**December 11, 2015: JAGUAR LAND ROVER CONFIRMS NEW FACTORY IN SLOVAKIA**

- **New world-class premium manufacturing facility confirmed in Nitra**
- **The next stage of the Company's plans for sustainable global growth**
- **Today's announcement also supports long-term investment in the UK**

*Bratislava, Slovakia*- Jaguar Land Rover has confirmed that it will be the first British carmaker to open a manufacturing facility in Slovakia. The announcement follows an agreement between the company and the Government of the Slovak Republic to build a new plant in the city of Nitra, western Slovakia.

The new world-class GBP 1 billion premium manufacturing facility will eventually employ around 2,800 people.

Today's announcement follows Jaguar Land Rover's recent confirmation to double its investment in its engine plant in the UK to almost GBP 1 billion - the largest injection into a new British manufacturing plant in decades creating several hundred new jobs.

Dr Ralf Speth, Chief Executive Officer, Jaguar Land Rover commented, "*Jaguar Land Rover is delighted today to welcome Slovakia into our family. The new factory will complement our existing facilities in the UK, China, India and Brazil and marks the next step in the company's strategy to become a truly global business.*"

*Slovakia has an established premium automotive sector, which represents 43% of the country's overall industry. It has more than 300 suppliers in close proximity and an excellent logistics infrastructure; this confirmed our decision that this country was the ideal location.*

*"The heart of our company will always be in the UK, where our design, technology and manufacturing capabilities are based. It is our creativity and innovation which makes Jaguar Land Rover the leading boutique automotive brand, offering exceptional products for our customers."*

As part of Jaguar Land Rover's commitment to deliver more lightweight vehicles, the plant will manufacture a range of all-new aluminium Jaguar Land Rover vehicles. It is anticipated that the first cars will come off the production line in late 2018. The factory will have an initial capacity of 150,000 vehicles and construction will commence in 2016.

Today's announcement follows the signing of an agreement by Dr Ralf Speth, Chief Executive Officer of Jaguar Land Rover and Robert Fico, Prime Minister of Slovakia, in Bratislava.

Jaguar Land Rover has made significant progress in building its international manufacturing presence over the last year. It opened a new joint venture in China and commenced construction of its local manufacturing plant in Brazil at the end of 2014. The creation of new international plants allows Jaguar Land Rover to offer its customers even more exciting new models, protect against currency fluctuations and create a globally competitive business.

During this time, the Company has invested heavily in its UK vehicle manufacturing facilities at Castle Bromwich, Halewood and Solihull to support the introduction of all-new vehicles such as the Jaguar XE, XF and F-PACE, Range Rover Evoque Convertible and Land Rover Discovery Sport. In addition, it plans to expand its advanced engineering and design centre at Whitley, Coventry and invest in the National Automotive Innovation Centre at the University of Warwick. Jaguar Land Rover's sustained investment supports the delivery of the UK's wider industrial strategy.

Over the past five years, Jaguar Land Rover has employed more than 20,000 people taking its workforce to more than 37,000 and invested more than GBP 11 billion in new product creation and capital expenditure.

Jaguar Land Rover has selected Slovakia as the location for its next manufacturing site following robust analysis of a number of locations around the world including other European countries, United States and Mexico.

*ends*

**Notes to editors:**

- ◆ Jaguar Land Rover is one of the UK's largest exporters and generates over 80% of its revenue from exports.
- ◆ Jaguar Land Rover has four manufacturing facilities in the UK:
  - ◇ Castle Bromwich is home to the Jaguar XF, Jaguar XJ and Jaguar F-TYPE, employing 3,500 people.
  - ◇ Halewood is home to the Range Rover Evoque and Land Rover Discovery Sport, employing 4,500 people.
  - ◇ Solihull is home to the Range Rover, Range Rover Sport, Land Rover Discovery, Land Rover Defender and the Jaguar XE, employing 9,000 people.
  - ◇ The Engine Manufacturing Centre is home to the 'Ingenium' engine family, starting with the 2.0 litre diesel in the Jaguar XE. It will employ 1,400 people.
- ◆ In 2014, Jaguar Land Rover sold 462,678 vehicles, up 9%. Of that, Jaguar sold 81,570 vehicles and Land Rover sold 381,108 vehicles.
- ◆ Mainland Europe is now Jaguar Land Rover's largest sales region globally with almost 100,000 vehicles sold during the first 11 months of 2015.
- ◆ Europe has the largest number of Jaguar Land Rover dealers globally with almost 1,000 dealers across 36 countries.
- ◆ Jaguar Land Rover may conduct a further feasibility study with Slovakia to evaluate the opportunity for potential future expansion of the plant.

**About Tata Motors**

Tata Motors Limited is India's largest automobile company, with consolidated revenues of INR 2,62,796 crores (USD 42.04 billion) in 2014-15. Through subsidiaries and associate companies, Tata Motors has operations in the UK, South Korea, Thailand, South Africa and Indonesia. Among them is Jaguar Land Rover, the business comprising the two iconic British brands. It also has an industrial joint venture with Fiat in India. With over 8 million Tata vehicles plying in India, Tata Motors is the country's market leader in commercial vehicles and among the top in passenger vehicles. Tata cars, buses and trucks are being marketed in several countries in Europe, Africa, the Middle East, South Asia, South East Asia, South America, Australia, CIS and Russia.
