PRESS RELEASE - For Immediate Release

HOME FEDERAL BANCORP, INC. ANNOUNCES FIRST QUARTER EARNINGS

Nampa, ID (January 22, 2008)

- Home Federal Bancorp, Inc. (the "Company") (Nasdaq GSM: HOME), the new holding company of Home Federal Bank (the "Bank"), today announced first quarter earnings for the fiscal year ending September 30, 2008. For the quarter ended December 31, 2007, the Company reported net income of \$947,000, or \$0.06 per diluted share compared to \$1.3 million, or \$0.08 per diluted share, for the same period a year ago. Earnings per share for the prior periods have been adjusted to reflect the impact of the second-step conversion and reorganization of the Company, which was completed on December 19, 2007. As a result of the second-step conversion and reorganization, the Company became the holding company of the Bank and the mutual holding company, Home Federal MHC, and the mid-tier federally chartered stock corporation, Home Federal Bancorp, Inc., ceased to exist. The Company raised \$88.4 million in net proceeds from its second-step stock offering.

"We are pleased that we were successful in completing our second step reorganization and conversion in a very difficult market at the end of our first fiscal quarter." stated Home Federal Bancorp, Inc. Chairman and CEO, Daniel L. Stevens. "Now that our long term capital plans are realized, we can focus on managing and leveraging that capital to provide for quality, sustainable, profitable growth," Stevens continued.

Stevens went on to say, "Our recent entry into the commercial banking market is off to a strong start, with the additions of exceptional commercial banking and credit teams individually selected from within the local market. Products, policies and procedures are in place to expand this business line with a focus on the client that differentiates Home Federal in the market place."

Operating Results

Revenues for the quarter ended December 31, 2007, which consisted of net interest income before the provision for loan losses plus noninterest income, decreased 9% to \$7.7 million for the quarter, compared to \$8.4 million for the quarter ended December 31, 2006. Net interest income before the provision for loan losses decreased 8% to \$5.1 million for the quarter ended December 31, 2007 compared to \$5.5 million for the same quarter of the prior year as the cost of deposits increased more rapidly than the yield on loans and investments.

A provision for loan losses of \$287,000 was established by management in connection with its analysis of the loan portfolio for the current quarter, compared to a provision for loan losses of \$71,000 established for the same quarter of the prior year. The increase in the provision reflects an increase in total classified assets.

<PAGE>

Home Federal Bancorp, Inc
January 22, 2008
Page 2 of 7

The Company's net interest margin decreased eight basis points to 2.97% for the quarter ended December 31, 2007, from 3.05% for the same quarter last year. The decline in the net interest margin reflects competitive pricing pressures and the relatively flat yield curve that existed during the quarter, as the cost of shorter-term deposits increased more rapidly than the yield on longer-term assets. The Company believes the repricing of existing loans and the emphasis on expanding the commercial and small business banking programs, including both loan and deposit products, will improve the net interest margin.

Noninterest income decreased \$279,000, to \$2.6 million for the quarter ended December 31, 2007, compared to \$2.9 million for the same quarter a year ago. The decrease was primarily attributable to a \$203,000 decrease in service charges and fees and an \$113,000 decrease in gain on sale of loans.

Noninterest expense for the quarter ended December 31, 2007 decreased \$384,000, or 6%, to \$5.9 million, from \$6.2 million for the comparable period a year earlier. Compensation and benefit expenses decreased \$315,000, or 8%, to

\$3.7 million for the quarter ended December 31, 2007 as compared to \$4.0 million for the same quarter a year ago. The majority of the decrease is attributable to a decrease in the number of full-time equivalent employees. As of December 31, 2007, the Company employed 208 full-time equivalent employees, compared to 247 at December 31, 2006. The decrease in full-time equivalent employees was the result of a targeted effort to gain efficiencies throughout the Company. The Company's efficiency ratio was 76.5% for the quarter ended December 31, 2007 compared to 74.5% for the same quarter a year ago; the increase in the ratio was primarily due to a decrease in revenues. The efficiency ratio indicates how much is spent on non-interest expenses as a percentage of total revenue.

Balance Sheet Growth

Total assets increased 2% to \$782.6 million at December 31, 2007, compared to \$767.6 million a year earlier. The increase in total assets was primarily attributable to \$88.4 million in net proceeds raised from the Company's second-step conversion and stock offering completed on December 19, 2007. Net loans (excluding loans held for sale) at December 31, 2007 decreased 7% to \$477.4 million, compared to \$511.6 million at December 31, 2006. One- to four-family residential loans represented 51% of the Bank's loan portfolio at December 31, 2007, compared to 57% at December 31, 2006. Commercial loans, including commercial real estate loans, accounted for 40% of the Bank's loan portfolio at December 31, 2007, compared to 36% at December 31, 2006. In the future, subject to market conditions, the Bank plans to increase its emphasis on commercial and small business banking products. Mortgage-backed securities decreased \$32.0 million to \$159.0 million at December 31, 2007, compared to \$191.0 million at December 31, 2006. The decrease is attributable to principal repayments during the period.

Non-performing assets were \$2.3 million or 0.30% of total assets at December 31, 2007 compared to none at December 31, 2006. The increase in non-performing assets is not concentrated in one specific type of loan, but rather was experienced throughout all major loan types. Although the Company experienced an increase in non-performing assets, overall credit quality remains strong. The allowance for loan losses was \$3.0 million, or 0.63% of gross loans, at December 31, 2007 compared to \$3.0 million, or 0.59% of gross loans, at December 31, 2006.

<PAGE>

Home Federal Bancorp, Inc
January 22, 2008
Page 3 of 7

Deposits decreased 5% to \$405.0 million at December 31, 2007 compared to \$425.1 million at December 31, 2006. Demand deposits and savings accounts increased \$4.0 million, or 2% to \$195.3 million at December 31, 2007. The increase was a result of growth in money market accounts. Certificates of deposit decreased \$24.2 million, or 10%, to \$209.7 million at December 31, 2007, compared to \$233.9 million at December 31, 2006. The decrease in certificates of deposit was primarily the result of the Bank choosing not to match rates offered by local competitors that in some instances exceeded the Bank's cost of alternative funding sources. Advances from the Federal Home Loan Bank ("FHLB") decreased 26% to \$163.6 million at December 31, 2007 compared to \$221.2 million at December 31, 2006. The decrease resulted from maturing advances funded from excess liquidity.

Stockholders' equity increased \$94.3 million, or 86%, to \$203.8 million at December 31, 2007, compared to \$109.5 million at December 31, 2006. The increase was primarily a result of the \$88.4 million in net proceeds received from the second-step conversion and stock offering. The Company sold approximately 9.4 million shares of stock in its subscription, community and syndicated community offerings and issued approximately 7.1 million shares of its stock in exchange for the previously outstanding shares of the Bank's former mid-tier holding company, Home Federal Bancorp, Inc. A portion of the offering proceeds were used to make a loan to our employee stock ownership plan, which purchased approximately 816,000 shares of the Company's common stock for an aggregate of \$8.2 million.

In addition, other significant activity among equity accounts included \$4.9 million in net income and the allocation of

Edgar Filing: Home Federal Bancorp, Inc. - Form 8-K

earned employee stock ownership plan shares, equity compensation and the exercise of stock options totaling \$2.6 million, offset by \$1.3 million in cash dividends paid to stockholders and a \$590,000 increase in unrealized losses on securities available for sale. The Company's book value per share as of December 31, 2007 was \$11.76 per share based upon 17,326,565 outstanding shares of common stock.

About the Company

Home Federal Bancorp, Inc. is a Maryland corporation headquartered in Nampa, Idaho, and is the savings and loan holding company of Home Federal Bank, a federal savings bank that was originally organized as a building and loan association in 1920. The Company serves the Treasure Valley region of southwestern Idaho that includes Ada, Canyon, Elmore and Gem Counties, through 15 full-service banking offices and two mortgage loan centers. The Company's common stock is traded on the NASDAQ Global Select Market under the symbol "HOME." The Company's stock is also included in the America's Community Bankers NASDAQ Index. For more information, visit the Company's web site at www.myhomefed.com.

Forward-Looking Statements:

Statements in this news release regarding future events, performance or results are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 ("PSLRA") and are made pursuant to the safe harbors of the PSLRA. Actual results could be materially different from those expressed or implied by the forward-looking statements. Factors that could cause results to differ include but are not limited to: general economic and banking business conditions, competitive conditions between banks and non-bank financial service providers, interest rate fluctuations, regulatory and accounting changes, the value of mortgage servicing rights, risks related to construction and development lending, commercial and small business banking and other risks. Additional factors that could cause actual results to differ materially are disclosed in Home Federal Bancorp,
