## Section 8 Other Events

### Item 8.01. Other Events

On July 23, 2009, Occidental Petroleum Corporation announced net income of \$682 million (\$0.84 per diluted share) for the second quarter of 2009, compared with \$2.3 billion (\$2.78 per diluted share) for the second quarter of 2008.

## QUARTERLY RESULTS

### Oil and Gas

Oil and gas segment earnings were \$1.1 billion for the second quarter of 2009, compared with \$3.8 billion for the same period in 2008. The decrease in the second quarter 2009 segment earnings reflected lower crude oil and natural gas prices and higher DD&A rates, partially offset by higher oil and gas sales volumes and lower operating expenses.

For the second quarter of 2009, daily oil and gas sales volumes averaged 649,000 barrels of oil equivalent (BOE), compared with 588,000 BOE sold in the second quarter of 2008. Volumes increased by approximately 3 percent domestically, mainly from California and Midcontinent/Rockies, by about 37 percent in Latin America mostly in Argentina, and by 16 percent in the Middle East/North Africa largely in Oman and Dolphin. California volumes included increases in Long Beach resulting from economic arrangements similar to a production sharing contract and production from new exploration wells in Elk Hills.

Oxy's realized price for worldwide crude oil was \$52.97 per barrel for the second quarter of 2009, compared with \$110.12 per barrel for the second quarter of 2008. Domestic realized gas prices decreased from \$9.99 per MCF in the second quarter of 2008 to \$2.87 per MCF for the second quarter of 2009.

### Chemicals

Chemical segment earnings for the second quarter 2009 were \$115 million, compared with \$144 million for the same period in 2008. The second quarter of 2009 results reflect the continued weakness in the U.S. housing, automotive and durable goods sectors resulting in lower volumes for chlorine, caustic soda and polyvinyl chloride. The lower volumes were partially offset by lower feedstock and energy costs.

### Midstream, Marketing and Other

Midstream segment earnings were \$63 million for the second quarter of 2009, compared with \$161 million for the second quarter of 2008. The second quarter of 2009 earnings reflect lower margins in the gas processing, marketing, and power generation businesses.

SIX MONTH RESULTS

Net income for the six months of 2009 was \$1.1 billion (\$1.29 per diluted share), compared with \$4.1 billion (\$5.00 per diluted share) for the six months of 2008.

Core results were \$1.1 billion (\$1.34 per diluted share) for the six months of 2009, compared with \$4.1 billion (\$4.97 per diluted share) for the six months of 2008.

Oil and Gas

Oil and gas segment earnings were \$1.6 billion for the six months of 2009, compared with \$6.7 billion for the same period of 2008. The decrease in segment earnings reflected lower crude oil and natural gas prices and higher DD&A rates, partially offset by increased sales volumes and lower operating and administrative costs.

Daily oil and gas sales volumes for the first six months was 651,000 BOE for 2009, compared with 598,000 BOE per day for the same 2008 period. Volumes increased by approximately 4 percent domestically mainly from California and Midcontinent/Rockies, by about 26 percent in Latin America mostly in Argentina, and by 11 percent in the Middle East/North Africa largely due to Oman and Dolphin. Higher volumes in domestic assets included production from new exploration wells in California.

Oxy's worldwide crude oil realized price was \$46.05 per barrel for the six months of 2009, compared with \$98.16 per barrel for the six months of 2008. Domestic realized gas prices decreased from \$9.09 per MCF in the six months of 2008 to \$3.20 per MCF in the six months of 2009.

Chemicals

Chemical segment earnings for the six months of 2009 were \$284 million, compared with \$323 million for the same period of 2008. The 2009 six month results reflect lower volumes for chlorine, caustic soda and polyvinyl chloride due to the economic slowdown, partially offset by lower feedstock and energy costs.

Midstream, Marketing and Other

Midstream segment earnings were \$77 million for the six months of 2009, compared with \$284 million for the same period in 2008. The earnings decline in 2009 reflects lower margins in the gas processing, power generation, and marketing businesses.

**SIGNIFICANT TRANSACTIONS AND EVENTS AFFECTING EARNINGS**

Occidental's results of operations often include the effects of significant transactions and events affecting earnings that vary widely and unpredictably in nature, timing and amount. Therefore, management uses a measure called "core results," which excludes those items. This non-GAAP measure is not meant to disassociate those items from management's performance, but rather is meant to provide useful information to investors interested in comparing Occidental's earnings performance between periods. Reported earnings are considered representative of management's performance over the long term. Core results is not considered to be an alternative to operating income in accordance with generally accepted accounting principles.
