UNITED STATES
 SECURITIES AND EXCHANGE COMMISSION
 Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2015

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 000-18911

GLACIER BANCORP, INC.
 (Exact name of registrant as specified in its charter)

MONTANA (State or other jurisdiction of incorporation or organization)	81-0519541 (IRS Employer Identification No.)
--	--

49 Commons Loop, Kalispell, Montana (Address of principal executive offices) (406) 756-4200	59901 (Zip Code)
---	---------------------

Registrant's telephone number, including area code
 Not Applicable

(Former name, former address, and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

(Do not check if a smaller reporting company)

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of Registrant's common stock outstanding on November 2, 2015 was 76,086,288. No preferred shares are issued or outstanding.

GLACIER BANCORP, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Operations and Summary of Significant Accounting Policies

General

Glacier Bancorp, Inc. (“Company”) is a Montana corporation headquartered in Kalispell, Montana. The Company provides a full range of banking services to individuals and businesses in Montana, Idaho, Wyoming, Colorado, Utah and Washington through its wholly-owned bank subsidiary, Glacier Bank (“Bank”). The Company offers a wide range of banking products and services, including transaction and savings deposits, real estate, commercial, agriculture and consumer loans and mortgage origination services. The Company serves individuals, small to medium-sized businesses, community organizations and public entities.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the Company’s financial condition as of September 30, 2015, the results of operations and comprehensive income for the three and nine month periods ended September 30, 2015 and 2014, and changes in stockholders’ equity and cash flows for the nine month periods ended September 30, 2015 and 2014. The condensed consolidated statement of financial condition of the Company as of December 31, 2014 has been derived from the audited consolidated statements of the Company as of that date.

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (“GAAP”) for complete financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014. Operating results for the nine months ended September 30, 2015 are not necessarily indicative of the results anticipated for the year ending December 31, 2015.

The Company is a defendant in legal proceedings arising in the normal course of business. In the opinion of management, the disposition of pending litigation will not have a material affect on the Company’s consolidated financial position, results of operations or liquidity.

Material estimates that are particularly susceptible to significant change include: 1) the determination of the allowance for loan and lease losses (“ALLL” or “allowance”); 2) the valuation of investment securities; 3) the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans; and 4) the evaluation of goodwill impairment. For the determination of the ALLL and real estate valuation estimates, management obtains independent appraisals (new or updated) for significant items. Estimates relating to investment valuations are obtained from independent third parties. Estimates relating to the evaluation of goodwill for impairment are determined based on internal calculations using significant independent party inputs.

Principles of Consolidation

The consolidated financial statements of the Company include the parent holding company, the Bank and all variable interest entities (“VIE”) for which the Company has both the power to direct the VIE’s significant activities and the obligation to absorb a majority of the expected losses and/or receive a majority of the expected residual returns. The Bank consists of thirteen bank divisions, a treasury division and an information technology division. The treasury division includes the Bank’s investment portfolio and wholesale borrowings and the information technology division includes the Bank’s internal data processing and information technology expenses. Each of the Bank divisions operate under separate names, management teams and directors. The Company considers the Bank to be its sole operating

segment as the Bank 1) engages in similar bank business activity from which it earns revenues and incurs expenses; 2) the operating results of the Bank are regularly reviewed by the Chief Executive Officer (i.e., the chief operating decision maker) who makes decisions about resources to be allocated to the Bank; and 3) financial information is available for the Bank. All significant inter-company transactions have been eliminated in consolidation.

In February 2015, the Company completed its acquisition of Montana Community Banks, Inc. and its wholly-owned subsidiary, Community Bank, Inc., a community bank based in Ronan, Montana (collectively, "CB"). In August 2014, the Company completed its acquisition of FNBR Holding Corporation and its wholly-owned subsidiary, First National Bank of the Rockies, a community bank based in Grand Junction, Colorado. The transactions were accounted for using the acquisition method, and their results of operations have been included in the Company's consolidated financial statements as of the acquisition dates.

Loans Receivable

Loans that are intended to be held-to-maturity are reported at the unpaid principal balance less net charge-offs and adjusted for deferred fees and costs on originated loans and unamortized premiums or discounts on acquired loans. Fees and costs on originated loans and premiums or discounts on acquired loans are deferred and subsequently amortized or accreted as a yield adjustment over the expected life of the loan utilizing the interest method. The objective of the interest method is to calculate periodic interest income at a constant effective yield. When a loan is paid off prior to maturity, the remaining fees and costs on originated loans and premiums or discounts on acquired loans are immediately recognized into interest income.

The Company's loan segments, which are based on the purpose of the loan, include residential real estate, commercial, and consumer loans. The Company's loan classes, a further disaggregation of segments, include residential real estate loans (residential real estate segment), commercial real estate and other commercial loans (commercial segment), and home equity and other consumer loans (consumer segment).

Loans that are thirty days or more past due based on payments received and applied to the loan are considered delinquent. Loans are designated non-accrual and the accrual of interest is discontinued when the collection of the contractual principal or interest is unlikely. A loan is typically placed on non-accrual when principal or interest is due and has remained unpaid for ninety days or more. When a loan is placed on non-accrual status, interest previously accrued but not collected is reversed against current period interest income. Subsequent payments on non-accrual loans are applied to the outstanding principal balance if doubt remains as to the ultimate collectability of the loan. Interest accruals are not resumed on partially charged-off impaired loans. For other loans on nonaccrual, interest accruals are resumed on such loans only when they are brought fully current with respect to interest and principal and when, in the judgment of management, the loans are estimated to be fully collectible as to both principal and interest.

The Company considers impaired loans to be the primary credit quality indicator for monitoring the credit quality of the loan portfolio. Loans are designated impaired when, based upon current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement and, therefore, the Company has serious doubts as to the ability of such borrowers to fulfill the contractual obligation. Impaired loans include non-performing loans (i.e., non-accrual loans and accruing loans ninety days or more past due) and accruing loans under ninety days past due where it is probable payments will not be received according to the loan agreement (e.g., troubled debt restructuring). Interest income on accruing impaired loans is recognized using the interest method. The Company measures impairment on a loan-by-loan basis in the same manner for each class within the loan portfolio. An insignificant delay or shortfall in the amounts of payments would not cause a loan or lease to be considered impaired. The Company determines the significance of payment delays and shortfalls on a case-by-case basis, taking into consideration all of the facts and circumstances surrounding the loan and the borrower, including the length and reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest due.

A restructured loan is considered a troubled debt restructuring ("TDR") if the creditor, for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider. The Company periodically enters into restructure agreements with borrowers whereby the loans were previously identified as TDRs. When such circumstances occur, the Company carefully evaluates the facts of the subsequent restructure to determine the appropriate accounting and under certain circumstances it may be acceptable not to account for the subsequently restructured loan as a TDR. When assessing whether a concession has been granted by the Company, any prior forgiveness on a cumulative basis is considered a continuing concession. A TDR loan is considered an impaired loan and a specific valuation allowance is established when the fair value of the collateral-dependent loan or present value of the loan's expected future cash flows (discounted at the loan's effective interest rate based on the original contractual rate) is lower than the carrying value of the impaired loan. The Company has made the following

types of loan modifications, some of which were considered a TDR:

• Reduction of the stated interest rate for the remaining term of the debt;

• Extension of the maturity date(s) at a stated rate of interest lower than the current market rate for newly originated debt having similar risk characteristics; and

• Reduction of the face amount of the debt as stated in the debt agreements.

10

The Company recognizes that while borrowers may experience deterioration in their financial condition, many continue to be creditworthy customers who have the willingness and capacity for debt repayment. In determining whether non-restructured or unimpaired loans issued to a single or related party group of borrowers should continue to accrue interest when the borrower has other loans that are impaired or are TDRs, the Company on a quarterly or more frequent basis performs an updated and comprehensive assessment of the willingness and capacity of the borrowers to timely and ultimately repay their total debt obligations, including contingent obligations. Such analysis takes into account current financial information about the borrowers and financially responsible guarantors, if any, including for example:

- analysis of global, i.e., aggregate debt service for total debt obligations;
- assessment of the value and security protection of collateral pledged using current market conditions and alternative market assumptions across a variety of potential future situations; and
- loan structures and related covenants.

For additional information relating to loans, see Note 3.

Allowance for Loan and Lease Losses

Based upon management's analysis of the Company's loan portfolio, the balance of the ALLL is an estimate of probable credit losses known and inherent within the Bank's loan portfolio as of the date of the consolidated financial statements. The ALLL is analyzed at the loan class level and is maintained within a range of estimated losses. Determining the adequacy of the ALLL involves a high degree of judgment and is inevitably imprecise as the risk of loss is difficult to quantify. The determination of the ALLL and the related provision for loan losses is a critical accounting estimate that involves management's judgments about all known relevant internal and external environmental factors that affect loan losses. The balance of the ALLL is highly dependent upon management's evaluations of borrowers' current and prospective performance, appraisals and other variables affecting the quality of the loan portfolio. Individually significant loans and major lending areas are reviewed periodically to determine potential problems at an early date. Changes in management's estimates and assumptions are reasonably possible and may have a material impact upon the Company's consolidated financial statements, results of operations or capital.

Risk characteristics considered in the ALLL analysis applicable to each loan class within the Company's loan portfolio are as follows:

Residential Real Estate. Residential real estate loans are secured by owner-occupied 1-4 family residences. Repayment of these loans is primarily dependent on the personal income and credit rating of the borrowers. Credit risk in these loans is impacted by economic conditions within the Company's market areas that affect the value of the property securing the loans and affect the borrowers' personal incomes. Mitigating risk factors for this loan class include a large number of borrowers, geographic dispersion of market areas and the loans are originated for relatively smaller amounts.

Commercial Real Estate. Commercial real estate loans typically involve larger principal amounts, and repayment of these loans is generally dependent on the successful operation of the property securing the loan and / or the business conducted on the property securing the loan. Credit risk in these loans is impacted by the creditworthiness of a borrower, valuation of the property securing the loan and conditions within the local economies in the Company's diverse, geographic market areas.

Commercial. Commercial loans consist of loans to commercial customers for use in financing working capital needs, equipment purchases and business expansions. The loans in this category are repaid primarily from the cash flow of a borrower's principal business operation. Credit risk in these loans is driven by creditworthiness of a borrower and the economic conditions that impact the cash flow stability from business operations across the Company's diverse,

geographic market areas.

Home Equity. Home equity loans consist of junior lien mortgages and first and junior lien lines of credit (revolving open-end and amortizing closed-end) secured by owner-occupied 1-4 family residences. Repayment of these loans is primarily dependent on the personal income and credit rating of the borrowers. Credit risk in these loans is impacted by economic conditions within the Company's market areas that affect the value of the residential property securing the loans and affect the borrowers' personal incomes. Mitigating risk factors for this loan class are a large number of borrowers, geographic dispersion of market areas and the loans are originated for terms that range from 10 years to 20 years.

Other Consumer. The other consumer loan portfolio consists of various short-term loans such as automobile loans and loans for other personal purposes. Repayment of these loans is primarily dependent on the personal income of the borrowers. Credit risk is driven by consumer economic factors (such as unemployment and general economic conditions in the Company's diverse, geographic market area) and the creditworthiness of a borrower.

The ALLL consists of a specific valuation allowance component and a general valuation allowance component. The specific component relates to loans that are determined to be impaired and individually evaluated for impairment. The Company measures impairment on a loan-by-loan basis based on the present value of expected future cash flows discounted at the loan's effective interest rate, except when it is determined that repayment of the loan is expected to be provided solely by the underlying collateral. For impairment based on expected future cash flows, the Company considers all information available as of a measurement date, including past events, current conditions, potential prepayments, and estimated cost to sell when such costs are expected to reduce the cash flows available to repay or otherwise satisfy the loan. For alternative ranges of cash flows, the likelihood of the possible outcomes is considered in determining the best estimate of expected future cash flows. The effective interest rate for a loan restructured in a TDR is based on the original contractual rate. For collateral-dependent loans and real estate loans for which foreclosure or a deed-in-lieu of foreclosure is probable, impairment is measured by the fair value of the collateral, less estimated cost to sell. The fair value of the collateral is determined primarily based upon appraisal or evaluation of the underlying real property value.

The general valuation allowance component relates to probable credit losses inherent in the balance of the loan portfolio based on historical loss experience, adjusted for changes in trends and conditions of qualitative or environmental factors. The historical loss experience is based on the previous twelve quarters loss experience by loan class adjusted for risk characteristics in the existing loan portfolio. The same trends and conditions are evaluated for each class within the loan portfolio; however, the risk characteristics are weighted separately at the individual class level based on the Company's judgment and experience.

The changes in trends and conditions evaluated for each class within the loan portfolio include the following:

- Changes in lending policies and procedures, including changes in underwriting standards and collection, charge-off, and recovery practices not considered elsewhere in estimating credit losses;
- Changes in global, national, regional, and local economic and business conditions and developments that affect the collectability of the portfolio, including the condition of various market segments;
- Changes in the nature and volume of the portfolio and in the terms of loans;
- Changes in experience, ability, and depth of lending management and other relevant staff;
- Changes in the volume and severity of past due and nonaccrual loans;
- Changes in the quality of the Company's loan review system;
- Changes in the value of underlying collateral for collateral-dependent loans;
- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and
- The effect of other external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the Company's existing portfolio.

The ALLL is increased by provisions for loan losses which are charged to expense. The portions of loan balances determined by management to be uncollectible are charged off as a reduction of the ALLL and recoveries of amounts previously charged off are credited as an increase to the ALLL. The Company's charge-off policy is consistent with bank regulatory standards. Consumer loans generally are charged off when the loan becomes over 120 days delinquent. Real estate acquired as a result of foreclosure or by deed-in-lieu of foreclosure is classified as real estate owned until such time as it is sold.

At acquisition date, the assets and liabilities of acquired banks are recorded at their estimated fair values which results in no ALLL carried over from acquired banks. Subsequent to acquisition, an allowance will be recorded on the acquired loan portfolios for further credit deterioration, if any.

Impact of Recent Authoritative Accounting Guidance

The Accounting Standards Codification (“ASC”) is the Financial Accounting Standards Board’s (“FASB”) officially recognized source of authoritative GAAP applicable to all public and non-public non-governmental entities. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under the authority of the federal securities laws are also sources of authoritative GAAP for the Company as an SEC registrant. All other accounting literature is non-authoritative. The following paragraphs provide descriptions of recently adopted or newly issued but not yet effective accounting standards that could have a material effect on the Company’s financial position or results of operations.

In September 2015, FASB amended FASB ASC Topic 805, Simplifying the Accounting for Measurement-Period Adjustments. The amendments in this Update require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustments are necessary. The amendments in this Update require that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The amendments in this Update require an entity to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The amendments should be applied prospectively to all periods presented and are effective for public business entities for annual periods and interim periods within those annual periods, beginning after December 15, 2015. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations.

In February 2015, FASB amended FASB ASC Topic 810, Consolidation. The amendments in this Update make targeted changes to the current consolidation guidance and ends a deferral available for investment companies. The amendments modify the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities. Consolidation conclusions may change for entities that already are VIEs due to changes in how entities would analyze related-party relationships and fee arrangements. The amendments relax existing criteria for determining when fees paid to a decision maker or service provider do not represent a variable interest by focusing on whether those fees are "at market." The amendments eliminate both the consolidation model specific to limited partnerships and the current presumption that a general partner controls a limited partnership. Application of the new amendments could result in some entities being deconsolidated or considered a VIE and subject to additional disclosures. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period with any adjustments reflected as of the beginning of the reporting year that includes the interim period. A reporting entity may apply the amendments using a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning of the reporting year of adoption or may apply the amendments retrospectively. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations.

In May 2014, FASB amended FASB ASC Topic 606, Revenue from Contracts with Customers. The amendments clarify the principals for recognizing revenue and develop a common revenue standard among industries. The new guidance establishes the following core principal: recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for goods or services. Five steps are provided for a company or organization to follow to achieve such core principle. The new guidance also includes a cohesive set of disclosure requirements that will provide users of financial statements with comprehensive information about the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The entity should apply the amendments using one of two retrospective methods described in the amendment. Accounting Standards Update No 2015-14, Revenue from Contracts with Customers (Topic 606) delayed the effective date for public entities to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Early application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations.

In January 2014, FASB amended FASB ASC Topic 323, Investments - Equity Method and Joint Ventures. The amendments permit entities to make an accounting policy election for their investments in qualified affordable

housing projects using the proportional amortization method if certain conditions are met. Under the proportional amortization method, an entity amortizes the initial cost of the investment in proportion to the tax credits and other tax benefits received and recognizes the net investment performance in the income statement as a component of income tax expense. The amendments should be applied retrospectively to all periods presented and are effective for public business entities for annual periods and interim periods within those annual periods, beginning after December 15, 2014. The adoption of these amendments did not have a material effect on the Company's financial position or results of operations.

Note 2. Investment Securities

The following tables present the amortized cost, the gross unrealized gains and losses and the fair value of the Company's investment securities:

(Dollars in thousands)	September 30, 2015			Fair Value
	Amortized Cost	Gross Unrealized Gains	Losses	
Available-for-sale				
U.S. government and federal agency	\$49,712	15	(412) 49,315

Held-to-maturity							
State and local governments	\$18,643	(624) 76,761	(2,352) 95,404	(2,976)
Total held-to-maturity	\$18,643	(624) 76,761	(2,352) 95,404	(2,976)

Based on an analysis of its investment securities with unrealized losses as of September 30, 2015 and December 31, 2014, the Company determined that none of such securities had other-than-temporary impairment and the unrealized losses were primarily the result of interest rate changes and market spreads subsequent to acquisition. The fair value of the investment securities is expected to recover as payments are received and the securities approach maturity. At September 30, 2015, management determined that it did not intend to sell investment securities with unrealized losses, and there was no expected requirement to sell any of its investment securities with unrealized losses before recovery of their amortized cost.

Note 3. Loans Receivable, Net

The Company's loan portfolio is comprised of three segments: residential real estate, commercial, and consumer and other loans. The loan segments are further disaggregated into the following classes: residential real estate, commercial real estate, other commercial, home equity and other consumer loans. The following table presents loans receivable for each portfolio class of loans:

(Dollars in thousands)	September 30, 2015	December 31, 2014
Residential real estate loans	\$ 644,694	611,463
Commercial loans		
Real estate	2,500,952	2,337,548
Other commercial	1,080,715	925,900
Total	3,581,667	3,263,448
Consumer and other loans		
Home equity	412,256	394,670
Other consumer	237,802	218,514
Total	650,058	613,184
Loans receivable ¹	4,876,419	4,488,095
Allowance for loan and lease losses	(130,768) (129,753
Loans receivable, net	\$ 4,745,651	4,358,342

¹ Includes net deferred fees, costs, premiums and discounts of \$12,450,000 and \$13,710,000 at September 30, 2015 and December 31, 2014, respectively.

Substantially all of the Company's loans receivable are with customers in the Company's geographic market areas. Although the Company has a diversified loan portfolio, a substantial portion of its customers' ability to honor their obligations is dependent upon the economic performance in the Company's market areas.

The following tables summarize the activity in the ALLL by portfolio segment:

(Dollars in thousands)	Three Months ended September 30, 2015					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer

Troubled debt restructurings that subsequently defaulted						
Number of loans	7	1	1	3	1	1
Recorded balance	\$ 2,542	1,947	78	440	75	2

(Dollars in thousands)	Nine Months ended September 30, 2014					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
Troubled debt restructurings						
Number of loans	38	—	16	18	2	2
Pre-modification recorded balance	\$ 32,957	—	12,793	19,908	242	14
Post-modification recorded balance	\$ 32,320	—	12,836	19,228	242	14
Troubled debt restructurings that subsequently defaulted						
Number of loans	7	—	2	5	—	—
Recorded balance	\$ 1,676	—	927	749	—	—

The modifications for the TDRs that occurred during the nine months ended September 30, 2015 and 2014 included one or a combination of the following: an extension of the maturity date, a reduction of the interest rate or a reduction in the principal amount.

In addition to the TDRs that occurred during the period provided in the preceding tables, the Company had TDRs with pre-modification loan balances of \$7,677,000 and \$10,178,000 for the nine months ended September 30, 2015 and 2014, respectively, for which other real estate owned (“OREO”) was received in full or partial satisfaction of the loans. The majority of such TDRs were in commercial real estate for the nine months ended September 30, 2015 and 2014. At September 30, 2015, the Company had \$3,864,000 of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process. At September 30, 2015, the Company had \$1,308,000 of OREO secured by residential real estate properties.

Note 4. Goodwill

The following schedule discloses the changes in the carrying value of goodwill:

(Dollars in thousands)	Three Months ended		Nine Months ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Net carrying value at beginning of period	\$ 130,843	129,706	129,706	129,706
Acquisitions	—	—	1,137	—
Net carrying value at end of period	\$ 130,843	129,706	130,843	129,706

The gross carrying value of goodwill and the accumulated impairment charge consists of the following:

(Dollars in thousands)	September 30, 2015	December 31, 2014
Gross carrying value	\$ 171,002	169,865
Accumulated impairment charge	(40,159) (40,159
Net carrying value	\$ 130,843	129,706

The Company performed its annual goodwill impairment test during the third quarter of 2015 and determined the fair value of the aggregated reporting units exceeded the carrying value, such that the Company's goodwill was not considered impaired. Changes in the economic environment, operations of the aggregated reporting units, or other factors could result in the decline in the fair value of the aggregated reporting units which could result in a goodwill impairment in the future.

For additional information on goodwill related to acquisitions, see Note 12.

Note 5. Variable Interest Entities

A VIE is a partnership, limited liability company, trust or other legal entity that meets either one of the following criteria; 1) the entity's total equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support from other parties, or 2) the entity has equity investors that cannot make significant decisions about the entity's operations or that do not absorb their proportionate share of the expected losses or receive the expected returns of the entity. A VIE must be consolidated by the Company if it is deemed to be the primary beneficiary of the VIE, which is the party involved with the VIE that has the power to direct the VIE's significant activities and will absorb a majority of the expected losses, receive a majority of the expected residual returns, or both.

The Company's VIEs are regularly monitored to determine if any reconsideration events have occurred that could cause the primary beneficiary status to change. A previously unconsolidated VIE is consolidated when the Company becomes the primary beneficiary. A previously consolidated VIE is deconsolidated when the Company ceases to be the primary beneficiary or the entity is no longer a VIE.

Consolidated Variable Interest Entities

The Company has equity investments in Certified Development Entities (“CDE”) which have received allocations of New Markets Tax Credits (“NMTC”). The Company also has equity investments in Low-Income Housing Tax Credit (“LIHTC”) partnerships. The CDEs and the LIHTC partnerships are VIEs. The underlying activities of the VIEs are community development projects designed primarily to promote community welfare, such as economic rehabilitation and development of low-income areas by providing housing, services, or jobs for residents. The maximum exposure to loss in the VIEs is the amount of equity invested and credit extended by the Company. However, the Company has credit protection in the form of indemnification agreements, guarantees, and collateral arrangements. The primary activities of the VIEs are recognized in commercial loans interest income, other non-interest income and other borrowed funds interest expense on the Company’s statements of operations and the federal income tax credit allocations from the investments are recognized in the Company’s statements of operations as a component of income tax expense. Such related cash flows are recognized in loans originated, principal collected on loans and change in other borrowed funds. The Company has evaluated the variable interests held by the Company in each CDE (NMTC) and LIHTC partnership investment and determined that the Company continues to be the primary beneficiary of such VIEs. As the primary beneficiary, the VIEs’ assets, liabilities, and results of operations are included in the Company’s consolidated financial statements.

The following table summarizes the carrying amounts of the consolidated VIEs’ assets and liabilities included in the Company’s statements of financial condition and are adjusted for intercompany eliminations. All assets presented can be used only to settle obligations of the consolidated VIEs and all liabilities presented consist of liabilities for which creditors and other beneficial interest holders therein have no recourse to the general credit of the Company.

(Dollars in thousands)	September 30, 2015		December 31, 2014	
	CDE (NMTC)	LIHTC	CDE (NMTC)	LIHTC
Assets				
Loans receivable	\$36,114	—	36,077	—

Accrued interest receivable	113	—	116	—
Other assets	376	312	616	258
Total assets	\$36,603	13,095	36,809	13,364
Liabilities				
Other borrowed funds	\$4,555	1,640	4,555	1,690
Accrued interest payable	4	5	4	5
Other liabilities	35	—	185	—
Total liabilities	\$4,594	1,645	4,744	1,695

The following table summarizes the net investment loss of the consolidated VIEs and the associated tax credits included in the Company’s statements of operations during the three and nine months ended September 30, 2015 and 2014.

(Dollars in thousands)	Three Months ended		September 30, 2014		Nine Months ended		September 30, 2014	
	CDE (NMTC)	LIHTC	CDE (NMTC)	LIHTC	CDE (NMTC)	LIHTC	CDE (NMTC)	LIHTC
VIE loss	\$(15)	(177)	(14)	(270)	(705)	(680)	(701)	(811)
Federal income tax credits	276	294	275	318	1,441	881	1,439	953

Unconsolidated Variable Interest Entities

The Company owns the following trust subsidiaries, each of which issued trust preferred securities as Tier 1 capital instruments: Glacier Capital Trust II, Glacier Capital Trust III, Glacier Capital Trust IV, Citizens (ID) Statutory Trust I, Bank of the San Juans Bancorporation Trust I, First Company Statutory Trust 2001, and First Company Statutory Trust 2003. The trust subsidiaries have no assets, operations, revenues or cash flows other than those related to the issuance, administration and repayment of the securities held by third parties. The trust subsidiaries are not included in the Company's consolidated financial statements because the sole asset of each trust subsidiary is a receivable from the Company, even though the Company owns all of the voting equity shares of the trust subsidiaries, has fully guaranteed the obligations of the trust subsidiaries and may have the right to redeem the third party securities under certain circumstances. The Company reports the trust preferred securities issued to the trust subsidiaries as subordinated debentures on the Company's statements of financial condition.

Note 6. Securities Sold Under Agreements to Repurchase

The Company's securities sold under agreements to repurchase ("repurchase agreements") totaled \$441,041,000 and \$397,107,000 at September 30, 2015 and December 31, 2014, respectively, and are secured by investment securities with carrying values of \$472,289,000 and \$479,345,000, respectively. Securities are pledged to customers at the time of the transaction in an amount at least equal to the outstanding balance and are held in custody accounts by third parties. The fair value of collateral is continually monitored and additional collateral is provided as deemed appropriate.

The following tables summarize the carrying value of the Company's repurchase agreements by remaining contractual maturity and by class of collateral pledged:

(Dollars in thousands)	September 30, 2015		
	Remaining Contractual Maturity of the Agreements		
	Overnight and Continuous	Up to 30 Days	Total
U.S. government sponsored enterprises	\$ 12,603	—	12,603
Residential mortgage-backed securities	425,614	2,824	428,438
Total	\$ 438,217	2,824	441,041

(Dollars in thousands)	December 31, 2014		
	Remaining Contractual Maturity of the Agreements		
	Overnight and Continuous	Up to 30 Days	Total
Residential mortgage-backed securities	\$ 391,997	5,110	397,107

Note 7. Derivatives and Hedging Activities

As of September 30, 2015, the Company's interest rate swap derivative financial instruments were designated as cash flow hedges and are summarized as follows:

(Dollars in thousands)	Forecasted Notional Amount	Variable Interest Rate ¹	Fixed Interest Rate ¹	Payment Term ²
------------------------	----------------------------	-------------------------------------	----------------------------------	---------------------------

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

Interest rate swap	\$ 160,000	3 month LIBOR	3.378	% Oct. 21, 2014 - Oct. 21, 2021
Interest rate swap	100,000	3 month LIBOR	2.498	% Nov. 30, 2015 - Nov. 30, 2022

¹ The Company pays the fixed interest rate and the counterparty pays the Company the variable interest rate.

² No cash will be exchanged prior to the beginning of the payment term.

The hedging strategy converts the LIBOR-based variable interest rate on borrowings to a fixed interest rate, thereby protecting the Company from interest rate variability.

In October 2014, the interest rate swap with the \$160,000,000 notional amount began its payment term. The Company designated wholesale deposits as the cash flow hedge and these deposits were determined to be fully effective during the current period. As such, no amount of ineffectiveness has been included in the Company's statements of operations for the nine months ended September 30, 2015. Therefore, the aggregate fair value of the interest rate swap was recorded in other liabilities with changes recorded in other comprehensive income. The Company expects the hedge to remain highly effective during the remaining term of the interest rate swap. Interest expense recorded on this interest rate swap totaled \$4,099,000 during 2015 and is reported as a component of interest expense on deposits. Unless the interest rate swap is terminated during the next year, the Company expects \$5,405,000 of the unrealized loss reported in other comprehensive income at September 30, 2015 to be reclassified to interest expense during the next twelve months.

The following table presents the pre-tax gains or losses recorded in accumulated other comprehensive income and the Company's statements of operations relating to the interest rate swap derivative financial instruments:

(Dollars in thousands)	Three Months ended		Nine Months ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Interest rate swaps				
Amount of gain (loss) recognized in OCI (effective portion)	\$ (8,630) 201	(10,727) (11,468
Amount of loss reclassified from OCI to interest expense	(1,263) —	(3,771) —
Amount of loss recognized in other non-interest expense (ineffective portion)	—	—	—	—

The following table discloses the offsetting of financial liabilities and interest rate swap derivative liabilities. There were no interest rate swap derivative assets at the dates presented.

(Dollars in thousands)	September 30, 2015			December 31, 2014		
	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statements of Financial Position	Net Amounts of Liabilities Presented in the Statements of Financial Position	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statements of Financial Position	Net Amounts of Liabilities Presented in the Statements of Financial Position
Interest rate swaps	\$ 23,623	—	23,623	16,668	—	16,668

Pursuant to the interest rate swap agreements, the Company pledged collateral to the counterparty in the form of investment securities totaling \$26,074,000 at September 30, 2015. There was \$0 collateral pledged from the counterparty to the Company as of September 30, 2015. There is the possibility that the Company may need to pledge additional collateral in the future if there were declines in the fair value of the interest rate swap derivative financial instruments versus the collateral pledged.

Note 8. Other Expenses

Other expenses consists of the following:

(Dollars in thousands)	Three Months ended		Nine Months ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Debit card expenses	\$ 1,625	1,455	4,510	4,457
Consulting and outside services	898	1,634	4,173	3,024
VIE write-downs, losses and other expenses	761	858	3,062	3,210
Employee expenses	1,032	907	2,827	2,486
Postage	902	828	2,743	2,472
Printing and supplies	937	871	2,633	2,540
Checking and operating expenses	1,104	1,033	2,551	2,587
Telephone	816	667	2,453	2,207
Loan expenses	642	618	2,433	1,761
Accounting and audit fees	405	366	1,264	1,219
ATM expenses	242	268	811	836
Legal fees	332	389	780	1,027
Other	1,033	899	2,845	2,601
Total other expenses	\$ 10,729	10,793	33,085	30,427

Note 9. Accumulated Other Comprehensive Income

The following table illustrates the activity within accumulated other comprehensive income by component, net of tax:

(Dollars in thousands)	Gains on Available-For-Sale Securities	Gains (Losses) on Derivatives Used for Cash Flow Hedges	Total
Balance at December 31, 2013	\$ 8,485	1,160	9,645
Other comprehensive income (loss) before reclassification	19,936	(7,018)) 12,918
Amounts reclassified from accumulated other comprehensive income	112	—	112
Net current period other comprehensive income (loss)	20,048	(7,018)) 13,030
Balance at September 30, 2014	\$ 28,533	(5,858)) 22,675
Balance at December 31, 2014	\$ 27,945	(10,201)) 17,744
Other comprehensive loss before reclassification	(5,524)) (6,581)) (12,105)
Amounts reclassified from accumulated other comprehensive income	58	2,310	2,368
Net current period other comprehensive loss	(5,466)) (4,271)) (9,737)
Balance at September 30, 2015	\$ 22,479	(14,472)) 8,007

Note 10. Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted-average number of shares of common stock outstanding during the period presented. Diluted earnings per share is computed by including the net increase in shares as if dilutive outstanding stock options were exercised and restricted stock awards were vested, using the treasury stock method.

Basic and diluted earnings per share has been computed based on the following:

(Dollars in thousands, except per share data)	Three Months ended		Nine Months ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Net income available to common stockholders, basic and diluted	\$29,614	29,294	86,619	84,701
Average outstanding shares - basic	75,531,923	74,631,317	75,424,147	74,512,806
Add: dilutive stock options and awards	54,530	44,807	45,208	41,457
Average outstanding shares - diluted	75,586,453	74,676,124	75,469,355	74,554,263
Basic earnings per share	\$0.39	0.40	1.15	1.14
Diluted earnings per share	\$0.39	0.40	1.15	1.14

There were 3,181 and 0 stock options or restricted stock awards excluded from the diluted average outstanding share calculation for the nine months ended September 30, 2015 and 2014, respectively, because to do so would have been anti-dilutive for those periods. Anti-dilution occurs when the exercise price of a stock option or the unrecognized compensation cost per share of a restricted stock award exceeds the market price of the Company's stock.

Note 11. Fair Value of Assets and Liabilities

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There is a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Transfers in and out of Level 1 (quoted prices in active markets), Level 2 (significant other observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date. There were no transfers between fair value hierarchy levels during the nine month periods ended September 30, 2015 and 2014.

Recurring Measurements

The following is a description of the inputs and valuation methodologies used for assets and liabilities measured at fair value on a recurring basis, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended September 30, 2015.

Investment securities, available-for-sale: fair value for available-for-sale securities is estimated by obtaining quoted market prices for identical assets, where available. If such prices are not available, fair value is based on independent asset pricing services and models, the inputs of which are market-based or independently sourced market parameters, including but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. Where Level 1 or Level 2 inputs are not available, such securities are classified as Level 3 within the hierarchy.

Fair value determinations of available-for-sale securities are the responsibility of the Company's corporate accounting and treasury departments. The Company obtains fair value estimates from independent third party vendors on a monthly basis. The Company reviews the vendors' inputs for fair value estimates and the recommended assignments of levels within the fair value hierarchy. The review includes the extent to which markets for investment securities are determined to have limited or no activity, or are judged to be active markets. The Company reviews the extent to which observable and unobservable inputs are used as well as the appropriateness of the underlying assumptions about risk that a market participant would use in active markets, with adjustments for limited or inactive markets. In considering the inputs to the fair value estimates, the Company places less reliance on quotes that are judged to not reflect orderly transactions, or are non-binding indications. In assessing credit risk, the Company reviews payment performance, collateral adequacy, third party research and analyses, credit rating histories and issuers' financial statements. For those markets determined to be inactive or limited, the valuation techniques used are models for which management has verified that discount rates are appropriately adjusted to reflect illiquidity and credit risk.

Interest rate swap derivative financial instruments: fair values for interest rate swap derivative financial instruments are based upon the estimated amounts to settle the contracts considering current interest rates and are calculated using discounted cash flows that are observable or that can be corroborated by observable market data and, therefore, are classified within Level 2 of the valuation hierarchy. The inputs used to determine fair value include the 3 month LIBOR forward curve to estimate variable rate cash inflows and the Fed Funds Effective Swap Rate to estimate the discount rate. The estimated variable rate cash inflows are compared to the fixed rate outflows and such difference is discounted to a present value to estimate the fair value of the interest rate swaps. The Company also obtains and compares the reasonableness of the pricing from an independent third party.

The following schedules disclose the fair value measurement of assets and liabilities measured at fair value on a recurring basis:

(Dollars in thousands)	Fair Value September 30, 2015	Fair Value Measurements At the End of the Reporting Period Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total liabilities measured at fair value on a recurring basis	\$ 16,668	—	16,668	—

Non-recurring Measurements

The following is a description of the inputs and valuation methodologies used for assets recorded at fair value on a non-recurring basis, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended September 30, 2015.

Other real estate owned: OREO is carried at the lower of fair value at acquisition date or current estimated fair value, less estimated cost to sell. Estimated fair value of OREO is based on appraisals or evaluations (new or updated). OREO is classified within Level 3 of the fair value hierarchy.

Collateral-dependent impaired loans, net of ALLL: loans included in the Company's loan portfolio for which it is probable that the Company will not collect all principal and interest due according to contractual terms are considered impaired. Estimated fair value of collateral-dependent impaired loans is based on the fair value of the collateral, less estimated cost to sell. Collateral-dependent impaired loans are classified within Level 3 of the fair value hierarchy.

The Company's credit departments review appraisals for OREO and collateral-dependent loans, giving consideration to the highest and best use of the collateral. The appraisal or evaluation (new or updated) is considered the starting point for determining fair value. The valuation techniques used in preparing appraisals or evaluations (new or updated) include the cost approach, income approach, sales comparison approach, or a combination of the preceding valuation techniques. The key inputs used to determine the fair value of the collateral-dependent loans and OREO include selling costs, discounted cash flow rate or capitalization rate, and adjustment to comparables. Valuations and significant inputs obtained by independent sources are reviewed by the Company for accuracy and reasonableness. The Company also considers other factors and events in the environment that may affect the fair value. The appraisals or evaluations (new or updated) are reviewed at least quarterly and more frequently based on current market conditions, including deterioration in a borrower's financial condition and when property values may be subject to significant volatility. After review and acceptance of the collateral appraisal or evaluation (new or updated), adjustments to the impaired loan or OREO may occur. The Company generally obtains appraisals or evaluations (new or updated) annually.

The following schedules disclose the fair value measurement of assets with a recorded change during the period resulting from re-measuring the assets at fair value on a non-recurring basis:

(Dollars in thousands)	Fair Value September 30, 2015	Fair Value Measurements At the End of the Reporting Period Using Quoted Prices		
		in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other real estate owned	\$ 6,582	—	—	6,582
Collateral-dependent impaired loans, net of ALLL	12,401	—	—	12,401
Total assets measured at fair value on a non-recurring basis	\$ 18,983	—	—	18,983

(Dollars in thousands)	Fair Value December 31, 2014	Fair Value Measurements At the End of the Reporting Period Using Quoted Prices		
		in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other real estate owned	\$ 3,000	—	—	3,000
Collateral-dependent impaired loans, net of ALLL	15,480	—	—	15,480
Total assets measured at fair value on a non-recurring basis	\$ 18,480	—	—	18,480

Non-recurring Measurements Using Significant Unobservable Inputs (Level 3)

The following tables present additional quantitative information about assets measured at fair value on a non-recurring basis and for which the Company has utilized Level 3 inputs to determine fair value:

(Dollars in thousands)	Fair Value September 30, 2015	Quantitative Information about Level 3 Fair Value Measurements		
		Valuation Technique	Unobservable Input	Range (Weighted-Average) ¹
Other real estate owned	\$ 3,040	Sales comparison approach	Selling costs	7.0% - 10.0% (8.4%)

			Adjustment to comparables	10.0% - 20.0% (16.2%)
	\$ 15,480			

¹ The range for selling costs and adjustments to comparables indicate reductions to the fair value.

Fair Value of Financial Instruments

The following is a description of the methods used to estimate the fair value of all other assets and liabilities recognized at amounts other than fair value.

Cash and cash equivalents: fair value is estimated at book value.

Investment securities, held-to-maturity: fair value for held-to-maturity securities is estimated in the same manner as available-for-sale securities, which is described above.

Loans held for sale: fair value is estimated at book value.

Loans receivable, net of ALLL: fair value is estimated by discounting the future cash flows using the rates at which similar notes would be written for the same remaining maturities. The market rates used are based on current rates the Company would impose for similar loans and reflect a market participant assumption about risks associated with non-performance, illiquidity, and the structure and term of the loans along with local economic and market conditions. Estimated fair value of impaired loans is based on the fair value of the collateral, less estimated cost to sell, or the present value of the loan's expected future cash flows (discounted at the loan's effective interest rate). All impaired loans are classified as Level 3 and all other loans are classified as Level 2 within the valuation hierarchy.

Accrued interest receivable: fair value is estimated at book value.

Non-marketable equity securities: fair value is estimated at book value due to restrictions that limit the sale or transfer of such securities.

Deposits: fair value of term deposits is estimated by discounting the future cash flows using rates of similar deposits with similar maturities. The market rates used were obtained from an independent third party and reviewed by the Company. The rates were the average of current rates offered by the Company's local competitors. The estimated fair value of demand, NOW, savings, and money market deposits is the book value since rates are regularly adjusted to market rates and transactions are executed at book value daily. Therefore, such deposits are classified in Level 1 of the valuation hierarchy. Certificate accounts and wholesale deposits are classified as Level 2 within the hierarchy.

Federal Home Loan Bank advances: fair value of non-callable Federal Home Loan Bank (“FHLB”) advances is estimated by discounting the future cash flows using rates of similar advances with similar maturities. Such rates were obtained from current rates offered by FHLB. The estimated fair value of callable FHLB advances was obtained from FHLB and the model was reviewed by the Company.

Securities sold under agreements to repurchase and other borrowed funds: fair value of term repurchase agreements and other term borrowings is estimated based on current repurchase rates and borrowing rates currently available to the Company for repurchases and borrowings with similar terms and maturities. The estimated fair value for overnight repurchase agreements and other borrowings is book value.

Subordinated debentures: fair value of the subordinated debt is estimated by discounting the estimated future cash flows using current estimated market rates. The market rates used were averages of currently traded trust preferred securities with similar characteristics to the Company’s issuances and obtained from an independent third party.

Accrued interest payable: fair value is estimated at book value.

Off-balance sheet financial instruments: commitments to extend credit and letters of credit represent the principal categories of off-balance sheet financial instruments. Rates for these commitments are set at time of loan closing, such that no adjustment is necessary to reflect these commitments at market value. The Company has an insignificant amount of off-balance sheet financial instruments.

The following schedules present the carrying amounts, estimated fair values and the level within the fair value hierarchy of the Company’s financial instruments:

(Dollars in thousands)	Carrying Amount September 30, 2015	Fair Value Measurements At the End of the Reporting Period Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 12. Mergers and Acquisitions

On February 28, 2015, the Company acquired 100 percent of the outstanding common stock of Montana Community Banks, Inc. and its wholly-owned subsidiary, Community Bank, Inc., a community bank based in Ronan, Montana. CB provides banking services to individuals and businesses in western Montana, with banking offices located in Missoula, Polson, Ronan and Pablo, Montana. The acquisition allowed the Company to add new markets in western Montana and complimented the Company's presence in Missoula and Polson, Montana. The branches of CB have become a part of the Glacier Bank and First Security Bank of Missoula bank divisions. The CB acquisition was valued at \$22,995,000 and resulted in the Company issuing 443,644 shares of its common stock and \$12,219,000 in cash in exchange for all of CB's outstanding common stock shares. The fair value of the Company shares issued was determined on the basis of the closing market price of the Company's common stock on the February 28, 2015 acquisition date. The excess of the fair value of consideration transferred over total identifiable net assets was recorded as goodwill. The goodwill arising from the acquisition consists largely of the synergies and economies of scale expected from combining the operations of the Company and CB. None of the goodwill is deductible for income tax purposes as the acquisition was accounted for as a tax-free exchange.

The assets and liabilities of CB were recorded on the Company's consolidated statements of financial condition at their estimated fair values as of the February 28, 2015 acquisition date and CB's results of operations have been included in the Company's consolidated statements of operations since that date. The following table discloses the calculation of the fair value of the consideration transferred, the total identifiable net assets acquired and the resulting goodwill arising from the CB acquisition:

(Dollars in thousands)	February 28, 2015
Fair value of consideration transferred	
Fair value of Company shares issued, net of equity issuance costs	\$ 10,776
Cash consideration for outstanding shares	12,219
Contingent consideration	—
Total fair value of consideration transferred	22,995
Recognized amounts of identifiable assets acquired and liabilities assumed	
Identifiable assets acquired	
Cash and cash equivalents	31,931
Investment securities	42,350
Loans receivable	84,689
Core deposit intangible	2,087
Accrued income and other assets	13,580
Total identifiable assets acquired	174,637
Liabilities assumed	
Deposits	146,820
FHLB advances and repurchase agreements	3,292
Accrued expenses and other liabilities	2,667
Total liabilities assumed	152,779
Total identifiable net assets	21,858
Goodwill recognized	\$ 1,137

The fair value of the CB assets acquired includes loans with fair values of \$84,689,000 and the gross principal and contractual interest due under the CB contracts is \$88,817,000. The Company evaluated the principal and contractual interest due at the acquisition date and determined that an insignificant amount is not expected to be collectible.

Core deposit intangible assets related to the CB acquisition totaled \$2,087,000 with an estimated life of 10 years.

The Company incurred \$1,528,000 of third-party acquisition-related costs in connection with the CB acquisition during the nine months ended September 30, 2015. The expenses are included in other expense in the Company's consolidated statements of operations.

Total income consisting of net interest income and non-interest income of the acquired operations of CB was approximately \$5,493,000 and the net income was approximately \$866,000 from February 28, 2015 to September 30, 2015. The following unaudited pro forma summary presents consolidated information of the Company as if the CB acquisition had occurred on January 1, 2014:

(Dollars in thousands)	Three Months ended		Nine Months ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Net interest income and non-interest income	\$ 98,857	95,669	289,861	276,403

Net income	29,614	29,561	86,620	85,359
------------	--------	--------	--------	--------

35

Note 13. Subsequent Event

On October 31, 2015, the Company acquired 100 percent of the outstanding common stock of Cañon Bank Corporation and its wholly-owned subsidiary, Cañon National Bank, a community bank based in Cañon City, Colorado (collectively, "Cañon"). Cañon provides banking services to individuals and businesses in south central Colorado, with banking offices located in Colorado Springs, Pueblo, Pueblo West, Cañon City, Colorado City, and Florence, Colorado. The acquisition expands the Company's market into south central Colorado and further diversifies the Company's loan, customer and deposit base. The branches of Cañon have become a part of the Bank of the San Juans bank division.

The Cañon acquisition was valued at \$31,308,000 and resulted in the Company issuing 554,206 shares of its common stock and \$16,145,000 in cash in exchange for all of Cañon's outstanding common stock shares. The fair value of the Company shares issued was determined on the basis of the closing market price of the Company's common stock on the October 31, 2015 acquisition date.

As of October 31, 2015, the book value of Cañon's total assets was \$258,179,000. The initial accounting for the Cañon acquisition has not been completed because the fair value of loans, deposits and numerous other items has not yet been determined.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to provide a more comprehensive review of the Glacier Bancorp, Inc.’s (“Company”) operating results and financial condition than can be obtained from reading the Consolidated Financial Statements alone. The discussion should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in “Part I. Item 1. Financial Statements.”

FORWARD-LOOKING STATEMENTS

This Form 10-Q may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements about management’s plans, objectives, expectations and intentions that are not historical facts, and other statements identified by words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “should,” “projects,” “seeks,” “estimates” or words of similar nature. These forward-looking statements are based on current beliefs and expectations of management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company’s control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. In addition to the factors set forth in the sections titled “Risk Factors,” “Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, as applicable, in this report and the Annual Report on Form 10-K for the year ended December 31, 2014 (the “2014 Annual Report”), the following factors, among others, could cause actual results to differ materially from the anticipated results:

- the risks associated with lending and potential adverse changes of the credit quality of loans in the Company’s portfolio;
- changes in market interest rates, which could adversely affect the Company’s net interest income and profitability;
- legislative or regulatory changes that adversely affect the Company’s business, ability to complete pending or prospective future acquisitions, limit certain sources of revenue, or increase cost of operations;
- costs or difficulties related to the completion and integration of acquisitions;
- the goodwill the Company has recorded in connection with acquisitions could become impaired, which may have an adverse impact on earnings and capital;
- reduced demand for banking products and services;
- the risks presented by public stock market volatility, which could adversely affect the market price of the Company’s common stock and the ability to raise additional capital or grow the Company through acquisitions;
- consolidation in the financial services industry in the Company’s markets resulting in the creation of larger financial institutions who may have greater resources could change the competitive landscape;
- dependence on the Chief Executive Officer, the senior management team and the Presidents of Glacier Bank (“Bank”) divisions;
 - potential interruption or breach in security of the Company’s systems;
 - and
- the Company’s success in managing risks involved in the foregoing.

Please take into account that forward-looking statements speak only as of the date of this Form 10-Q. The Company does not undertake any obligation to publicly correct or update any forward-looking statement if it later becomes aware that actual results are likely to differ materially from those expressed in such forward-looking statement.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Recent Acquisitions

On February 28, 2015, the Company completed the acquisition of Montana Community Banks, Inc., and its subsidiary, Community Bank, Inc., which has community banking offices in Missoula, Polson, Ronan and Pablo, Montana (collectively, "CB"). The branches of CB have become a part of the Glacier Bank and First Security Bank of Missoula bank divisions. The total purchase price of the acquisition was \$23.0 million, consisting of \$12.2 million of cash paid and 443,644 shares of the Company's common stock issued which resulted in \$1.1 million of goodwill. The Company incurred \$1.5 million of legal and professional expenses in connection with the CB acquisition and conversion during the current year. The Company's results of operations and financial condition include the acquisition of CB from the February 28, 2015 acquisition date.

On October 31, 2015, the Company completed the acquisition of Cañon Bank Corporation and its wholly-owned subsidiary, Cañon National Bank, which has community banking offices in Colorado Springs, Pueblo, Pueblo West, Cañon City, Colorado City, and Florence, Colorado. The branches of Cañon National Bank were merged into Glacier Bank and became part of the Bank of the San Juans bank division. Cash of \$16.1 million was paid and 554,206 shares of the Company's common stock were issued in the acquisition.

Financial Condition Analysis

Assets

The following table summarizes the Company's assets as of the dates indicated:

(Dollars in thousands)				\$ Change from			
	Sep 30, 2015	Jun 30, 2015	Dec 31, 2014	Sep 30, 2014	Jun 30, 2015	Dec 31, 2014	Sep 30, 2014
Cash and cash equivalents	\$ 242,835	355,719	442,409	282,097	(112,884)	(199,574)	(39,262)

Investment securities, held-to-maturity	651,822	593,314	520,997	482,757	58,508	130,825	169,065
Total investment securities	3,182,816	2,955,144	2,908,425	2,880,953	227,672	274,391	301,863
Loans receivable							
Residential real estate	644,694	635,674	611,463	603,806	9,020	33,231	40,888
Commercial	3,581,667	3,529,274	3,263,448	3,248,529	52,393	318,219	333,138
Consumer and other	650,058	642,483	613,184	606,764	7,575	36,874	43,294
Loans receivable	4,876,419	4,807,431	4,488,095	4,459,099	68,988	388,324	417,320
Allowance for loan and lease losses	(130,768)	(130,519)	(129,753)	(130,632)	(249)	(1,015)	(136)
Loans receivable, net	4,745,651	4,676,912	4,358,342	4,328,467	68,739	387,309	417,184
Other assets	592,997	602,035	597,331	618,293	(9,038)	(4,334)	(25,296)
Total assets	\$ 8,764,299	8,589,810	8,306,507	8,109,810	174,489	457,792	654,489

Total investment securities of \$3.183 billion at September 30, 2015 increased \$228 million, or 8 percent, during the current quarter and increased \$302 million, or 10 percent, from September 30, 2014. The increase in the investment portfolio from the prior quarter and the prior year third quarter was the result of continuing to selectively purchase investment securities with the Company's excess liquidity resulting from the sustained increase in deposits. Investment securities represented 36 percent of total assets at September 30, 2015 compared to 35 percent at December 31, 2014

and 36 percent at September 30, 2014.

38

The Company continues to experience growth in the loan portfolio which increased \$69.0 million, or 1 percent, during the current quarter. The loan category with the largest dollar increase during the current quarter was commercial real estate loans which increased \$46.6 million, or 2 percent. The loan category with the largest percentage increase was residential construction (i.e., regulatory classification) which increased 10 percent over the prior quarter. Excluding the CB acquisition, the loan portfolio increased \$304 million, or 7 percent, since December 31, 2014 with \$252 million of the increase coming from growth in commercial loans.

Liabilities

The following table summarizes the Company's liabilities as of the dates indicated:

(Dollars in thousands)	Sep 30, 2015	Jun 30, 2015	Dec 31, 2014	Sep 30, 2014	\$ Change from		
					Jun 30, 2015	Dec 31, 2014	Sep 30, 2014
Non-interest bearing deposits	\$ 1,893,723	1,731,015	1,632,403	1,595,971	162,708	261,320	297,752
Interest bearing deposits	4,779,456	4,827,642	4,712,809	4,510,840	(48,186)	66,647	268,616
Securities sold under agreements to repurchase	441,041	408,935	397,107	367,213	32,106	43,934	73,828
Federal Home Loan Bank advances	329,299	329,470	296,944	366,866	(171)	32,355	(37,567)
Other borrowed funds	6,619	6,665	7,311	7,351	(46)	(692)	(732)
Subordinated debentures	125,812	125,776	125,705	125,669	36	107	143
Other liabilities	113,541	103,856	106,181	95,420	9,685	7,360	18,121
Total liabilities	\$ 7,689,491	7,533,359	7,278,460	7,069,330	156,132	411,031	620,161

The Company continues to generate strong increases in non-interest bearing deposits. Non-interest bearing deposits of \$1.894 billion at September 30, 2015, increased \$163 million, or 9 percent, from the prior quarter. Excluding the CB acquisition, non-interest bearing deposits increased \$256 million, or 16 percent, from September 30, 2014. Interest bearing deposits of \$4.779 billion at September 30, 2015 included \$190 million of wholesale deposits (i.e., brokered deposits classified as NOW, money market deposits and certificate accounts). Excluding the decrease of \$7.5 million in wholesale deposits, interest bearing deposits at September 30, 2015 decreased \$40.6 million, or 1 percent, during the current quarter. Excluding the CB acquisition, interest bearing deposits at September 30, 2015 increased \$164 million, or 4 percent, from September 30, 2014.

Securities sold under agreements to repurchase ("repurchase agreements") of \$441 million at September 30, 2015 increased \$32.1 million, or 8 percent, from the prior quarter and was primarily the result of additions to existing repurchase agreements. Federal Home Loan Bank ("FHLB") advances of \$329 million at September 30, 2015 were unchanged for the current quarter and increased \$32.4 million, or 11 percent, since December 31, 2014 as the Company took advantage of attractive term borrowings that were available from the FHLB of Seattle prior to the merger with FHLB of Des Moines during the second quarter of 2015. FHLB advances decreased \$37.6 million, or 10 percent, from September 30, 2014 as growth in deposits and continued balance sheet changes reduced the need for additional borrowings.

Stockholders' Equity

The following table summarizes the stockholders' equity balances as of the dates indicated:

(Dollars in thousands, except per share data)	\$ Change from						
	Sep 30, 2015	Jun 30, 2015	Dec 31, 2014	Sep 30, 2014	Jun 30, 2015	Dec 31, 2014	Sep 30, 2014
Common equity	\$ 1,066,801	1,051,011	1,010,303	1,017,805	15,790	56,498	48,996
Accumulated other comprehensive income	8,007	5,440	17,744	22,675	2,567	(9,737)	(14,668)
Total stockholders' equity	1,074,808	1,056,451	1,028,047	1,040,480	18,357	46,761	34,328
Goodwill and core deposit intangible, net	(141,624)	(142,344)	(140,606)	(141,323)	720	(1,018)	(301)
Tangible stockholders' equity	\$ 933,184	914,107	887,441	899,157	19,077	45,743	34,027
Stockholders' equity to total assets	12.26 %	12.30 %	12.38 %	12.83 %	%		
Tangible stockholders' equity to total tangible assets	10.82 %	10.82 %	10.87 %	11.28 %	%		
Book value per common share	\$ 14.23	13.99	13.70	13.87	0.24	0.53	0.36
Tangible book value per common share	\$ 12.35	12.10	11.83	11.98	0.25	0.52	0.37
Market price per share at end of period	\$ 26.39	29.42	27.77	25.86	(3.03)	(1.38)	0.53

Tangible stockholders' equity of \$933 million at September 30, 2015 increased \$19.1 million, or 2 percent, from the prior quarter due primarily to earnings retention and an increase in accumulated other comprehensive income.

Tangible stockholders' equity increased \$34.0 million, or 4 percent, from a year ago the result of earnings retention and Company stock issued in connection with the CB acquisitions, both of which offset the decrease in accumulated other comprehensive income. Tangible book value per common share of \$12.35 increased \$0.25 per share from the prior quarter and increased \$0.37 per share from the prior year third quarter.

Cash Dividend

On September 30, 2015, the Company's Board of Directors declared a cash dividend of \$0.19 per share. The dividend was payable October 22, 2015 to shareholders of record on October 13, 2015. Future cash dividends will depend on a variety of factors, including net income, capital, asset quality, general economic conditions and regulatory considerations.

Operating Results for Three Months Ended September 30, 2015
Compared to June 30, 2015 and September 30, 2014

Performance Summary

(Dollars in thousands, except per share data)	Three Months ended			
	September 30, 2015	June 30, 2015	September 30, 2014	
Net income	\$29,614	29,335	29,294	
Diluted earnings per share	\$0.39	0.39	0.40	
Return on average assets (annualized)	1.36	% 1.39	% 1.46	%
Return on average equity (annualized)	10.93	% 11.05	% 11.30	%

The Company reported net income of \$29.6 million for the current quarter, an increase of \$320 thousand, or 1 percent, from the \$29.3 million of net income for the prior year third quarter. Diluted earnings per share for the current quarter was \$0.39 per share, a decrease of \$0.01, or 3 percent, from the prior year third quarter diluted earnings per share of \$0.40. Included in the current quarter non-interest expense was \$259 thousand of one-time acquisition and conversion related expenses.

Income Summary

The following table summarizes revenue for the periods indicated:

(Dollars in thousands)	Three Months ended			\$ Change from	
	Sep 30, 2015	Jun 30, 2015	Sep 30, 2014	Jun 30, 2015	Sep 30, 2014

	\$98,857	97,050	93,692	1,807	5,165
Net interest margin (tax-equivalent)	3.96	% 3.98	% 3.99	%	

Net Interest Income

In the current quarter, interest income of \$80.4 million increased \$1.8 million, or 2 percent from the prior quarter, such increase attributable to increases in interest income on commercial loans. Income of \$42.1 million on commercial loans increased \$1.4 million, or 4 percent, from the prior quarter and was driven primarily by loan volume increases. Interest income during the current quarter increased \$4.7 million, or 6 percent, over the prior year third quarter and was also due to higher interest income on commercial loans. The current quarter interest income on commercial loans increased \$14.2 million, or 13 percent, over the prior year third quarter primarily the result of an increased volume in commercial loans. Interest income of \$22.4 million on investment securities increased \$478 thousand, or 2 percent, over the prior quarter and decreased \$357 thousand, or 2 percent, over the prior year third quarter.

The current quarter interest expense of \$7.3 million decreased \$60 thousand, or 1 percent, from the prior quarter. The current quarter interest expense increased \$879 thousand from the prior year third quarter, such increase attributed to the interest expense associated with the interest rate swap which started interest expense accruals in the fourth quarter of 2014. The total cost of funding (including non-interest bearing deposits) for the current quarter was 39 basis points compared to 40 basis points for the prior quarter and 37 basis points in the prior year third quarter.

The Company's net interest margin as a percentage of earning assets, on a tax-equivalent basis, for the current quarter was 3.96 percent compared to 3.98 percent in the prior quarter. The 2 basis point decrease in the current quarter net interest margin was primarily driven by a 3 basis point reduction in the acquired loan fair value discount accretion. Included in the current quarter net interest margin was 4 basis points related to the recovery of interest on loans previously placed on non-accrual compared to 1 basis point in the prior quarter. The Company's current quarter net interest margin decreased 3 basis points from the prior year third quarter net interest margin of 3.99 percent. The reduction in the net interest margin from the prior year third quarter was the result of a 6 basis point increase in interest expense related to the interest rate swaps.

Non-interest Income

Non-interest income for the current quarter totaled \$25.8 million which was stable compared to the prior quarter and an increase of \$1.4 million, or 6 percent, over the same quarter last year. Service fee income of \$16.0 million, increased \$585 thousand, or 4 percent, from the prior quarter and increased \$369 thousand, or 2 percent, from the prior year third quarter with both increases the result of the increased number of deposit accounts. Gain of \$7.3 million on the sale of the residential loans in the current quarter decreased \$274 thousand, or 4 percent, from the prior quarter and increased \$1.3 million, or 22 percent, from the prior year third quarter as a result of an increase in mortgage purchase activity. Other non-interest income for the current quarter decreased \$381 thousand, or 13 percent, over the prior quarter the result of annual incentives received in the second quarter of 2015. Other non-interest income decreased \$358 thousand, or 13 percent, over the prior year third quarter due to a decrease in other real estate owned ("OREO") income. Included in other income was operating revenue of \$19 thousand from OREO and a gain of \$110 thousand from the sale of OREO, a combined total of \$129 thousand for the current quarter compared to \$323 thousand for the prior quarter and \$406 thousand for the prior year third quarter.

Non-interest Expense

The following table summarizes non-interest expense for the periods indicated:

(Dollars in thousands)	Three Months ended			\$ Change from	
	Sep 30, 2015	Jun 30, 2015	Sep 30, 2014	Jun 30, 2015	Sep 30, 2014
Compensation and employee benefits	\$ 33,534	32,729	30,142	805	3,392
Occupancy and equipment	7,887	7,810	6,961	77	926

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

Advertising and promotions	2,459	2,240	2,141	219	318	
Data processing	1,258	1,593	1,472	(335)	(214))
Other real estate owned	1,047	1,377	602	(330)	445)
Regulatory assessments and insurance	1,478	1,006	1,435	472	43	
Core deposit intangibles amortization	720	755	692	(35)	28)
Other expenses	10,729	12,435	10,793	(1,706)	(64))
Total non-interest expense	\$59,112	59,945	54,238	(833)	4,874)

Compensation and employee benefits for the current quarter increased by \$805 thousand, or 2 percent, from the prior quarter. Compensation and employee benefits for the current quarter increased by \$3.4 million, or 11 percent, from the prior year third quarter due to the increased number of employees from the CB acquisition and the First National Bank of the Rockies (“FNBR”) acquisition in August 2014, and annual salary increases. Current quarter occupancy and equipment expense increased \$926 thousand, or 13 percent, from the prior year third quarter as a result of added costs associated with the CB and FNBR acquisitions and equipment expense related to additional information technology infrastructure. The current quarter advertising expense increased \$219 thousand, or 10 percent, from the prior quarter and increased \$318 thousand, or 15 percent, from the prior year third quarter as a result of the Company actively marketing to its customer base in certain market areas. The current quarter data processing expense decreased \$335 thousand, or 21 percent, from the prior quarter as a result of conversion related expenses and general increases during the prior quarter. The current quarter data processing expense decreased \$214 thousand, or 15 percent, from the prior year third quarter as a result of a decrease in outsourced data processing expense from an acquired bank in the prior year third quarter. The current quarter OREO expense of \$1.0 million was a decrease of \$330 thousand from the prior quarter and included \$559 thousand of operating expense, \$452 thousand of fair value write-downs, and \$37 thousand of loss from the sales of OREO. Current quarter other expenses of \$10.7 million decreased by \$1.7 million, or 14 percent, from the prior quarter primarily from expenses connected with equity investments in New Market Tax Credits (“NMTC”) projects and conversion related expenses which were incurred in the second quarter of 2015. The NMTC expenses were more than offset by the tax benefits included in federal income tax expense during the second quarter of 2015 which was the reason for the increase of \$1.8 million in federal and state income tax during the current quarter.

Efficiency Ratio

The efficiency ratio for the current quarter was 54.32 percent compared to 55.91 percent in the prior quarter. The 1.59 percent decrease in efficiency ratio resulted from decreases in expenses associated with NMTC projects and increases in net interest income primarily from volume increases in commercial loans and investment securities. The current quarter efficiency ratio of 54.32 percent compares to 53.87 percent in the prior year third quarter. The 45 basis point increase in efficiency ratio resulted from increases in non-interest expense driven by increased compensation and other operational expenses, which outpaced the increases in net interest income from an increase in earning assets.

Provision for Loan Losses

The following table summarizes the provision for loan losses, net charge-offs and select ratios relating to the provision for loan losses for the previous eight quarters:

(Dollars in thousands)	Provision for Loan Losses	Net (Recoveries) Charge-Offs	Allowance for Loan and Lease Losses as a Percent of Loans	Accruing Loans 30-89 Days Past Due as a Percent of Loans	Non-Performing Assets to Total Sub-sidiary Assets	
Third quarter 2015	\$ 826	\$ 577	2.68	% 0.37	% 0.97	%
Second quarter 2015	282	(381)	2.71	% 0.59	% 0.98	%
First quarter 2015	765	662	2.77	% 0.71	% 1.07	%
Fourth quarter 2014	191	1,070	2.89	% 0.58	% 1.08	%
Third quarter 2014	360	364	2.93	% 0.39	% 1.21	%
Second quarter 2014	239	332	3.11	% 0.44	% 1.30	%
First quarter 2014	1,122	744	3.20	% 1.05	% 1.37	%
Fourth quarter 2013	1,802	2,216	3.21	% 0.79	% 1.39	%

Net charge-offs of loans for the current quarter were \$577 thousand compared to net recoveries of \$381 thousand for the prior quarter and net charge-offs of \$364 thousand from the same quarter last year. The current quarter provision

for loan losses of \$826 thousand increased \$544 thousand from the prior quarter and increased \$466 thousand from the prior year third quarter. Loan portfolio growth, composition, average loan size, credit quality considerations, and other environmental factors will continue to determine the level of the loan loss provision.

The determination of the allowance for loan and lease losses (“ALLL” or “allowance”) and the related provision for loan losses is a critical accounting estimate that involves management’s judgments about current environmental factors which affect loan losses, such factors including economic conditions, changes in collateral values, net charge-offs, and other factors discussed below in “Additional Management’s Discussion and Analysis.”

Operating Results for Nine Months ended September 30, 2015
Compared to September 30, 2014

Performance Summary

(Dollars in thousands, except per share data)	Nine Months ended		
	September 30, 2015	September 30, 2014	
Net income	\$ 86,619	84,701	
Diluted earnings per share	\$ 1.15	1.14	
Return on average assets (annualized)	1.37	% 1.44	%
Return on average equity (annualized)	10.90	% 11.27	%

Net income for the nine months ended September 30, 2015 was \$86.6 million, an increase of \$1.9 million, or 2 percent, from the \$84.7 million of net income for the same period in the prior year. Diluted earnings per share for the nine months ended September 30, 2015 was \$1.15 per share, an increase of \$0.01, or 1 percent, from the diluted earnings per share for the same period in the prior year.

Income Summary

The following table summarizes revenue for the periods indicated, including the amount and percentage change from September 30, 2014:

(Dollars in thousands)	Nine Months ended			
	September 30, 2015	September 30, 2014	\$ Change	% Change
Net interest income				
Interest income	\$ 236,470	\$ 223,740	\$ 12,730	6 %
Interest expense	22,060	19,598	2,462	13 %
Total net interest income	214,410	204,142	10,268	5 %
Non-interest income				
Service charges, loan fees, and other fees	45,631	43,656	1,975	5 %
Gain on sale of loans	20,356	14,373	5,983	42 %
Loss on sale of investments	(124)	(160)	36	(23)%
Other income	8,431	8,455	(24)	— %
Total non-interest income	74,294	66,324	7,970	12 %
	\$ 288,704	\$ 270,466	\$ 18,238	7 %
Net interest margin (tax-equivalent)	3.99	% 4.00	%	

Net Interest Income

Interest income for the first nine months of the current year increased \$12.7 million, or 6 percent, from the prior year first nine months and was principally due to an increase in income from commercial loans. Current year interest income of \$122 million on commercial loans increased \$14.2 million, or 13 percent, from the prior year first nine months and was primarily the result of an increased volume of commercial loans. Current year interest income of \$67.4 million on investment securities decreased \$3.6 million, or 5 percent, over the same period last year, as a result of a decreased rate on investment securities, although the tax effective yield adjustment reduced this decrease to \$140 thousand.

Interest expense for the first nine months of the current year increased \$2.5 million, or 13 percent, from the prior year first nine months and was primarily due to the interest expense associated with the interest rate swap which started interest expense accruals in the fourth quarter of 2014. The total funding cost (including non-interest bearing deposits) for the first nine months of 2015 was 40 basis points compared to 39 basis points for the first nine months of 2014.

The net interest margin as a percentage of earning assets, on a tax-equivalent basis, for the first nine months of 2015 was 3.99 percent, a decrease of 1 basis point from the prior year first nine months net interest margin of 4.00 percent. The 1 basis point reduction was attributable to a combination of items including an increase in interest expense from the interest rate swaps which was partially offset by increases in higher yielding earning assets.

Non-interest Income

Non-interest income of \$74.3 million for the first nine months of 2015 increased \$8.0 million, or 12 percent, over the same period last year. Service charges and other fees of \$45.6 million for the first nine months of 2015 increased \$2.0 million, or 5 percent, from the same period last year driven by the increased number of deposit accounts. The gains of \$20.4 million on the sale of residential loans for the first nine months of 2015 increased \$6.0 million, or 42 percent, from the first nine months of 2014 resulting from an increase in mortgage refinancing and purchase activity. Other income was unchanged from the nine month period last year. Included in other income was operating revenue of \$95 thousand from OREO and gains of \$775 thousand from the sales of OREO, which totaled \$870 thousand for the first nine months of 2015 compared to \$1.8 million for the same period in the prior year.

Non-interest Expense

The following table summarizes non-interest expense for the periods indicated, including the amount and percentage change from September 30, 2014:

(Dollars in thousands)	Nine Months ended		\$ Change	% Change	
	September 30, 2015	September 30, 2014			
Compensation and employee benefits	\$98,507	\$87,764	\$10,743	12	%
Occupancy and equipment	23,059	20,307	2,752	14	%
Advertising and promotions	6,626	5,866	760	13	%
Data processing	4,100	4,792	(692)	(14)	%
Other real estate owned	3,182	1,675	1,507	90	%
Regulatory assessments and insurance	3,789	4,055	(266)	(7)	%
Core deposit intangible amortization	2,206	2,095	111	5	%
Other expenses	33,085	30,427	2,658	9	%
Total non-interest expense	\$174,554	\$156,981	\$17,573	11	%

Compensation and employee benefits for the first nine months of 2015 increased \$10.7 million, or 12 percent, from the same period last year due to the increased number of employees from the acquired banks, additional benefit costs and annual salary increases. Occupancy and equipment expense increased \$2.8 million, or 14 percent, as a result of increased costs associated with the CB and FNBR acquisitions and equipment expense related to additional information technology infrastructure. Outsourced data processing expense decreased \$692 thousand, or 14 percent, from the prior year first nine months as a result of a decrease in conversion related expenses and outsourced data processing expense from an acquired bank. OREO expense of \$3.2 million in the first nine months of 2015 increased \$1.5 million, or 90 percent, from the first nine months of the prior year. OREO expenses tend to fluctuate based on the level of activity in various quarters. OREO expense for the first nine months of 2015 included \$1.4 million of operating expenses, \$1.5 million of fair value write-downs, and \$250 thousand of loss from the sales of OREO. Other expense of \$33.1 million for the first nine months of 2015 increased by \$2.7 million, or 9 percent, from the first nine months of the prior year primarily due to increases in conversion and acquisition related expenses.

Efficiency Ratio

The efficiency ratio was 55.01 percent for the first nine months of 2015 and 54.03 percent for the first nine months of 2014. The increase in the efficiency ratio resulted from compensation expense and increased costs from acquisitions outpacing the increase in net interest income and increases in gain on sale of loans.

Provision for Loan Losses

The provision for loan losses was \$1.9 million for the first nine months of 2015, an increase of \$152 thousand, or 9 percent, from the same period in the prior year. Net charged-off loans during the first nine months of 2015 were \$858 thousand, a decrease of \$582 thousand from the first nine months of 2014.

ADDITIONAL MANAGEMENT'S DISCUSSION AND ANALYSIS

Investment Activity

The Company's investment securities are summarized below:

(Dollars in thousands)	September 30, 2015		December 31, 2014		September 30, 2014			
	Carrying Amount	Percent	Carrying Amount	Percent	Carrying Amount	Percent		
Available-for-sale								
U.S. government and federal agency	\$ 49,315	2	% \$ 44	—	% \$—	—	%	
U.S. government sponsored enterprises	98,791	3	% 21,945	1	% 9,282	—	%	
State and local governments	931,000	29	% 997,969	34	% 936,774	32	%	
Corporate bonds	360,811	11	% 314,854	11	% 341,531	12	%	
Residential mortgage-backed securities	1,091,077	34	% 1,052,616	36	% 1,110,609	39	%	
Total available-for-sale	2,530,994	79	% 2,387,428	82	% 2,398,196	83	%	
Held-to-maturity								
State and local governments	651,822	21	% 520,997	18	% 482,757	17	%	
Total held-to-maturity	651,822	21	% 520,997	18	% 482,757	17	%	
Total investment securities	\$ 3,182,816	100	% \$ 2,908,425	100	% \$ 2,880,953	100	%	

The Company's investment portfolio is primarily comprised of state and local government securities and residential mortgage-backed securities. State and local government securities are largely exempt from federal income tax and the Company's maximum federal statutory rate of 35 percent is used in calculating the tax-equivalent yields on the tax-exempt securities. Residential mortgage-backed securities are typically short, weighted-average life U.S. agency collateralized mortgage obligations that provide the Company with ongoing liquidity as scheduled and pre-paid

principal is received on the securities.

46

State and local government securities carry different risks that are not as prevalent in other security types. The Company evaluates the investment grade quality of its securities in accordance with regulatory guidance. Investment grade securities are those where the issuer has an adequate capacity to meet the financial commitments under the security for the projected life of the investment. An issuer has an adequate capacity to meet financial commitments if the risk of default by the obligor is low and the full and timely payment of principal and interest are expected. In assessing credit risk, the Company may use credit ratings from Nationally Recognized Statistical Rating Organizations (“NRSRO” entities such as Standard and Poor’s [“S&P”] and Moody’s) as support for the evaluation; however, they are not solely relied upon. There have been no significant differences in the Company’s internal evaluation of the creditworthiness of any issuer when compared with the ratings assigned by the NRSROs.

The following table stratifies the state and local government securities by the associated NRSRO ratings. The highest issued rating was used to categorize the securities in the table for those securities where the NRSRO ratings were not at the same level.

(Dollars in thousands)	September 30, 2015		December 31, 2014

47

The following table presents the carrying amount and weighted-average yield of available-for-sale and held-to-maturity investment securities by contractual maturity at September 30, 2015. Weighted-average yields are based upon the amortized cost of securities and are calculated using the interest method which takes into consideration premium amortization, discount accretion and mortgage-backed securities' prepayment provisions. Weighted-average yields on tax-exempt investment securities exclude the federal income tax benefit.

Other-Than-Temporary Impairment on Securities Analysis

Non-marketable equity securities. Non-marketable equity securities largely consist of capital stock issued by the FHLB of Des Moines and are evaluated for impairment whenever events or circumstances suggest the carrying value may not be recoverable. Based on the Company's evaluation of its investments in non-marketable equity securities as of September 30, 2015, the Company determined that none of such securities had other-than-temporary impairment.

Debt securities. In evaluating debt securities for other-than-temporary impairment losses, management assesses whether the Company intends to sell the security or if it is more-likely-than-not that the Company will be required to sell the debt security. In so doing, management considers contractual constraints, liquidity, capital, asset/liability management and securities portfolio objectives. For debt securities with limited or inactive markets, the impact of macroeconomic conditions in the U.S. upon fair value estimates includes higher risk-adjusted discount rates and

changes in credit ratings provided by NRSRO. In June 2015, S&P reaffirmed its AA+ rating of U.S. government long-term debt and the outlook remains stable. In October 2015, Moody's reaffirmed its Aaa rating of U.S. government long-term debt and the outlook remains stable. In April 2015, Fitch reaffirmed its AAA rating of U.S. government long-term debt and the outlook remains stable. S&P, Moody's and Fitch have similar credit ratings and outlooks with respect to certain long-term debt instruments issued by Federal National Mortgage Association ("Fannie Mae"), Federal Home Loan Mortgage Corporation ("Freddie Mac") and other U.S. government agencies linked to the long-term U.S. debt.

The following table separates investments with an unrealized loss position at September 30, 2015 into two categories: investments purchased prior to 2015 and those purchased during 2015. Of those investments purchased prior to 2015, the fair market value and unrealized gain or loss at December 31, 2014 is also presented.

(Dollars in thousands)	September 30, 2015				December 31, 2014			
	Fair Value	Unrealized Loss	Unrealized Loss as a Percent of Fair Value		Fair Value	Unrealized Loss	Unrealized Loss as a Percent of Fair Value

State and local governments	72,093	(1,376)	(2)	%				
Corporate bonds	82,404	(442)	(1)	%				
Residential mortgage-backed securities	146,294	(490)	—	%				
Total	\$351,515	\$(2,723)	(1)	%				
Temporarily impaired securities								
U.S. government and federal agency	\$46,131	\$(412)	(1)	%				
U.S. government sponsored enterprises	4,595	(3)	—	%				
State and local governments	452,068	(12,703)	(3)	%				
Corporate bonds	142,219	(1,254)	(1)	%				
Residential mortgage-backed securities	278,458	(2,289)	(1)	%				
Total	\$923,471	\$(16,661)	(2)	%				

With respect to severity, the following table provides the number of securities and amount of unrealized loss in the various ranges of unrealized loss as a percent of book value at September 30, 2015:

(Dollars in thousands)	Number of Debt Securities	Unrealized Loss	
Greater than 10.0%	2	\$(171)
5.1% to 10.0%	37	(4,629)
0.1% to 5.0%	476	(11,861)
Total	515	\$(16,661)

With respect to the duration of the impaired debt securities, the Company identified 147 securities which have been continuously impaired for the twelve months ending September 30, 2015. The valuation history of such securities in the prior year(s) was also reviewed to determine the number of months in the prior year(s) in which the identified securities were in an unrealized loss position.

The following table provides details of the 147 securities which have been continuously impaired for the twelve months ended September 30, 2015, including the most notable loss for any one bond in each category.

(Dollars in thousands)	Number of Debt Securities	Unrealized Loss for 12 Months Or More	Most Notable Loss	
U.S. government and federal agency	1	\$—	\$—	
State and local governments	126	(8,328) (859)
Corporate bonds	5	(428) (175)
Residential mortgage-backed securities	15	(972) (446)
Total	147	\$(9,728)	

Based on the Company's analysis of its impaired debt securities as of September 30, 2015, the Company determined that none of such securities had other-than-temporary impairment and the unrealized losses were primarily the result of interest rate changes and market spreads subsequent to acquisition. A substantial portion of the investment securities with unrealized losses at September 30, 2015 were issued by Freddie Mac, Fannie Mae, the Government National Mortgage Association and other agencies of the United States government or have credit ratings issued by one or more of the NRSRO entities in the four highest credit rating categories. All of the Company's impaired debt securities at September 30, 2015 have been determined by the Company to be investment grade.

Lending Activity

The Company focuses its lending activities primarily on the following types of loans: 1) first-mortgage, conventional loans secured by residential properties, particularly single-family; 2) commercial lending, including agriculture, that concentrates on targeted businesses; and 3) installment lending for consumer purposes (e.g., home equity, automobile, etc.). Supplemental information regarding the Company's loan portfolio and credit quality based on regulatory classification is provided in the section captioned "Loans by Regulatory Classification" included in "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations." The regulatory classification of loans is based primarily on the type of collateral for the loans. Loan information included in "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" is based on the Company's loan segments and classes which is based on the purpose of the loan, unless otherwise noted as a regulatory classification.

The following table summarizes the Company's loan portfolio as of the dates indicated:

Interest income ²	\$ 1,981	1,375	3,005	2,489	

¹ As of September 30, 2015, non-performing assets have not been reduced by U.S. government guarantees of \$2.0 million.

² Amounts represent estimated interest income that would have been recognized on loans accounted for on a non-accrual basis as of the end of each period had such loans performed pursuant to contractual terms.

Non-performing assets at September 30, 2015 were \$85.0 million, an increase of \$803 thousand, or less than 1 percent, during the current quarter. Non-performing assets at September 30, 2015 decreased \$13.1 million, or 13 percent, from a year ago. Land, lot and other construction loans (i.e., regulatory classification) continues to be the largest category of non-performing assets with \$38.6 million, or 45 percent, at September 30, 2015. The Company has continued to make progress by reducing this category the past few years and the category decreased \$4.2 million, or 10 percent, from the prior quarter. Early stage delinquencies (accruing loans 30-89 days past due) of \$17.8 million at September 30, 2015 decreased \$10.7 million from the prior quarter and increased \$252 thousand from the prior year third quarter.

Most of the Company's non-performing assets are secured by real estate, and based on the most current information available to management, including updated appraisals or evaluations (new or updated), the Company believes the value of the underlying real estate collateral is adequate to minimize significant charge-offs or losses to the Company. The Company evaluates the level of its non-performing loans, the values of the underlying real estate and other collateral, and related trends in net charge-offs in determining the adequacy of the ALLL. Through pro-active credit administration, the Company works closely with its borrowers to seek favorable resolution to the extent possible,

thereby attempting to minimize net charge-offs or losses to the Company. The Company continues to maintain an adequate allowance while working to reduce non-performing loans.

For non-performing construction loans involving residential structures, the percentage-of-completion exceeds 95 percent at September 30, 2015. For non-performing construction loans involving commercial structures, the percentage-of-completion ranges from projects not started to projects completed at September 30, 2015. During the construction loan term, all construction loan collateral properties are inspected at least monthly, or more frequently as needed, until completion. Draws on construction loans are predicated upon the results of the inspection and advanced based upon a percentage-of-completion basis versus original budget percentages. When construction loans become non-performing and the associated project is not complete, the Company on a case-by-case basis makes the decision to advance additional funds or to initiate collection/foreclosure proceedings. Such decision includes obtaining “as-is” and “at completion” appraisals for consideration of potential increases or decreases in the collateral’s value. The Company also considers the increased costs of monitoring progress to completion, and the related collection/holding period costs should collateral ownership be transferred to the Company. With very limited exception, the Company does not disburse additional funds on non-performing loans. Instead, the Company has proceeded to collection and foreclosure actions in order to reduce the Company’s exposure to loss on such loans.

Construction loans, a regulatory classification, accounted for 35 percent of the Company’s non-accrual loans as of September 30, 2015. Land, lot and other construction loans, a regulatory classification, were 94 percent of the non-accrual construction loans. Of the Company’s \$19.0 million of non-accrual construction loans at September 30, 2015, 90 percent of such loans had collateral properties securing the loans in Western Montana. With locations and operations in the contiguous northern Rocky Mountain states of Idaho and Montana, the geography and economies of each of these states are predominantly tied to real estate development given the sprawling abundance of timbered valleys and mountainous terrain with significant lakes, streams and watershed areas. Consistent with the lingering economic recovery, the upscale primary, secondary and other housing markets, as well as the associated construction and building industries show improved activity after several years of decline. As the housing market (rental and owner-occupied) and related industries continue to recover from the downturn, the Company continues to reduce its exposure to loss in the land, lot and other construction loan portfolio.

For additional information on accounting policies relating to non-performing assets and impaired loans, see Note 1 to the Consolidated Financial Statements in “Part I. Item 1. Financial Statements.”

Impaired Loans

Loans are designated impaired when, based upon current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement and therefore, the Company has serious doubts as to the ability of such borrowers to fulfill the contractual obligation. Impaired loans include non-performing loans (i.e., non-accrual loans and accruing loans ninety days or more past due) and accruing loans under ninety days past due where it is probable payments will not be received according to the loan agreement (e.g., troubled debt restructuring).

Impaired loans were \$146 million and \$161 million as of September 30, 2015 and December 31, 2014, respectively. The ALLL includes specific valuation allowances of \$7.5 million and \$11.6 million of impaired loans as of September 30, 2015 and December 31, 2014, respectively. Of the total impaired loans at September 30, 2015, there were 22 significant commercial real estate and other commercial loans that accounted for \$58.1 million, or 40 percent, of the impaired loans. The 22 loans were collateralized by 133 percent of the loan value, the majority of which had appraisals or evaluations (new or updated) during the last year, such appraisals reviewed at least quarterly taking into account current market conditions. Of the total impaired loans at September 30, 2015, there were 167 loans aggregating \$88.1 million, or 60 percent, whereby the borrowers had more than one impaired loan.

Restructured Loans

A restructured loan is considered a troubled debt restructuring (“TDR”) if the creditor, for economic or legal reasons related to the debtor’s financial difficulties, grants a concession to the debtor that it would not otherwise consider. The Company had TDR loans of \$91 million and \$103 million as of September 30, 2015 and December 31, 2014, respectively. The Company’s TDR loans are considered impaired loans of which \$27.4 million and \$33.7 million as of September 30, 2015 and December 31, 2014, respectively, are designated as non-accrual.

Each restructured debt is separately negotiated with the borrower and includes terms and conditions that reflect the borrower’s prospective ability to service the debt as modified. The Company discourages the use of the multiple loan strategy when restructuring loans regardless of whether or not the loans are designated as TDRs.

Other Real Estate Owned

The book value prior to the acquisition and transfer of the loan into OREO during 2015 was \$7.7 million of which \$1.3 million was residential real estate loans, \$6.0 million was commercial loans, and \$400 thousand was consumer loans. The fair value of the loan collateral acquired in foreclosure during 2015 was \$6.9 million of which \$1.3 million was residential real estate, \$5.4 million was commercial, and \$200 thousand was consumer loans. The following table sets forth the changes in OREO for the periods indicated:

(Dollars in thousands)	Nine Months ended September 30, 2015	Six Months ended June 30, 2015	Year ended December 31, 2014	Nine Months ended September 30, 2014

Balance at end of period	\$ 26,609	26,686	27,804	28,374

Allowance for Loan and Lease Losses

Determining the adequacy of the ALLL involves a high degree of judgment and is inevitably imprecise as the risk of loss is difficult to quantify. The ALLL methodology is designed to reasonably estimate the probable loan and lease losses within the Company's loan portfolio. Accordingly, the ALLL is maintained within a range of estimated losses. The determination of the ALLL, including the provision for loan losses and net charge-offs, is a critical accounting estimate that involves management's judgments about all known relevant internal and external environmental factors that affect loan losses, including the credit risk inherent in the loan portfolio, economic conditions nationally and in the local markets in which the Company operates, changes in collateral values, delinquencies, non-performing assets and net charge-offs. Although the Company continues to actively monitor economic trends, soft economic conditions combined with potential declines in the values of real estate that collateralize most of the Company's loan portfolio may adversely affect the credit risk and potential for loss to the Company.

The ALLL evaluation is well documented and approved by the Company's Board. In addition, the policy and procedures for determining the balance of the ALLL are reviewed annually by the Company's Board, the internal audit department, independent credit reviewers and state and federal bank regulatory agencies.

At the end of each quarter, the Company analyzes its loan portfolio and maintains an ALLL at a level that is appropriate and determined in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The allowance consists of a specific valuation allowance component and a general valuation allowance component. The specific valuation allowance component relates to loans that are determined to be impaired. A specific valuation allowance is established when the fair value of a collateral-dependent loan or the present value of the loan's expected future cash flows (discounted at the loan's effective interest rate) is lower than the carrying value of the impaired loan. The general valuation allowance component relates to probable credit losses inherent in the balance of the loan portfolio based on historical loss experience, adjusted for changes in trends and conditions of qualitative or environmental factors.

The Bank divisions' credit administration reviews their respective loan portfolios to determine which loans are impaired and estimates the specific valuation allowance. The impaired loans and related specific valuation allowance are then provided to the Company's credit administration for further review and approval. The Company's credit administration also determines the estimated general valuation allowance and reviews and approves the overall ALLL.

The credit administration of the Company exercises significant judgment when evaluating the effect of applicable qualitative or environmental factors on the Company's historical loss experience for loans not identified as impaired. Quantification of the impact upon the Company's ALLL is inherently subjective as data for any factor may not be directly applicable, consistently relevant, or reasonably available for management to determine the precise impact of a factor on the collectability of the Company's loans collectively evaluated for impairment as of each evaluation date. The Company's credit administration documents its conclusions and rationale for changes that occur in each applicable factor's weight (i.e., measurement) and ensures that such changes are directionally consistent based on the underlying current trends and conditions for the factor. To have directional consistency, the provision for loan losses and credit quality should generally move in the same direction.

The Company's model includes thirteen Bank divisions with separate management teams providing substantial local oversight to the lending and credit management function. The Company's business model affords multiple reviews of larger loans before credit is extended, a significant benefit in mitigating and managing the Company's credit risk. The geographic dispersion of the market areas in which the Company operates further mitigates the risk of credit loss. While this process is intended to limit credit exposure, there can be no assurance that further problem credits will not arise and additional loan losses incurred, particularly in periods of rapid economic downturns.

The primary responsibility for credit risk assessment and identification of problem loans rests with the loan officer of the account. This continuous process of identifying impaired loans is necessary to support management's evaluation of the ALLL adequacy. An independent loan review function verifying credit risk ratings evaluates the loan officer and management's evaluation of the loan portfolio credit quality. The loan review function also assesses the ALLL evaluation process.

No assurance can be given that the Company will not, in any particular period, sustain losses that are significant relative to the ALLL amount, or that subsequent evaluations of the loan portfolio applying management's judgment about then current factors, including economic and regulatory developments, will not require significant changes in the ALLL. Under such circumstances, this could result in enhanced provisions for loan losses.

The following table summarizes the allocation of the ALLL as of the dates indicated:

(Dollars in thousands)	September 30, 2015			December 31, 2014			September 30, 2014		
	ALLL	Percent of ALLL in Category	Percent of Loans in Category	ALLL	Percent of ALLL in Category	Percent of Loans in Category	ALLL	Percent of ALLL in Category	Percent of Loans in Category
Residential real estate	\$ 15,708	12 %	13 %	\$ 14,680	11 %	13 %	\$ 15,040	11 %	13 %

Total	\$ 130,768	100 %	100 %	\$ 129,753	100 %	100 %	\$ 130,632	100 %	100 %

The following table summarizes the ALLL experience for the periods indicated:

(Dollars in thousands)	Nine Months ended September 30, 2015	Six Months ended June 30, 2015	Year ended December 31, 2014	Nine Months ended September 30, 2014	
Balance at beginning of period	\$ 129,753	129,753	130,351	130,351	
Provision for loan losses	1,873	1,047	1,912	1,721	
Charge-offs					
Residential real estate	(78)	(58)	(431)	(413)	
Commercial loans	(3,405)	(2,117)	(4,860)	(3,536)	
Consumer and other loans	(1,188)	(423)	(2,312)	(1,618)	
Total charge-offs	(4,671)	(2,598)	(7,603)	(5,567)	
Recoveries					
Residential real estate	70	46	328	275	
Commercial loans	2,955	1,758	3,757	3,138	
Consumer and other loans	788	513	1,008	714	
Total recoveries	3,813	2,317	5,093	4,127	
Charge-offs, net of recoveries	(858)	(281)	(2,510)	(1,440)	
Balance at end of period	\$ 130,768	130,519	129,753	130,632	
ALLL as a percentage of total loans	2.68	% 2.71	% 2.89	% 2.93	%
Net charge-offs as a percentage of total loans	0.02	% 0.01	% 0.06	% 0.03	%

The allowance was \$131 million at September 30, 2015 and continued to remain stable compared to the prior periods. The allowance was 2.68 percent of total loans outstanding at September 30, 2015 compared to 2.89 percent at December 31, 2014 and 2.93 percent for the same quarter last year. The reduction in the allowance as a percentage of total loans was driven primarily by loan growth, stabilizing credit quality, and no allowance carried over from bank acquisitions as a result of the acquired loans recorded at fair value.

The Company's ALLL of \$131 million is considered adequate to absorb losses from any class of its loan portfolio. For the periods ended September 30, 2015 and 2014, the Company believes the ALLL is commensurate with the risk in the Company's loan portfolio and is directionally consistent with the change in the quality of the Company's loan portfolio.

When applied to the Company's historical loss experience, the qualitative or environmental factors result in the provision for loan losses being recorded in the period in which the loss has probably occurred. When the loss is confirmed at a later date, a charge-off is recorded. During 2015, the provision for loan losses exceeded loan charge-offs, net of recoveries, by \$1.0 million. During the same period in 2014, the provision for loan losses exceeded loan charge-offs, net of recoveries, by \$281 thousand.

The Company provides commercial services to individuals, small to medium-sized businesses, community organizations and public entities from 133 locations, including 125 branches, across Montana, Idaho, Wyoming, Colorado, Utah, and Washington. The Rocky Mountain states in which the Company operates has diverse economies and markets that are tied to commodities (crops, livestock, minerals, oil and natural gas), tourism, real estate and land development and an assortment of industries, both manufacturing and service-related. Thus, the changes in the global, national, and local economies are not uniform across the Company's geographic locations.

There continues to be improvements in the economic environment compared to the past several years and the housing market is slowly recovering. Home prices continue to increase within the Company's footprint and four of the Company's states continue to outpace the one-year national rate. Colorado was one of only two states in the country with double-digit home price increases, while Wyoming and Montana continue to lag behind the national trend. Personal income growth remains in positive territory for each of the Company's states. The Federal Reserve Bank of Philadelphia's composite state coincident indices reflected positive growth over the last three months in all of the Company's states except Wyoming and the six month forecast of the state leading indices projects steady growth in most of the Company's footprint, although Montana is expected to have the slowest rate of growth. Consumer sentiment is hovering above 90 following a significant increase at the end of 2014 and consumer spending has been relatively stable the past few months. The general unemployment rate trend across the Company's footprint is down; however, minor upticks have occurred recently in several states. Washington has seen a 1 percent decrease since January 2015. Year-over-year unemployment trends remain favorable despite some global uncertainty and four of the Company's states are continuing to experience double digit year-over-year declines in their rates. The tourism industry and related lodging activity continues to be a source of strength for the locations where the Company's market areas have national parks and similar recreational areas in the market areas served. Overall, the Company has started to see positive signs throughout the various economic indices; however, given the significant recession experienced during 2008 and 2009, the Company is cautiously optimistic about the recovery of the housing industry. The Company will continue to actively monitor the economy's impact on its lending portfolio.

In evaluating the need for a specific or general valuation allowance for impaired and unimpaired loans, respectively, within the Company's construction loan portfolio (i.e., regulatory classification), including residential construction and land, lot and other construction loans, the credit risk related to such loans was considered in the ongoing monitoring of such loans, including assessments based on current information, including appraisals or evaluations (new or updated) of the underlying collateral, expected cash flows and the timing thereof, as well as the estimated cost to sell when such costs are expected to reduce the cash flows available to repay or otherwise satisfy the construction loan. Construction loans were 11 percent and 12 percent of the Company's total loan portfolio and accounted for 35 percent and 43 percent of the Company's non-accrual loans at September 30, 2015 and December 31, 2014, respectively. Collateral securing construction loans includes residential buildings (e.g., single/multi-family and condominiums), commercial buildings, and associated land (e.g., multi-acre parcels and individual lots, with and without shorelines).

The Company's ALLL consisted of the following components as of the dates indicated:

(Dollars in thousands)	September 30, 2015	June 30, 2015	December 31, 2014	September 30, 2014
Specific valuation allowance	\$7,497	7,254	11,597	10,150
General valuation allowance	123,271	123,265	118,156	120,482
Total ALLL	\$130,768	130,519	129,753	130,632

During 2015, the ALLL increased by \$1.0 million, the net result of a \$4.1 million decrease in the specific valuation allowance and a \$5.1 million increase in the general valuation allowance. The specific valuation allowance decreased as the result of a \$13.5 million decrease in loans individually reviewed for impairment with a specific impairment. The increase in the general valuation allowance since the prior year end was a result of an increase of \$313 million in loans collectively evaluated for impairment, excluding the CB acquisition.

For additional information regarding the ALLL, its relation to the provision for loan losses and risk related to asset quality, see Note 3 to the Consolidated Financial Statements in "Part I. Item 1. Financial Statements."

Loans by Regulatory Classification

Supplemental information regarding identification of the Company's loan portfolio and credit quality based on regulatory classification is provided in the following tables. The regulatory classification of loans is based primarily on the type of collateral for the loans. There may be differences when compared to loan tables and loan amounts appearing elsewhere which reflect the Company's internal loan segments and classes which are based on the purpose of the loan.

The following table summarizes the Company's loan portfolio by regulatory classification:

(Dollars in thousands)	Loans Receivable, by Loan Type			% Change from				
	Sep 30, 2015	Jun 30, 2015	Dec 31, 2014	Sep 30, 2014	Jun 30, 2015	Dec 31, 2014	Sep 30, 2014

Sources of Funds

The Company's deposits have traditionally been the principal source of funds for use in lending and other business purposes. The Company also obtains funds from repayment of loans and investment securities, repurchase agreements, wholesale deposits, advances from FHLB and other borrowings. Loan repayments are a relatively stable source of funds, while interest bearing deposit inflows and outflows are significantly influenced by general interest rate levels and market conditions. Borrowings and advances may be used on a short-term basis to compensate for reductions in normal sources of funds such as deposit inflows at less than projected levels. Borrowings also may be used on a long-term basis to support expanded activities, to match maturities of longer-term assets or manage interest rate risk.

Deposits

The Company has a number of different deposit programs designed to attract both short-term and long-term deposits from the general public by providing a wide selection of accounts and rates. These programs include non-interest bearing demand accounts, interest bearing checking, regular statement savings, money market deposit accounts, fixed rate certificates of deposit with maturities ranging from three months to five years, negotiated-rate jumbo certificates, and individual retirement accounts. These deposits are obtained primarily from individual and business residents in the Bank's geographic market areas. In addition, wholesale deposits are obtained through various programs and include brokered deposits classified as NOW, money market deposit and certificate accounts. The Company's deposits are summarized below:

(Dollars in thousands)	September 30, 2015		December 31, 2014		September 30, 2014			
	Amount	Percent	Amount	Percent	Amount	Percent

Securities Sold Under Agreements to Repurchase, Federal Home Loan Bank Advances and Other Borrowings

The Company borrows money through repurchase agreements. This process involves the selling of one or more of the securities in the Company's investment portfolio and simultaneously entering into an agreement to repurchase that same securities at an agreed upon later date, typically overnight. A rate of interest is paid for the agreed period of time. Through a policy adopted by the Bank's Board of Directors, the Bank enters into repurchase agreements with local municipalities, and certain customers, and have adopted procedures designed to ensure proper transfer of title and safekeeping of the underlying securities. In addition to retail repurchase agreements, the Company enters into wholesale repurchase agreements as additional funding sources. The Company has not entered into reverse repurchase agreements.

The Bank is a member of the FHLB of Des Moines, which is one of eleven banks that comprise the FHLB system. The amount of borrowings that the Bank conducts in the form of advances is subject to an activity-based stock requirement to own stock of the FHLB of Des Moines. Additionally, the Bank is subject to a member-based capital stock requirement that is based upon an annual calibration tied to the total assets of the Bank. The borrowings are collateralized by eligible categories of loans and investment securities (principally, securities which are obligations of, or guaranteed by, the U.S. government and its agencies), provided certain standards related to credit-worthiness have been met. Advances are made pursuant to several different credit programs, each of which has its own interest rates

and range of maturities. The Bank's maximum amount of FHLB advances is limited to the lesser of a fixed percentage of the Bank's total assets or the discounted value of eligible collateral. FHLB advances fluctuate to meet seasonal and other withdrawals of deposits and to expand lending or investment opportunities of the Company.

Additionally, the Company has other sources of secured and unsecured borrowing lines from various sources that may be used from time to time.

Short-term borrowings

A critical component of the Company's liquidity and capital resources is access to short-term borrowings to fund its operations. Short-term borrowings are accompanied by increased risks managed by the Asset Liability Committee ("ALCO") such as rate increases or unfavorable change in terms which would make it more costly to obtain future short-term borrowings. The Company's short-term borrowing sources include FHLB advances, federal funds purchased and retail and wholesale repurchase agreements. The Company also has access to the short-term discount window borrowing programs (i.e., primary credit) of the Federal Reserve Bank ("FRB"). FHLB advances and certain other short-term borrowings may be renewed as long-term borrowings to decrease certain risks such as liquidity or interest rate risk; however, the reduction in risks are weighed against the increased cost of funds and other risks.

The following table provides information relating to short-term borrowings which consists of borrowings that mature within one year of period end:

(Dollars in thousands)	At or for the Nine Months ended September 30, 2015	At or for the Year ended December 31, 2014	
Repurchase agreements			
Amount outstanding at end of period	\$ 441,041	397,107	
Weighted interest rate on outstanding amount	0.29	% 0.27	%
Maximum outstanding at any month-end	\$ 441,041	397,107	
Average balance	\$ 372,335	317,745	
Weighted-average interest rate	0.26	% 0.27	%
FHLB advances			
Amount outstanding at end of period	\$ 120,139	93,979	
Weighted interest rate on outstanding amount	3.30	% 2.81	%
Maximum outstanding at any month-end	\$ 138,597	618,084	
Average balance	\$ 102,995	295,422	
Weighted-average interest rate	3.07	% 0.24	%

Subordinated Debentures

In addition to funds obtained in the ordinary course of business, the Company formed or acquired financing subsidiaries for the purpose of issuing trust preferred securities that entitle the investor to receive cumulative cash distributions thereon. The subordinated debentures outstanding as of September 30, 2015 were \$126 million, including fair value adjustments from prior acquisitions.

Contractual Obligations and Off-Balance Sheet Arrangements

In the normal course of business, there may be various outstanding commitments to obtain funding and to extend credit, such as letters of credit and un-advanced loan commitments, which are not reflected in the accompanying condensed consolidated financial statements. The Company does not anticipate any material losses as a result of these transactions.

Liquidity Risk

Liquidity risk is the possibility that the Company will not be able to fund present and future obligations as they come due because of an inability to liquidate assets or obtain adequate funding at a reasonable cost. The objective of liquidity management is to maintain cash flows adequate to meet current and future needs for credit demand, deposit withdrawals, maturing liabilities and corporate operating expenses. Effective liquidity management entails three elements:

1. Assessing on an ongoing basis, the current and expected future needs for funds, and ensuring that sufficient funds or access to funds exist to meet those needs at the appropriate time.
2. Providing for an adequate cushion of liquidity to meet unanticipated cash flow needs that may arise from potential adverse circumstances ranging from high probability/low severity events to low probability/high severity.
3. Balancing the benefits between providing for adequate liquidity to mitigate potential adverse events and the cost of that liquidity.

The Company has a wide range of versatility in managing the liquidity and asset/liability mix. The Company's ALCO meets regularly to assess liquidity risk, among other matters. The Company monitors liquidity and contingency funding alternatives through management reports of liquid assets (e.g., investment securities), both unencumbered and pledged, as well as borrowing capacity, both secured and unsecured, including off-balance sheet funding sources. The Company evaluates its potential funding needs across alternative scenarios and maintains contingency funding plans consistent with the Company's access to diversified sources of contingent funding.

The following table identifies certain liquidity sources and capacity available to the Company at September 30, 2015:

(Dollars in thousands)	September 30, 2015
FHLB advances	
Borrowing capacity	\$ 1,373,208
Amount utilized	(329,299)
Amount available	\$ 1,043,909
FRB discount window	
Borrowing capacity	\$ 852,467
Amount utilized	—
Amount available	\$ 852,467
Unsecured lines of credit available	\$ 255,000
Unencumbered investment securities	
U.S. government and federal agency	\$ 49,315
U.S. government sponsored enterprises	98,791
State and local governments	864,183
Corporate bonds	251,842
Residential mortgage-backed securities	318,893
Total unencumbered securities	\$ 1,583,024

Capital Resources

Maintaining capital strength continues to be a long-term objective of the Company. Abundant capital is necessary to sustain growth, provide protection against unanticipated declines in asset values, and to safeguard the funds of depositors. Capital is also a source of funds for loan demand and enables the Company to effectively manage its assets and liabilities. The Company has the capacity to issue 117,187,500 shares of common stock of which 75,532,082 have been issued as of September 30, 2015. The Company also has the capacity to issue 1,000,000 shares of preferred stock of which none have been issued as of September 30, 2015. Conversely, the Company may decide to utilize a portion of its strong capital position, as it has done in the past, to repurchase shares of its outstanding common stock, depending on market price and other relevant considerations.

The Federal Reserve has adopted capital adequacy guidelines that are used to assess the adequacy of capital in supervising a bank holding company. In July 2013, the Federal Reserve, the Federal Deposit Insurance Corporation and the Office of the Comptroller of the Currency approved a final rule (“Final Rule”) to establish a new comprehensive regulatory capital framework with a phase-in period beginning on January 1, 2015 and ending on January 1, 2019. The Final Rule implements the third installment of the Basel Accords (“Basel III”) regulatory capital reforms and changes required by the Dodd-Frank Wall Street Reform and Consumer Protection Act and substantially amends the regulatory risk-based capital rules applicable to the Company. To improve the quality of loss-absorbing capital, Basel III added a new component of Tier 1 capital called Common Equity Tier 1, which includes common equity and retained earnings and excludes preferred equity.

The following table illustrates the Bank’s regulatory ratios and the Federal Reserve’s current capital adequacy guidelines as of September 30, 2015. The Federal Reserve’s fully phased-in guidelines applicable in 2019 are also summarized.

	Total Capital (To Risk-Weighted Assets)	Tier 1 Capital (To Risk-Weighted Assets)	Common Equity Tier 1 (To Risk-Weighted Assets)	Leverage Ratio/ Tier 1 Capital (To Average Assets)	
Glacier Bank’s actual regulatory ratios	17.18	% 15.92	% 15.92	% 11.93	%
Minimum capital requirements	8.00	% 6.00	% 4.50	% 4.00	%
Well capitalized requirements	10.00	% 8.00	% 6.50	% 5.00	%
Minimum capital requirements, including fully-phased in capital conservation buffer (2019)	10.50	% 8.50	% 7.00	% N/A	

The Company has evaluated the impact of the Final Rule and believes that, as of September 30, 2015, the Company would meet all capital adequacy requirements under the Basel III capital rules on a fully phased-in basis as if all such requirements were currently in effect. There are no conditions or events since September 30, 2015 that management believes have changed the Company’s or the Bank’s risk-based capital category.

Federal and State Income Taxes

The Company files a consolidated federal income tax return using the accrual method of accounting. All required tax returns have been timely filed. Financial institutions are subject to the provisions of the Internal Revenue Code of 1986, as amended, in the same general manner as other corporations.

Under Montana, Idaho, Colorado and Utah law, financial institutions are subject to a corporation income tax, which incorporates or is substantially similar to applicable provisions of the Internal Revenue Code. The corporation income tax is imposed on federal taxable income, subject to certain adjustments. State taxes are incurred at the rate of 6.75 percent in Montana, 7.4 percent in Idaho, 5 percent in Utah and 4.63 percent in Colorado. Wyoming and Washington do not impose a corporate income tax.

Income tax expense for the nine months ended September 30, 2015 and 2014 was \$25.7 million and \$27.1 million, respectively. The Company's effective tax rate for the nine months ended September 30, 2015 and 2014 was 22.9 percent and 24.2 percent, respectively. The primary reason for the current and prior year's low effective tax rate is the amount of tax-exempt investment income and federal income tax credits. Tax-exempt investment income was \$38.0 million and \$35.1 million for the nine months ended September 30, 2015 and 2014, respectively. The benefits from federal income tax credits were \$3.0 million and \$3.1 million for the nine months ended September 30, 2015 and 2014, respectively.

The Company has equity investments in Certified Development Entities which have received allocations of NMTCs. Administered by the Community Development Financial Institutions Fund of the U.S. Department of the Treasury, the NMTC program is aimed at stimulating economic and community development and job creation in low-income communities. The federal income tax credits received are claimed over a seven-year credit allowance period. The Company also has equity investments in Low-Income Housing Tax Credits which are indirect federal subsidies used to finance the development of affordable rental housing for low-income households. The federal income tax credits are claimed over a ten-year credit allowance period. The Company has investments of \$23.4 million in Qualified Zone Academy and Qualified School Construction bonds whereby the Company receives quarterly federal income tax credits in lieu of taxable interest income until the investment securities mature. The federal income tax credits on these investment securities are subject to federal and state income tax.

Following is a list of expected federal income tax credits to be received in the years indicated.

(Dollars in thousands)	New Markets Tax Credits	Low-Income Housing Tax Credits	Investment Securities Tax Credits	Total
2015	\$2,850	1,175	887	4,912
2016	1,014	1,175	862	3,051
2017	450	1,060	786	2,296
2018	—	1,060	708	1,768
2019	—	1,060	659	1,719
Thereafter	—	961	3,103	4,064
	\$4,314	6,491	7,005	17,810

Average Balance Sheet

The following schedule provides 1) the total dollar amount of interest and dividend income of the Company for earning assets and the average yields; 2) the total dollar amount of interest expense on interest bearing liabilities and the average rates; 3) net interest and dividend income and interest rate spread; and 4) net interest margin (tax-equivalent).

(Dollars in thousands)	Three Months ended September 30, 2015			Nine Months ended September 30, 2015				
	Average Balance	Interest & Dividends	Average Yield/ Rate	Average Balance	Interest & Dividends	Average Yield/ Rate

- ¹ Includes tax effect of \$674 thousand and \$1.9 million on tax-exempt municipal loan and lease income for the three and nine months ended September 30, 2015.
- ² Total loans are gross of the allowance for loan and lease losses, net of unearned income and include loans held for sale. Non-accrual loans were included in the average volume for the entire period.
- ³ Includes tax effect of \$6.8 million and \$19.1 million on tax-exempt investment security income for the three and nine months ended September 30, 2015.
- ⁴ Includes tax effect of \$362 thousand and \$1.1 million on federal income tax credits for the three and nine months ended September 30, 2015.
- ⁵ Wholesale deposits include brokered deposits classified as NOW, money market deposit and certificate accounts.

Rate/Volume Analysis

Net interest income can be evaluated from the perspective of relative dollars of change in each period. Interest income and interest expense, which are the components of net interest income, are shown in the following table on the basis of the amount of any increases (or decreases) attributable to changes in the dollar levels of the Company's interest earning assets and interest bearing liabilities ("volume") and the yields earned and rates paid on such assets and liabilities ("rate"). The change in interest income and interest expense attributable to changes in both volume and rates has been allocated proportionately to the change due to volume and the change due to rate.

(Dollars in thousands)	Nine Months ended September 30, 2015 vs. 2014		
	Increase (Decrease) Due to:		
	Volume	Rate	Net
Interest income			
Residential real estate loans	\$ 1,605	(281) 1,324
Commercial loans (tax-equivalent)	16,069	(6) 16,063
Consumer and other loans	1,658	(766) 892
Investment securities (tax-equivalent)	334	(474) (140
Total interest income	19,666	(1,527) 18,139
Interest expense			
NOW accounts	188	(266) (78
Savings accounts	37	(23) 14
Money market deposit accounts	195	(464) (269
Certificate accounts	59	(678) (619
Wholesale deposits	31	3,950	3,981
FHLB advances	(3,819) 3,187	(632
Repurchase agreements, federal funds purchased and other borrowed funds	436	(371) 65
Total interest expense	(2,873) 5,335	2,462
Net interest income (tax-equivalent)	\$ 22,539	(6,862) 15,677

Net interest income (tax-equivalent) increased \$15.7 million for the nine months ended September 30, 2015 compared to the same period in 2014. The increase in current year net interest income primarily resulted from increased growth of the Company's commercial loan portfolio. The increase in interest expense was driven by interest expense associated with an interest rate swap which started interest expense accruals in the fourth quarter of 2014. The increase in interest expense from higher rates on FHLB advances was the result of a decrease in short-term FHLB advances leaving a minimal amount of long-term higher rate FHLB advances.

Effect of inflation and changing prices

GAAP often requires the measurement of financial position and operating results in terms of historical dollars, without consideration for change in relative purchasing power over time due to inflation. Virtually all assets of the Company are monetary in nature; therefore, interest rates generally have a more significant impact on a company's performance than does the effect of inflation.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

The Company's assessment of market risk as of September 30, 2015 indicates there are no material changes in the quantitative and qualitative disclosures from those in the 2014 Annual Report.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as required by Exchange Act Rules 240.13a-15(b) and 15d-14(c)) as of September 30, 2015. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's current disclosure controls and procedures are effective and timely, providing them with material information relating to the Company required to be disclosed in the reports the Company files or submits under the Exchange Act.

Changes in Internal Controls

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the third quarter of 2015, to which this report relates that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various claims, legal actions and complaints which arise in the ordinary course of business. In the Company's opinion, all such matters are adequately covered by insurance, are without merit or are of such kind, or involve such amounts, that unfavorable disposition would not have a material adverse effect on the financial condition or results of operations of the Company.

Item 1A. Risk Factors

The Company believes there have been no material changes from risk factors previously disclosed in the 2014 Annual Report. The risks and uncertainties described in the 2014 Annual Report should be carefully reviewed. These are not the only risks and uncertainties that the Company faces. Additional risks and uncertainties that the Company does not currently know about or that the Company currently believes are immaterial, or that the Company has not predicted, may also harm its business operations or adversely affect the Company. If any of these risks or uncertainties actually occurs, the Company's business, financial condition, operating results or liquidity could be adversely affected.
