Each of Secure Computing s vested or unvested stock options to purchase shares of Secure Computing Common Stock (each a Secure Computing Option ) with an exercise price less than \$5.75 per share of Secure Computing Common Stock and outstanding at the effective time of the Merger, was cancelled and converted into the right to receive a lump sum cash payment (less any applicable withholding) equal to the product obtained by multiplying (x) the total number of shares of Secure Computing Common Stock subject to such Secure Computing Option immediately prior to the effective time of the Merger by (y) the excess, if any, of the Common Stock Merger Consideration over the exercise price per share of Secure Computing Common Stock subject to such Secure Computing Option;

Each vested or unvested Secure Computing Option with an exercise price equal to or greater than \$5.75 per share of Secure Computing Common Stock and outstanding at the effective time of the Merger, was cancelled; and

Each of Secure Computing s unvested restricted stock units and restricted shares outstanding at the effective time of the Merger (after taking into account waivers of acceleration of vesting by certain of Secure Computing s officers) was assumed by McAfee, and converted into the right to receive approximately 0.1889 McAfee restricted stock units or restricted shares, as the case may be.
