Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy only applies to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at www.sec.gov.

Eaton Vance Municipal Income Trusts as of May 31, 2009

INVESTMENT UPDATE

Eaton Vance Municipal Income Trusts (the Trusts) are closed-end Trusts, traded on the NYSE Amex, which are designed to provide current income exempt from regular federal income tax and state personal income taxes. This income is earned by investing primarily in investment-grade municipal securities.

Economic and Market Conditions

During the six-month period ending May 31, 2009, investors began to see signs of hope as the capital markets generally rallied and began to stabilize. Despite continued economic weakness the U.S. economy contracted by 6.3% (annualized) in the fourth quarter of 2008 and 5.5% (annualized) in the first quarter of 2009 the Obama administration's massive spending proposals served as a catalyst for optimism. February was a particularly strong month for economic data: factory orders increased 1.8%; new home sales rose 4.7%; and existing home sales surged 5.1%. The upturn in the housing market was bolstered by historically low mortgage rates, an \$8,000 tax credit for first-time home buyers that was part of President Obama's stimulus legislation, and a plethora of distressed properties on the market. Unemployment, on the other hand, rose to 9.4% in May 2009 from 7.2% in December 2008.

On February 17, 2009, President Obama signed a historic \$787 billion stimulus program into law and outlined a \$50 billion foreclosure rescue plan. These programs followed the \$700 billion financial institution rescue legislation passed last fall. Additionally, the U.S. Federal Reserve kept the federal funds rate at a range of 0.0% to 0.25%.

During the period, municipals rallied strongly from extremely oversold levels reached in December 2008. As a result, returns for municipals were impressive for the six-month period, helping to make up for the losses incurred in the fall of 2008. The Barclays Capital Municipal Bond Index (the Index) a broad-based, unmanaged index of municipal bonds gained 9.0%, while many of the state Lipper categories average returns ranged from 20% to 30% for the six-month period.¹

Management Discussion

Relative to the Index, the Trusts outperformed for the six-month period ending May 31, 2009. The six-month results reflect several factors, including strong demand for longer-maturity municipal bonds and the ebbing of negative technical factors that had plagued the municipal market throughout 2008. The period included December, an important demarcation point for the municipal market, as municipal spreads reached all-time peaks during the month amid especially high uncertainty in the markets. In the period following December, the municipal market witnessed five months of dramatic rebound as headline risk abated, demand returned from investors who had sought the relative safety of Treasury bonds in 2008 and cautious optimism spread on signs of a mildly improving economy. The renewed appetite for municipal bonds was buoyed by legislative efforts aimed at supporting the municipal market, much of which focused on reducing tax-exempt municipal supply through the Build America Bonds program and the federal stimulus provided to states through the American Recovery & Reinvestment Act of 2009. The result of these events during the period was a dramatic rally for the sector as yields fell and prices rose across the yield curve.

The Trusts invest primarily in bonds with stated maturities of 10 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds. While the price declines experienced by municipals in 2008 were most pronounced on the long end of the yield curve, longer-maturity bonds outperformed shorter maturities during the period, thus providing the basis for much of the Trusts' outperformance relative to the Index. Higher allocations to revenue bonds also contributed positively as general obligation bonds trailed revenue issues during the period.

The employment of leverage and leveraged investments in the Trusts, through which additional exposure to the municipal market is achieved, was yet another positive factor during the period. Leverage has the impact

¹ It is not possible to invest directly in an Index or a Lipper Classification.

The Index's total return does not reflect expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index.

Past performance is no guarantee of future results.

Eaton Vance Municipal Income Trusts as of May 31, 2009

INVESTMENT UPDATE

of enhancing returns during up markets while exacerbating performance on the downside. Given the broad rally in the municipal sector during the period, the use of leverage was a contributor to performance.

As we move ahead, we maintain our long-term perspective on the markets against the backdrop of relatively short periods of market volatility. We will continue to actively manage municipals in this environment like in all others with the same income-focused, relative value approach we have always employed. We believe that this approach, which is based on careful credit research and our decades of experience in the municipal market, has served municipal investors well over the long term. In addition, many state governments, particularly California, face significant budget deficits that are driven primarily by a steep decline in tax revenues. We will continue to monitor any new developments as state legislatures formulate solutions to address these fiscal problems.

A Note Regarding The Use Of Leverage

The Trusts employ leverage through the issuance of Auction Preferred Shares (APS) and the use of tender option bond (TOB) financing.¹ Each Trust's APS and TOB percentage leverage as of May 31, 2009 is reflected on the Trust-specific pages following this letter. The leverage created by APS and TOB investments provides an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and share price of the common shares).

During the period, certain of the Trusts redeemed a portion of their outstanding APS to reduce the amount of the Trusts' financial leverage. Information relating to these redemptions is contained in Note 2 to the Financial Statements.

¹ See Note 1H to the Financial Statements for more information on TOB investments.

Trust shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Trusts' current or future investments and may change due to active management.

Rating Distribution*⁶

By total investments

* *The rating distribution presented above includes the ratings of securities held by special purpose vehicles in which the Trust holds a residual interest. See Note 1H to the Trust's financial statements. Absent such securities, the Trust's rating distribution at May 31, 2009, is as follows, and the average rating is AA-:*

AAA	27.1%
AA	30.7%
A	24.7%
BBB	10.4%
Not Rated	7.1%

Trust Statistics⁷

Number of Issues:	96
Average Maturity:	22.1 years
Average Effective Maturity:	18.4 years
Average Call Protection:	7.9 years
Average Dollar Price:	\$ 84.11
APS Leverage**:	32.6 %
TOB Leverage**:	12.4 %

** *APS leverage represents the liquidation value of the Trust's Auction*

Preferred Shares (APS) outstanding at 5/31/09 as a percentage of the Trust's net assets applicable to common shares plus APS and Tender Option Bond (TOB) Floating Rate Notes. TOB leverage represents the amount of Floating Rate Notes outstanding at 5/31/09 as a percentage of the Trust's net assets applicable to common shares plus APS and Floating Rate Notes.

¹ *Six-month returns are cumulative. Returns are historical and are calculated by determining the percentage change in share price or net asset value (as applicable) with all distributions reinvested. The Trust's performance at market share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors*

such as changing perceptions about the Trust, market conditions, fluctuations in supply and demand for the Trust's shares, or changes in Trust distributions. Performance results reflect the effects of APS outstanding and TOB investments, which are forms of investment leverage. Use of leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).² The Trust's market yield is calculated by dividing the last dividend paid per common share of the semiannual period by the share price at the end of the semiannual period and annualizing the result.³ Taxable-equivalent figure assumes a maximum 41.05% combined federal and state income tax rate. A lower tax rate would result in a lower tax-equivalent

figure.⁴ It is not possible to invest directly in an Index. The Indices total returns do not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Indices. Index performance is available as of month end only.⁵ The Lipper Averages are the average annual total returns, at net asset value, of the funds that are in the same Lipper Classification as the Trust. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper California Municipal Debt Funds Classification (closed-end) contained 24, 24, 24 and 14 funds for the 6-month, 1-year, 5-year and 10-year time periods, respectively. Lipper Averages are available as of month end only.⁶

Rating Distribution is determined by dividing the total market value of the issues by the total investments of the Trust. Although the investment adviser considers ratings when making investment decisions, it performs its own credit and investment analysis and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer's current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security's market value or of the liquidity of an investment in the security.⁷ Trust holdings information excludes securities held by special purpose vehicles in which the Trust holds a residual interest. Average Effective Maturity:	19.8 years
Average Call Protection:	8.4 years
Average Dollar Price:	\$ 87.87
APS Leverage**:	32.4%
TOB Leverage**:	11.8%

** *APS leverage represents the liquidation value of*

the Trust's Auction Preferred Shares (APS) outstanding at 5/31/09 as a percentage of the Trust's net assets applicable to common shares plus APS and Tender Option Bond (TOB) Floating Rate Notes. TOB leverage represents the amount of Floating Rate Notes outstanding at 5/31/09 as a percentage of the Trust's net assets applicable to common shares plus APS and Floating Rate Notes.

¹ *Six-month returns are cumulative. Returns are historical and are calculated by determining the percentage change in share price or net asset value (as applicable) with all distributions reinvested. The Trust's performance at market share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be*

affected by factors such as changing perceptions about the Trust, market conditions, fluctuations in supply and demand for the Trust's shares, or changes in Trust distributions.

Performance results reflect the effects of APS outstanding and TOB investments, which are forms of investment leverage. Use of leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).²

The Trust's market yield is calculated by dividing the last dividend paid per common share of the semiannual period by the share price at the end of the semiannual period and annualizing the result.³

Taxable-equivalent figure assumes a maximum 40.83% combined federal and state income tax rate. A lower tax rate would result in a lower

tax-equivalent figure. ⁴ It is not possible to invest directly in an Index. The Indices total returns do not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Indices. Index performance is available as of month end only. ⁵ The Lipper Averages are the average annual total returns, at net asset value, of the funds that are in the same Lipper Classification as the Trust. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper New Jersey Municipal Debt Funds Classification (closed-end) contained 10, 10, 10 and 6 funds for the 6-month, 1-year, 5-year and 10-year time periods, respectively. Lipper Averages are available as of

month end only.⁶ Rating Distribution is determined by dividing the total market value of the issues by the total investments of the Trust. Although the investment adviser considers ratings when making investment decisions, it performs its own credit and investment analysis and does not rely primarily on the ratings assigned by the rating services. Credit quality can change from time to time, and recently issued credit ratings may not fully reflect the actual risks posed by a particular security or the issuer's current financial condition. The rating assigned to a security by a rating agency does not necessarily reflect its assessment of the volatility of a security's market value or of the liquidity of an investment in the security.⁷ Trust holdings information excludes securities held by special purpose vehicles in which the Trust holds a residual interest. Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Trust's current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to

www.eatonvance.com.
