all categories and price points, including Ulta Beauty's own private label, the Ulta Beauty Collection. Our bright and open store environment and easy to shop website and mobile applications encourage our guests to enjoy discovering new products and services. We believe we offer the widest selection of categories across prestige and mass cosmetics, fragrance, haircare, skincare, bath and body products, and salon styling tools. We also offer a full-service salon in every store featuring hair, skin, makeup, and brow services.

**Value Proposition.** We believe our focus on delivering a compelling value proposition to our guests across all of our product categories drives guest loyalty. We offer a comprehensive loyalty program, Ultamate Rewards, and targeted promotions through our Customer Relationship Management (CRM) platform. We also offer frequent promotions and coupons, in-store events, and gifts with purchase.

**Convenience.** Our stores are predominantly located in convenient, high-traffic locations such as power centers. Our typical store is approximately 10,000 square feet, including approximately 950 square feet dedicated to our full-service salon. Our store design, fixtures, and open layout provide the flexibility to respond to consumer trends and changes in our merchandising strategy. As of February 2, 2019, we operated 1,174 retail stores across 50 states, as well as an e-commerce website and mobile applications.

We were founded in 1990 as a beauty retailer at a time when prestige, mass, and salon products were sold through distinct channels — department stores for prestige products, drug stores and mass merchandisers for mass products, and salons and authorized retail outlets for professional hair care products. We developed a unique specialty retail concept that offers a broad range of brands and price points, a compelling value proposition, and a convenient and welcoming shopping environment. We define our target consumer as a beauty enthusiast, a consumer who is passionate about the beauty category and has high expectations for the shopping experience. We estimate that beauty enthusiasts represent approximately 57% of shoppers and 77% of spend in the U.S. beauty category.

The following description of our business should be read in conjunction with the information contained in our Management's Discussion and Analysis of Financial Condition and Results of Operations included in Item 7 and our Financial Statements and Supplementary Data included in Item 8 of this Annual Report on Form 10 K.

### Our strategy

We are committed to executing our strategic imperatives to drive long-term growth and sustainable competitive advantages.

**Drive growth across beauty enthusiast consumer groups.** We target beauty enthusiasts across multiple demographics and shopping behaviors. With the unique needs and perspectives of our beauty enthusiast consumer groups, we have evolved how we connect with each group individually. We believe we can drive guest acquisition across beauty enthusiast consumer groups by evolving our brand purpose and marketing mix, expanding our efforts to target specific consumer groups, and driving our leadership as a diversity forward brand.

As we sharpen our brand positioning, we are increasing awareness of the Ulta Beauty brand by communicating our brand differentiation through broad scale advertising. We leverage a wide range of marketing tactics including digital, television, direct mail, social media, and public relations to drive brand engagement, deepen the guest connection to Ulta Beauty, and strengthen our authority in the beauty category. We also plan to continue to drive brand awareness and traffic by making human connections in more innovative and meaningful ways by continuing to transform our marketing mix towards channels of the future.

Deepen Ulta Beauty love and loyalty. We believe we can expand Ulta Beauty's reach, relevancy, and engagement with our guests by evolving the value proposition of our Ultimate Rewards program, building strategic partnerships that create incremental value for our guests, and using our customer data to deliver personalized member experiences. We have more than 31.8 million active Ulta Beauty guests enrolled in our Ultimate Rewards loyalty program. Loyalty member transactions represent over 95% of our annual total net sales, and our data demonstrates that loyalty members shop with higher frequency and spend more per visit as compared to non-members. We aim to continue to innovate this

2

---

## Table of Contents

program to keep it relevant, exciting, engaging, and growing. Our vision is to personalize messaging, communication, and experiences across every touch point: in-store, online, and through digital (including mobile) and print channels.

Deliver a one of a kind, world class beauty assortment. Assortment is at the center of our value proposition and represents a core differentiator within the market. We engage beauty enthusiasts to discover and play across all categories with an enticing assortment focused on innovation and leading trends, differentiation and exclusivity, and speed to market. We believe our broad selection of merchandise across categories, price points, and brands offer a unique shopping experience for our guests. While the products we sell can be found in department stores, specialty stores, salons, drug stores, mass merchandisers, and pure-play e-commerce companies, we offer approximately 500 brands so that our guests can find everything they need in one shopping trip. We continue to evolve our assortment to meet our guests' desire for new and exclusive products. We also continue to upgrade and enhance the Ulta Beauty Collection, our private label, which offers products in key categories such as cosmetics, skincare, and bath. Because of our broad array of categories, brand, and price points, we appeal to a wide range of consumers of all ages, demographics, and lifestyles.

Lead the in-store and beauty services experience transformation. The Ulta Beauty guest experience today is differentiated by our broad array of categories, brands and price points, high quality services, and friendly, well-trained associates. Our strategic vision is to transcend our competition by creating an immersive store experience that brings beauty to life in ways others cannot, by weaving together the best of products and services, focusing on human connection, and delivering a meaningful guest experience. Ulta Beauty is a leading salon authority that provides high quality and consistent services from our licensed stylists, with a focus on hair, skin, makeup, and brows. Our service offering is an important platform because it creates a means to connect more closely with our guests and to elevate their experience in our stores. Our strategy is to drive awareness and trial of our salon services with new guests as well as accelerate the frequency of existing guests' visits. Salon guests shop more frequently and spend almost three times more than non-salon guests based on our loyalty guest data. We believe focusing on guest satisfaction, increasing effectiveness of promotions, and optimizing staffing, scheduling, and training will make our services business an even stronger differentiator in our stores.

Reinvent beauty digital engagement. Our strategic vision is to build industry leading e-commerce experiences that engage our guests through our differentiated assortment, personalization, convenience and interactive experiences. Our omnichannel guests are extremely valuable, spending nearly three times more than retail only guests. To increase this engagement, we have a multifaceted approach to communicate, engage, and transact across all channels and touch points. By creating digital experiences that are visual and immersive, and seamlessly merging content and commerce, we aim to be the unmatched source of personalized beauty information and make the beauty shopping experience fun, interactive, easy, and functional. During fiscal 2018, we extended our digital innovation capabilities by partnering with technology companies such as Spruce and Iterate, and by acquiring technology companies GlamST and QM Scientific.

Deliver operational excellence and drive efficiencies. Our strategic vision is to manage end-to-end speed, quality, and efficiency to deliver exceptional guest experience, while leveraging efficiencies of scale to drive profit improvement. These operating efficiencies will help us fund investments required for future growth. Through our cost optimization program, Efficiencies For Growth, we plan to achieve cost savings in four work streams: category performance improvement, indirect procurement, end-to-end operations, and real estate. We expect to achieve savings of \$150 million to \$200 million through this program over the next three years.

Invest in talent that drives a winning culture. Leadership, culture, and engagement of our associates are key drivers of our performance. We have an experienced management team that brings a creative merchandising approach and a disciplined operating philosophy to our business. Our well-trained, non-commissioned store associates are highly engaged and deliver a differentiated guest experience. We continue to expand the depth of our team at all levels and in all functional areas to support our growth.

#### Our market

We operate within the large and growing U.S. beauty products and salon services industry. This market represents approximately \$145 billion in sales, according to Euromonitor International and IBIS World Inc. The approximately \$86 billion beauty products industry includes cosmetics, haircare, fragrance, bath and body, skincare, salon styling tools, and

3

---

Table of Contents

other toiletries. Within this market, we compete across all major categories as well as a range of price points by offering prestige, mass, and salon products. The approximately \$59 billion salon services industry consists of hair, skin, and nail services.

### Competition

Our major competitors for prestige and mass products include traditional department stores, specialty stores, drug stores, mass merchandisers, and the online capabilities of national retailers, as well as pure-play e-commerce companies. The market for salon services and products is highly fragmented. Our competitors for salon services and products include chain and independent salons.

### Our stores

Our retail stores are predominantly located in convenient, high-traffic locations such as power centers. Our typical store is approximately 10,000 square feet, including approximately 950 square feet dedicated to our full-service salon. Our retail store concept, including physical layout, displays, lighting, and quality of finishes, has evolved over time to match the rising expectations of our guests and to keep pace with our merchandising and operating strategies.

We offer a full range of services in all of our stores, focusing on hair, skin, makeup, and brow services. Our current Ulta Beauty store format includes an open and modern salon area with approximately eight to ten stations and the majority of our stores offer brow services. The salon features a concierge desk, skin treatment room or dedicated skin treatment area, and shampoo and hair color processing area. We employ highly skilled licensed professional stylists and estheticians who offer services as well as educational experiences, including consultations, styling lessons, makeup applications, skincare regimens, and at-home care recommendations.

In fiscal 2018, 74% of new stores opened in existing shopping centers and 26% opened in new shopping centers. Almost all new stores were filling in existing markets compared to new markets. As of February 2, 2019, we operated 1,174 stores across 50 states.

In addition to opening new stores, we also remodeled, relocated, or refreshed (in-store fixtures and merchandising upgrades) certain stores, as shown in the following table:

	Fiscal year ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Total stores beginning of period	1,074	974	874
Stores opened	107	102	104
Stores closed	(7)	(2)	(4)
Total stores end of period	1,174	1,074	974
Total square footage	12,337,145	11,300,920	10,271,184
Average square footage per store	10,509	10,522	10,545
Stores remodeled	13	11	12

Edgar Filing: Ulta Beauty, Inc. - Form 10-K

Stores relocated	2	7	2
Stores refreshed	109	190	213

Our real estate vision is to make Ulta Beauty accessible and convenient to more consumers across a variety of markets, a key part of how we plan to expand our market share over time. We believe that over the long term, we have the potential to grow our store base to between 1,500 to 1,700 Ulta Beauty stores in the United States. We plan to further penetrate existing suburban markets, expand our presence in small markets, and further develop urban markets. Our rigorous analytical approach to site selection has translated into a high performing real estate portfolio. We expect to open approximately 70 to 80 new stores per year for the next several years. The average investment required to open a new Ulta Beauty store is approximately \$1.4 million, which includes capital investments, net of landlord contributions, pre-

## Table of Contents

opening expenses, and initial inventory, net of payables. Our net investment required to open new stores and the net sales generated by new stores may vary depending on a number of factors, including geographic location.

### Omnichannel strategy

In addition to store expansion, we expect to significantly grow our omnichannel capabilities. Our e-commerce platform has two key roles: generating direct channel sales and profits by communicating with our guests in an interactive, enjoyable way that reinforces the Ulta Beauty brand and driving traffic to our stores, website, and native applications. Our omnichannel guests are extremely valuable, spending nearly three times as much as retail only guests. We continue to develop and add new website and mobile features and functionality, marketing programs, product assortment, new brands, and omnichannel integration points. We intend to establish ourselves as a leading online beauty resource by providing our guests with a rich online experience for information on key trends and products, editorial content, expanded assortments, best in class features and functionality, interactive experiences, including virtual try-on capabilities, and social media content. We also continue to improve our order fulfillment capabilities with increased speed of delivery through new distribution centers and efficient processes designed for e-commerce order fulfillment. We have begun to roll out omnichannel capabilities such as “Buy Online, Pick-up in Store” and during 2018, we deployed “Store 2 Door” in all stores which provide the ability for customers to order in-store and have products delivered to their homes.

### Merchandising

#### Strategy

We offer one of the most extensive product and brand selections in our industry, including a broad assortment of branded and private label beauty products in cosmetics, fragrance, haircare, skincare, bath and body products, and salon styling tools. A typical Ulta Beauty store carries more than 25,000 products from approximately 500 well-established and emerging beauty brands across all categories and price points, including Ulta Beauty’s own private label, the Ulta Beauty Collection. We present these products in an open-sell environment using centrally produced planograms (detailed schematics showing product placement in the store) and promotional merchandising planners. Our merchandising team continually monitors current fashion trends, historical sales trends, and new product launches to keep Ulta Beauty’s product assortment fresh and relevant to our guests. We believe our broad selection of merchandise, from moderate-priced brands to higher-end prestige brands, creates a unique shopping experience for our guests.

We believe our private label products, the Ulta Beauty Collection, are a strategically important category for growth and profit contribution. Our objective is to provide quality, trend-right private label products to continue to strengthen our guests’ perception of Ulta Beauty as a contemporary beauty destination. Ulta Beauty manages the full development cycle of these products from concept through production in order to deliver differentiated packaging and formulas to build our brand image. We also offer products such as Tarte Double Duty Beauty cosmetics, IT Brushes for Ulta Beauty, and CHI for Ulta Beauty hair care appliances that are permanently exclusive to Ulta Beauty. We also offer a number of products that are exclusive for a limited time or are offered in advance of our competitors. The Ulta Beauty Collection and Ulta Beauty exclusive products, both permanent and temporary, represented approximately 6.5% of our total net sales in fiscal 2018.

#### Categories

We offer a balanced portfolio across five primary categories: (1) cosmetics; (2) skincare, bath and fragrance; (3) haircare products and styling tools; (4) salon services; and (5) other, which includes nail products and accessories. We have gained market share across all categories of our business.

Table of Contents

The following table sets forth the approximate percentage of net sales attributed to each category for the periods presented:

	Fiscal year ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Cosmetics	51%	51%	51%
Skincare, Bath & Fragrance	21%	21%	20%
Haircare Products & Styling Tools	19%	19%	20%
Salon Services	4%	5%	5%
Other (nail products, accessories, and other)	5%	4%	4%
	100%	100%	100%

**Organization**

Our merchandising team consists of a Chief Merchandising and Marketing Officer overseeing two Senior Vice Presidents who in turn oversee a team of category Vice Presidents, Divisional Merchandise Managers, and their team of buyers. Our merchandising team works with our centralized merchandise planning and forecasting group to ensure a consistent execution across our store base and e-commerce platform.

Our planogram department assists the merchants and inventory teams to keep new products flowing into stores on a timely basis. All major product categories undergo planogram revisions on a regular basis and adjustments are made to assortment mix and product placement based on current sales trends.

Our visual department works with our merchandising team on strategic placement of promotional merchandise, along with functional and educational signage and creative product presentation standards in all of our stores. All stores receive a centrally produced promotional merchandising planner to ensure consistent implementation of our marketing programs.

**Planning and allocation**

Our merchandising team works to ensure consistent execution across our store base and e-commerce platform. We have developed a disciplined approach to buying and a dynamic inventory planning and allocation process to support our merchandising strategy. We centrally manage product replenishment to our stores through our merchandise planning group. This group serves as a strategic partner to, and provides financial oversight of, the merchandising team. The merchandising team creates a sales forecast by category for the year. Our merchandise planning group creates an open-to-buy plan, approved by senior executives, for each product category. The open-to-buy plan is updated weekly with point-of-sale (POS) data, receipts and inventory levels and is used throughout the year to balance buying opportunities and inventory return on investment. We believe this structure maximizes our buying opportunities while maintaining organizational and financial control. Regularly replenished products are presented consistently in all stores utilizing a merchandising planogram process. POS data is used to calculate sales forecasts and to determine replenishment levels. We determine promotional product replenishment levels using sales history from similar or comparable events. To ensure our inventory remains productive, our planning and replenishment group, along with senior executives, monitor the levels of clearance and aged inventory in our stores on a weekly basis. We continue to optimize our merchandising planning and forecasting system, master data, and space and floor planning systems.

**Vendor partnerships**

We have strong, active relationships with our more than 400 vendor partners. Our top ten vendor partners, such as Estée Lauder Companies, L'Oréal, and Shiseido among others, represented approximately 62% and 64% of our total net sales in fiscal 2018 and fiscal 2017, respectively. We believe our vendor partners view us as a significant distribution channel for growth and brand enhancement and we work closely with them to market both new and existing brands.

6

---

## Table of Contents

### Marketing and advertising

#### Marketing strategy

We employ a multi-faceted marketing strategy to increase brand awareness, drive traffic to our stores, website, and mobile applications, acquire new guests, improve guest retention, and increase frequency of shopping. We communicate with our guests and prospective guests through multiple vehicles, including print advertising, digital and social media, and television and radio. These vehicles highlight the breadth of our selection of prestige, mass, and salon beauty products, new products and services, and special offers. Our comprehensive public relations strategy enhances Ulta Beauty's reputation as a beauty destination, increases brand awareness, supports our charitable efforts related to the Ulta Beauty Charitable Foundation, and drives awareness of new products, in-store events, and new store openings.

Our loyalty program, Ultimate Rewards, is an important tool to increase retention of existing guests and to enhance their loyalty to the Ulta Beauty brand. Approximately 31.8 million active loyalty program members generated more than 95% of Ulta Beauty's total net sales in fiscal 2018. Ultimate Rewards enables customers to earn points based on their purchases. Points earned are valid for at least one year and may be redeemed on any product we sell or service provided. Our CRM platform enables sophisticated analysis of the customer data in our loyalty member database as well as greater personalization of our marketing campaigns. To enhance our loyalty program, we offer co-branded and private label credit cards. The credit cards drive higher wallet share and greater loyalty from our rewards members, provide increased consumer insights, and offer attractive economics. We continue to expand our gift card program to increase distribution to thousands of supermarkets and other retailers through a partnership with third parties.

We are directing a growing percentage of our marketing expense towards email marketing, digital and social marketing, and national TV and radio advertising. We believe these channels are highly effective in communicating with existing guests, as well as reaching those who have not yet shopped with us. Our email marketing program has been effective in communicating with our existing online, mobile, and retail guests in a targeted and relevant way. Our digital marketing strategy includes search engine optimization, paid search, mobile advertising, social media, display advertising, and other digital marketing channels. Digital marketing, coupled with our national TV and radio advertising, has helped us grow brand awareness among those not familiar with Ulta Beauty, which we believe has resulted in new guests.

### Staffing and operations

#### Retail stores

Our current Ulta Beauty store format is staffed with a general manager, a salon manager, two associate managers, a full time prestige manager, a part time operations manager, and approximately twenty full and part-time associates; including approximately four to eight prestige consultants and eight to ten licensed salon professionals. The management team in each store reports to the general manager. The general manager oversees all store activities including salon management, inventory management, merchandising, cash management, scheduling, hiring, and guest services. Members of store management receive bonuses depending on their position and based upon various metrics. Each general manager reports to a district manager, who in turn reports to a Regional Vice President of Operations, who in turn reports to a Senior Vice President of Store Operations, who in turn reports to the Chief Store Operations Officer, who in turn reports to the Chief Executive Officer. Each store team receives additional support from time to time from recruiting specialists for the retail and salon operations, regionally based human resource managers, a field loss prevention team, salon technical trainers, management trainers, and vendor partners.

Edgar Filing: Ulta Beauty, Inc. - Form 10-K

Ulta Beauty stores are open seven days a week, typically eleven hours a day, Monday through Saturday, and seven hours on Sunday. Our stores have extended hours during the holiday season.

Salon services

A typical salon is staffed with eight to ten licensed salon professionals, including a salon manager, six or more stylists, and one or two estheticians. Our most productive salons have a guest coordinator and an assistant manager. Our salon

7

---

## Table of Contents

technical trainers and vendor partner education classes create a comprehensive educational program for approximately 9,700 Ulta Beauty salon professionals.

### Training and development

Our success is dependent in part on our ability to attract, train, retain, and motivate qualified associates at all levels of the organization. We have developed a corporate culture that enables individual store managers to make store-level operating decisions and we consistently reward high performance. We are committed to continually developing our associates and providing career advancement opportunities. Our associates and management teams are essential to our store expansion strategy. We use a combination of existing managers, promoted associates, and outside hires to support our new stores.

All of our associates participate in an interactive new-hire orientation through which each associate becomes acquainted with Ulta Beauty's mission, vision, and values. We train and educate our new store managers, prestige beauty advisors, and sales associates on our beauty products and services, our policies and procedures, opening and closing routines, guest service expectations, loss prevention practices, and our culture. We provide continuing education to salon professionals and retail associates throughout their careers at Ulta Beauty. Our learning management system and our digital workplace system allows us to provide ongoing training to all associates to continually enhance their product knowledge, technical skills, and guest service expertise. In contrast to the sales teams at traditional department stores, our retail sales teams are not commissioned. Our prestige beauty advisors are trained to work across all prestige lines and within our prestige boutiques (sets of custom-designed fixtures configured to prominently display certain prestige brands within our stores), where guests can receive makeup demonstrations, skin analysis, and assistance in selecting the products and services that suit them best.

### Distribution

Our vision is to develop an expanded and optimized end-to-end supply chain that improves operational efficiency, performance, and guest experience. This includes enhanced systems and processes as well as a modernized distribution center network to support our new store program and rapid e-commerce growth. Currently, we operate five distribution centers. Starting in fiscal 2019, we expect to open a fast fulfillment center and pilot "Ship from Store" capabilities to reduce e-commerce shipment time.

Inventory is shipped from our suppliers to our distribution centers. We carry more than 25,000 products and replenish our stores with such products primarily in eases (i.e., less-than-case quantities), which allows us to ship less than an entire case when only one or two of a particular product is required. Our distribution centers use distribution management and distribution control software systems to maintain and support product purchase decisions. Store replenishment order selection is performed using pick-to-light processing technologies. Product is delivered to stores using a broad network of contract and local pool (final mile) carriers.

### Information technology

We are committed to using technology to enhance our competitive position. We depend on a variety of information systems and technologies to maintain and improve our competitive position and to manage the operations of our growing store base. We rely on computer systems to provide information for all areas of our business, including supply chain, merchandising, POS, e-commerce, marketing, finance, accounting, and human resources. Our core business systems consist mostly of purchased software programs that integrate together and with our internally developed software solutions. Our technology also includes a company-wide network that connects all corporate users, stores, and our distribution center infrastructure and provides communications for continual polling of sales and merchandise movement at the store level. We intend to leverage our technology infrastructure and systems where

appropriate to gain operational efficiencies through more effective use of our systems, people, and processes. We update the technology supporting our stores, distribution infrastructure, and corporate headquarters on a regular basis. We will continue to make investments in our information systems to facilitate growth and enhance our competitive position.

## Table of Contents

### Intellectual property

We have registered trademarks in the United States and other countries. The majority of our trademark registrations contain the ULTA mark, including Ulta Beauty and two related designs, Ulta.com and Ulta Salon, Cosmetics & Fragrance (and design). We maintain our marks and monitor filing deadlines for renewal and continued validity. All marks that are deemed material to our business have been applied for or registered in the United States and select foreign countries, including Canada, Mexico and other countries in Latin America, Europe, and Asia.

We believe our trademarks, especially those related to the Ulta Beauty brand, “The Possibilities are Beautiful®”, and “21 Days of Beauty®” have significant value and are important to building brand recognition.

### Government regulation

We are affected by extensive laws, governmental regulations, administrative determinations, court decisions, and similar constraints. Such laws, regulations, and other constraints exist at the federal, state, or local levels in the United States. The products we sell in our stores, such as cosmetics, dietary supplements, food and over-the-counter (OTC) drugs, medical devices, and styling tools, including our Ulta Beauty branded products, may be subject to regulation by the U.S. Food and Drug Administration (FDA), the U.S. Federal Trade Commission (FTC), the Consumer Product Safety Commission (CPSC), the Environmental Protection Agency (EPA), state regulatory agencies, and State Attorneys General (State AGs). Such regulations principally relate to the safety, labeling, manufacturing, advertising, and distribution of the products. In addition, the salon services provided in our stores may be subject to state and local regulations.

Products classified as cosmetics (as defined in the Federal Food, Drug and Cosmetic Act) are not subject to pre-market approval by the FDA, but the products must generally be safe and must be properly manufactured and labeled. Certain products, such as sunscreens and acne treatments, are classified as OTC drugs, and certain ingestible products, such as vitamins and minerals, are classified as dietary supplements. Both OTC drugs and dietary supplements have specific regulatory requirements, including ingredient, labeling, and manufacturing requirements. Products such as wrinkle reducing lights may be classified as medical devices and, in addition to being subject to labeling and manufacturing requirements, may also be subject to premarketing review by the FDA. Finally, products such as styling tools (e.g. blow dryers and curling irons) are regulated by the CPSC, which has strict requirements including the requirement to report certain product defects. The labeling and packaging of all of these products may also be subject to the requirements of the Fair Packaging and Labeling Act and state specific requirements.

Further, statements we make in advertising, including statements about the safety or efficacy of products, pricing, and environmental claims, are subject to federal and state consumer protection laws, which generally prohibit unfair or deceptive practices.

Labor and employment and taxation laws, to which most retailers are typically subject, also impact our day-to-day operations. We are also subject to typical zoning and real estate land use restrictions and typical advertising and consumer protection laws (both federal and state). Our services business is subject to state board regulations and state licensing requirements.

In our store leases, we require our landlords to obtain all necessary zoning approvals and permits for the site to be used as a retail site and we also ask them to obtain any zoning approvals and permits for our specific use (but at times the responsibility for obtaining zoning approvals and permits for our specific use falls to us). We require our landlords to deliver a certificate of occupancy for any work they perform on our buildings or the shopping centers in which our stores are located. We are responsible for delivering a certificate of occupancy for any remodeling or build-outs that we perform and are responsible for complying with all applicable laws in connection with such construction projects

or build-outs.

9

---

## Table of Contents

### Employees

As of February 2, 2019, we employed approximately 16,000 associates on a full-time basis and approximately 28,000 associates on a part-time basis. We have no collective bargaining agreements. We have not experienced any work stoppages and believe we have good relationships with our employees.

### Seasonality

Our business is subject to seasonal fluctuation. Significant portions of our net sales and profits are realized during the fourth quarter of the fiscal year due to the holiday selling season. To a lesser extent, our business is also affected by Mother's Day, Valentine's Day, and the "Back to School" season.

### Available information

Our principal website address is [www.ulta.com](http://www.ulta.com). We make available at this address under investor relations (at <http://ir.ultabeauty.com>), free of charge, our proxy statement, annual report to shareholders, annual report on Form 10 K, quarterly reports on Form 10 Q, current reports on Form 8 K, and all amendments to those reports as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. Information available on our website is not incorporated by reference in and is not deemed a part of this Form 10 K. In addition, our filings with the SEC may be accessed through the SEC's website at [www.sec.gov](http://www.sec.gov). All statements made in any of our securities filings, including all forward-looking statements or information, are made as of the date of the document in which the statement is included and we do not assume or undertake any obligation to update any of those statements or documents unless we are required to do so by law.

### Item 1A. Risk Factors

The risks described below could materially and adversely affect our business, financial condition, results of operations, or future growth. We could also be affected by additional risks that apply to all companies operating in the United States, as well as other risks that are not presently known to us or that we currently consider to be immaterial. You should carefully consider the following risks and all of the other information contained in this Annual Report on Form 10-K before making an investment in our common stock.

The health of the economy in the channels we serve may affect consumer purchases of discretionary items such as beauty products and salon services, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Our results of operations may be materially affected by conditions in the capital markets and the economy generally, both in the U.S. and internationally. We appeal to a wide demographic consumer profile and offer an extensive selection of beauty products sold directly to retail consumers and premium salon services. Uncertainty in the economy could adversely impact consumer purchases of discretionary items across all of our product categories, including prestige beauty products and premium salon services. Factors that could affect consumers' willingness to make such discretionary purchases include: general business conditions, levels of employment, interest rates, tax rates, the availability of consumer credit, and consumer confidence in future economic conditions. In the event of a prolonged economic downturn or acute recession, consumer spending habits could be adversely affected and we could experience lower than expected net sales.

In addition, a general deterioration in economic conditions could adversely affect our commercial partners including our vendor partners as well as the real estate developers and landlords who we rely on to construct and operate centers in which our stores are located. A bankruptcy or financial failure of a significant vendor or a number of significant

real estate developers or shopping center landlords could have a material adverse effect on our business, financial condition, profitability, and cash flows. Additionally, volatility and disruption to the capital and credit markets in the recent global recession had a significant, adverse impact on global economic conditions, resulting in recessionary pressures and declines in consumer confidence and economic growth, which, in turn, led to declines in consumer spending. Reduced consumer spending could cause changes in customer order patterns and changes in the level of merchandise purchased

Table of Contents

by our customers, and may signify a reset of consumer spending habits, all of which may adversely affect our business, financial condition, profitability, and cash flows.

We may be unable to compete effectively in our highly competitive markets.

The markets for beauty products and salon services are highly competitive with few barriers to entry. We compete against a diverse group of retailers, both small and large, including regional and national department stores, specialty retailers, drug stores, mass merchandisers, high-end and discount salon chains, locally owned beauty retailers and salons, online capabilities of national retailers, pure-play e-commerce companies, catalog retailers, and direct response television, including television home shopping retailers, and infomercials. We believe the principal bases upon which we compete are the breadth of merchandise, our value proposition, the quality of our guests' shopping experience, and the convenience of our stores as one-stop destinations for beauty products and salon services. Many of our competitors are, and many of our potential competitors may be, larger and have greater financial, marketing, and other resources and therefore, may be able to adapt to changes in customer requirements more quickly, devote greater resources to the marketing and sale of their products, generate greater national brand recognition, or adopt more aggressive pricing policies than we can. As a result, we may lose market share, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Our comparable sales and quarterly financial performance may fluctuate for a variety of reasons, which could result in a decline in the price of our common stock.

Our comparable sales and quarterly results of operations have fluctuated in the past, and we expect them to continue to fluctuate in the future. A variety of factors affect our comparable sales and quarterly financial performance, including:

- general U.S. economic conditions and, in particular, the retail sales environment;
- changes in our merchandising strategy or mix;
- performance of our new and remodeled stores;
- the effectiveness of our inventory management;
- timing and concentration of new store openings, including additional human resource requirements and related pre-opening and other start-up costs;
- cannibalization of existing store sales by new store openings;
- levels of pre-opening expenses associated with new stores;
- timing and effectiveness of our marketing activities;
- seasonal fluctuations due to weather conditions;
- actions by our existing or new competitors; and
- hurricanes, tornadoes, wildfires, earthquakes, mudslides, and other natural disasters.

Accordingly, our results for any one fiscal quarter are not necessarily indicative of the results to be expected for any other quarter, and comparable sales for any particular future period may decrease. In that event, the price of our common stock may decline. For more information on our quarterly results of operations, see Note 17 to our consolidated financial statements, "Selected quarterly financial data (unaudited)," and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

The capacity of our distribution and order fulfillment infrastructure and the performance of our distribution centers may not be adequate to support our historical growth and expected future growth plans, which could prevent the successful implementation of these plans or cause us to incur excess costs to expand this infrastructure, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

We currently operate five distribution facilities, which house the distribution operations for Ulta Beauty retail stores together with the order fulfillment operations of our e-commerce platform. In 2014, we began a multi-year supply chain project, which focused on, among other things, adding capacity and system improvements to support expanded omnichannel capabilities. In order to support our historical and expected future growth and to maintain the efficient operation of our business, it is likely additional distribution centers or fast fulfillment centers (e-commerce only) will be

11

---

Table of Contents

added in the future. Our failure to effectively upgrade and expand our distribution capacity on a timely basis to keep pace with our anticipated growth in stores and the performance of our distribution centers could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Any significant interruption in the operations of our distribution facilities could disrupt our ability to deliver merchandise to our stores in a timely manner, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

We distribute products to our stores without supplementing such deliveries with direct-to-store arrangements from vendors or wholesalers. We are a retailer carrying over 25,000 beauty products that change on a regular basis in response to beauty trends, which makes the success of our operations particularly vulnerable to disruptions in our distribution infrastructure. Any significant interruption in the operation of our supply chain infrastructure, such as disruptions in our information systems, disruptions in operations due to fire, natural disasters, or other catastrophic events, labor disagreements, or shipping and transportation problems, could drastically reduce our ability to receive and process orders and provide products and services to our stores, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Our e-commerce platform may be unsuccessful.

We offer most of our beauty products for sale through our Ulta.com website. As a result, we encounter risks and difficulties frequently experienced by internet-based businesses, including risks related to our ability to attract and retain customers on a cost-effective basis and our ability to operate, support, expand, and develop our internet operations, website, mobile applications and software, and other related operational systems. Although we believe that our omnichannel participation is a distinct advantage for us due to synergies and the potential for new customers, supporting product offerings through these channels could create issues that have the potential to adversely affect our results of operations. For example, if our e-commerce platform successfully grows, it may do so in part by attracting existing guests, rather than new guests, who choose to purchase products from us online or through our mobile applications rather than from our physical stores, thereby reducing the financial performance of our stores. In addition, offering different products through each channel could cause conflicts and cause some of our current or potential internet or mobile customers to consider competing distributors of beauty products. Offering products through our internet channel or through our mobile applications could also cause some of our current or potential vendors to consider competing internet or mobile offerings of their products either on their own or through competing distributors. As we continue to grow our e-commerce platform, the impact of attracting existing rather than new guests, conflicts between product offerings online or through our mobile applications and through our stores, and opening up our channels to increased competition from pure-play e-commerce companies could have a material adverse effect on our business, financial condition, profitability, and cash flows.

We may not be able to sustain our growth plans and successfully implement our long-range strategic and financial plans, which could have a material adverse effect on our business, financial condition, profitability, and cash flows. In addition, we intend to continue to open new stores, which could strain our resources and have a material adverse effect on our business, financial condition, profitability, and cash flows.

Our continued and future growth largely depends on our ability to implement our long-range strategic and financial plans and successfully open and operate new stores on a profitable basis. There can be no assurance that we will be successful in implementing our growth plans or long-range strategic imperatives, including our Efficiencies for Growth cost optimization program, and our failure to do so could have a material adverse effect on our business, financial condition, profitability, and cash flows. We intend to continue to grow our number of stores for the foreseeable future. Our continued expansion places increased demands on our financial, managerial, operational, supply-chain, and administrative resources. For example, our planned expansion will require us to increase the

number of people we employ, as well as to monitor and upgrade our management information and other systems, and our distribution infrastructure. These increased demands and operating complexities could cause us to operate our business less efficiently and could have a material adverse effect on our business, financial condition, profitability, and cash flows.

12

---

Table of Contents

Cybersecurity breaches and other disruptions could compromise our information, result in the unauthorized disclosure of confidential guest, employee, Company and/or business partners' information, damage our reputation, and expose us to liability, which could negatively impact our business.

In the ordinary course of our business, we collect, process, and store sensitive and confidential data, including our proprietary business information and that of our guests, suppliers and business partners, and personally identifiable information of our guests and employees, in our data centers and on our networks. The secure processing, maintenance, and transmission of this information is critical to our operations. We rely on commercially available systems, software, tools, and monitoring to provide security for processing, transmission, and storage of confidential information. Despite the security measures we have in place and continual vigilance in regard to the protection of sensitive information, our systems and those of our third-party service providers may be vulnerable to security breaches, attacks by hackers, acts of vandalism, computer viruses, misplaced or lost data, human errors, or other similar events. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost, or stolen. Any such access, disclosure, or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information, disrupt our operations, damage our reputation, and cause a loss of confidence in our business, products, and services, which could adversely affect our business, financial condition, profitability, and cash flows.

We are subject to risks relating to our information technology systems, and any failure to adequately protect our critical information technology systems or any material disruption of our information systems could negatively impact financial results and materially adversely affect our business operations, particularly during the holiday season.

We are increasingly dependent on a variety of information systems, including management, supply chain and financial information, and various other processes and transactions, to effectively manage our business. We have also identified the need to expand and upgrade our information systems to support historical and expected future growth. The failure of our information systems to perform as designed or breaches of security could have an adverse effect on our business and results of our operations. Any material disruption of our systems could disrupt our ability to track, record, and analyze the merchandise that we sell and could cause delays or cancellation of customer orders or impede the manufacture or shipment of products, the processing of transactions, our ability to receive and process e-commerce orders, and/or the reporting of financial results.

Our e-commerce operations are increasingly important to our business. The Ulta.com website and our mobile applications serve as an effective extension of Ulta Beauty's marketing and prospecting strategies (beyond catalogs, newspaper inserts, and national advertising) by exposing potential new customers to the Ulta Beauty brand, product offerings, and enhanced content. As the importance of our website, mobile applications, and e-commerce operations to our business grows, we are increasingly vulnerable to downtime and other technical failures. Our failure to successfully respond to these risks could reduce e-commerce sales and damage our brand's reputation.

Increased costs or interruption in our third-party vendors' overseas sourcing operations could disrupt production, shipment, or receipt of some of our merchandise, which could result in lost sales and could increase our costs.

We directly source the majority of our Ulta Beauty branded product components and gifts with purchase and other promotional products through third-party vendors using foreign factories. In addition, many of our vendors use overseas sourcing to varying degrees to manufacture some or all of their products. Any event causing a sudden disruption of manufacturing or imports from such foreign countries, including the imposition of additional import restrictions, unanticipated political changes, increased customs duties, legal or economic restrictions on overseas suppliers' ability to produce and deliver products, and natural disasters, could materially harm our operations. We have no long-term supply contracts with respect to such foreign-sourced items, many of which are subject to existing or potential duties, tariffs, or quotas that may limit the quantity of certain types of goods that may be imported into the

United States from such countries. Our business is also subject to a variety of other risks generally associated with sourcing goods from abroad, such as political instability, disruption of imports by labor disputes, and local business practices. Our sourcing operations may also be hurt by health concerns regarding infectious diseases in countries in which our merchandise is produced, adverse weather conditions or natural disasters that may occur overseas, or acts of war or terrorism in the United States or worldwide, to the extent these acts affect the production, shipment, or receipt of merchandise. Our future operations

Table of Contents

and performance will be subject to these factors and these factors could have a material adverse effect on our business, financial condition, profitability, and cash flows or may require us to modify our current business practices and incur increased costs.

A reduction in traffic to, or the closing of, the other destination retailers in the shopping areas where our stores are located could significantly reduce our sales and leave us with excess inventory, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

As a result of our real estate strategy, most of our stores are located in off-mall shopping areas known as power centers. Power centers typically contain three to five big-box anchor stores along with a variety of smaller specialty tenants. As a consequence of most of our stores being located in such shopping areas, our sales are derived, in part, from the volume of traffic generated by the other destination retailers and the anchor stores in power centers where our stores are located. Customer traffic to these shopping areas may be adversely affected by the closing of such destination retailers or anchor stores, or by a reduction in traffic to such stores resulting from a regional or global economic downturn, a general downturn in the local area where our store is located, or a decline in the desirability of the shopping environment of a particular power center. Such a reduction in customer traffic would reduce our sales and leave us with excess inventory, which could have a material adverse effect on our business, financial condition, profitability, and cash flows. We may respond by increasing markdowns, initiating marketing promotions, or transferring product to other stores to reduce excess inventory, which would further decrease our gross profits and net income.

Diversion of exclusive salon products, or a decision by manufacturers of exclusive salon products to utilize other distribution channels, could negatively impact our revenue from the sale of such products, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

The retail products that we sell in our salons are meant to be sold exclusively by professional salons and authorized professional retail outlets. However, incidents of product diversion occur, which involve the selling of salon exclusive haircare products to unauthorized channels such as drug stores, grocery stores, or mass merchandisers. Diversion could result in adverse publicity that harms the commercial prospects of our products (if diverted products are old, tainted, or damaged), as well as lower product revenues should consumers choose to purchase diverted product from these channels rather than purchasing from one of our salons. Additionally, the various product manufacturers could, in the future, decide to utilize other distribution channels for such products, therefore widening the availability of these products in other retail channels, which could negatively impact the revenue we earn from the sale of such products.

We rely on our good relationships with vendor partners to purchase prestige, mass, and salon beauty products on reasonable terms. If these relationships were to be impaired, or if certain vendor partners were to change their distribution model, or are unable to supply sufficient merchandise to keep pace with our growth plans, we may not be able to obtain a sufficient selection or volume of merchandise on reasonable terms, and we may not be able to respond promptly to changing trends in beauty products, either of which could have a material adverse effect on our competitive position, business, financial condition, profitability, and cash flows.

We have no long-term supply agreements with vendor partners and, therefore, our success depends on maintaining good relationships with our vendor partners. Our business depends to a significant extent on the willingness and ability of our vendor partners to supply us with a sufficient selection and volume of products to stock our stores. Some of our prestige vendor partners may not have the capacity to supply us with sufficient merchandise to keep pace with our growth plans. We also have strategic partnerships with certain core brands, which have allowed us to benefit from the growing popularity of such brands. Any of our other core brands could in the future decide to scale back or end its partnership with us and strengthen its relationship with our competitors, which could negatively impact the revenue

we earn from the sale of such products. If we fail to maintain strong relationships with our existing vendor partners, or fail to continue acquiring and strengthening relationships with additional vendor partners of beauty products, our ability to obtain a sufficient amount and variety of merchandise on reasonable terms may be limited, which could have a negative impact on our competitive position.

Table of Contents

During fiscal 2018 and fiscal 2017, merchandise supplied to Ulta Beauty by our top ten vendor partners accounted for approximately 62% and 64% of our net sales, respectively. There continues to be vendor consolidation within the beauty products industry. The loss of or a reduction in the amount of merchandise made available to us by any one of these key vendors, or by any of our other vendor partners, could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Use of social media may adversely impact our reputation.

There has been a substantial increase in the use of social media platforms, including blogs, social media websites, and other forms of internet-based and mobile communications, which allow individuals access to a broad audience of consumers and other interested persons. Negative commentary regarding us or the products we sell may be posted on social media platforms and similar devices at any time and may be adverse to our reputation or business. Customers value readily available information and often act on such information without further investigation and without regard to its accuracy or source. The harm may be immediate without affording us an opportunity for redress or correction.

We also use social media platforms as marketing tools. For example, we maintain Facebook, Twitter, Instagram, and Pinterest accounts. As laws and regulations rapidly evolve to govern the use of these platforms and devices, the failure by us, our employees, or third parties acting at our direction to abide by applicable laws and regulations in the use of these platforms and devices could adversely impact our business, financial condition, profitability, and cash flows.

Litigation and other legal or regulatory proceedings or claims and the outcome of such litigation, proceedings or claims, including possible fines and penalties, could have a material adverse effect on our business and any loss contingency accruals may not be adequate to cover actual losses.

From time to time, we are subject to litigation, including potential class action and single-plaintiff litigation and other legal or regulatory proceedings or claims in the ordinary course of our business operations regarding, but not limited to, employment matters, consumer claims, security of consumer and employee personal information, contractual relations with suppliers, marketing and infringement of trademarks, and other intellectual property rights. Litigation to defend ourselves against claims by third parties, or to enforce any rights that we may have against third parties, may be necessary, which could absorb significant management time, result in substantial costs and diversion of our resources, causing a material adverse effect on our business, financial condition, profitability, and cash flows. We establish accruals for potential liability arising from litigation and other legal or regulatory proceedings or claims when potential liability is probable and the amount of the loss can be reasonably estimated based on currently available information. We may still incur legal costs for a matter even if we have not accrued a liability. In addition, actual losses may be higher than the amount accrued for a certain matter, or in the aggregate. Any resolution of litigation or other legal or regulatory proceedings or claims could materially adversely impact our business, financial condition, profitability, and cash flows.

Specifically, our technologies, promotional products purchased from third-party vendors, and/or Ulta Beauty branded products, or potential products in development may infringe rights under patents, patent applications, trademark, copyright, or other intellectual property rights of third parties in the United States and abroad. These third parties could bring claims against us that would cause us to incur substantial expenses and, if successful, could cause us to pay substantial damages. Further, if a third party were to bring an intellectual property infringement suit against us, we could be forced to stop or delay development, manufacturing, or sales of the product that is the subject of the suit.

As a result of intellectual property infringement claims, or to avoid potential claims, we may choose to seek, or be required to seek, a license from the third party and would most likely be required to pay license fees or royalties or

both. These licenses may not be available on acceptable terms, or at all. Ultimately, we could be prevented from commercializing a product or be forced to cease some aspect of our business operations if, as a result of actual or threatened intellectual property infringement claims, we are unable to enter into licenses on acceptable terms. Even if we were able to obtain a license, the rights may be non-exclusive, which would give our competitors access to the same intellectual property. The inability to enter into licenses could harm our business significantly.

In addition to infringement claims against us, we may become a party to other patent or trademark litigation and other proceedings, including interference proceedings declared by the United States Patent and Trademark Office (USPTO)

Table of Contents

proceedings before the USPTO's Trademark Trial and Appeal Board and opposition proceedings in the European Patent Office, regarding intellectual property rights with respect to our technologies, products purchased from third-party vendors or our Ulta Beauty branded products. Some of our competitors may be able to bear the costs of such litigation or proceedings better than us because of their substantially greater financial resources. Uncertainties resulting from the initiation and continuation of intellectual property litigation or other proceedings could impair our ability to compete in the marketplace. Intellectual property litigation and other proceedings may also absorb significant management time and resources, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

If we are unable to gauge beauty trends and react to changing consumer preferences in a timely manner, our sales may decrease.

We believe our success depends in substantial part on our ability to:

- recognize and define product and beauty trends;
- anticipate, gauge, and react to changing consumer demands in a timely manner;
- translate market trends into appropriate, saleable product, and service offerings in our stores and salons in advance of our competitors;
- develop and maintain vendor relationships that provide us access to the newest merchandise on reasonable terms; and
- distribute merchandise to our stores in an efficient and effective manner and maintain appropriate in-stock levels.

If we are unable to anticipate and fulfill the merchandise needs of the consumer, our net sales may decrease and we may be forced to increase markdowns of slow-moving merchandise, either of which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

If we are unable to protect our intellectual property rights, our brand and reputation could be harmed, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

We regard our trademarks, trade dress, copyrights, trade secrets, know-how, and similar intellectual property as critical to our success. Our principal intellectual property rights include registered and common law trademarks on "The Possibilities are Beautiful.®," "Ulta Beauty," "Ulta," and other marks incorporating our name and "All Things Beauty. All in One Place®," and "21 Days of Beauty®," copyrights in our website and mobile applications content, rights to our domain name www.ulta.com, and trade secrets and know-how with respect to our Ulta Beauty branded product formulations, product sourcing, sales and marketing and other aspects of our business, and our digital innovations such as try-on applications and artificial intelligence. As such, we rely on trademark and copyright law, trade secret protection, and confidentiality agreements with certain of our employees, consultants, suppliers, and others to protect our proprietary rights. If we are unable to protect or preserve the value of our trademarks, copyrights, trade secrets, or other proprietary rights for any reason (including any cybersecurity incident that results in the unauthorized use of our intellectual property rights), or if other parties infringe on our intellectual property rights, our brand and reputation could be impaired and we could lose customers.

If our manufacturers are unable to produce products manufactured uniquely for Ulta Beauty, including Ulta Beauty branded products and gifts with purchase and other promotional products, consistent with applicable regulatory requirements, we could suffer lost sales and be required to take costly corrective action, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

We do not own or operate any manufacturing facilities and therefore depend upon independent third-party vendors for the manufacture of all products manufactured uniquely for Ulta Beauty, including the Ulta Beauty Collection and Ulta Beauty branded gifts with purchase and other promotional products. Our third-party manufacturers of Ulta Beauty

products may not maintain adequate controls with respect to product specifications and quality and may not continue to produce products that are consistent with applicable regulatory requirements. If we or our third-party manufacturers fail to comply with applicable regulatory requirements, we could be required to take costly corrective action. In addition, sanctions under various laws may include seizure of products, injunctions against future shipment of products, restitution

Table of Contents

and disgorgement of profits, operating restrictions, and criminal prosecution. The FDA does not have a pre-market approval system for cosmetics, and we believe we are permitted to market our cosmetics and have them manufactured without submitting safety or efficacy data to the FDA. However, cosmetic products may become subject to more extensive regulation in the future. These events could interrupt the marketing and sale of our Ulta Beauty products, severely damage our brand reputation and image in the marketplace, increase the cost of our products, cause us to fail to meet customer expectations, or cause us to be unable to deliver merchandise in sufficient quantities or of sufficient quality to our stores, any of which could result in lost sales, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

We, as well as our vendors, are subject to laws and regulations that could require us to modify our current business practices and incur increased costs, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

In our U.S. markets, numerous laws and regulations at the federal, state, and local levels can affect our business. Legal requirements are frequently changed and subject to interpretation, and we are unable to predict the ultimate cost of compliance with these requirements or their effect on our operations. If we fail to comply with any present or future laws or regulations, we could be subject to future liabilities, a prohibition on the operation of our stores, or a prohibition on the sale of our Ulta Beauty branded products. In particular, failure to adequately comply with the following legal requirements could have a material adverse effect on our business, financial condition, profitability, and cash flows.

- Comprehensive healthcare reform legislation under the Patient Protection and Affordable Care Act and the Health Care Education and Affordability Reconciliation Act (collectively, the Acts) was signed into law in 2010. This healthcare reform legislation significantly expanded healthcare coverage and future changes could significantly impact our business.
- Our rapidly expanding workforce, growing in pace with our number of stores, makes us vulnerable to changes in labor and employment laws. In addition, changes in federal and state minimum wage laws and other laws relating to employee benefits could cause us to incur additional wage and benefits costs, which could hurt our profitability and affect our growth strategy.
- Our salon business is subject to state board regulations and state licensing requirements for our stylists and our salon procedures. Failure to maintain compliance with these regulatory and licensing requirements could jeopardize the viability of our salons.
- We operate stores in California, which has enacted legislation commonly referred to as “Proposition 65” requiring that “clear and reasonable” warnings be given to consumers who are exposed to chemicals known to the State of California to cause cancer or reproductive toxicity. Although we have sought to comply with Proposition 65 requirements, there can be no assurance that we will not be adversely affected by litigation relating to Proposition 65.

In addition, the formulation, manufacturing, packaging, labeling, distribution, sale, and storage of our vendors’ products and our Ulta Beauty branded products are subject to extensive regulation by various federal agencies, including FDA, FTC, CPSC, and various state and local agencies, such as State AGs and District Attorneys. If we, our vendors, or the manufacturers of our Ulta Beauty branded products fail to comply with those regulations, we could become subject to significant penalties, claims, or product recalls, which could harm our results of operations or our ability to conduct our business.

In addition, the adoption of new regulations or changes in the interpretations of existing regulations may result in significant compliance costs or discontinuation of product sales and may impair the marketability of our vendors’ products or our Ulta Beauty branded products, resulting in significant loss of net sales. Our failure to comply with federal, state, or local requirements when we advertise our products (including prices) or services, or engage in other promotional activities, in digital (including social media), television, or print may result in enforcement actions and imposition of penalties or otherwise harm the distribution and sale of our products.

Table of Contents

Our Ulta Beauty branded products and salon services may cause unexpected and undesirable side effects that could result in their discontinuance or expose us to lawsuits, either of which could result in unexpected costs and damage to our reputation, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Unexpected and undesirable side effects caused by our Ulta Beauty branded products for which we have not provided sufficient label warnings or salon services, which may have been performed negligently, could result in the discontinuance of sales of our products or of certain salon services or prevent us from achieving or maintaining market acceptance of the affected products and services. Such side effects could also expose us to product liability or negligence lawsuits. Any claims brought against us may exceed our existing or future insurance policy coverage or limits. Any judgment against us that is in excess of our policy limits would have to be paid from our cash reserves, which would reduce our capital resources. These events could cause negative publicity regarding our Company, brand, or products, which could in turn harm our reputation and net sales, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

If we fail to retain our existing senior management team or attract qualified new personnel, such failure could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Our business requires disciplined execution at all levels of our organization. This execution requires an experienced and talented management team. If we were to lose the benefit of the experience, efforts, and abilities of key executive personnel, it could have a material adverse effect on our business, financial condition, profitability, and cash flows. Furthermore, our ability to manage our retail expansion will require us to continue to train, motivate, and manage our associates. We will need to attract, motivate, and retain additional qualified executive, managerial, and merchandising personnel and store associates. Competition for this type of personnel is intense, and we may not be successful in attracting, assimilating, and retaining the personnel required to grow and operate our business profitably.

Natural disasters or other catastrophes could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Natural disasters, such as hurricanes, tornados, wildfires, earthquakes, and mudslides, as well as acts of violence or terrorism, could result in physical damage to our properties, the temporary closure of stores and/or distribution centers, the temporary lack of an adequate work force, the temporary or long-term disruption in the supply of products (or a substantial increase in the cost of those products) from domestic or foreign suppliers, the temporary disruption in the delivery of goods both to and from our distribution centers (or a substantial increase in the cost of those deliveries), the temporary reduction in the availability of products in our stores and/or the temporary reduction in visits to stores by customers. Accordingly, if one or more natural disasters and/or acts of violence or terrorism were to occur, it could have a material adverse effect on our business, financial condition, profitability, and cash flows or may require us to incur increased costs.

As we grow the number of our stores in new locations, we are subject to local building codes in an increasing number of local jurisdictions. Our failure to comply with local building codes, and the failure of our landlords to obtain certificates of occupancy in a timely manner, could cause delays in our new store openings, which could increase our store opening costs, cause us to incur lost sales and profits, and damage our public reputation.

Ensuring compliance with local zoning and real estate land use restrictions across numerous jurisdictions is increasingly challenging as we grow the number of our stores in new locations. Our store leases generally require us to provide a certificate of occupancy with respect to the interior build-out of our stores (landlords generally provide the certificate of occupancy with respect to the shell of the store and the larger shopping area and common areas), and while we strive to remain in compliance with local building codes relating to the interior build out of our stores, the constantly increasing number of local jurisdictions in which we operate makes it increasingly difficult to stay abreast of changes in, and requirements of, local building codes and local building and fire inspectors' interpretations of such building codes. Moreover, our landlords have occasionally been unable, due to the requirements of local zoning laws, to obtain in a timely manner a certificate of occupancy with respect to the shell of our stores and/or the larger shopping centers and/or common areas (which certificate of occupancy is required by local building codes for us to open our store), causing us in

## Table of Contents

some instances to delay store openings. As the number of local building codes and local building and fire inspectors to which we and our landlords are subject to increases, we may be increasingly vulnerable to increased construction costs and delays in store openings caused by our or our landlords' compliance with local building codes and local building and fire inspectors' interpretations of such building codes. Any such increased construction costs and/or delays in store openings could increase our store opening costs, cause us to incur lost sales and profits, and damage our public reputation, which could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Increases in the demand for, or the price of, raw materials used to build and remodel our stores could hurt our profitability.

The raw materials used to build and remodel our stores are subject to availability constraints and price volatility caused by weather, supply conditions, government regulations, general economic conditions, and other unpredictable factors. As a retailer engaged in an active building and remodeling program, we are particularly vulnerable to increases in construction and remodeling costs. As a result, increases in the demand for, or the price of, raw materials could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Our secured revolving credit facility contains certain restrictive covenants that could limit our operational flexibility, including our ability to open stores.

We have a \$400 million secured revolving credit facility with a term expiring in August 2022. Substantially all of our assets are pledged as collateral for outstanding borrowings under the agreement. Outstanding borrowings bear interest at either a base rate or the London Interbank Offered Rate (LIBOR) plus 1.25% and the unused line fee is 0.20% per annum. The credit facility agreement contains usual and customary restrictive covenants relating to our management and the operation of our business. These covenants, among other things, limit our ability to grant liens on our assets, incur additional indebtedness, pay cash dividends and redeem our stock, enter into transactions with affiliates, and merge or consolidate with another entity. These covenants could restrict our operational flexibility and any failure to comply with these covenants or our payment obligations would limit our ability to borrow under the credit facility and, in certain circumstances, may allow the lenders thereunder to require repayment.

The market price for our common stock may be volatile.

The market price of our common stock is likely to fluctuate significantly from time to time in response to factors including:

- differences between our actual financial and operating results and those expected by investors;
- fluctuations in quarterly operating results;
- our performance during peak retail seasons such as the holiday season;
- market conditions in our industry and the economy as a whole;
- changes in the estimates of our operating performance or changes in recommendations by any research analysts that follow our stock or any failure to meet the estimates made by research analysts;
- investors' perceptions of our prospects and the prospects of the beauty products and salon services industries;
- the performance of our key vendor partners;
- announcements by us, our vendor partners, or our competitors of significant acquisitions, divestitures, strategic partnerships, joint ventures, or capital commitments;
- introductions of new products or new pricing policies by us or by our competitors;
- stock transactions by our principal stockholders;
- recruitment or departure of key personnel; and
- the level and quality of securities research analyst coverage for our common stock.

In addition, public announcements by our competitors, other retailers, and vendors concerning, among other things, their performance, strategy, or accounting practices could cause the market price of our common stock to decline regardless of our actual operating performance.

Table of Contents

Increases in costs of mailing, paper, and printing will affect the cost of our catalog and promotional mailings, which could reduce our profitability.

Postal rate increases and paper and printing costs affect the cost of our catalog and promotional mailings. In response to any future increases in mailing costs, we may consider reducing the number and size of certain catalog editions. In addition, we rely on discounts from the basic postal rate structure, such as discounts for bulk mailings and sorting by zip code and carrier routes. We are not a party to any long-term contracts for the supply of paper. The cost of paper fluctuates significantly, and our future paper costs are subject to supply and demand forces that we cannot control. Future additional increases in postal rates or in paper or printing costs could have a material adverse effect on our business, financial condition, profitability, and cash flows.

Our previously announced stock repurchase programs, and any subsequent stock purchase program put in place from time to time, could affect the price of our common stock and increase volatility and may be suspended or terminated at any time, which may result in a decrease in the trading price of our common stock.

We may have in place from time to time, a stock repurchase program. Any such stock repurchase program adopted will not obligate the Company to repurchase any dollar amount or number of shares of common stock and may be suspended or discontinued at any time, which could cause the market price of our common stock to decline. The timing and actual number of shares repurchased under any such stock repurchase program depends on a variety of factors including the timing of open trading windows, price, corporate and regulatory requirements, and other market conditions. We may affect repurchases under any stock repurchase program from time to time in the open market, in privately negotiated transactions or otherwise, including accelerated stock repurchase arrangements. Repurchases pursuant to any such stock repurchase program could affect our stock price and increase its volatility. The existence of a stock repurchase program could also cause our stock price to be higher than it would be in the absence of such a program and could potentially reduce the market liquidity for our stock. There can be no assurance that any stock repurchases will enhance stockholder value because the market price of our common stock may decline below the levels at which we repurchased shares of common stock. Although our stock repurchase program is intended to enhance stockholder value, short-term stock price fluctuations could reduce the program's effectiveness.

Changes in accounting standards and subjective assumptions, estimates, and judgments by management related to complex accounting matters could affect our financial results or financial condition.

Generally accepted accounting principles and related accounting pronouncements, implementation guidelines, and interpretations with regard to a wide range of matters that are relevant to our business, such as revenue recognition, lease obligations, inventory valuation, vendor allowances, impairment of long-lived tangible assets, customer loyalty program, share-based compensation, tax matters, and litigation, are highly complex and involve many subjective assumptions, estimates, and judgments. Changes in these rules or their interpretation or changes in underlying assumptions, estimates, or judgments could negatively affect our reported or expected financial performance or financial condition.

We are a holding company with no operations of our own, and we depend on our subsidiaries for cash.

We are a holding company and we do not have any material assets or operations other than ownership of equity interests of our subsidiaries. Our operations are conducted entirely through our subsidiaries, and our ability to generate cash to meet our obligations or to repurchase stock or pay dividends (if declared by our Board of Directors in the future) is dependent on the earnings of, and receipt of funds from, our subsidiaries through dividends or intercompany loans. The ability of our subsidiaries to generate sufficient cash flow from operations to allow us and them to make scheduled payments on our obligations will depend on their future financial performance, which will be affected by a range of economic, competitive, and business factors, many of which are outside of our control.

Table of Contents

Anti-takeover provisions in our organizational documents and Delaware law may discourage or prevent a change in control, even if a sale of the Company would be beneficial to our stockholders, which could cause our stock price to decline and prevent attempts by our stockholders to replace or remove our current management.

Our certificate of incorporation and bylaws contain provisions that may delay or prevent a change in control, discourage bids at a premium over the market price of our common stock, and harm the market price of our common stock and diminish the voting and other rights of the holders of our common stock. These provisions include:

- dividing our Board of Directors into three classes serving staggered three-year terms;
- authorizing our Board of Directors to issue preferred stock and additional shares of our common stock without stockholder approval;
- prohibiting stockholder actions by written consent;
- prohibiting our stockholders from calling a special meeting of stockholders;
- prohibiting our stockholders from making certain changes to our certificate of incorporation or bylaws except with a two-thirds majority stockholder approval; and
- requiring advance notice for raising business matters or nominating directors at stockholders' meetings.

We are also subject to provisions of Delaware law that, in general, prohibit any business combination with a beneficial owner of 15% or more of our common stock for three years after the stockholder becomes a 15% stockholder, subject to specified exceptions. Together, these provisions of our certificate of incorporation and bylaws and of Delaware law could make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our common stock.

Item 1B. Unresolved Staff Comments

None.

Table of Contents

## Item 2. Properties

All of our retail stores, distribution centers, and corporate offices are leased or subleased.

## Retail stores

Our retail stores are predominantly located in convenient, high-traffic locations such as power centers. Our typical store is approximately 10,000 square feet, including approximately 950 square feet dedicated to our full-service salon. Most of our retail store leases provide for a fixed minimum annual rent and generally have a 10-year initial term with options for two or three extension periods of five years each, exercisable at our option. As of February 2, 2019, we operated 1,174 retail stores across 50 states, as shown in the table below:

Location	Number of stores	Location	Number of stores
Alabama	18	Montana	6
Alaska	3	Nebraska	5
Arizona	27	Nevada	14
Arkansas	10	New Hampshire	7
California	150	New Jersey	34
Colorado	25	New Mexico	6
Connecticut	16	New York	45
Delaware	3	North Carolina	30
Florida	83	North Dakota	3
Georgia	35	Ohio	41
Hawaii	4	Oklahoma	20
Idaho	8	Oregon	14
Illinois	55	Pennsylvania	42
Indiana	22	Rhode Island	3
Iowa	10	South Carolina	20
Kansas	12	South Dakota	2
Kentucky	14	Tennessee	24
Louisiana	17	Texas	104
Maine	3	Utah	14
Maryland	22	Vermont	1
Massachusetts	18	Virginia	27
Michigan	46	Washington	33
Minnesota	17	West Virginia	7
Mississippi	9	Wisconsin	20
Missouri	23	Wyoming	2
		Total	1,174

Table of Contents

## Distribution centers

Our standard distribution center lease provides for a fixed minimum annual rent and generally has a 10 or 15 year initial term with three or four renewal options with terms of five years each. The general location, approximate size, and lease expiration dates of our distribution centers at February 2, 2019, are set forth below:

Location	Approximate Square Feet	Lease Expiration Date
Romeoville, Illinois	291,000	April 30, 2020
Chambersburg, Pennsylvania	373,000	March 31, 2027
Greenwood, Indiana	671,000	July 31, 2025
Dallas, Texas	671,000	July 31, 2026
Fresno, California	671,000	July 31, 2028

The Phoenix, Arizona distribution center lease expired on March 31, 2019.

## Corporate office

Our principal executive office is in Bolingbrook, Illinois. The corporate office is approximately 411,000 square feet with lease terms expiring from 2019 to 2028. Additionally, we have a satellite corporate office in Chicago, Illinois. The Chicago office is approximately 23,000 square feet with lease expiration in 2024.

## Item 3. Legal Proceedings

See Note 8 to our consolidated financial statements, "Commitments and contingencies - General litigation," for information on legal proceedings.

## Item 4. Mine Safety Disclosures

None.

## EXECUTIVE OFFICERS OF THE REGISTRANT

The names of our executive officers, their ages and their positions are shown below:

Name	Age	Position
Mary N. Dillon	57	Chief Executive Officer and member of the Board of Directors
Scott M. Settersten	58	Chief Financial Officer, Treasurer and Assistant Secretary
Jodi J. Caro	53	General Counsel, Chief Compliance Officer and Corporate Secretary
Jeffrey J. Childs	61	Chief Human Resources Officer
David C. Kimbell	52	Chief Merchandising and Marketing Officer

There is no family relationship between any of the directors or executive officers and any other director or executive officer of Ulta Beauty.

Mary N. Dillon. Ms. Dillon was named Chief Executive Officer effective July 2013. Prior to joining Ulta Beauty, she was President and Chief Executive Officer and a Director of U.S. Cellular from June 2010 to July 2013. From 2005 to 2010, Ms. Dillon served as Global Chief Marketing Officer and Executive Vice President for McDonald's Corporation. Prior to joining McDonald's Corporation, she held various positions at PepsiCo, including President of the Quaker Foods division. Ms. Dillon serves as a member of the Board of Directors for Starbucks Corporation and KKR & Co. Inc. and previously served on the board of Target Corporation from 2007 to 2013.

Scott M. Settersten. Mr. Settersten was named Chief Financial Officer, Treasurer and Assistant Secretary in March 2013 after having previously served as Acting Chief Financial Officer and Assistant Secretary since October 2012. Prior to

Table of Contents

this role, Mr. Settersten served as Vice President of Accounting since 2010 and was responsible for accounting, tax, external reporting and investor relations. He joined Ulta Beauty in January 2005 as a Director of Financial Reporting. Prior to joining Ulta Beauty, Mr. Settersten spent 15 years with PricewaterhouseCoopers LLP as a certified public accountant serving in various senior manager roles in the assurance and risk management practices.

Jodi J. Caro. Ms. Caro was named General Counsel, Chief Compliance Officer & Corporate Secretary in August 2015. Prior to joining Ulta Beauty, she was Vice President, General Counsel and Secretary for Integrys Energy Group, in addition to holding the role of Integrys' Chief Compliance and Ethics Officer. Prior to joining Integrys in 2008, Ms. Caro owned and operated her own law practice, which provided general counsel and corporate services to clients ranging from established multi-million dollar companies to medium and small early-stage enterprises. Prior to opening her law practice in 2006, she was co-founder and General Counsel of Looking Glass Networks, a privately held, facilities-based telecommunications company, and served as an in-house attorney with MCI/WORLDCOM.

Jeffrey J. Childs. Mr. Childs was named Chief Human Resource Officer in October 2013. Prior to joining Ulta Beauty, he was Executive Vice President and Chief Human Resource Officer at U.S. Cellular after joining as Senior Vice President of Human Resources in 2004. From 2001 to 2004, he was President and Owner of Childs Consulting Services. Previously, he served from 1979 to 2001 in a variety of human resources, marketing, sales and operations roles at AT&T, Ameritech and SBC including Vice President, Human Resources and Corporate Services.

David C. Kimbell. Mr. Kimbell was named Chief Merchandising and Marketing Officer in March 2015 after having previously served as Chief Marketing Officer since February 2014. Prior to joining Ulta Beauty, he was Chief Marketing Officer and Executive Vice President at U.S. Cellular since February 2011. From 2008 to 2011, Mr. Kimbell served as Chief Marketing Officer and Senior Vice President of Seventh Generation, a producer of environmentally friendly household and baby care products. Prior to that from 2001 to 2008, Mr. Kimbell held various positions at PepsiCo, Quaker Food Division, including Vice President of Marketing. Mr. Kimbell held a number of marketing roles for several brands at The Procter and Gamble Company from 1995 to 2001.

Part II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market information

Our common stock has traded on the NASDAQ Global Select Market under the symbol "ULTA" since October 25, 2007.

Holders of the registrant's common stock

The last reported sale price of our common stock on the NASDAQ Global Select Market on March 28, 2019 was \$345.23 per share. As of March 28, 2019, we had 38 holders of record of our common stock. Because many shares of common stock are held by brokers and other institutions on behalf of stockholders, we are unable to estimate the total number of stockholders represented by these record holders.

Table of Contents

## Purchases of equity securities by the issuer and affiliated purchasers

The following table sets forth repurchases of our common stock during the fourth quarter of 2018:

Period	Total number of shares purchased (1)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs (2)	Approximate dollar value of shares that may yet to be purchased under plans or programs (in thousands) (2)
November 4, 2018 to December 1, 2018	150,338	\$ 302.49	150,338	\$ 237,361
December 2, 2018 to December 29, 2018	393,706	249.07	393,472	139,362
December 30, 2018 to February 2, 2019	338,187	276.30	337,627	46,065
13 weeks ended February 2, 2019	882,231	268.61	881,437	46,065

(1) There were 881,437 shares repurchased as part of our publicly announced share repurchase program during the 13 weeks ended February 2, 2019 and there were 794 shares transferred from employees in satisfaction of minimum statutory tax withholding obligations upon the vesting of restricted stock during the period.

(2) On March 15, 2018, we announced our 2018 share repurchase program pursuant to which the Company may repurchase up to \$625.0 million of the Company's common stock. The 2018 share repurchase program did not have an expiration date but provided for suspension or discontinuation at any time. As of February 2, 2019, \$46.1 million remained available under the \$625.0 million 2018 share repurchase program. On March 14, 2019, we announced the 2019 share repurchase program. For additional information on the 2019 share repurchase program see Note 19 to our consolidated financial statements, "Subsequent event."

## Recent sales of unregistered securities

None.

## Securities authorized for issuance under equity compensation plans

The following table provides information about Ulta Beauty common stock that may be issued under our equity compensation plans as of February 2, 2019:

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (2)	Weighted-average exercise price of outstanding options, warrants and rights (3)	Number of securities remaining available for future issuance under equity compensation plans (4)
Equity compensation plans approved by security holders (1)	1,016,561	\$ 174.34	3,336,386

- (1) Includes options issued and available for exercise and shares available for issuance in connection with past awards under the Amended and Restated 2011 Incentive Award Plan and predecessor equity incentive plans. We currently grant awards only under the Amended and Restated 2011 Incentive Award Plan.
- (2) Includes 754,666 shares issuable pursuant to the exercise of outstanding stock options, 167,742 shares issuable pursuant to restricted stock units, and 94,153 shares issuable pursuant to performance-based units.
- (3) Calculation of weighted-average exercise price of outstanding awards includes stock options, but does not include shares of restricted stock units or performance-based units that convert to shares of common stock for no consideration.

Table of Contents

- (4) Represents shares that are available for issuance pursuant to the Amended and Restated 2011 Incentive Award Plan. The shares available under the plan are reduced by 1.0 for each stock option awarded and by 1.5 for each restricted stock unit and performance-based unit awarded.

## Stock performance graph

The following performance graph and related information shall not be deemed “soliciting material” or to be “filed” with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933 or Securities Exchange Act of 1934, each as amended, except to the extent that we specifically incorporate it by reference into such filing.

Set forth below is a graph comparing the cumulative total stockholder return on Ulta Beauty’s common stock with the NASDAQ Global Select Market Composite Index (NQGS) and the S&P Retail Index (RLX) for the period covering February 1, 2014 through the end of Ulta Beauty’s fiscal year ended February 2, 2019. The graph assumes an investment of \$100 made at the closing of trading on February 1, 2014 in (i) Ulta Beauty’s common stock, (ii) the stocks comprising the NQGS and (iii) stocks comprising the RLX. All values assume reinvestment of the full amount of all dividends, if any, into additional shares of the same class of equity securities at the frequency with which dividends are paid on such securities during the applicable time period.

Company / Index	Fiscal year ended					
	February 1, 2014	January 31, 2015	January 30, 2016	January 28, 2017	February 3, 2018	February 2, 2019
Ulta Beauty	\$ 100.00	\$ 154.91	\$ 212.72	\$ 319.69	\$ 260.77	\$ 342.75
NQGS	100.00	113.40	113.55	138.09	182.52	179.24
RLX	100.00	118.75	137.22	160.31	230.59	248.01

---

(1) Our fiscal year-end is the Saturday closest to January 31 based on a 52/53 week year. Each fiscal year consists of four 13 week quarters, with an extra week added onto the fourth quarter every five or six years.

(2) The Company adopted Accounting Standards Codification (ASC) Topic 606, Revenue from Contracts with Customers (ASC 606) using the modified retrospective transition method in fiscal 2018. Results from fiscal years prior to fiscal 2018 have not been recast for the adoption of ASC 606.

Table of Contents

- (3) Fiscal 2017 includes 53 weeks; all other fiscal years reported include 52 weeks. Net sales for the 53rd week of fiscal 2017 were approximately \$108.8 million.
  - (4) On December 22, 2017, the Tax Cuts and Jobs Act was enacted into law. This new legislation reduced the federal corporate tax rate to 21.0% effective January 1, 2018. In accordance with Section 15 of the Internal Revenue Code, the Company utilized a blended rate of 33.7% for the fiscal 2017 tax year, by applying a prorated percentage of the number of days prior to and subsequent to the January 1, 2018 effective date. Income tax expense in fiscal 2018 reflects the lower federal tax rate for the entire fiscal year.
  - (5) Comparable sales increase reflects sales for stores beginning on the first day of the 14th month of operation. Remodeled stores are included in comparable sales unless the store was closed for a portion of the current or comparable prior year.
  - (6) Total square footage per store is calculated by dividing total square footage at end of year by number of stores at end of year.
  - (7) Average total square footage represents a weighted average, which reflects the effect of opening stores in different months throughout the year.
  - (8) The Company prospectively adopted Accounting Standards Update No. 2015-17, Balance Sheet Classification of Deferred Taxes, in the fourth quarter of fiscal 2015. As a result of this adoption, current deferred tax assets were classified as non-current liabilities at February 2, 2019, February 3, 2018, January 28, 2017, and January 30, 2016.
- Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and related notes included elsewhere in this Annual Report on Form 10-K.

Overview

We were founded in 1990 as a beauty retailer at a time when prestige, mass, and salon products were sold through distinct channels – department stores for prestige products, drug stores and mass merchandisers for mass products, and salons and authorized retail outlets for professional hair care products. We developed a unique specialty retail concept that offers a broad range of brands and price points, a compelling value proposition, and a convenient and welcoming shopping environment. We define our target consumer as a beauty enthusiast, a consumer who is passionate about the beauty category and has high expectations for the shopping experience. We estimate the beauty enthusiasts represents approximately 57% of shoppers and 77% of spend in the U.S. beauty category. We believe our strategy provides us with the competitive advantages that have contributed to our financial performance.

We are the largest beauty retailer in the United States and the premier beauty destination for cosmetics, fragrance, skin care products, hair care products, and salon services. We provide unmatched product breadth, value, and convenience in a distinctive specialty retail environment. Key aspects of our business include: our ability to offer our guests a unique combination of more than 25,000 beauty products from across the categories of prestige and mass cosmetics, fragrance, haircare, skincare, bath and body products, and salon styling tools, as well as a full-service salon in every store featuring hair, skin, and brow services; our focus on delivering a compelling value proposition to our guests across all of our product categories; and convenience, as our stores are predominantly located in convenient, high-traffic locations such as power centers.

The continued growth of our business and any future increases in net sales, net income, and cash flows is dependent on our ability to execute our strategic imperatives: 1) drive growth across beauty enthusiast consumer groups, 2) deepen Ulta Beauty love and loyalty, 3) deliver a one of a kind, world class beauty assortment, 4) lead the in-store and beauty services experience transformation, 5) reinvent beauty digital engagement, 6) deliver operational excellence and drive efficiencies, and 7) invest in talent that drives a winning culture. We believe that the expanding U.S. beauty products and salon services industry, the shift in distribution channel of prestige beauty products from department stores to specialty

## Table of Contents

retail stores, coupled with Ulta Beauty's competitive strengths, positions us to capture additional market share in the industry.

Comparable sales is a key metric that is monitored closely within the retail industry. Our comparable sales have fluctuated in the past and we expect them to continue to fluctuate in the future. A variety of factors affect our comparable sales, including general U.S. economic conditions, changes in merchandise strategy or mix, and timing and effectiveness of our marketing activities, among others.

Over the long term, our growth strategy is to increase total net sales through increases in our comparable sales, opening new stores, and increasing omnichannel capabilities. Operating profit is expected to increase as a result of our ability to expand merchandise margin and leverage our fixed store costs with comparable sales increases and operating efficiencies offset by incremental investments in people, systems, and supply chain required to support a 1,500 to 1,700 store chain in the U.S. with successful e-commerce and competitive omnichannel capabilities.

### Basis of presentation

The Company has one reportable segment, which includes retail stores, salon services, and e-commerce.

We recognize merchandise revenue at the point of sale in our retail stores. E-commerce merchandise sales are recognized based upon shipment of merchandise to the guest based on meeting the transfer of control criteria. Retail store and e-commerce sales are recorded net of estimated returns. Shipping and handling are treated as costs to fulfill the contract, and as a result, any fees received from guests are included in the transaction price allocated to the performance obligation of providing goods with a corresponding amount accrued within cost of sales for amounts paid to applicable carriers. We provide refunds for merchandise returns within 60 days from the original purchase date. State sales taxes are presented on a net basis as we consider our self a pass-through conduit for collecting and remitting state sales tax. Salon service revenue is recognized at the time the service is provided to the guest. Gift card sales revenue is deferred until the guest redeems the gift card. Company coupons and other incentives are recorded as a reduction of net sales. Other revenue sources include the private label credit card and co-branded credit card programs, as well as deferred revenue related to the loyalty program and gift card breakage.

Comparable sales reflect sales for stores beginning on the first day of the 14th month of operation. Therefore, a store is included in our comparable store base on the first day of the period after one year of operations plus the initial one month grand opening period. Non-comparable store sales include sales from new stores that have not yet completed their 13th month of operation and stores that were closed for part or all of the period in either year as a result of remodel activity. Remodeled stores are included in comparable sales unless the store was closed for a portion of the current or prior period. Comparable sales include retail sales, salon services, and e-commerce. There may be variations in the way in which some of our competitors and other retailers calculate comparable or same store sales.

Measuring comparable sales allows us to evaluate the performance of our store base as well as several other aspects of our overall strategy. Several factors could positively or negatively impact our comparable sales results:

- the general national, regional, and local economic conditions and corresponding impact on customer spending levels;
- the introduction of new products or brands;
- the location of new stores in existing store markets;

- competition;
- our ability to respond on a timely basis to changes in consumer preferences;
- the effectiveness of our various merchandising and marketing activities; and
- the number of new stores opened and the impact on the average age of all of our comparable stores.

Table of Contents

Cost of sales includes:

- the cost of merchandise sold, including substantially all vendor allowances, which are treated as a reduction of merchandise costs;
- distribution costs including labor and related benefits, freight, rent, depreciation and amortization, real estate taxes, utilities, and insurance;
- shipping and handling costs;
- retail stores occupancy costs including rent, depreciation and amortization, real estate taxes, utilities, repairs and maintenance, insurance, licenses, and cleaning expenses;
- salon services payroll and benefits; and
- shrink and inventory valuation reserves.

Our cost of sales may be negatively impacted as we open an increasing number of stores. Changes in our merchandise mix may also have an impact on cost of sales. This presentation of items included in cost of sales may not be comparable to the way in which our competitors or other retailers compute their cost of sales.

Selling, general and administrative expenses include:

- payroll, bonus, and benefit costs for retail stores and corporate employees;
- advertising and marketing costs;
- occupancy costs related to our corporate office facilities;
- stock-based compensation expense;
- depreciation and amortization for all assets, except those related to our retail stores and distribution operations, which are included in cost of sales; and
  - legal, finance, information systems, and other corporate overhead costs.

This presentation of items in selling, general and administrative expenses may not be comparable to the way in which our competitors or other retailers compute their selling, general and administrative expenses.

Pre-opening expenses include non-capital expenditures during the period prior to store opening for new, remodeled, and relocated stores including rent during the construction period for new and relocated stores, store set-up labor, management and employee training, and grand opening advertising.

Interest income, net includes both interest income and expense. Interest income represents interest from cash equivalents and short-term investments with maturities of twelve months or less from the date of purchase. Interest expense includes interest costs and facility fees associated with our credit facility, which is structured as an asset-based lending instrument. Our credit facility interest is based on a variable interest rate structure which can result in increased cost in periods of rising interest rates.

Income tax expense reflects the federal statutory tax rate and the weighted average state statutory tax rate for the states in which we operate stores.

Table of Contents

## Results of operations

Our fiscal years are the 52 or 53 week periods ending on the Saturday closest to January 31. The Company's fiscal years ended February 2, 2019 (fiscal 2018), February 3, 2018 (fiscal 2017), and January 28, 2017 (fiscal 2016) were 52, 53, and 52-week years, respectively.

As of February 2, 2019, we operated 1,174 stores across 50 states. The following tables present the components of our consolidated results of operations for the periods indicated:

(Dollars in thousands)	Fiscal year ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Net sales	\$ 6,716,615	\$ 5,884,506	\$ 4,854,737
Cost of sales	4,307,304	3,787,697	3,107,508

Fiscal year 2018 versus fiscal year 2017

Net sales

Net sales increased \$832.1 million, or 14.1%, to \$6,716.6 million in fiscal 2018 compared to \$5,884.5 million in fiscal 2017. E-commerce sales increased \$183.5 million, or 32.3%, to \$752.2 million compared to \$568.7 million in fiscal 2017. Salon service sales increased \$23.5 million, or 8.5%, to \$300.9 million compared to \$277.4 million in fiscal 2017. The net sales increases are due to the opening of 100 net new stores in 2018 and an 8.1% increase in comparable sales.

## Table of Contents

Non-comparable stores, which include stores opened in fiscal 2018 as well as stores opened in fiscal 2017, which have not yet turned comparable, contributed \$321.9 million of the net sales increase, while comparable stores contributed \$461.3 million of the total net sales increase. Other revenue increased \$48.9 million in fiscal 2018. The sales for the 53rd week of fiscal 2017 were approximately \$108.8 million.

The 8.1% comparable sales increase consisted of a 5.1% increase in retail stores and salon services and a 35.4% increase in e-commerce. The inclusion of e-commerce resulted in an increase of approximately 300 basis points to the total comparable sales in fiscal 2018 compared to 390 basis points in fiscal 2017. The total comparable sales increase included a 5.3% increase in transactions and a 2.8% increase in average ticket. We attribute the increase in comparable sales to our successful marketing and merchandising strategies.

### Gross profit

Gross profit increased \$312.5 million, or 14.9%, to \$2,409.3 million in fiscal 2018, compared to \$2,096.8 million in fiscal 2017. Gross profit as a percentage of net sales increased 30 basis points to 35.9% in fiscal 2018 compared to 35.6% in fiscal 2017. The impact of new revenue recognition accounting drove 55 basis points of leverage. The remaining 25 basis points of deleverage in gross profit margin was primarily due to:

- 55 basis points deleverage attributed to category and channel mix shifts and investments in our salon services and supply chain operation, partially offset by;
- 30 basis points leverage in fixed store costs attributed to the impact of higher sales volume.

### Selling, general and administrative expenses

Selling, general and administrative (SG&A) expenses increased \$248.2 million, or 19.3%, to \$1,535.5 million in fiscal 2018 compared to \$1,287.2 million in fiscal 2017. As a percentage of net sales, SG&A expenses increased 100 basis points to 22.9% in fiscal 2018 compared to 21.9% in fiscal 2017. The impact of new revenue recognition accounting drove 80 basis points of deleverage. The remaining 20 basis points of deleverage in SG&A expenses was primarily due to:

- 30 basis points deleverage in investments in store labor to support growth initiatives, partially offset by;
- 10 basis points leverage in corporate overhead due to the impact of higher sales volume.

### Pre-opening expenses

Pre-opening expenses decreased \$4.5 million, or 18.6%, to \$19.8 million in fiscal 2018 compared to \$24.3 million in fiscal 2017. During fiscal 2018, we opened 107 new stores, remodeled 13 stores, and relocated two stores. During fiscal 2017, we opened 102 new stores, remodeled 11 stores, and relocated seven stores.

### Interest income, net

Interest income, net was \$5.1 million in fiscal 2018 compared to \$1.6 million in fiscal 2017. Interest income results from cash equivalents and short-term investments with maturities of twelve months or less from the date of purchase. Interest expense represents interest on borrowings and fees related to the credit facility. We did not have any outstanding borrowings on our credit facility as of February 2, 2019 and February 3, 2018.

### Income tax expense

Income tax expense of \$200.6 million in fiscal 2018 represents an effective tax rate of 23.3%, compared to fiscal 2017 tax expense of \$231.6 million and an effective tax rate of 29.4%. The lower tax rate is primarily due to tax reform.

## Table of Contents

### Net income

Net income increased \$103.3 million, or 18.6%, to \$658.6 million in fiscal 2018 compared to \$555.2 million in fiscal 2017. The increase in net income was primarily due to a \$312.5 million increase in gross profit and a \$31.0 million decrease in income tax expense, which was partially offset by a \$248.2 million increase in SG&A expenses.

### Fiscal year 2017 versus fiscal year 2016

#### Net sales

Net sales increased \$1,029.8 million, or 21.2%, to \$5,884.5 million in fiscal 2017 compared to \$4,854.7 million in fiscal 2016. The sales for the 53rd week of fiscal 2017 were approximately \$108.8 million. Salon service sales increased \$36.3 million, or 15.0% to \$277.4 million compared to \$241.1 million in fiscal 2016. Excluding the impact of the 53rd week, salon service sales increased 12.8%. E-commerce sales increased \$223.4 million, or 64.7%, to \$568.7 million compared to \$345.3 million in fiscal 2016. Excluding the impact of the 53rd week, e-commerce sales increased 59.9%. The net sales increases are due to the opening of 100 net new stores in fiscal 2017 and an 11.0% increase in comparable sales. Non-comparable stores, which include stores opened in fiscal 2017 as well as stores opened in fiscal 2016, which have not yet turned comparable, contributed \$493.8 million of the net sales increase, while comparable stores contributed \$536.0 million of the total net sales increase.

The 11.0% comparable sales increase consisted of a 7.1% increase in retail and salon services and a 59.9% increase in e-commerce. The inclusion of e-commerce resulted in an increase of approximately 390 basis points to the total comparable sales in fiscal 2017 compared to 240 basis points in fiscal 2016. The total comparable sales increase included a 6.7% increase in transactions and a 4.3% increase in average ticket. We attribute the increase in comparable sales to our successful marketing and merchandising strategies.

#### Gross profit

Gross profit increased \$349.6 million, or 20.0%, to \$2,096.8 million in fiscal 2017, compared to \$1,747.2 million in fiscal 2016. Gross profit as a percentage of net sales decreased 40 basis points to 35.6% in fiscal 2017 compared to 36.0% in fiscal 2016. The decrease in gross profit margin was primarily due to:

- 30 basis points deleverage in merchandise margins driven by our marketing and merchandising strategies; and
  - 10 basis points deleverage due to the impact of a one-time bonus payment to hourly associates related to tax reform.
- Selling, general and administrative expenses

SG&A expenses increased \$213.4 million, or 19.9%, to \$1,287.2 million in fiscal 2017 compared to \$1,073.8 million in fiscal 2016. As a percentage of net sales, SG&A expenses decreased 20 basis points to 21.9% in fiscal 2017 compared to 22.1% in fiscal 2016. The leverage in SG&A expenses was primarily due to:

- 70 basis points leverage due to corporate overhead and variable store expenses attributed to cost efficiencies and higher sales volume, partially offset by;
- 30 basis points deleverage due to investments in store labor; and
- 20 basis points deleverage due to the impact of a one-time bonus payment related to tax reform.

#### Pre-opening expenses

Pre-opening expenses increased \$5.7 million, or 30.8%, to \$24.3 million in fiscal 2017 compared to \$18.6 million in fiscal 2016. During fiscal 2017, we opened 102 new stores, remodeled 11 stores, and relocated seven stores. During fiscal 2016, we opened 104 new stores, remodeled 12 stores, and relocated two stores.

## Table of Contents

### Interest income, net

Interest income, net was \$1.6 million in fiscal 2017 compared to \$0.9 million in fiscal 2016. Interest income results from cash equivalents and short-term investments with maturities of twelve months or less from the date of purchase. Interest expense represents interest on borrowings and fees related to the credit facility. We did not have any outstanding borrowings on our credit facility as of February 3, 2018 and January 28, 2017.

### Income tax expense

Income tax expense of \$231.6 million in fiscal 2017 represents an effective tax rate of 29.4%, compared to fiscal 2016 tax expense of \$246.0 million and an effective tax rate of 37.5%. The lower tax rate is primarily due to a reduction of net deferred income tax liabilities and a lower effective tax rate in January 2018 as a result of tax reform and the adoption of a new accounting standard in fiscal 2017 for employee share-based payments.

### Net income

Net income increased \$145.5 million, or 35.5%, to \$555.2 million in fiscal 2017 compared to \$409.8 million in fiscal 2016. The increase in net income was primarily due to a \$349.6 million increase in gross profit and a \$14.3 million decrease in income tax expense, which was partially offset by a \$213.4 million increase in SG&A expenses.

### Liquidity and capital resources

Our primary cash needs are for rent, capital expenditures for new, remodeled, relocated, and refreshed stores (prestige boutiques and related in-store merchandising upgrades), increased merchandise inventories related to store expansion and new brand additions, in-store boutiques (sets of custom-designed fixtures configured to prominently display certain prestige brands within our stores), supply chain improvements, share repurchases, and continued improvement in our information technology systems.

Our primary sources of liquidity are cash and cash equivalents, short-term investments, cash flows from operations, including changes in working capital, and borrowings under our credit facility. The most significant component of our working capital is merchandise inventories and cash and cash equivalents reduced by related accounts payable and accrued expenses.

Our working capital needs are greatest from August through November each year as a result of our inventory build-up during this period for the approaching holiday season. This is also the time of year when we are at maximum investment levels in our new store class and may not have collected all of the landlord allowances due to us as part of our lease agreements. Based on past performance and current expectations, we believe that cash and cash equivalents, short-term investments, cash generated from operations, and borrowings under the credit facility will satisfy the Company's working capital needs, capital expenditure needs, commitments, and other liquidity requirements through at least the next twelve months.

The following table presents a summary of our cash flows for fiscal years 2018, 2017 and 2016:

Fiscal year ended

Edgar Filing: Ulta Beauty, Inc. - Form 10-K

(In thousands)	February 2, 2019	February 3, 2018	January 28, 2017
Net cash provided by operating activities	\$ 956,127	\$ 779,366	\$ 634,385
Net cash used in investing activities	(215,107)	(530,714)	(273,447)
Net cash used in financing activities	(609,214)	(356,217)	(321,768)
Net increase (decrease) in cash and cash equivalents	\$ 131,806	\$ (107,565)	\$ 39,170

34

---

Table of Contents

## Operating activities

Operating activities consist of net income adjusted for certain non-cash items, including depreciation and amortization, deferred income taxes, non-cash stock-based compensation, realized gains or losses on disposal of property and equipment, and the effect of working capital changes, net of acquisitions.

Merchandise inventories, net were \$1,214.3 million at February 2, 2019, compared to \$1,096.4 million at February 3, 2018, representing an increase of \$117.9 million or 10.8%. Average inventory per store increased 1.3% compared to prior year. The increase in inventory is primarily due to the following:

- approximately \$102 million due to the addition of 100 net new stores opened since February 3, 2018;
- approximately \$64 million due to the opening of the Company's distribution center in Fresno, California, partially offset by;
- approximately \$48 million of productivity benefits from supply chain investments in new systems and merchandise planning tools.

Deferred rent liabilities were \$435.0 million at February 2, 2019, an increase of \$27.1 million compared to \$407.9 million at February 3, 2018. Deferred rent includes deferred construction allowances, future rental increases, free rent, and rent holidays, which are all recognized on a straight-line basis over their respective lease term. The increase is primarily due to the addition of 100 net new stores opened since February 3, 2018 and corporate and supply chain expansion.

## Investing activities

We have historically used cash primarily for new, remodeled, relocated, and refreshed stores, supply chain investments, short-term investments, and investments in information technology systems. Investment activities for capital expenditures were \$319.4 million in fiscal 2018 compared to \$440.7 million and \$373.4 million in fiscal 2017 and 2016, respectively. Capital expenditures decreased in fiscal 2018 compared to fiscal 2017 mainly due to lower cost in the new store program, less store refreshes, and total reduction in spend on information technology systems. Purchases of short-term investments were \$386.2 million during fiscal 2018 and consist of certificates of deposit with maturities of twelve months or less from the date of purchase.

The following table presents a summary of our store activities in fiscal years 2018, 2017, and 2016:

	Fiscal year ended		
	Fiscal 2018	Fiscal 2017	Fiscal 2016
Stores opened	107	102	104
Stores remodeled	13	11	12
Stores relocated	2	7	2
Stores refreshed	109	190	213

During fiscal 2018, the average investment required to open a new Ulta Beauty store was approximately \$1.4 million, which includes capital investment net of landlord contributions, pre-opening expenses, and initial inventory net of payables. The average investment required to remodel an Ulta Beauty store was approximately \$1.0 million in fiscal 2018. The average investment required to refresh an Ulta Beauty store was approximately \$0.5 million in fiscal 2018.

Table of Contents

Capital expenditures for fiscal 2018, 2017, and 2016 by major category are as follows:

(In millions)	Budget			
	Fiscal 2019	Fiscal 2018	Fiscal 2017	Fiscal 2016
New, Remodeled, and Relocated Stores	\$ 150	\$ 154	\$ 190	\$ 154
Merchandising and Refreshed Stores	40	63	87	83
Information Technology Systems	80	51	74	56
Supply Chain	60	22	42	41
Store Maintenance and Other	60	29	48	40
Total	\$ 390	\$ 319	\$ 441	\$ 374

Our future investments will depend primarily on the number of new, remodeled, and relocated stores, information technology systems, and supply chain investments that we undertake and the timing of these expenditures. Based on past performance and current expectations, we expect to self-fund future capital expenditures. We expect to spend approximately \$390 million for capital expenditures in fiscal 2019. We are continuing our multi-year supply chain project which includes adding capacity and system improvements to support expanded omnichannel capabilities.

#### Financing activities

Financing activities in fiscal 2018, 2017 and 2016 consist principally of share repurchases and capital stock transactions. Purchases of treasury shares represent the fair value of common shares repurchased from plan participants in connection with shares withheld to satisfy minimum statutory tax obligations upon the vesting of restricted stock.

We had no borrowings outstanding under our credit facility at the end of fiscal 2018, 2017 and 2016. The zero outstanding borrowings position is due to a combination of factors including strong sales growth, overall performance of management initiatives including expense control as well as inventory and other working capital reductions. We may require borrowings under the facility from time to time in future periods to support our new store program, share repurchases, and seasonal inventory needs.

#### Share repurchase plan

On March 10, 2016, we announced that our Board of Directors authorized a share repurchase program (the 2016 Share Repurchase Program) pursuant to which the Company could repurchase up to \$425.0 million of the Company's common stock. The 2016 Share Repurchase Program authorization revoked the previously authorized, but unused amounts of \$172.4 million from the earlier share repurchase program. The 2016 Share Repurchase Program did not have an expiration date but provided for suspension or discontinuation at any time.

As part of the 2016 Share Repurchase Program, we entered into an Accelerated Share Repurchase (ASR) agreement with Goldman, Sachs & Co. to repurchase \$200.0 million of the Company's common stock. Under the ASR agreement, the Company paid \$200.0 million to Goldman, Sachs & Co. and received an initial delivery of 851,653 shares in the first quarter of fiscal 2016, which were retired and represented 80% of the total shares the Company expected to receive based on the market price at the time of the initial delivery. In May 2016, the ASR settled and an additional 153,418 shares were delivered to the Company and retired. The final number of shares delivered upon

settlement was determined with reference to the average price of the Company's common stock over the term of the agreement. The transaction was accounted for as an equity transaction. The par value of shares received was recorded as a reduction to common stock with the remainder recorded as a reduction to additional paid-in capital and retained earnings. Upon receipt of the shares, there was an immediate reduction in the weighted average common shares calculation for basic and diluted earnings per share.

On March 9, 2017, we announced that the Board of Directors authorized a new share repurchase program (the 2017 Share Repurchase Program) pursuant to which the Company could repurchase up to \$425.0 million of the Company's common stock. The 2017 Share Repurchase Program authorization revoked the previously authorized but unused amount

## Table of Contents

of \$79.9 million from the earlier share repurchase program. The 2017 Share Repurchase Program did not have an expiration date but provided for suspension or discontinuation at any time.

On March 15, 2018, we announced that the Board of Directors authorized a new share repurchase program (the 2018 Share Repurchase Program) pursuant to which the Company could repurchase up to \$625.0 million of the Company's common stock. The 2018 Share Repurchase Program authorization revoked the previously authorized but unused amount of \$41.3 million from the 2017 Share Repurchase Program. The 2018 Share Repurchase Program did not have an expiration date but provided for suspension or discontinuation at any time.

During fiscal 2016, excluding the shares repurchased under the ASR, we purchased 634,155 shares of common stock for \$144.3 million. During fiscal 2017, we purchased 1,503,545 shares of common stock for \$367.6 million. During fiscal 2018, we purchased 2,463,555 shares of common stock for \$616.2 million.

On March 14, 2019, we announced that the Board of Directors authorized a new share repurchase program (the 2019 Share Repurchase Program) pursuant to which the Company may repurchase up to \$875.0 million of the Company's common stock. The 2019 Share Repurchase Program authorization revokes the previously authorized but unused amounts from the 2018 Share Repurchase Program. The 2019 Share Repurchase Program does not have an expiration date and may be suspended or discontinued at any time.

### Credit facility

On August 23, 2017, we entered into a Second Amended and Restated Loan Agreement (the Loan Agreement) with Wells Fargo Bank, National Association, as Administrative Agent, Collateral Agent and a Lender thereunder, Wells Fargo Bank, National Association and JPMorgan Chase Bank, N.A., as Lead Arrangers and Bookrunners, JPMorgan Chase Bank, N.A., as Syndication Agent and a Lender, PNC Bank, National Association, as Documentation Agent and a Lender, and the other lenders party thereto. The Loan Agreement matures on August 23, 2022, provides maximum revolving loans equal to the lesser of \$400.0 million or a percentage of eligible owned inventory (which borrowing base may, at the election of the Company and satisfaction of certain conditions, include a percentage of eligible owned receivables and qualified cash), contains a \$20.0 million subfacility for letters of credit and allows the Company to increase the revolving facility by an additional \$50.0 million, subject to the consent by each lender and other conditions. The Loan Agreement contains a requirement to maintain a fixed charge coverage ratio of not less than 1.0 to 1.0 during such periods when availability under the Loan Agreement falls below a specified threshold. Substantially all of the Company's assets are pledged as collateral for outstanding borrowings under the Loan Agreement. Outstanding borrowings will bear interest at either a base rate or the LIBOR plus 1.25%, and the unused line fee is 0.20% per annum.

As of February 2, 2019 and February 3, 2018, we had no borrowings outstanding under the credit facility and the Company was in compliance with all terms and covenants of the Loan Agreement.

### Seasonality

Our business is subject to seasonal fluctuation. Significant portions of our net sales and profits are realized during the fourth quarter of the fiscal year due to the holiday selling season. To a lesser extent, our business is also affected by Mother's Day, Valentine's Day, as well as the "Back to School" season. Any decrease in sales during these higher sales volume periods could have an adverse effect on our business, financial condition, or operating results for the entire fiscal year. Our quarterly results of operations have varied in the past and are likely to do so again in the future. As such, we believe that period-to-period comparisons of our results of operations should not be relied upon as an indication of our future performance.

Impact of inflation and changing prices

Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and SG&A expenses as a percentage of net sales if the selling prices of our products do not increase with these increased costs. In addition, inflation could materially increase the interest rates on any future debt.

37

---

Table of Contents

## Off-balance sheet arrangements

As of February 2, 2019, we have not entered into any “off-balance sheet” arrangements, as that term is described by the SEC. We do, however, have off-balance sheet operating leases and purchases obligations incurred in the ordinary course of business as indicated within the contractual obligations table below.

## Contractual obligations

The following table summarizes our contractual arrangements and the timing and effect that such commitments are expected to have on our liquidity and cash flows in future periods. The table below excludes variable expenses related to contingent rent, common area maintenance, insurance, and real estate taxes. The table below includes obligations for executed agreements for which we do not yet have the right to control the use of the property as of February 2, 2019:

(In thousands)	Total	Less Than 1 Year	1 to 3 Years	3 to 5 Years	More than 5 Years
Operating lease obligations (1)	\$ 2,285,412	\$ 334,508	\$ 652,279	\$ 545,288	\$ 753,337
Purchase obligations	29,208	24,393	4,815	-	-
Total (2)	\$ 2,314,620	\$ 358,901	\$ 657,094	\$ 545,288	\$ 753,337

(1) Variable operating lease obligations related to common area maintenance, insurance, and real estate taxes are not included in the table above. Total expenses related to common area maintenance, insurance, and real estate taxes for fiscal 2018 were approximately \$75.8 million.

(2) The unrecognized tax benefit of \$3.8 million as of February 2, 2019 is excluded due to uncertainty regarding the realization and timing of the related future cash flows, if any.

We lease retail stores, distribution centers, corporate offices, and certain equipment under operating leases with various expiration dates through fiscal 2032. Our store leases generally have initial lease terms of 10 years and include renewal options under substantially the same terms and conditions as the original leases. In addition to future minimum lease payments, most of our lease agreements include escalating rent provisions which we recognize straight-line over the term of the lease, including any lease renewal periods deemed to be probable. For certain locations, we receive cash tenant allowances and we report these amounts as deferred rent, which is amortized on a straight-line basis as a reduction of rent expense over the term of the lease, including any lease renewal periods deemed to be probable.

Purchase obligations reflect legally binding agreements entered into by the Company to purchase goods or services. Excluded from our purchase obligations are normal purchases and contracts entered into in the ordinary course of business. The amount of purchase obligations relates to commitments made to a third party for products and services for the new fast fulfillment center expected to open in fiscal 2020, advertising, and other goods and service contracts entered into as of February 2, 2019.

## Critical accounting policies and estimates

Management’s discussion and analysis of financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles (GAAP). The preparation of these financial statements required the use of estimates and judgments that affect the reported amounts of our assets, liabilities, revenues, and expenses. Management bases estimates on historical experience and other assumptions it believes to be reasonable under the circumstances and evaluates these estimates on an on-going basis.

Actual results may differ from these estimates. A discussion of our more significant estimates follows. Management has discussed the development, selection, and disclosure of these estimates and assumptions with the Audit Committee of the Board of Directors.

## Table of Contents

### Inventory valuation

Merchandise inventories are carried at the lower of cost or market. Cost is determined using the weighted-average cost method and includes costs incurred to purchase and distribute goods as well as related vendor allowances including co-op advertising, markdowns, and volume discounts. We record valuation adjustments to our inventories if the cost of a specific product on hand exceeds the amount we expect to realize from the ultimate sale or disposal of the inventory. These estimates are based on management's judgment regarding future demand, age of inventory, and analysis of historical experience. If actual demand or market conditions are different than those projected by management, future merchandise margin rates may be unfavorably or favorably affected by adjustments to these estimates.

Inventories are adjusted for the results of periodic physical inventory counts at each of our locations. We record a shrink reserve representing management's estimate of inventory losses by location that have occurred since the date of the last physical count. This estimate is based on management's analysis of historical results and operating trends.

We do not believe that there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our lower of cost or market or shrink reserves. Adjustments to earnings resulting from revisions to management's estimates of the lower of cost or market and shrink reserves have been insignificant during fiscal 2018, 2017 and 2016. An increase or decrease in the lower of cost or market reserve of 10% would not have a material impact on our pre-tax income for fiscal 2018. An increase or decrease in the shrink rate included in the shrink reserve calculation of 10% would not have a material impact on our pre-tax income for fiscal 2018.

### Vendor allowances

The majority of cash consideration received from a supplier is considered to be a reduction of the cost of the related products and is reflected in cost of sales in our consolidated statements of income as the related products are sold unless it is in exchange for an asset or service or a reimbursement of a specific, incremental, identifiable cost incurred by the Company in selling the vendors' products. We estimate the amount recorded as a reduction of inventory at the end of each period based on a detailed analysis of inventory turns and management's analysis of the facts and circumstances of the various contractual agreements with vendors. We record cash consideration expected to be received from vendors in receivables. We do not believe there is a reasonable likelihood there will be a material change in the future estimates or assumptions we use to calculate our reduction of inventory. An increase or decrease in inventory turns of five basis points would not have a material impact on our pre-tax income for fiscal 2018.

### Impairment of long-lived tangible assets

We review long-lived tangible assets whenever events or circumstances indicate these assets might not be recoverable. Assets are primarily reviewed at the store level, which is the lowest level for which cash flows can be identified. Significant estimates are used in determining future operating results of each store over its remaining lease term. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. We do not believe that there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to calculate our impairment charges. No significant impairment charges were recognized in fiscal 2018, fiscal 2017, or fiscal 2016.

### Loyalty program

We maintain a customer loyalty program, Ultimate Rewards, which allows members to earn points based on purchases of merchandise or services. Points earned are valid for at least one year. The loyalty program represents a material right to the customer and points may be redeemed on future products and services. The relative standalone

selling price of points earned by members is included in deferred revenue on the consolidated balance sheets based on the percentage of points expected to be redeemed. The expected redemption percentage is based on historical redemption patterns and considers current information or trends. The estimated redemption rate is evaluated each reporting period. We do not believe that there is a reasonable likelihood there will be a material change in the future estimates or assumptions used to calculate the estimated redemption rate.

## Table of Contents

Adjustments to earnings resulting from revisions to management's estimates of the redemption rates have been insignificant during fiscal 2018, 2017 and 2016. An increase or decrease in the estimated redemption rate of 5% would not have a material impact on our pre-tax income in fiscal 2018.

### Income taxes

We are subject to income taxes in the United States. Judgment is required in determining our provision for income taxes and income tax assets and liabilities, including evaluating uncertainties in the application of accounting principles and complex tax laws.

We recognize deferred income taxes for the estimated future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which temporary differences are anticipated to be recovered or settled. The effect on deferred taxes of a change in income tax rates is recognized in the consolidated statements of income in the period of enactment. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets to the amount expected to be realized unless it is more-likely-than-not that such assets will be realized in full. The estimated tax benefit of an uncertain tax position is recorded in our consolidated financial statements only after determining a more-likely-than-not probability that the uncertain tax position will withstand challenge, if any, from applicable taxing authorities.

Judgment is required in assessing the future tax consequences of events that have been recognized on our consolidated financial statements or tax returns. Variations in the actual outcome of these future tax consequences could materially impact our consolidated financial statements.

### Recent accounting pronouncements not yet adopted

See Note 2 to our consolidated financial statements, "Summary of significant accounting policies – Recent accounting pronouncements not yet adopted."

### Recently adopted accounting pronouncements

See Note 2 to our consolidated financial statements, "Summary of significant accounting policies – Recently adopted accounting pronouncements."

### Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Market risk represents the risk of loss that may impact our financial position due to adverse changes in financial market prices and rates. Our market risk exposure is primarily the result of fluctuations in interest rates. We do not hold or issue financial instruments for trading purposes.

Interest rate risk

We are exposed to interest rate risks primarily through borrowing under our credit facility. Interest on our borrowings is based upon variable rates. We did not have any outstanding borrowings on our credit facility as of February 2, 2019, February 3, 2018, or January 28, 2017.

Item 8. Financial Statements and Supplementary Data

See the index, consolidated financial statements, and notes to consolidated financial statements included under Item 15, "Exhibits and Financial Statement Schedules."

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of disclosure controls and procedures over financial reporting

We have established disclosure controls and procedures to ensure that material information relating to the Company is made known to the officers who certify our financial reports and to the members of our senior management and Board of Directors.

Based on management's evaluation as of February 2, 2019, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to ensure that the information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Management's annual report on internal control over financial reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Internal control over financial reporting is a process designed by, or under the supervision of, the principal executive officer and principal financial officer and effected by the Board of Directors, management, and other personnel, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with GAAP.

Under the supervision and with the participation of our principal executive officer and our principal financial officer, management evaluated the effectiveness of our internal control over financial reporting as of February 2, 2019, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO). Based on this evaluation, our principal executive officer and principal financial officer concluded that our internal controls over financial reporting were effective as of February 2, 2019. Ernst & Young LLP, the independent registered public accounting firm that audited our financial statements included in this Annual Report on Form 10-K, has audited the effectiveness of our internal control over financial reporting as of February 2, 2019 and has issued the attestation report included in Item 15 of this Annual Report on Form 10-K.

Changes in internal control over financial reporting

There were no changes to our internal controls over financial reporting during the 13 weeks ended February 2, 2019 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Item 9B. Other Information

None.

Report of Independent Registered Public Accounting Firm

The Stockholders and the Board of Directors of Ulta Beauty, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Ulta Beauty, Inc. (the Company) as of February 2, 2019, and February 3, 2018, the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended February 3, 2018, and the related notes and financial statement schedule listed in the Index at Item 15 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the consolidated financial position of the Company at February 2, 2019 and February 3, 2018, and the consolidated results of its operations and its cash flows for each of the three years in the period ended February 2, 2019, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of February 2, 2019, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated April 2, 2019 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 1997.

Chicago, Illinois

April 2, 2019

Table of Contents

Report of Independent Registered Public Accounting Firm

The Stockholders' and the Board of Directors Ulta Beauty, Inc.

Opinion on Internal Control over Financial Reporting

We have audited Ulta Beauty, Inc.'s internal control over financial reporting as of February 2, 2019, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, Ulta Beauty, Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of February 2, 2019, based on COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of February 2, 2019 and February 3, 2018, the related consolidated statements of income, stockholders' equity and cash flows for each of the three years in the period ended February 2, 2019, and the related notes and financial statement schedule listed in the Index at Item 15 and our report dated April 2, 2019 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's annual report on internal control over financial reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Ulta Beauty, Inc.

Notes to Consolidated Financial Statements

(In thousands, except per share and store count data)

### 1. Business and basis of presentation

On January 29, 2017, Ulta Salon, Cosmetics & Fragrance, Inc. implemented a holding company reorganization. Pursuant to the reorganization, Ulta Beauty, Inc., which was incorporated as a Delaware corporation in December 2016, became the successor to Ulta Salon, Cosmetics & Fragrance, Inc., the former publicly-traded company and now a wholly owned subsidiary of Ulta Beauty. As used in these notes and throughout this Annual Report on Form 10 K, all references to “we,” “us,” “Ulta Beauty,” or the “Company” refer to Ulta Beauty, Inc. and its consolidated subsidiaries.

The Company was originally founded in 1990 to operate specialty retail stores selling cosmetics, fragrance, haircare and skincare products, and related accessories and services. The stores also feature full-service salons. As of February 2, 2019, the Company operated 1,174 stores across 50 states. All amounts are stated in thousands, with the exception of per share amounts and number of stores.

The Company has one reportable segment, which includes retail stores, salon services, and e-commerce.

### 2. Summary of significant accounting policies

#### Fiscal year

The Company’s fiscal year is the 52 or 53 weeks ending on the Saturday closest to January 31. The Company’s fiscal years ended February 2, 2019 (fiscal 2018), February 3, 2018 (fiscal 2017), and January 28, 2017 (fiscal 2016) were 52, 53, and 52-week years, respectively.

#### Consolidation

The Company’s consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany accounts, transactions, and unrealized profit were eliminated in consolidation.

#### Use of estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the accounting period. Actual results could differ from those estimates.

#### Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

#### Cash and cash equivalents

Cash and cash equivalents include cash on hand and highly liquid investments with original maturities of three months or less from the date of purchase. Cash equivalents also include amounts due from third-party financial institutions for credit card and debit card transactions. These receivables typically settle in five days or less with little or no default risk. Amounts from third-party financial institutions for credit card and debit card transactions were \$57,698 and \$60,773 as of February 2, 2019 and February 3, 2018, respectively.

Table of Contents

Short-term investments

The Company determines the balance sheet classification of its investments at the time of purchase and evaluates the classification at each balance sheet date. Money market funds, certificates of deposit, and time deposits with maturities of greater than three months but no more than twelve months are carried at cost, which approximates fair value and are recorded in the consolidated balance sheets in short-term investments (see Note 13, “Investments”).

Receivables

Receivables consist principally of amounts due from vendors and landlord construction allowances earned but not yet received. These receivables are computed based on provisions of the vendor and lease agreements in place and the Company’s completed performance. The Company does not require collateral on its receivables and does not accrue interest. Credit risk with respect to receivables is limited due to the diversity of vendors and landlords comprising the Company’s vendor base. The Company performs ongoing credit evaluations of its vendors and evaluates the collectability of its receivables based on the length of time the receivable is past due and historical experience.

The receivable for vendor allowances was \$97,885 and \$78,238 as of February 2, 2019 and February 3, 2018, respectively. The receivable for landlord allowances was \$19,746 and \$12,729 as of February 2, 2019 and February 3, 2018, respectively. The allowance for doubtful receivables was \$651 and \$1,371 as of February 2, 2019 and February 3, 2018, respectively.

Merchandise inventories

Merchandise inventories are stated at the lower of cost or market. Cost is determined using the weighted-average cost method and includes costs incurred to purchase and distribute goods. Inventory cost also includes vendor allowances related to co-op advertising, markdowns, and volume discounts. The Company maintains an inventory reserve for lower of cost or market and shrink. The inventory reserve was \$36,640 and \$24,804 as of February 2, 2019 and February 3, 2018, respectively.

Fair value of financial instruments

The carrying value of cash and cash equivalents, accounts receivable, and accounts payable approximates their estimated fair values due to the short maturities of these instruments. The Company had no outstanding debt as of February 2, 2019 and February 3, 2018.

Property and equipment

The Company’s property and equipment are stated at cost, net of accumulated depreciation and amortization. Maintenance and repairs are charged to operating expense as incurred. The Company’s assets are depreciated or amortized using the straight-line method over the shorter of their estimated useful lives or the expected lease term as follows:

Equipment and fixtures	3 to 10 years
Leasehold improvements	10 years
Electronic equipment and software	3 to 5 years

The Company capitalizes costs incurred during the application development stage in developing or purchasing internal use software. These costs are amortized over the estimated useful life of the software.

The Company periodically evaluates whether changes have occurred that would require revision of the remaining useful life of equipment and leasehold improvements or render them not recoverable. If such circumstances arise, the Company uses an estimate of the undiscounted sum of expected future operating cash flows during their holding period to determine whether the long-lived assets are impaired. If the aggregate undiscounted cash flows are less than the carrying amount of the assets, the resulting impairment charges to be recorded are calculated based on the excess of the carrying

## Table of Contents

value of the assets over the fair value of such assets. No significant impairment charges were recognized in fiscal 2018, fiscal 2017, or fiscal 2016. Impairment charges are included in selling, general and administrative (SG&A) expenses in the consolidated statements of income.

### Goodwill

Goodwill represents the excess of cost over the fair value of net assets acquired. The Company reviews the recoverability of goodwill annually during the fourth quarter or more frequently if an event occurs or circumstances change that would indicate that impairment may exist (see Note 6, "Goodwill").

### Other intangible assets

Other definite-lived intangible assets are amortized over their useful lives. The Company reviews the recoverability of long-lived assets whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable (see Note 7, "Other intangible assets").

### Loyalty program

The Company maintains a loyalty program, Ultimate Rewards, which allows members to earn points based on purchases of merchandise or services. Points earned are valid for at least one year. The loyalty program represents a material right to the customer and points may be redeemed on future products and services. The relative standalone selling price of points earned by members is included in deferred revenue on the consolidated balance sheets based on the percentage of points expected to be redeemed. The expected redemption percentage is based on historical redemption patterns and considers current information or trends.

When a guest redeems points or the points expire, the Company recognizes revenue in net sales on the consolidated statements of income.

Prior to fiscal 2018, loyalty program revenue was recorded using the incremental cost method within cost of sales on the consolidated statements of income.

### Credit cards

The Company has agreements (the Agreements) with third parties to provide guests with private label credit cards and/or co-branded credit cards (collectively, the Credit Cards). The private label credit card can be used at any store location and online, and the co-branded credit card can be used anywhere the co-branded card is accepted. A third-party financing company is the sole owner of the accounts and underwrites the credit issued under the Credit Card programs. The Company's performance obligation is to maintain the Ultimate Rewards loyalty program as only guests enrolled in the loyalty program can apply for the Credit Cards. Loyalty members earn points through purchases at Ulta Beauty and anywhere the co-branded credit card is accepted.

The third parties reimburse the Company for certain credit card program costs such as advertising and loyalty points, which help promote the credit card program. The Company recognizes revenue when collectability is reasonably assured, under the assumption the amounts are not constrained and it is probable that a significant revenue reversal will not occur in future periods, which is generally the time at which the actual usage of the Credit Cards or specified

transaction occurs.

The Company accounts for the amounts associated with the Agreements as a single contract with the sole commercial objective to maintain the Credit Card programs. As a result, all amounts associated with the Agreements are recognized within net sales on the consolidated statements of income.

Other administrative costs related to the Credit Card programs, including payroll, marketing expenses, and other direct costs, are included in SG&A expenses on the consolidated statements of income.

53

---

## Table of Contents

### Deferred rent

Many of the Company's operating leases contain predetermined fixed increases of the minimum rental rate during the lease term. For these leases, the Company recognizes the related rental expense on a straight-line basis over the expected lease term and records the difference between the amounts charged to expense and the rent paid as deferred rent. The lease term commences on the date the Company takes possession of the leased space.

For most lease agreements, the Company receives construction allowances from landlords for tenant improvements. These leasehold improvements made by the Company are capitalized and amortized over the shorter of the lease term or 10 years. The construction allowances are recorded as deferred rent and amortized on a straight-line basis over the lease term as a reduction of rent expense.

### Gift card program

The Company records a contract liability for gift card sales which will be redeemed in the future within deferred revenue on the consolidated balance sheets and recognized in net sales when the gift card is redeemed for product or services. The Company's gift cards do not expire and do not include service fees that decrease guest balances. The Company has maintained historical data related to gift card transactions sold and redeemed over a significant time frame. The Company recognizes gift card breakage (amounts not expected to be redeemed) to the extent there is no requirement for remitting balances to governmental agencies under unclaimed property laws. Estimated gift card breakage revenue is recognized over time in proportion to actual gift card redemptions. Gift card breakage revenue was \$12,446, \$7,783, and \$5,335 in fiscal 2018, 2017, and 2016, respectively.

### Revenue recognition

Revenue is recognized when control of the promised goods or services is transferred to the guest, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services.

The Company determines revenue recognition through the following steps:

- Identification of the contract, or contracts, with a guest;
- Identification of the performance obligations in the contract;
- Determination of the transaction price;
- Allocation of the transaction price to the performance obligations in the contract; and
- Recognition of revenue when, or as, a performance obligation is satisfied.

The Company's net sales include retail stores and e-commerce merchandise sales as well as salon services and other revenue.

Revenue from merchandise sales at retail stores is recognized at the point of sale, net of estimated returns. Revenue from e-commerce merchandise sales is recognized upon shipment of the merchandise to the guest based on meeting the transfer of control criteria, net of estimated returns. E-commerce revenue amounted to \$752,224, \$568,736, and \$345,342 in fiscal 2018, 2017, and 2016, respectively. Shipping and handling are treated as costs to fulfill the contract, and as a result, any fees received from guests are included in the transaction price allocated to the performance obligation of providing goods with a corresponding amount accrued within cost of sales for amounts paid to applicable carriers. The Company provides refunds for merchandise returns within 60 days from the original purchase date. State sales taxes are presented on a net basis as the Company considers itself a pass-through conduit for collecting and remitting state sales tax. Company coupons and other incentives are recorded as a reduction of net

sales.

Salon services revenue is recognized at the time the service is provided to the guest. Salon service revenue was \$300,863, \$277,361, and \$241,105 in fiscal 2018, 2017 and 2016, respectively.

Other revenue sources include the private label credit card and co-branded credit card programs, as well as deferred revenue related to the loyalty program and gift card breakage.

54

---

## Table of Contents

### Vendor allowances

The Company receives allowances from vendors in the normal course of business including advertising and markdown allowances, purchase volume discounts and rebates, reimbursement for defective merchandise, and certain selling and display expenses. Substantially all vendor allowances are recorded as a reduction of the vendor's product cost and are recognized in cost of sales as the product is sold.

### Advertising

Advertising expense consists principally of print, digital and social media, and television and radio advertising. The Company expenses the costs related to its advertising in the period the related promotional event occurs. Total advertising costs, exclusive of incentives from vendors and start-up advertising expense, amounted to \$294,489, \$259,423, and \$212,714 in fiscal 2018, 2017 and 2016, respectively. Advertising expense as a percentage of sales was 4.4% in fiscal 2018, 2017 and 2016. Prepaid advertising costs included in prepaid expenses and other current assets on the consolidated balance sheets were \$9,384 and \$12,811 as of February 2, 2019 and February 3, 2018, respectively.

### Pre-opening expenses

Non-capital expenditures incurred prior to the grand opening of a new, remodeled, or relocated store are expensed as incurred.

### Cost of sales

Cost of sales includes the cost of merchandise sold, including substantially all vendor allowances, which are treated as a reduction of merchandise costs; distribution costs including labor and related benefits, freight, rent, depreciation and amortization, real estate taxes, utilities, and insurance; shipping and handling costs; retail stores occupancy costs including rent, depreciation and amortization, real estate taxes, utilities, repairs and maintenance, insurance, licenses, and cleaning expenses; salon services payroll and benefits; and shrink and inventory valuation reserves.

### Selling, general and administrative expenses

SG&A expenses includes payroll, bonus, and benefit costs for retail and corporate employees; advertising and marketing costs; occupancy costs related to our corporate office facilities; stock-based compensation expense; depreciation and amortization for all assets, except those related to our retail store and distribution operations, which are included in cost of sales; and legal, finance, information systems, and other corporate overhead costs.

### Income taxes

Deferred income taxes reflect the net tax effect of temporary differences between the financial statement carrying amounts of assets and liabilities and their tax bases. The amounts reported were derived using the enacted tax rates in effect for the year the differences are expected to reverse.

Income tax benefits related to uncertain tax positions are recognized only when it is more likely than not that the tax position will be sustained on examination by the taxing authorities. The determination is based on the technical merits of the position and presumes that each uncertain tax position will be examined by the relevant taxing authority that has full knowledge of all relevant information. Penalties and interest related to unrecognized tax positions are recorded in income tax expense in the consolidated statements of income.

### Share-based compensation

Share-based compensation cost is measured at grant date, based on the fair value of the award, and is recognized on a straight-line basis over the requisite service period for awards expected to vest. The Company recorded stock compensation expense of \$27,489, \$24,399, and \$19,340 in fiscal 2018, 2017, and 2016, respectively (see Note 14, “Share-based awards”).

## Table of Contents

### Insurance expense

The Company has insurance programs with third party insurers for employee health, workers compensation, and general liability, among others, to limit the Company's liability exposure. The insurance programs are premium based and include retentions, deductibles, and stop loss coverage. Current stop loss coverage per claim is \$350 for employee health claims, \$100 for general liability claims, and \$250 for workers compensation claims. The Company makes collateral and premium payments during the plan year and accrues expenses in the event additional premium is due from the Company based on actual claim results. In fiscal 2018, the Company created UB Insurance, Inc., an Arizona-based wholly owned captive insurance subsidiary of the Company, which charges the operating subsidiaries of the Company premiums to insure certain liability exposures. Pursuant to Arizona insurance regulations, UB Insurance, Inc. maintains certain levels of cash and cash equivalents related to its liability exposures.

### Net income per common share

Basic net income per common share is computed by dividing income available to common stockholders by the weighted-average number of shares of common stock outstanding during the period. Diluted net income per common share includes dilutive common stock equivalents, using the treasury stock method (see Note 15, "Net income per common share").

### Recent accounting pronouncements not yet adopted

#### Leases

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-02, Leases (Topic 842). The guidance in ASU 2016-02 and subsequently issued amendments requires lessees to capitalize virtually all leases with terms of more than twelve months on the balance sheet as a right-of-use asset and recognize an associated lease liability. The right-of-use asset represents the lessee's right to use, or control the use of, a specified asset for the specified lease term. The lease liability represents the lessee's obligation to make lease payments arising from the lease, measured on a discounted basis. Based on certain characteristics, leases are classified as financing or operating leases and their classification impacts the recognition of expense in the income statement. Entities are allowed to apply the modified retrospective approach (1) retrospectively to each comparative period presented or (2) retrospectively at the beginning of the period of adoption through a cumulative-effect adjustment. ASU 2016-02 is effective for public companies for interim and annual reporting periods beginning after December 15, 2018.

The Company will adopt the new standard on February 3, 2019 using the modified retrospective approach. Therefore, upon adoption, the Company will recognize and measure leases without revising comparative period information or disclosures.

The Company formed a cross-functional project team to assess the impact of the standard on the consolidated financial statements, which included updating the lease software and identifying changes to processes and controls. The Company plans to implement the transition package of three practical expedients permitted within the standard, which among other things, allows for the carryforward of historical lease classifications. The Company will make an accounting policy election to keep leases with terms of twelve months or less off the balance sheet and result in recognizing those lease payments on a straight-line basis over the lease term.

As a result of adopting ASU 2016 02, the Company estimates it will record lease liabilities of approximately \$1,900,000 with a corresponding amount for the right-of-use assets, which will also be adjusted by reclassifications of existing assets and liabilities primarily related to deferred rent. The adoption of this new standard is not expected to have a material impact on the Company's consolidated results of operations or cash flows.

#### Intangibles – Goodwill and Other-Internal-Use Software

In August 2018, the FASB issued ASU 2018-15, Intangibles – Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customers Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That is a

## Table of Contents

Service Contract, which clarifies and aligns the accounting for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. This guidance is effective for interim and annual reporting periods beginning after December 15, 2019 and should be applied either retrospectively or prospectively to all implementation costs incurred after the date of adoption. Early adoption is permitted. The adoption of ASU 2018-15 is not expected to have a material impact on the Company's consolidated financial position, results of operations, or cash flows.

### Recently adopted accounting pronouncements

#### Revenue Recognition from Contracts with Customers

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (ASU 2014-09), issued as a new Topic, Accounting Standards Codification (ASC) Topic 606, Revenue from Contracts with Customers (ASC 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition (ASC 605). The guidance in ASU 2014-09 and subsequently issued amendments outlines a comprehensive model for all entities to use in accounting for revenue arising from contracts with customers as well as required disclosures. Under the new standard, recognition of revenue occurs when a customer obtains control of promised goods or services in an amount that reflects the consideration, which the entity expects to receive in exchange for those goods or services. The new standard requires additional disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers including significant judgments and changes in judgments.

The Company adopted the new revenue standard effective February 4, 2018 using the modified retrospective transition method applied to all contracts with the cumulative effect recorded to the opening balance of retained earnings as of the date of adoption. The comparative information has not been restated and continues to be reported under accounting standards in effect for those periods. The adoption of the new revenue standard did not have a material impact on the Company's consolidated financial position, results of operations, or cash flows. The Company expects the impact of the adoption of the new revenue standard will be immaterial to net income on an ongoing basis. See Note 4, "Revenue", for further details.

#### Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment

In January 2017, the FASB issued ASU 2017-04, Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment, which simplifies how all entities assess goodwill for impairment by eliminating Step 2 from the goodwill impairment test. As amended, the goodwill impairment test will consist of one step comparing the fair value of a reporting unit with its carrying amount. An entity should recognize a goodwill impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, except that the loss recognized should not exceed the total amount of goodwill allocated to the reporting unit. This guidance is effective for interim and annual reporting periods beginning after December 15, 2019 and should be applied prospectively. Early adoption is permitted. The Company early adopted the new guidance, prospectively, in the fourth quarter of fiscal 2018, and its adoption had no material impact on the Company's consolidated financial position, results of operation, or cash flows.

### 3. Acquisitions

The Company continues to make investments to evolve the customer experience, with a strong emphasis on integrating technology across the business. To support these efforts, the Company paid \$13,606 to acquire two technology companies in fiscal 2018.

On September 10, 2018, the Company acquired QM Scientific, an artificial intelligence technology company. The acquisition is not material to the Company's consolidated financial statements.

On October 29, 2018, the Company acquired GlamST, an augmented reality technology company. The acquisition is not material to the Company's consolidated financial statements.

Table of Contents

## 4. Revenue

## Revenue from Contracts with Customers

On February 4, 2018, the Company adopted ASC 606 using the modified retrospective method applied to all contracts as of the date of adoption. The cumulative effect of initially applying the new revenue standard was recorded as an adjustment to the opening balance of retained earnings within the consolidated balance sheets. Under ASC 606, changes were made to the recognition timing or classification of revenues and expenses for the following:

Description	Policy under ASC 605	Policy under ASC 606
Credit card program	Recognized amounts earned under the private label credit card and co-branded credit card programs as a reduction of cost of sales and selling, general and administrative expenses.	Recognize amounts earned under private label credit card and co-branded credit card programs within net sales.
Loyalty program	Recognized revenue under the incremental cost method at the time of purchase by the guest (when points were earned). Recorded a liability for the cost associated with the future performance obligation to the guest.	Recognize revenue under the deferred revenue method by deferring the recognition of the portion of revenue related to the earning of loyalty points to a future period when the guest redeems the points or the points expire.
Gift card breakage	Recognized gift card breakage (amounts not expected to be redeemed) within selling, general and administrative expenses.	Recognize gift card breakage in net sales proportionately as other gift card balances are redeemed.
Sales refund reserve	Recognized a sales refund reserve as a net liability within accrued liabilities.	Recognize a sales refund reserve on a gross basis as a liability within accrued liabilities and a right of return asset within prepaid expense and other current assets.
E-commerce revenue	Recognized revenue based on delivery of merchandise to the guest.	Recognize revenue upon shipment of merchandise to the guest based on meeting the transfer of control criteria.

Upon the adoption of ASC 606, the Company recognized the cumulative effect of \$29,980, net of tax, as a reduction to the opening balance of retained earnings as of February 4, 2018. The cumulative effect of adoption is primarily related to the change in accounting for the loyalty program. The comparative information has not been restated and continues to be reported under accounting standards in effect for those periods. The adoption of the new revenue standard did not have a material impact on the Company's consolidated financial position, results of operations, or cash flows. The Company expects the impact of the adoption of the new revenue standard will be immaterial to net income on an ongoing basis.

The Company's net sales include retail stores and e-commerce merchandise sales as well as salon services and other revenue. Other revenue sources include the private label credit card and co-branded credit card programs, as well as deferred revenue related to the loyalty program and gift card breakage.

## Disaggregated revenue

Edgar Filing: Ulta Beauty, Inc. - Form 10-K

The following table sets forth the amount of net sales attributable to retail stores, e-commerce, salon services, and other:

(Dollars in thousands)	Fiscal year ended					
	February 2, 2019		February 3, 2018		January 28, 2017	
Retail stores	\$ 5,614,624	84%	\$ 5,038,409	85%	\$ 4,268,290	88%
E-commerce	752,224	11%	568,736	10%	345,342	7%
Salon services	300,863	4%	277,361	5%	241,105	5%
Other	48,904	1%	-	0%	-	0%
Total	\$ 6,716,615	100%	\$ 5,884,506	100%	\$ 4,854,737	100%

Table of Contents

The following table sets forth the approximate percentage of net sales by primary category:

	Fiscal year ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Cosmetics	51%	51%	51%
Skincare, Bath & Fragrance	21%	21%	20%
Haircare Products & Styling Tools	19%	19%	20%
Salon Services	4%	5%	5%
Other (nail products, accessories, and other)	5%	4%	4%
	100%	100%	100%

## Deferred revenue

Deferred revenue primarily represents contract liabilities for the Company's obligation to transfer additional goods or services to a guest for which the Company has received consideration, such as unredeemed Ultimate Rewards loyalty points and unredeemed Ulta Beauty gift cards. In addition, the Company recognizes breakage on gift cards proportionately as redemption occurs.

The following table provides a summary of the changes included in deferred revenue during fiscal 2018:

	Fiscal year ended February 2, 2019
Beginning balance	\$ 110,103
Adoption of ASC 606	38,773
Additions to contract liabilities (1)	140,638
Deductions to contract liabilities (2)	(95,929)
Ending balance	\$ 193,585

- (1) Loyalty points and gift cards issued in the current period but not redeemed or expired.  
(2) Revenue recognized in the current period related to the beginning liability.

## 5. Property and equipment

Property and equipment consists of the following:

(In thousands)	February 2, 2019	February 3, 2018
Equipment and fixtures	\$ 994,668	\$ 834,931
Leasehold improvements	785,276	705,943
Electronic equipment and software	544,618	485,368
Construction-in-progress	50,574	122,419
	2,375,136	2,148,661
Less: accumulated depreciation and amortization	(1,149,107)	(959,208)
Property and equipment, net	\$ 1,226,029	\$ 1,189,453

6. Goodwill

The changes in the carrying amounts of goodwill during the fiscal years 2018 and 2017 are as follows:

(In thousands)	
Balance as of February 3, 2018	\$ -
Acquisitions	10,870
Balance as of February 2, 2019	\$ 10,870

Table of Contents

The Company did not have a goodwill balance prior to fiscal 2018.

## 7. Other intangible assets

Other intangible assets subject to amortization consists of the following:

(In thousands)	Weighted-average remaining useful life in years	February 2, 2019		Net
		Gross carrying value	Accumulated amortization	
Developed technology	4.7	\$ 4,631	\$ (314)	\$ 4,317

The Company did not have any other intangible assets prior to fiscal 2018.

Amortization expense related to intangible assets was \$314, \$0, and \$0 in fiscal 2018, fiscal 2017, and fiscal 2016, respectively.

Estimated amortization expense related to intangible assets at February 2, 2019, for the next five years and thereafter is as follows:

Fiscal year	Estimated amortization expense (In thousands)
2019	\$ 926
2020	926
2021	926
2022	926
2023	613
2024 and thereafter	—
	\$ 4,317

## 8. Commitments and contingencies

Leases – The Company leases retail stores, distribution centers, corporate offices, and certain equipment under operating leases with various expiration dates through 2032. Store leases generally have initial lease terms of 10 years and include renewal options under substantially the same terms and conditions as the original leases. Total rent expense under operating leases was \$262,275, \$241,559, and \$202,942 in fiscal 2018, 2017 and 2016, respectively. As of February 2, 2019, future minimum lease payments under operating leases for the non-cancellable period are as follows:

Fiscal year	Operating Leases (In thousands)
2019	\$ 334,508
2020	334,238
2021	318,041
2022	294,412
2023	250,876
2024 and thereafter	753,337
Total minimum lease payments	\$ 2,285,412

Included in the operating lease schedule above is \$219,897 of minimum lease payments for stores that are expected to open in future periods.

Table of Contents

Contractual obligations – As of February 2, 2019, the Company had obligations of \$11,175 related to commitments made to a third party for products and services for a new fast fulfillment center opening in fiscal 2020. Payments under this commitment were \$1,792 in fiscal 2018. In addition, the Company has entered into various non-cancelable advertising and other goods and service contracts. A majority of these agreements expire over one year and the obligations under these agreements were \$18,033 as of February 2, 2019.

General litigation – The Company is involved in various legal proceedings that are incidental to the conduct of the business including both class action and single plaintiff litigation. In the opinion of management, the amount of any liability with respect to these proceedings, either individually or in the aggregate, will not have a material adverse effect on the Company’s consolidated financial position, results of operations or cash flows.

## 9. Accrued liabilities

Accrued liabilities consist of the following:

(In thousands)	February 2, 2019	February 3, 2018
Accrued payroll, bonus, and employee benefits	\$ 96,020	\$ 82,593
Accrued taxes	32,085	28,306
Other accrued liabilities	92,561	78,272
Accrued liabilities	\$ 220,666	\$ 189,171

## 10. Income taxes

The provision for income taxes consists of the following:

(In thousands)	Fiscal 2018	Fiscal 2017	Fiscal 2016
Current:			
Federal	\$ 137,255	\$ 230,006	\$ 194,199
State	29,247	28,714	24,835
Total current	166,502	258,720	219,034
Deferred:			
Federal	29,374	(26,256)	24,480
State	4,706	(839)	2,440
Total deferred	34,080	(27,095)	26,920
Provision for income taxes	\$ 200,582	\$ 231,625	\$ 245,954

A reconciliation of the federal statutory rate to the Company’s effective tax rate is as follows:

Fiscal 2018	Fiscal 2017	Fiscal 2016
----------------	----------------	----------------

Edgar Filing: Ulta Beauty, Inc. - Form 10-K

Federal statutory rate	21.0 %	33.7 %	35.0 %
State effective rate, net of federal tax benefit	3.1 %	2.4 %	2.8 %
Re-measurement of deferred tax liabilities	0.0 %	(4.9)%	0.0 %
Excess deduction of stock compensation	(0.6)%	(1.2)%	0.0 %
Other	(0.2)%	(0.6)%	(0.3)%
Effective tax rate	23.3 %	29.4 %	37.5 %

At February 3, 2018, the Company recorded a provisional tax expense related to the impacts of the Tax Cuts and Jobs Act (Tax Reform). The SEC issued guidance on December 22, 2017 under Staff Accounting Bulletin No. 118 (“SAB 118”) which allowed recording a provisional tax expense using a measurement period, not to exceed more than one year from the enactment date. The Company’s accounting for the impacts of the Tax Reform is complete and the Company has not recorded any material adjustments to the provisional amounts under SAB 118.

Table of Contents

Significant components of the Company's deferred tax assets and liabilities are as follows:

(In thousands)	February 2, 2019	February 3, 2018
Deferred tax assets:		
Reserves not currently deductible	\$ 30,669	\$ 23,789
Employee benefits	18,491	15,273
Credit carryforwards	237	343
Accrued liabilities	34,391	14,625
Inventory valuation	4,107	847
NOL carryforwards	413	—
Total deferred tax assets	88,308	54,877
Deferred tax liabilities:		
Property and equipment	69,265	54,210
Deferred rent obligation	60,525	49,518
Prepaid expenses	39,915	10,552
Intangibles	1,018	—
Receivables not currently includable	1,449	—
Total deferred tax liabilities	172,172	114,280
Net deferred tax liability	\$ (83,864)	\$ (59,403)

At February 2, 2019, the Company had \$237 of credit carryforwards for state income tax purposes that expire between 2023 and 2028. The Company also had \$1,114 of federal and \$1,136 of state net operating loss (NOL) carryforwards that expire by 2035 and \$368 of federal and \$345 of state NOL carryforwards that do not expire.

The Company accounts for uncertainty in income taxes in accordance with the ASC 740-10 rules for income taxes. The reserve for uncertain tax positions was \$3,844 and \$3,565 at February 2, 2019 and February 3, 2018, respectively. The balance is the Company's best estimate of the potential liability for uncertain tax positions. A reconciliation of the Company's unrecognized tax benefits, excluding interest and penalties, is as follows:

(In thousands)	February 2, 2019	February 3, 2018
Balance at beginning of the period	\$ 3,565	\$ 3,305
Increase due to a prior year tax position	1,008	1,064
Decrease due to a prior period position	(729)	(804)
Balance at the end of the period	\$ 3,844	\$ 3,565

The Company acknowledges that the amount of unrecognized tax benefits may change in the next twelve months. However, it does not expect the change to have a significant impact on its consolidated financial statements. Income tax-related interest and penalties were insignificant for fiscal 2018 and 2017.

The Company files tax returns in the U.S. federal and state jurisdictions. The Company is no longer subject to U.S. federal examinations by the Internal Revenue Service for years before 2017 and is no longer subject to examinations

by state authorities before 2014.

11. Notes payable

On August 23, 2017, the Company entered into a Second Amended and Restated Loan Agreement (the Loan Agreement) with Wells Fargo Bank, National Association, as Administrative Agent, Collateral Agent and a Lender thereunder, Wells Fargo Bank, National Association and JPMorgan Chase Bank, N.A., as Lead Arrangers and Bookrunners, JPMorgan Chase Bank, N.A., as Syndication Agent and a Lender, PNC Bank, National Association, as Documentation Agent and a Lender, and the other lenders party thereto. The Loan Agreement matures on August 23, 2022, provides maximum revolving loans equal to the lesser of \$400,000 or a percentage of eligible owned inventory (which borrowing base may,

62

---

## Table of Contents

at the election of the Company and satisfaction of certain conditions, include a percentage of eligible owned receivables and qualified cash), contains a \$20,000 subfacility for letters of credit and allows the Company to increase the revolving facility by an additional \$50,000, subject to the consent by each lender and other conditions. The Loan Agreement contains a requirement to maintain a fixed charge coverage ratio of not less than 1.0 to 1.0 during such periods when availability under the Loan Agreement falls below a specified threshold. Substantially all of the Company's assets are pledged as collateral for outstanding borrowings under the Loan Agreement. Outstanding borrowings will bear interest at either a base rate or the London Interbank Offered Rate plus 1.25%, and the unused line fee is 0.20% per annum.

As of February 2, 2019 and February 3, 2018, the Company had no borrowings outstanding under the credit facility and the Company was in compliance with all terms and covenants of the Loan Agreement.

### 12. Fair value measurements

The carrying value of cash and cash equivalents, accounts receivable, and accounts payable approximates their estimated fair values due to the short maturities of these instruments.

Fair value is measured using inputs from the three levels of the fair value hierarchy, which are described as follows:

- Level 1 – observable inputs such as quoted prices for identical instruments in active markets.
- Level 2 – inputs other than quoted prices in active markets that are observable either directly or indirectly through corroboration with observable market data.
- Level 3 – unobservable inputs in which there is little or no market data, which would require the Company to develop its own assumptions.

As of February 2, 2019 and February 3, 2018, the Company held financial liabilities included in other long-term liabilities on the consolidated balance sheets of \$19,615 and \$15,942, respectively, related to its non-qualified deferred compensation plan. The liabilities have been categorized as Level 2 as they are based on third-party reported values which are based primarily on quoted market prices of underlying assets of the funds within the plan.

### 13. Investments

The Company did not have any short-term investments as of February 2, 2019. The Company's short-term investments as of February 3, 2018 consisted of \$120,000 in certificates of deposit. Short-term investments are carried at cost, which approximates fair value and are recorded in the consolidated balance sheets in short-term investments.

### 14. Share-based awards

#### Equity incentive plans

The Company has had a number of equity incentive plans over the years. The plans were adopted in order to attract and retain the best available personnel for positions of substantial authority and to provide additional incentive to employees and directors to promote the success of the Company's business. Incentive compensation was awarded under the Amended and Restated Restricted Stock Option Plan until April 2002 and under the 2002 Equity Incentive Plan through July 2007, at which time the 2007 Incentive Award Plan was adopted. All of the plans generally provided for the grant of incentive stock options, non-qualified stock options, restricted stock, restricted stock units, stock appreciation rights, and other types of awards to employees, consultants, and directors. Unless provided otherwise by the administrator of the plan, options vested over four years at the rate of 25% per year from the date of grant and most must be exercised within ten years. Options were granted with the exercise price equal to the fair value of the underlying stock on the date of grant.

Amended and restated 2011 incentive award plan

In June 2016, the Company adopted the Amended and Restated 2011 Incentive Award Plan (the 2011 Plan). The 2011 Plan provides for the grant of incentive stock options, non-qualified stock options, restricted stock, restricted stock units,

63

---

Table of Contents

stock appreciation rights, performance awards, dividend equivalent rights, stock payments, deferred stock, and cash-based awards to employees, consultants, and directors. Following its original adoption in June 2011, awards are only being made under the 2011 Plan, and no further awards will be made under any prior plan. As of February 2, 2019, the 2011 Plan reserves for the issuance upon grant or exercise of awards up to 3,336 shares of the Company's common stock.

The following table presents information related to the Company's 2011 Incentive award plan:

	Fiscal 2018	Fiscal 2017	Fiscal 2016
2011 Incentive award plan (in thousands)			
Compensation expense			
Common stock options	\$ 8,590	\$ 8,993	\$ 7,983
Restricted stock units	12,077	9,507	7,295
Performance-based restricted stock units	6,822	5,899	4,062
Total stock compensation expense	\$ 27,489	\$ 24,399	\$ 19,340
Cash received from stock option exercises	\$ 13,121	\$ 16,190	\$ 16,293
Income tax benefit	\$ 6,135	\$ 10,024	\$ 6,764
Tax benefit realized	\$ 6,135	\$ 10,024	\$ 15,868

## Common stock options

The Company measures share-based compensation cost on the grant date, based on the fair value of the award, and recognizes the expense on a straight-line basis over the requisite service period for awards expected to vest. The Company estimated the grant date fair value of stock options using a Black-Scholes valuation model using the following weighted-average assumptions:

	Fiscal 2018	Fiscal 2017	Fiscal 2016
Volatility rate	29.0%	30.9%	35.0%
Average risk-free interest rate	2.4%	1.6%	1.2%
Average expected life (in years)	3.4	3.5	3.5
Dividend yield	None	None	None

The expected volatility is based on the historical volatility of the Company's common stock. The risk-free interest rate is based on the United States Treasury yield curve in effect on the date of grant for the respective expected life of the option. The expected life represents the time the options granted are expected to be outstanding. The expected life of options granted is derived from historical data on Ulta Beauty stock option exercises. Forfeitures of options are estimated at the grant date based on historical rates of the Company's stock option activity and reduce the compensation expense recognized. The Company does not currently pay a regular dividend.

The following table presents information related to the Company's common stock options:

Common stock options (in thousands, except weighted-average grant date fair value)	Fiscal 2018	Fiscal 2017	Fiscal 2016
Weighted-average grant date fair value	\$ 50.10	\$ 69.61	\$ 53.02
Fair value of options vested	\$ 10,042	\$ 5,656	\$ 5,932
Intrinsic value of options exercised	\$ 25,902	\$ 29,449	\$ 27,468

At February 2, 2019, there was approximately \$17,311 of unrecognized compensation expense related to unvested stock options. The unrecognized compensation expense is expected to be recognized over a weighted-average period of approximately two and a half years.

Table of Contents

A summary of the status of the Company's stock option activity is presented in the following table (shares in thousands):

	Fiscal 2018		Fiscal 2017		Fiscal 2016	
	Number of options	Weighted-average exercise price	Number of options	Weighted-average exercise price	Number of options	Weighted-average exercise price
Common stock options outstanding						
Beginning of year	766	\$ 147.76	830	\$ 120.78	939	\$ 104.58
Granted	163	204.27	106	279.76	110	193.64
Exercised	(166)	78.81	(166)	97.44	(194)	83.88
Forfeited	(8)	260.83	(4)	120.71	(25)	118.97
End of year	755	\$ 174.34	766	\$ 147.76	830	\$ 120.78
Exercisable at end of year	296	\$ 134.27	261	\$ 81.72	280	\$ 69.69
Vested and Expected to vest	718	\$ 173.02	725	\$ 145.86	786	\$ 119.32

The following table presents information related to options outstanding and options exercisable at February 2, 2019, under the Company's stock option plans based on ranges of exercise prices (shares in thousands):

Range of Exercise Prices	Options outstanding			Options exercisable		
	Number of options	Weighted-average remaining contractual life (years)	Weighted-average exercise price	Number of options	Weighted-average remaining contractual life (years)	Weighted-average exercise price
\$22.86 – \$57.42	43	2	\$ 41.06	43	2	\$ 41.06
\$69.96 – \$96.81	47	4	83.71	47	4	83.71
\$97.89 – \$125.23	60	5	104.53	60	5	104.53
\$127.15 – \$164.06	245	7	161.56	76	7	159.15
\$164.61 – \$204.27	255	8	199.24	43	7	190.22
\$210.72 – \$281.53	105	8	278.47	27	8	277.84
\$22.86 – \$281.53	755	7	\$ 174.34	296	5	\$ 134.27

The aggregate intrinsic value of outstanding and exercisable options as of February 2, 2019 was \$88,307 and \$46,503, respectively. The last reported sale price of our common stock on the NASDAQ Global Select Market on

February 2, 2019 was \$291.36 per share.

#### Restricted stock units

The Company issues restricted stock units to certain employees and its Board of Directors. Employee grants will generally cliff vest after three years and director grants will cliff vest within one year. The grant date fair value of restricted stock units is based on the closing market price of shares of the Company's common stock on the date of grant. Restricted stock units are expensed on a straight-line basis over the requisite service period. Forfeitures of restricted stock units are estimated at the grant date based on historical rates of the Company's stock award activity and reduce the compensation expense recognized. At February 2, 2019, unrecognized compensation cost related to restricted stock units was \$19,370. The unrecognized compensation expense is expected to be recognized over a weighted-average period of approximately one and a half years.

Table of Contents

A summary of the status of the Company's restricted stock units activity is presented in the following table (shares in thousands):

	Fiscal 2018		Fiscal 2017		Fiscal 2016	
	Number of units	Weighted-average grant date fair value	Number of units	Weighted-average grant date fair value	Number of units	Weighted-average grant date fair value
Restricted stock units outstanding						
Beginning of year	134	\$ 207.70	142	\$ 154.71	144	\$ 116.42
Granted	97	208.82	47	278.48	55	203.40
Vested	(52)	164.35	(46)	117.61	(46)	98.06
Forfeited	(11)	227.44	(9)	201.51	(11)	138.25
End of year	168	\$ 220.68	134	\$ 207.70	142	\$ 154.71
Expected to vest	154	\$ 220.68	123	\$ 207.70	131	\$ 154.71

## Performance-based restricted stock units

The Company issues performance-based restricted stock units annually to certain employees. These awards will cliff vest after three years based upon achievement of pre-established goals at the end of the second year of the term. Consistent with restricted stock units, the grant date fair value of performance-based restricted stock units is based on the closing market price of shares of the Company's common stock on the date of grant. Performance-based restricted stock units are expensed on a straight-line basis over the requisite service period, based on the probability of achieving the performance goal, with changes in expectations recognized as an adjustment to earnings in the period of the change. If the performance goal is not met, no compensation cost is recognized and any previously recognized compensation cost is reversed. Forfeitures of performance-based restricted stock units are estimated at the grant date based on historical rates of the Company's stock award activity and reduce the compensation expense recognized. At February 2, 2019, unrecognized compensation cost related to performance-based restricted stock units was \$9,182. The unrecognized compensation expense is expected to be recognized over a weighted-average period of approximately one year.

A summary of the status of the Company's performance-based restricted stock unit activity is presented in the following table (shares in thousands):

	Fiscal 2018		Fiscal 2017		Fiscal 2016	
	Number of units	Weighted-average grant date	Number of units	Weighted-average grant date	Number of units	Weighted-average grant date
Performance-based restricted stock units outstanding						
Beginning of year	78	\$ 196.81	41	\$ 173.47	20	\$ 151.20
Granted	33	204.27	21	281.53	24	191.76
Change in performance award payout	22	191.76	19	151.20	—	—
Vested	(36)	151.20	—	—	—	—

Edgar Filing: Ulta Beauty, Inc. - Form 10-K

Forfeited	(3)	224.49	(3)	186.90	(3)	167.71
End of year	94	\$ 214.64	78	\$ 196.81	41	\$ 173.47
Expected to vest	87	\$ 241.64	72	\$ 196.81	38	\$ 173.47

The number of performance-based restricted stock units granted is based on achieving the targeted performance goals as defined in the performance-based restricted stock unit agreements. As of February 2, 2019, the maximum number of units that could vest under the provisions of the agreements was 146.

Table of Contents

## 15. Net income per common share

The following is a reconciliation of net income and the number of shares of common stock used in the computation of net income per basic and diluted common share:

(In thousands, except per share data)	Fiscal year ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Numerator for diluted net income per share – net income	\$ 658,559	\$ 555,234	\$ 409,760
Denominator for basic net income per share – weighted-average common shares	59,864	61,556	62,519
Dilutive effect of stock options and non-vested stock	317	419	332
Denominator for diluted net income per share	60,181	61,975	62,851
Net income per common share:			
Basic	\$ 11.00	\$ 9.02	\$ 6.55
Diluted	\$ 10.94	\$ 8.96	\$ 6.52

The denominator for diluted net income per common share for fiscal years 2018, 2017 and 2016 excludes 302, 167, and 142 employee stock options and restricted stock units, respectively, due to their anti-dilutive effects. Outstanding performance-based restricted stock units are included in the computation of dilutive shares only to the extent that the underlying performance conditions are satisfied prior to the end of the reporting period or would be considered satisfied if the end of the reporting period were the end of the related contingency period and the results would be dilutive under the treasury stock method.

## 16. Employee benefit plans

The Company provides a 401(k) retirement plan covering all employees who qualify as to age and length of service. The plan is funded through employee contributions and a Company match. In fiscal 2018, 2017 and 2016, the Company match was 100% of the first 3.0% of eligible compensation. Starting in January 2019, the Company added an additional 50% match for the next 2% of eligible compensation. The liability for the Company match included in accrued liabilities in the consolidated balance sheets was \$9,617 and \$8,139 as of February 2, 2019 and February 3, 2018, respectively. Total expense recorded under this plan is included in SG&A expenses in the consolidated statements of income and was \$10,029, \$7,570, and \$5,852 during fiscal 2018, 2017, and 2016, respectively.

The Company also has a non-qualified deferred compensation plan for highly compensated employees whose contributions are limited under qualified defined contribution plans. The plan is funded through employee contributions and a Company match. In fiscal 2018, 2017 and 2016, the Company match was 100% of the first 3.0% of salary. The liability for the Company match included in accrued liabilities in the consolidated balance sheets was \$1,217 and \$895 as of February 2, 2019 and February 3, 2018, respectively. Amounts contributed and deferred under the plan are credited or charged with the performance of investment options offered under the plan as elected by the participants. In the event of bankruptcy, the assets of this plan are available to satisfy the claims of general creditors. The liability for compensation deferred under the Company's plan included in other long-term liabilities in the consolidated balance sheets was \$19,615 and \$15,942 as of February 2, 2019 and February 3, 2018, respectively. The Company manages the risk of changes in the fair value of the liability for deferred compensation by electing to match

its liability under the plan with investment vehicles that offset a substantial portion of its exposure. The cash value of the investment vehicles included in deferred compensation plan assets was \$20,511 and \$16,827 as of February 2, 2019 and February 3, 2018, respectively. Total expense recorded under this plan is included in SG&A expenses in the consolidated statements of income and was insignificant during fiscal 2018, 2017, and 2016.

- (1) Fiscal 2017 includes 53 weeks. Net sales for the 53rd week of fiscal 2017 were approximately \$108,756.
- (2) Net income and basic and diluted earnings per share for the fourth quarter of 2017 included a significant tax provision benefit as a result of the impact of Tax Reform.

The sum of the quarterly net income per common share may not equal the annual total due to quarterly changes in the weighted average shares and share equivalents outstanding.

18. Share repurchase program

On March 10, 2016, the Company announced that the Board of Directors authorized a share repurchase program (the 2016 Share Repurchase Program) pursuant to which the Company could repurchase up to \$425,000 of the Company's common stock. The 2016 Share Repurchase Program authorization revoked the previously authorized, but unused amounts of \$172,386 from the earlier share repurchase program. The 2016 Share Repurchase Program did not have an expiration date but provided for suspension or discontinuation at any time.

As part of the 2016 Share Repurchase Program, the Company entered into an Accelerated Share Repurchase (ASR) agreement with Goldman, Sachs & Co. to repurchase \$200,000 of the Company's common stock. Under the ASR agreement, the Company paid \$200,000 to Goldman, Sachs & Co. and received an initial delivery of 852 shares in the first quarter of fiscal 2016, which were retired and represented 80% of the total shares the Company expected to receive based on the market price at the time of the initial delivery. In May 2016, the ASR settled and an additional 153 shares were delivered to the Company and retired. The final number of shares delivered upon settlement was determined with reference to the average price of the Company's common stock over the term of the agreement. The transaction was accounted for as an equity transaction. The par value of shares received was recorded as a reduction to common stock with the remainder recorded as a reduction to additional paid-in capital and retained earnings. Upon receipt of the shares, there was an immediate reduction in the weighted average common shares calculation for basic and diluted earnings per share.

On March 9, 2017, the Company announced that the Board of Directors authorized a new share repurchase program (the 2017 Share Repurchase Program) pursuant to which the Company could repurchase up to \$425,000 of the Company's common stock. The 2017 Share Repurchase Program authorization revoked the previously authorized but unused amount of \$79,863 from the 2016 Share Repurchase Program. The 2017 Share Repurchase Program did not have an expiration date but provided for suspension or discontinuation at any time.

On March 15, 2018, the Company announced that the Board of Directors authorized a new share repurchase program (the 2018 Share Repurchase Program) pursuant to which the Company could repurchase up to \$625,000 of the Company's common stock. The 2018 Share Repurchase Program authorization revoked the previously authorized but unused amount of \$41,317 from the 2017 Share Repurchase Program. The 2018 Share Repurchase Program did not have an expiration date but provided for suspension or discontinuation at any time.

During fiscal 2016, excluding the shares repurchased under the ASR, the Company purchased 634 shares of common stock for \$144,275. During fiscal 2017, the Company purchased 1,504 shares of common stock for \$367,581. During fiscal 2018, the Company purchased 2,464 shares of common stock for \$616,194.

19. Subsequent event

On March 14, 2019, the Company announced that the Board of Directors authorized a new share repurchase program (the 2019 Share Repurchase Program) pursuant to which the Company may repurchase up to \$875,000 of the Company's common stock. The 2019 Share Repurchase Program authorization revokes the previously authorized but unused amounts from the 2018 Share Repurchase Program. The 2019 Share Repurchase Program does not have an expiration date and may be suspended or discontinued at any time.
