ITEM 7.01 REGULATION FD DISCLOSURE

The Company's Fleet Status Report at November 9, 2006 is attached hereto as

## Edgar Filing: ATWOOD OCEANICS INC - Form 8-K

Exhibit 99.1. Such information is being furnished under Regulation FD and should not be deemed to be filed under Section 18 of the Exchange Act. The Fleet Status Report has also been posted on the Company's website at [www.atwd.com](http://www.atwd.com). All changes from the Company's last Fleet Status Report dated November 9, 2006 are highlighted in yellow on the Company's website.

The ATWOOD FALCON completed its shipyard project within its expected budgeted total cost of approximately \$32 million. As a result of expensing a portion of these costs in September 2006, operating costs for the ATWOOD FALCON during the quarter and month ended September 30, 2006 were higher than normal at \$56,000 and \$85,000, respectively. We expect to expense another \$5 million of shipyard related costs during the first quarter of fiscal year 2007 which is expected to result in the ATWOOD FALCON's total operating costs for the quarter ending December 31, 2006 to be between \$8 million and \$9 million. Due primarily to weather related delays, the rig incurred four (4) days of zero rate at the end of the shipyard period. The rig is currently preparing to recommence drilling operations. The ATWOOD BEACON is currently in placecountry-regionSingapore having its last leg sections reattached. This process is now expected to take until the end of November 2006 to complete, with a loss of hire insurance coverage of \$70,000 per day to be receiving during this period. Following the reattachment of the leg sections, the rig will be moved to placecountry-regionIndia to commence its twenty-five (25) month contract commitment with Gujarat State Petroleum Corporation Ltd. The CityVICKSBURG has commenced its two (2) year and eight (8) month contract commitment with Chevron in placecountry-regionThailand.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors including; the Company's dependence on the oil and gas industry; the risks involved the construction of a rig; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism; risks associated with a possible disruption in operations due to a war with Iraq; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's annual report on Form 10-K for the year ended September 30, 2005, filed with the Securities and Exchange Commission.
