[SCALE LOGO OMITTED]

From the Trustees

[GRAPHIC OMITTED: PHOTO OF JOHN A. HILL AND GEORGE PUTNAM, III]

John A. Hill and  
George Putnam, III

Dear Fellow Shareholder:

Over the past year, Putnam has introduced a number of reforms for the benefit of shareholders, including increasing the amount of disclosure for our funds. We are now including additional disclosure about your fund's management teams. Following the Outlook for Your Fund, we provide manager compensation information that pertains to your fund, list any changes in your fund's Portfolio Leader and Portfolio Members during the prior year, and disclose these individuals' other fund management responsibilities at Putnam. We also show how much these individuals, as well as the members of Putnam's Executive Board, have invested in the fund (in dollar ranges). Finally, on page 12, we provide certain information about the most recent approval by the Trustees of your fund's management contract with Putnam.

During the reporting period just ended, the Federal Reserve Board's series of gradual increases in the federal funds rate have occupied much of investors' attention, but generally did not have a significant impact on stock and bond prices. However, over the last two months, we have begun to see a measurable increase in longer-term rates. This, along with the continued high levels of energy prices, has slowed the stock market's momentum even though the U.S. economy is continuing to expand at a moderate pace. Concerns about inflation, dormant for many months, are beginning to influence the markets once again and may well have a negative impact on bond prices.

In the following pages, members of your fund's management teams discuss the fund's performance, the strategies used to keep your fund on track during the reporting period, and the team's plan for responding to the changing market environment.

Respectfully yours,

/S/ JOHN A. HILL

/S/ GEORGE PUTNAM, III

Chairman of the Trustees

George Putnam, III  
President of the Funds

April 20, 2005

Report from Fund Management

Fund highlights

- \* For the semiannual period ended February 28, 2005, Putnam High Income Bond Fund had total returns of 8.86% at net asset value (NAV) and 6.94% at market price.
- \* The fund's new primary benchmark, the Merrill Lynch All-Convertibles Index, returned 5.85%. The fund's former benchmark, the Merrill Lynch All-Convertibles Ex-Mandatory Index, returned 4.80%. The fund's secondary benchmark, the JP Morgan Global High Yield Index, returned 7.37%.
- \* The average return for the fund's Lipper category, Convertible Securities Funds (closed-end), was 9.03%.
- \* During the period, Putnam High Income Opportunities Trust was merged into your fund. See page 5 for details.
- \* See the Performance Summary beginning on page 9 for additional fund performance, comparative performance, and Lipper data.

-----  
TOTAL RETURN FOR  
PERIODS ENDED 2/28/05  
-----

(inception 7/9/87)	NAV	Market Price
6 months	8.86%	6.94%
1 year	10.40	6.71
5 years	60.32	76.85
Annual average	9.90	12.08
10 years	155.64	110.85
Annual average	9.84	7.75
Annual average (life of fund)	10.35	9.25

Data is historical. Past performance does not guarantee future results. More recent returns may be less or more than those shown. Investment return, net asset value, and market price will fluctuate and you may have a gain or a loss when you sell your shares. Performance assumes reinvestment of distributions and does not account for taxes.

Performance commentary

We are pleased to report that your fund posted solid returns during the period and outpaced both its primary and secondary benchmarks, based on results at NAV. We attribute this to effective security selection and generally favorable market conditions. Strong performance from

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

convertible holdings and the fund's significant allocation to high-yield corporate bonds helped it rank competitively in its Lipper peer group; however, the fund slightly underperformed the average return for the group, which currently includes only 12 funds. It is important to note that a fund's performance at market price may differ from its results at NAV. Although market price performance generally reflects investment results, it may also be influenced by several other factors, including changes in investor perceptions of the fund or its investment advisor, market conditions, fluctuations in supply and demand for the fund's shares, and changes in fund distributions.

### FUND PROFILE

Putnam High Income Bond Fund seeks to provide high current income by investing in a portfolio of high-yielding convertible and nonconvertible securities with potential for capital appreciation. The fund invests, under normal circumstances, at least 80% of its net assets in bonds rated below investment grade.

### Market overview

Over the past six months, market sentiment shifted between caution and exhilaration. From September 1 through November's U.S. presidential election, the market reflected investors' uncertainty. The Federal Reserve Board (the Fed) had begun periodically raising short-term interest rates starting in June 2004. Despite rising rates, bond sales were strong, signaling investors' high level of risk aversion. The possibility of a terrorist incident or voting irregularities weighed on investors' minds in the weeks before Election Day. Sustained high oil prices were an additional cause for concern. However, after voters handed George W. Bush a decisive victory, relieved investors sought more speculative opportunities. The stock market rallied and posted strong gains through the end of the calendar year. The high-yield market, moving in concert with equities, experienced seasonal strength at the end of the calendar year and was further buoyed by increased consolidation activity. Yield spreads -- the difference in yield between higher- and lower-rated bonds of comparable maturities -- narrowed significantly. When this is the case, high-yield bonds offer less of a yield advantage over Treasury bonds of similar maturities.

-----

### Strategy overview

Because yield spreads have narrowed in recent months, and lower-rated bonds now offer a less compelling yield advantage, investors in high-yield and convertible bonds now receive less of a premium for the additional risk they are taking. Consequently, our goal has been to improve the quality of the portfolio while still targeting securities that offer attractive yields.

For example, we emphasized mandatory convertible securities, which must be converted, at a specified date, to common stocks. If the issuing company pays its stockholders a dividend, then the yield on its mandatory convertibles is generally two to three percentage points higher than the stock dividend yield, in order to attract potential investors. On these securities, the higher yield is not a reflection of a weaker credit rating. Our emphasis on mandatory convertibles increased both the quality and the equity sensitivity of the portfolio, a term that indicates how likely the portfolio is to reflect stock market trends.

We also established the fund's first position in non-accreting zero-coupon convertibles, which are described more fully on page 4. We don't typically invest in this type of security but when one of these bonds became available in the secondary market at an attractive discount, we viewed it as an opportunity worth pursuing.

Among the portfolio's high-yield bonds, we also trimmed some of the lower-quality holdings, which had been strong performers. We reduced positions in wireless communications, chemicals, media companies, auto suppliers, and technology companies.

[GRAPHIC OMITTED: horizontal bar chart PORTFOLIO COMPOSITION COMPARED]

### PORTFOLIO COMPOSITION COMPARED

	as of 8/31/04	as of 2/28/05
Convertible securities	48.9%	50.6%
Corporate bonds and notes	41.0%	41.2%
Short-term investments	7.2%	6.5%
Common stocks	2.0%	0.9%
Other	0.6%	0.7%
Preferred stocks	0.3%	0.1%

This chart shows how the fund's weightings have changed over the past six months. Weightings are shown as a percentage of market value. Holdings will vary over time.

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

### How fund holdings affected performance

Among the fund's convertible holdings, our position in Titan International was a top contributor to relative performance during the period. The company is the largest independent manufacturer of tires and wheels for tractors and other off-road vehicles. The convertible bonds, which we purchased at par value, have appreciated over 30% in the short time the fund has owned them. We continue to hold this position. The fund also established a position in the convertible preferred stock of Huntsman Corporation, a chemical manufacturer that, until just recently, had been privately owned. The value of these shares increased nearly 20% since the company went public. We maintained the position.

As noted in the Strategy Overview section, we established a position in a non-accreting, zero-coupon convertible. Unlike conventional zero coupon bonds, which are issued at a discount and increase in value through accretion (the accumulation of capital gains), these bonds are issued at par value. They offer no interest income and can increase in value only through their link to the underlying stock. The value of the zero coupon convertible bonds issued by ON Semiconductor had declined in response to weakening of the underlying common stock. Given our positive assessment of the firm's credit rating, we believed these zero coupon bonds were so undervalued that despite their lack of interest payments, they offered an implied yield of more than 6%. By the end of the reporting period, they had contributed positively to the fund's returns.

Footnote reads:

The fund's holdings will change over time.

The fund's positions in natural gas-related utilities also performed well, as a result of strong and growing demand. Notable among these utilities were Williams Companies, Aquila, ONEOK, and Southern Union. Among traditional oil companies, the fund's Amerada-Hess holdings posted strong results, as oil prices remained high. Bonds issued by Lyondell Chemical were standout performers among the fund's high-yield holdings. This company had been through some difficult years, as the costs of the raw materials used to produce its products had risen, foreign competition had intensified, and economic variables not in its control caused demand for its products to fluctuate. Eventually, the improving economy helped chemical companies in general. Lyondell was able to pass along higher energy costs to consumers, which improved its financial performance.

A position in the high-yield bonds of Icon Health detracted from the fund's results during the period. The company, which manufactures exercise equipment for home gyms, faced rising materials costs and was not able to pass these costs on to consumers. We believe this situation is likely to be temporary and we continue to hold the position. Star Gas Partners, LP was another detractor during the period. This distributor of home heating oil had not hedged against rising oil prices, and as a result suffered when oil prices rose higher. The company also had some service issues that led to a decline in its customer base. We think the issues will be resolved and we continue to hold the position.

Please note that all holdings discussed in this report are subject to review in accordance with the fund's investment strategy and may vary in the future.

### OF SPECIAL INTEREST

Merger with Putnam High Income Opportunities Trust completed

On January 13, 2005, shareholders of your fund and Putnam High Income Opportunities Trust approved a merger of Putnam High Income Opportunities Trust into your fund, and the merger was completed on January 21, 2005. Putnam High Income Opportunities Trust was a closed-end, fixed income fund whose objectives, strategy, and investments were substantially similar to those of your fund.

The outlook for your fund

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

The following commentary reflects anticipated developments that could affect your fund over the next six months, as well as your management teams' plans for responding to them.

We believe the fundamental backdrop remains favorable for high-yield bonds and convertible bond investing. Default rates have been low, and the strong economy has contributed to a healthy credit environment. In our opinion, companies that exhibit poor credit ratings in this economy probably have significant operational problems that we would choose to avoid. However, at this point in the credit cycle, spreads have tightened to such an extent that returns will likely be muted compared to the strong results of 2004. We believe the opportunity to capitalize on narrowing yield spreads has essentially passed. Because the economy has matured, we are looking for select opportunities that offer high yields without increased credit risk. Among convertibles, we will continue to target securities and situations that offer a structurally high yield, as we discussed in the Strategy Overview of this report. We will seek to achieve higher-quality holdings and a greater degree of equity sensitivity in the portfolio.

Within the convertible portion of the portfolio we will continue to seek special opportunities, without emphasis on particular sectors, and generally will seek to own about 70 issues. The high-yield portion of the portfolio typically holds a larger number of issues and we actively manage sector exposures in an effort to improve relative performance.

We remain committed to combining our strengths in fundamental and quantitative research to uncover attractive opportunities within the high-yield and convertible markets.

The views expressed in this report are exclusively those of Putnam Management. They are not meant as investment advice. Mutual funds that invest in bonds are subject to certain risks, including interest-rate risk, credit risk, and inflation risk. As interest rates rise, the prices of bonds fall. Long-term bonds are more exposed to interest-rate risk than short-term bonds. Unlike bonds, bond funds have ongoing fees and expenses. Lower-rated bonds may offer higher yields in return for more risk.

### Your fund's management

Your fund is managed by the members of the Putnam Large-Cap Value and Core Fixed-Income High-Yield teams. David King is the Portfolio Leader and Robert Salvin is a Portfolio Member of your fund. The Portfolio Leader and Portfolio Member coordinate the teams' management of the fund.

For a complete listing of the members of the Putnam Large-Cap Value and Core Fixed-Income High-Yield teams, including those who are not Portfolio Leaders or Portfolio Members of your fund, visit Putnam's Individual Investor Web site at [www.putnaminvestments.com](http://www.putnaminvestments.com).

### Fund ownership

The table below shows how much the fund's current Portfolio Leader and Portfolio Member have invested in the fund (in dollar ranges). Information shown is for February 28, 2005, and February 29, 2004.

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

Portfolio Leader	2004	*					
Robert Salvin	2005			*			
Portfolio Member	N/A						

N/A indicates the individual was not a Portfolio Leader or Portfolio Member as of 2/29/04.

#### Changes in your fund's Portfolio Leader and Portfolio Members

During the year ended February 28, 2005, Portfolio Member George Maris left your fund's management team.

#### Fund manager compensation

The total 2004 fund manager compensation that is attributable to your fund is approximately \$600,000. This amount includes a portion of 2004 compensation paid by Putnam Management to the fund managers listed in this section for their portfolio management responsibilities, calculated based on the fund assets they manage taken as a percentage of the total assets they manage. The compensation amount also includes a portion of the 2004 compensation paid to the Group Chief Investment Officers of the fund's broader investment categories for their oversight responsibilities, calculated based on the fund assets they oversee taken as a percentage of the total assets they oversee. These percentages are determined as of the fund's fiscal period-end. For personnel who joined Putnam Management during or after 2004, the calculation reflects annualized 2004 compensation or an estimate of 2005 compensation, as applicable.

#### Other Putnam funds managed by the Portfolio Leader and Portfolio Member

David King is also a Portfolio Leader of Putnam Convertible Income-Growth Trust and Putnam New Value Fund. He is also a Portfolio Member of The Putnam Fund for Growth and Income. David King and Robert Salvin may also manage other accounts and variable trust funds advised by Putnam Management or an affiliate.

#### Fund ownership

The table below shows how much the members of Putnam's Executive Board have invested in the fund (in dollar ranges). Information shown is for February 28, 2005, and February 29, 2004.

Terms and definitions

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

Total return shows how the value of the fund's shares changed over time, assuming you held the shares through the entire period and reinvested all distributions in the fund.

Net asset value (NAV) is the value of all your fund's assets, minus any liabilities, divided by the number of outstanding shares.

Market price is the current trading price of one share of the fund. Market prices are set by transactions between buyers and sellers on exchanges such as the American Stock Exchange and the New York Stock Exchange.

### Comparative indexes

JP Morgan Global High Yield Index is an unmanaged index of global high-yield fixed-income securities.

Lehman Aggregate Bond Index is an unmanaged index of U.S. investment-grade fixed-income securities.

Lehman Global Aggregate Bond Index is an unmanaged index of global investment-grade fixed-income securities.

Merrill Lynch All-Convertibles Index is an unmanaged index of U.S. convertible securities.

Merrill Lynch All-Convertibles Ex-Mandatory Index is an unmanaged index of U.S. convertible securities, excluding those with mandatory conversion provisions.

Morgan Stanley Capital International (MSCI) EAFE Index is an unmanaged index of equity securities from developed countries in Western Europe, the Far East, and Australasia.

Russell 2000 Index is an unmanaged index of the 2,000 smallest companies in the Russell 3000 Index.

S&P 500 Index is an unmanaged index of common stock performance.

Indexes assume reinvestment of all distributions and do not account for fees. Securities and performance of a fund and an index will differ. You cannot invest directly in an index.

Lipper is a third-party industry ranking entity that ranks funds (without sales charges) with similar current investment styles or objectives as determined by Lipper. Lipper category averages reflect performance trends for funds within a category and are based on results at net asset value.

### Trustee approval of management contract

### General conclusions

The Board of Trustees of the Putnam funds oversees the management of each fund and, as required by law, determines annually whether to approve the continuance of each fund's management contract with Putnam Management. In this regard the Board of Trustees, with the assistance of its Contract Committee consisting solely of Independent Trustees, requests and evaluates all information it deems reasonably necessary in the circumstances. Over the course of several months beginning in March and ending in June of 2004, the Contract Committee reviewed the information provided by Putnam Management and other information developed with the assistance of the Board's

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

independent counsel and independent staff. The Contract Committee reviewed and discussed key aspects of this information with all of the Independent Trustees. Upon completion of this review, the Contract Committee recommended and the Independent Trustees approved the continuance of your fund's contract, effective July 1, 2004.

This approval was based on the following conclusions:

- \* That the fee schedule currently in effect for your fund represents reasonable compensation in light of the nature and quality of the services being provided to the fund, the fees paid by competitive funds and the costs incurred by Putnam Management in providing such service, and
- \* That such fee schedule represents an appropriate sharing between fund shareholders and Putnam Management of such economies of scale as may exist in the management of the fund at current asset levels.

These conclusions were based on a comprehensive consideration of all information provided to the Trustees and were not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations are described below.

### Model fee schedules and categories; total expenses

The Trustees, working in cooperation with Putnam Management, have developed and implemented a series of model fee schedules for the Putnam funds designed to ensure that each fund's management fee is consistent with the fees for similar funds in the Putnam complex and compares favorably with fees paid by competitive funds sponsored by other advisors. The Trustees reviewed the model fee schedule currently in effect for the fund, including fee levels and breakpoints, and the assignment of the fund to a particular fee category under this structure. The Trustees also reviewed comparative fee and expense information for competitive funds. The Trustees concluded that no changes should be made in the fund's current fee schedule at this time. The Trustees noted that expense ratios for a number of Putnam funds had been increasing recently as a result of declining net assets and the natural operation of fee breakpoints. They noted that such expense ratio increases were currently being controlled by expense limitations implemented in January 2004. They also noted that the competitive landscape regarding mutual fund fees may be changing as a result of fee reductions accepted by various other fund groups in connection with recent regulatory settlements and greater focus on fees and expenses in the mutual fund industry generally. The Trustees indicated an intention to monitor these developments closely.

### Economies of scale

As noted above, the Trustees concluded that the fee schedule currently in effect for your fund represents an appropriate sharing of economies of scale at current asset levels. The Trustees indicated their intention to continue their ongoing consideration of economies of scale and in particular to consider further the possible operation of such economies in the event that a significant recovery in the equity markets or net fund sales were to raise asset levels substantially above current levels. In this regard, the Trustees noted that they had reviewed data relating to the substantial increase in asset levels of the Putnam funds that occurred during the years leading up to the market peak in 2000, the subsequent decline in assets and the resulting impact on revenues and expenses of Putnam Management. The Trustees also noted that recent declines in net assets in many Putnam funds, together with significant changes in the cost structure of Putnam Management have altered the

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

economics of Putnam Management's business in significant ways. The Trustees concluded that they would monitor these changes carefully and evaluate the resulting impact on Putnam Management's economics and the sharing of economies of scale between the parties.

### Investment performance

The quality of the investment process provided by Putnam Management represented a major factor in the Trustees' evaluation of the quality of services provided by Putnam Management under the Management Contracts. The Trustees recognized that a high quality investment process -- as measured by the experience and skills of the individuals assigned to the management of fund portfolios, the resources made available to such personnel, and in general the ability of Putnam Management to attract and retain high-quality personnel -- does not guarantee favorable investment results for every fund in every time period. The Trustees considered the investment performance of each fund over multiple time periods and considered information comparing the fund's performance with various benchmarks and with the performance of competitive funds. The Trustees noted the satisfactory investment performance of many Putnam funds.

They also noted the disappointing investment performance of certain funds in recent years and continued to discuss with senior management of Putnam Management the factors contributing to such under-performance and actions being taken to improve performance. The Trustees recognized that, in recent years, Putnam Management has made significant changes in its investment personnel and processes and in the fund product line in an effort to address areas of underperformance. The Trustees indicated their intention to continue to monitor performance trends to assess the effectiveness of these changes and to evaluate whether additional remedial changes are warranted. As a general matter, the Trustees concluded that consultation between the Trustees and Putnam Management represents the most effective way to address investment performance problems. The Trustees believe that investors in the Putnam funds and their financial advisors have, as a general matter, effectively placed their trust in the Putnam organization, under the supervision of the funds' Trustees, to make appropriate decisions regarding the management of the funds. The Trustees believe that the termination of the Management Contract and engagement of a new investment adviser for under-performing funds, with all the attendant disruptions, would not serve the interests of fund shareholders at this time and would not necessarily provide any greater assurance of improved investment performance.

### Brokerage and soft-dollar allocations; other benefits

The Trustees considered various potential benefits that Putnam Management may receive in connection with the services it provides under the Management Contract with your fund. These include principally benefits related to brokerage and soft-dollar allocations, which pertain mainly to funds investing in equity securities. The Trustees believe that soft-dollar credits and other potential benefits associated with the allocation of fund brokerage represent assets of the funds that should be used for the benefit of fund shareholders. The Trustees noted recent trends in the allocation of fund brokerage, including commission costs, the allocation of brokerage to firms that provide research services to Putnam Management, and the sources and application of available soft-dollar credits. Effective December 31, 2003, reflecting a decision made by the Trustees earlier that year, Putnam Management ceased allocating brokerage in connection with the sale of fund shares. In addition, in preparing its budget for commission allocations in 2004,

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

Putnam Management voluntarily reduced substantially the allocation of brokerage commissions to acquire research services from third-party service providers. In light of evolving best practices in the mutual fund industry, the Trustees concluded that this practice should be further curtailed and possibly eliminated in the near future. The Trustees indicated that they would continue to monitor the allocation of the funds' brokerage to ensure that the principle of "best price and execution" remains paramount in the portfolio trading process.

### Comparison of retail and institutional fee schedules

The information examined by the Trustees as part of the annual contract reviews included information regarding fees charged by Putnam Management and its affiliates to institutional clients such as defined benefit pension plans and college endowments. This information included comparison of such fees with fees charged to the Putnam funds, as well as a detailed assessment of the differences in the services provided to these two types of clients. The Trustees devoted special attention to these issues and reviewed recent articles by critics of mutual fund fees, articles by the ICI defending such fee differences, and relevant guidance provided by decisions of the courts. The Trustees observed, in this regard, that the differences in fee rates between institutional clients and mutual funds are by no means uniform when examined by individual asset sectors, suggesting that differences in the pricing of investment management services to these types of clients reflects to a substantial degree historical competitive forces operating in separate market places. In reaching their conclusions, the Trustees considered the fact that fee rates across all asset sectors are higher on average for mutual funds than for institutional clients, and also considered the differences between the services that Putnam provides to the Putnam funds and those that it provides to institutional clients of the firm.

### Settlement of regulatory charges related to market timing

Finally, in reaching their conclusions, the Trustees considered all matters pertinent to the administrative charges filed against Putnam Management by the SEC and the Commonwealth of Massachusetts in October 2003 relating to market timing, the firm's settlement of those charges, and the conclusions and recommendations of the Trustees' Audit and Pricing Committee based on its review of these matters. The Trustees considered the actions taken by the owner of Putnam Management and its new senior management to terminate or discipline the individuals involved, to implement new compliance systems, to indemnify the funds against all costs and liabilities related to these matters, and otherwise to ensure that the interests of the funds and their shareholders are fully protected. The Trustees noted that, in addition to the settlements of the regulatory charges which will provide comprehensive restitution for any losses suffered by shareholders, the new senior management of Putnam Management has moved aggressively to control expense ratios of funds affected by market timing, to reduce charges to new investors, to improve disclosure of fees and expenses, and to emphasize the paramount role of investment performance in achieving shareholders' investment goals.

### Other information for shareholders

#### A note about duplicate mailings

In response to investors' requests, the SEC has modified mailing regulations for proxy statements, semiannual and annual reports, and prospectuses. Putnam is now able to send a single copy of these materials to customers who share the same address. This change will

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

automatically apply to all shareholders except those who notify us. If you would prefer to receive your own copy, please call Putnam at 1-800-225-1581.

### Proxy voting

Putnam is committed to managing our mutual funds in the best interests of our shareholders. The Putnam funds' proxy voting guidelines and procedures, as well as information regarding how your fund voted proxies relating to portfolio securities during the 12-month period ended June 30, 2004, are available on the Putnam Individual Investor Web site, [www.putnaminvestments.com/individual](http://www.putnaminvestments.com/individual), and on the SEC's Web site, [www.sec.gov](http://www.sec.gov). If you have questions about finding forms on the SEC's Web site, you may call the SEC at 1-800-SEC-0330. You may also obtain the Putnam funds' proxy voting guidelines and procedures at no charge by calling Putnam's Shareholder Services at 1-800-225-1581.

### Fund portfolio holdings

For periods ending on or after July 9, 2004, the fund will file a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Shareholders may obtain the fund's Forms N-Q on the SEC's Web site at [www.sec.gov](http://www.sec.gov). In addition, the fund's Forms N-Q may be reviewed and copied at the SEC's public reference room in Washington, D.C. You may call the SEC at 1-800-SEC-0330 for information about the SEC's Web site or the operation of the public reference room.

### A guide to the financial statements

These sections of the report, as well as the accompanying Notes, constitute the fund's financial statements.

The fund's portfolio lists all the fund's investments and their values as of the last day of the reporting period. Holdings are organized by asset type and industry sector, country, or state to show areas of concentration and diversification.

Statement of assets and liabilities shows how the fund's net assets and share price are determined. All investment and noninvestment assets are added together. Any unpaid expenses and other liabilities are subtracted from this total. The result is divided by the number of shares to determine the net asset value per share, which is calculated separately for each class of shares. (For funds with preferred shares, the amount subtracted from total assets includes the net assets allocated to remarketed preferred shares.)

Statement of operations shows the fund's net investment gain or loss. This is done by first adding up all the fund's earnings -- from dividends and interest income -- and subtracting its operating expenses to determine net investment income (or loss). Then, any net gain or loss the fund realized on the sales of its holdings -- as well as any unrealized gains or losses over the period -- is added to or subtracted from the net investment result to determine the fund's net gain or loss for the fiscal period.

Statement of changes in net assets shows how the fund's net assets were affected by the fund's net investment gain or loss, by distributions to shareholders, and by changes in the number of the fund's shares. It lists distributions and their sources (net investment income or realized capital gains) over the current reporting period and the most recent

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

fiscal year-end. The distributions listed here may not match the sources listed in the Statement of operations because the distributions are determined on a tax basis and may be paid in a different period from the one in which they were earned.

Financial highlights provide an overview of the fund's investment results, per-share distributions, expense ratios, net investment income ratios, and portfolio turnover in one summary table, reflecting the five most recent reporting periods. In a semiannual report, the highlight table also includes the current reporting period. For open-end funds, a separate table is provided for each share class.

The fund's portfolio

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

Notes to financial statements  
February 28, 2005 (Unaudited)

Note 1  
Significant accounting policies

Putnam High Income Bond Fund (the "fund"), a Massachusetts business trust, is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The fund seeks to provide high current income as a primary objective and capital appreciation as a secondary objective by investing in a portfolio primarily consisting of high-yielding convertible and nonconvertible securities with the potential for capital appreciation. The fund invests in higher yielding, lower rated bonds that have a higher rate of default due to the nature of the fund's investments.

The following is a summary of significant accounting policies consistently followed by the fund in the preparation of its financial statements. The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

A) Security valuation Investments for which market quotations are readily available are valued at the last reported sales price on their principal exchange, or official closing price for certain markets. If no sales are reported -- as in the case of some securities traded over-the-counter -- a security is valued at its last reported bid price. Market quotations are not considered to be readily available for certain debt obligations; such investments are valued at fair value on the basis of valuations furnished by an independent pricing service or dealers, approved by the Trustees. Such services or dealers determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and various relationships, generally recognized by institutional traders, between securities. Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the New York Stock Exchange. Accordingly, on certain days, the fund will fair value foreign securities taking into account multiple factors, including movements in the U.S. securities markets. The number of days on which fair value prices will be used will depend on market activity and it is possible that fair value prices will be used by the fund to a significant extent. Securities quoted in foreign currencies are translated into U.S. dollars at the current exchange rate. Short-term investments having remaining maturities of 60 days or less are valued at amortized cost, which approximates fair value. Other investments, including certain restricted securities, are valued at fair value following procedures approved by the Trustees. Such valuations and procedures are reviewed periodically by the Trustees.

B) Joint trading account Pursuant to an exemptive order from the Securities and Exchange Commission ("SEC"), the fund may transfer uninvested cash balances, including cash collateral received under security lending arrangements, into a joint trading account along with the cash of other registered investment companies and certain other accounts managed by Putnam Investment Management, LLC ("Putnam

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

Management"), the fund's manager, an indirect wholly-owned subsidiary of Putnam, LLC. These balances may be invested in issues of high-grade short-term investments having maturities of up to 397 days for collateral received under security lending arrangements and up to 90 days for other cash investments.

C) Security transactions and related investment income Security transactions are recorded on the trade date (date the order to buy or sell is executed). Gains or losses on securities sold are determined on the identified cost basis.

Interest income is recorded on the accrual basis. Dividend income, net of applicable withholding taxes, is recognized on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the fund is informed of the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received.

All premiums/discounts are amortized/accreted on a yield-to-maturity basis.

D) Foreign currency translation The accounting records of the fund are maintained in U.S. dollars. The market value of foreign securities, currency holdings, and other assets and liabilities are recorded in the books and records of the fund after translation to U.S. dollars based on the exchange rates on that day. The cost of each security is determined using historical exchange rates. Income and withholding taxes are translated at prevailing exchange rates when earned or incurred. The fund does not isolate that portion of realized or unrealized gains or losses resulting from changes in the foreign exchange rate on investments from fluctuations arising from changes in the market prices of the securities. Such gains and losses are included with the net realized and unrealized gain or loss on investments. Net realized gains and losses on foreign currency transactions represent net realized exchange gains or losses on closed forward currency contracts, disposition of foreign currencies, currency gains and losses realized between the trade and settlement dates on securities transactions and the difference between the amount of investment income and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized appreciation and depreciation of assets and liabilities in foreign currencies arise from changes in the value of open forward currency contracts and assets and liabilities other than investments at the period end, resulting from changes in the exchange rate. Investments in foreign securities involve certain risks, including those related to economic instability, unfavorable political developments, and currency fluctuations, not present with domestic investments.

E) Forward currency contracts The fund may buy and sell forward currency contracts, which are agreements between two parties to buy and sell currencies at a set price on a future date. These contracts are used to protect against a decline in value relative to the U.S. dollar of the currencies in which its portfolio securities are denominated or quoted (or an increase in the value of a currency in which securities a fund intends to buy are denominated, when a fund holds cash reserves and short term investments). The U.S. dollar value of forward currency contracts is determined using current forward currency exchange rates supplied by a quotation service. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked to market daily and the change in market value is recorded as an unrealized gain or loss. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

contract at the time it was opened and the value at the time it was closed. The fund could be exposed to risk if the value of the currency changes unfavorably, if the counterparties to the contracts are unable to meet the terms of their contracts or if the fund is unable to enter into a closing position. Risks may exceed amounts recognized on the statement of assets and liabilities. Forward currency contracts outstanding at period end, if any, are listed after the fund's portfolio.

F) Credit default contracts The fund may enter into credit default contracts where one party, the protection buyer, makes an upfront or periodic payment to a counter party, the protection seller, in exchange for the right to receive a contingent payment. The maximum amount of the payment may equal the notional amount, at par, of the underlying index or security as a result of a related credit event. An upfront payment received by the fund, as the protection seller, is recorded as a liability on the fund's books. An upfront payment made by the fund, as the protection buyer, is recorded as an asset on the fund's books. Periodic payments received or paid by the fund are recorded as realized gains or losses. The credit default contracts are marked to market daily based upon quotations from market makers and the change, if any, is recorded as unrealized gain or loss. Payments received or made as a result of a credit event or termination of the contract are recognized, net of a proportional amount of the upfront payment, as realized gains or losses. In addition to bearing the risk that the credit event will occur, the fund could be exposed to market risk due to unfavorable changes in interest rates or in the price of the underlying security or index, the possibility that the fund may be unable to close out its position at the same time or at the same price as if it had purchased comparable publicly traded securities or that the counterparty may default on its obligation to perform. Risks of loss may exceed amounts recognized on the statement of assets and liabilities. Credit default contracts outstanding at period end, if any, are listed after the fund's portfolio.

G) Security lending The fund may lend securities, through its agents, to qualified borrowers in order to earn additional income. The loans are collateralized by cash and/or securities in an amount at least equal to the market value of the securities loaned. The market value of securities loaned is determined daily and any additional required collateral is allocated to the fund on the next business day. The risk of borrower default will be borne by the fund's agents; the fund will bear the risk of loss with respect to the investment of the cash collateral. Income from securities lending is included in investment income on the statement of operations. At February 28, 2005, the value of securities loaned amounted to \$7,265,954. The fund received cash collateral of \$7,484,215 which is pooled with collateral of other Putnam funds into 33 issuers of high grade short-term investments.

H) Federal taxes It is the policy of the fund to distribute all of its taxable income within the prescribed time and otherwise comply with the provisions of the Internal Revenue Code of 1986 (the "Code") applicable to regulated investment companies. It is also the intention of the fund to distribute an amount sufficient to avoid imposition of any excise tax under Section 4982 of the Code, as amended. Therefore, no provision has been made for federal taxes on income, capital gains or unrealized appreciation on securities held nor for excise tax on income and capital gains.

At August 31, 2004, the fund had a capital loss carryover of \$19,335,434 available to the extent allowed by the Code to offset future net capital gain, if any. The amount of the carryover and the expiration dates are:

Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

Loss Carryover	Expiration
\$535,162	August 31, 2009
9,205,575	August 31, 2010
9,594,697	August 31, 2011

As a result of the January 21, 2005 merger of Putnam High Income Opportunities Trust into the fund, the fund acquired \$21,216,278 in capital loss carryovers which are subject to limitations imposed by the Code. The acquired capital loss carryovers and their expiration dates are:

Loss Carryover	Expiration
\$11,425,662	August 31, 2009
9,790,616	August 31, 2010

The aggregate identified cost on a tax basis is \$190,690,385, resulting in gross unrealized appreciation and depreciation of \$19,092,173 and \$5,679,118, respectively, or net unrealized appreciation of \$13,413,055.

I) Distributions to shareholders Distributions to shareholders from net investment income are recorded by the fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid at least annually. The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Reclassifications are made to the fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations.

Note 2

Management fee, administrative services and other transactions

Putnam Management is paid for management and investment advisory services quarterly based on the average net assets of the fund. Such fee is based on the annual rate of 0.75% of the average weekly net assets of the fund.

Effective September 13, 2004, Putnam Investments Limited ("PIL"), an affiliate of Putnam Management is authorized by the Trustees to manage a separate portion of the assets of the fund as determined by Putnam Management from time to time. Putnam Management pays a quarterly sub-management fee to PIL for its services at an annual rate of 0.40% of the average net assets of the portion of the fund managed by PIL.

The fund reimburses Putnam Management an allocated amount for the compensation and related expenses of certain officers of the fund and their staff who provide administrative services to the fund. The aggregate amount of all such reimbursements is determined annually by the Trustees.

Custodial functions for the fund's assets are provided by Putnam Fiduciary Trust Company ("PFTC"), a subsidiary of Putnam, LLC. Putnam Investor Services, a division of PFTC, provides investor servicing agent functions to the fund. During the six months ended February 28, 2005, the fund paid PFTC \$100,286 for these services.

The fund has entered into an arrangement with PFTC whereby credits

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

realized as a result of uninvested cash balances are used to reduce a portion of the fund's expenses. The fund also reduced expenses through brokerage service arrangements. For the six months ended February 28, 2005, the fund's expenses were reduced by \$2,262 under these arrangements.

Each independent Trustee of the fund receives an annual Trustee fee, of which \$1,287, as a quarterly retainer, has been allocated to the fund, and an additional fee for each Trustees meeting attended. Trustees receive additional fees for attendance at certain committee meetings.

The fund has adopted a Trustee Fee Deferral Plan (the "Deferral Plan") which allows the Trustees to defer the receipt of all or a portion of Trustees fees payable on or after July 1, 1995. The deferred fees remain invested in certain Putnam funds until distribution in accordance with the Deferral Plan.

The fund has adopted an unfunded noncontributory defined benefit pension plan (the "Pension Plan") covering all Trustees of the fund who have served as a Trustee for at least five years. Benefits under the Pension Plan are equal to 50% of the Trustee's average total retainer and meeting fees for the three years preceding retirement. Pension expense for the fund is included in Trustee compensation and expenses in the statement of operations. Accrued pension liability is included in Payable for Trustee compensation and expenses in the statement of assets and liabilities. The Trustees have terminated the Pension Plan with respect to any Trustee first elected after 2003.

### Note 3

#### Purchases and sales of securities

During the six months ended February 28, 2005, cost of purchases and proceeds from sales of investment securities other than short-term investments aggregated \$33,709,923 and \$33,901,231, respectively. There were no purchases or sales of U.S. government securities.

### Note 4

#### Investment in Putnam Prime Money Market Fund

Pursuant to an exemptive order from the Securities and Exchange Commission, the fund invests in Putnam Prime Money Market Fund, an open-end management investment company managed by Putnam Management. Management fees paid by the fund are reduced by an amount equal to the management fees paid by Putnam Prime Money Market Fund with respect to assets invested by the fund in Putnam Prime Money Market Fund. For the period ended February 28, 2005, management fees paid were reduced by \$2,591 relating to the fund's investment in Putnam Prime Money Market Fund. Income distributions earned by the fund are recorded as income in the statement of operations and totaled \$38,965 for the period ended February 28, 2005.

### Note 5

#### Regulatory matters and litigation

Putnam Management has entered into agreements with the Securities and Exchange Commission and the Massachusetts Securities Division settling charges connected with excessive short-term trading by Putnam employees and, in the case of the charges brought by the Massachusetts Securities Division, by participants in some Putnam-administered 401(k) plans. Pursuant to these settlement agreements, Putnam Management will pay a total of \$193.5 million in penalties and restitution, with \$153.5 million being paid to shareholders and the funds. The restitution amount will be allocated to shareholders

## Edgar Filing: PUTNAM HIGH INCOME BOND FUND - Form N-CSR

pursuant to a plan developed by an independent consultant, with payments to shareholders currently expected by the end of the summer.

The SEC's and Massachusetts Securities Division's allegations and related matters also serve as the general basis for numerous lawsuits, including purported class action lawsuits filed against Putnam Management and certain related parties, including certain Putnam funds. Putnam Management will bear any costs incurred by Putnam funds in connection with these lawsuits. Putnam Management believes that the likelihood that the pending private lawsuits and purported class action lawsuits will have a material adverse financial impact on the fund is remote, and the pending actions are not likely to materially affect its ability to provide investment management services to its clients, including the Putnam funds.

On March 23, 2005, Putnam Management entered into a settlement with the SEC resolving its inquiry into Putnam Management's alleged failure to fully and effectively disclose a former brokerage allocation practice to the Board of Trustees and shareholders of the Putnam Funds. This practice, which Putnam Management ceased as of January 1, 2004, involved allocating a portion of the brokerage on mutual fund portfolio transactions to certain broker-dealers who sold shares of Putnam mutual funds. Under the settlement order, Putnam Management has paid a civil penalty of \$40 million and disgorgement of \$1 to the SEC. These amounts subsequently will be distributed to certain Putnam funds pursuant to a plan to be approved by the SEC. As part of the settlement, Putnam Management neither admitted nor denied any wrongdoing.

### Note 6

#### Acquisition of Putnam High Income Opportunities Trust

On January 21, 2005, the fund issued 8,694,024 shares in exchange for 3,712,567 shares of Putnam High Income Opportunities Trust to acquire that fund's net assets in a tax-free exchange approved by the shareholders. The net assets of the fund and Putnam High Income Opportunities Trust on January 21, 2005, valuation date, were \$119,743,477 and \$75,299,313, respectively. On January 21, 2005, Putnam High Income Opportunities Trust had distributions in excess of net investment income of \$439,279, accumulated net realized loss of \$21,080,625 and unrealized appreciation of \$4,326,390. The aggregate net assets of the fund immediately following the acquisition were \$195,042,790.

Information presented in the Statement of operations and changes in net assets reflect only the operations of Putnam High Income Bond Fund.

#### Results of January 13, 2005 shareholder meeting (Unaudited)

A special meeting of the shareholders of the fund was held on January 13, 2005. At the meeting, the proposed merger of Putnam High Income Opportunities Trust into Putnam High Income Bond Fund was approved. In this merger, Putnam High Income Bond Fund will acquire all of the assets of Putnam High Income Opportunities Trust in exchange for the issuance and delivery of shares of beneficial interest of Putnam High Income Bond Fund and the assumption by Putnam High Income Bond Fund of the liabilities of Putnam High Income Opportunities Trust and the distribution of such shares to the shareholders of Putnam High Income Opportunities Trust. This was approved as follows:

### Fund information

#### About Putnam Investments

One of the largest mutual fund families in the United States, Putnam Investments has a heritage of investment leadership dating back to Judge Samuel Putnam, whose Prudent Man Rule has defined fiduciary tradition and practice since 1830. Founded over 65 years ago, Putnam Investments was built around the concept that a balance between risk and reward is the hallmark of a well-rounded financial program. We presently manage over 100 mutual funds in growth, value, blend, fixed income, and international.
