HOME FEDERAL BANCORP, INC. AND SUBSIDIARY
SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 – Basis of Presentation

The consolidated financial statements presented in this report include the accounts of Home Federal Bancorp, Inc., a Maryland corporation (the “Company”), and its wholly-owned subsidiary, Home Federal Bank (the “Bank”), which is a state-chartered commercial bank headquartered in Nampa, Idaho. As used throughout this report, the term the “Company” refers to Home Federal Bancorp, Inc., and its consolidated subsidiary, unless the context otherwise requires.

The consolidated financial statements of the Company have been prepared in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information and are unaudited. All significant intercompany transactions and balances have been eliminated. In the opinion of the Company's management, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of the financial condition and results of operations for the interim periods included herein have been made. Operating results for the three and nine months ended September 30, 2013, are not necessarily indicative of the results that may be expected for future periods.

On July 30, 2010, the Bank entered into a purchase and assumption agreement with the FDIC to assume all of the deposits and acquire certain assets of LibertyBank, headquartered in Eugene, Oregon (“LibertyBank Acquisition”). In August 2009, the Bank entered into a purchase and assumption agreement with the FDIC to assume all of the deposits and certain assets of Community First Bank, headquartered in Prineville, Oregon (“CFB Acquisition”). All of the loans purchased in the CFB Acquisition and the majority of loans and leases purchased in the LibertyBank Acquisition are included under the loss sharing agreements with the FDIC and are referred to as “covered loans.” Real estate owned and repossessed assets (“REO”) acquired in the CFB Acquisition and the LibertyBank Acquisition that are also included in the loss sharing agreements are referred to as “covered REO.” The covered loans and covered REO are collectively referred to as “covered assets.” Loans and foreclosed and repossessed assets not subject to loss sharing agreements with the FDIC are referred to as “noncovered loans” or “noncovered assets.”

Certain information and note disclosures normally included in the Company's annual consolidated financial statements have been condensed or omitted. Therefore, these consolidated financial statements and notes thereto should be read in conjunction with the audited financial statements and notes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012 (“2012 Form 10-K”), filed with the Securities and Exchange Commission (“SEC”) on March 15, 2013.

Certain reclassifications have been made to prior year's financial statements in order to conform to the current year presentation. The reclassifications had no effect on previously reported net income or equity.

Note 2 – Recent Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This ASU requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about these amounts. The new guidance was effective prospectively for reporting periods beginning after December 15, 2012. The adoption of this guidance did not have a significant impact on the Company's Consolidated Financial Statements but the disclosures are included.

In October 2012, the FASB issued ASU 2012-06, Business Combinations (Topic 805): Subsequent Accounting for an Indemnification Asset Recognized at the Acquisition Date as a Result of a Government-Assisted Acquisition of a Financial Institution. ASU 2012-06 addresses the diversity in practice about how to interpret the terms “on the same basis” and “contractual limitations” when subsequently measuring an indemnification asset. The adoption of this ASU was effective for fiscal years and interim periods beginning on or after December 15, 2012. This ASU did not have a significant impact on the Company's Consolidated Financial Statements as the Company accounted for its indemnification asset in a manner consistent with this ASU.

Note 3 – Earnings Per Share ("EPS")

Basic earnings per common share is computed by dividing net income allocated to common stock by the weighted average number of common shares outstanding during the period, which excludes the participating securities (securities that may participate in undistributed earnings with common stock). Diluted earnings per common share includes the dilutive effect of additional potential common shares from stock compensation awards, but excludes awards considered participating securities. ESOP shares are not considered outstanding for earnings per share purposes until they are committed to be released.

The following table presents the computation of basic and diluted earnings per share for the periods indicated (in thousands, except share and per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,

Note 4 – Investments

The Company's investment policies are designed to provide and maintain adequate liquidity and to generate favorable rates of return without incurring undue interest rate or credit risk, and generally limit investments to mortgage-backed securities, securities issued by U.S. Government-sponsored enterprises ("GSE"), municipal bonds, certificates of deposit and marketable corporate debt obligations. Investments available-for-sale consisted of the following at September 30, 2013 and December 31, 2012 (dollars in thousands):

Total	$407,088	$13,606	$(189)	$420,505	100.0 %

For the nine months ended September 30, 2013 and 2012, proceeds from sales of investments available-for-sale amounted to $19.5 million and $62.8 million, respectively. Gross realized gains for the nine months ended September 30, 2013 and 2012 were $518,000 and $1.2 million respectively, against gross realized losses of $33,000 and $0, respectively. All gains and losses were included in noninterest income on the Consolidated Statements of Operations.

The fair value of investments with unrealized losses, the amount of unrealized losses and the length of time these unrealized losses existed as of September 30, 2013 and December 31, 2012, were as follows (in thousands):

Management has evaluated these investments and has determined that the decline in value is not other than temporary and not related to the underlying credit quality of the issuers or an industry specific event. The declines in value are on investments that have contractual maturity dates and future principal payments that will be sufficient to recover the current amortized cost of the investments. The Company does not have the intent to sell these investments and it is likely that it will not be required to sell these investments before their anticipated recovery.

The contractual maturities of investments available-for-sale at the dates indicated are shown below (in thousands). Expected maturities may differ from contractual maturities because borrowers have the right to prepay obligations without prepayment penalties.

Loan classification. The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis is performed on a monthly basis. The Company uses the following definitions for risk classification ratings:

Watch. A loan is categorized as watch if it possesses some reason for additional management oversight, such as correctable documentation deficiencies, recent financial setbacks, deteriorating financial position, industry concerns, and failure to perform on other borrowing obligations. Loans with this classification are to be monitored in an effort to correct deficiencies and upgrade the credit if warranted. At the time of this classification, they are not believed to expose the Company to significant risk.

Special Mention. Performing loans that have developed minor credit weaknesses since origination are categorized as special mention. Evidence of credit weakness include the primary source of repayment has deteriorated and no longer meets debt service requirements as defined in Company policy, the borrower may have a short track record and little depth of management, inadequate current financial information, marginal capitalization, and susceptibility to negative industry trends. The primary source of repayment remains viable but there is increasing reliance on collateral or guarantor support.

Substandard. A loan is considered substandard if it is inadequately protected by the current net worth, liquidity and paying capacity of the borrower or collateral pledged. Substandard assets include those characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified substandard with the added characteristic that the weaknesses present make collection or liquidation in full highly questionable and improbable on the basis of currently existing facts, conditions and values.

Loss. This classification of loans includes loans that are considered uncollectible and of such little value that their continuance as an active asset is not warranted. This does not mean the loan has no salvage value, however, is neither desirable nor practical to defer writing off this asset at this time. Once a determination has been made that a loss exists, the loss amount will be charged-off. As a result, generally, the Company will not report loan balances as “Loss.”

Pass. Loans not meeting the criteria above are considered to be pass rated loans. The pass classification also includes homogeneous loans (such as one-to-four family residential and consumer loans) unless the borrower experiences a delinquency or requests a modification, at which point the loan is graded as specified above.

As of September 30, 2013, and December 31, 2012, and based on the most recent analysis performed, the risk category of loans by class of loans was as follows (in thousands):

Impaired loans. A loan is considered impaired when, based upon currently known information, it is deemed probable that the Company will be unable to collect all amounts due as scheduled according to the original terms of the agreement with the borrower. Additionally, all troubled debt restructurings (“TDRs”) are considered impaired.

The following table presents loans deemed impaired by class of loans as of and during the three and nine months ended September 30, 2013 (in thousands):
